Pursuant to School Board Policy 9800, ***Charter Schools***, one new charter contract and ten (10) amended charter contracts required presentation to the Contract Review Committee (CRC). The remaining amended charter contract required administrative action. Additional details for the new charter contract can be found in Attachment A and additional details for the eleven (11) amended charter contracts can be found in Attachment B. Both Attachments are provided under separate cover but are included and incorporated by reference in this Board item. The recommendations are summarized in the following tables:

**Pursuant to s.1002.33, "high performing" is a designation, made by the Commission of Education for certain charter schools that allows them to increase enrollment, expand grade levels, submit quarterly rather than monthly financial reports, consolidate charters, and/or modify charter term up to 15 years.*

DISTRICT IMPACT

Any significant increase in charter school student enrollment (Charter FTE) directly impacts the District's operating budget as well as instructional and non-instructional staffing levels. Four of the contracts presented in this item for consideration represent an increase in overall charter school enrollment and an anticipated initial loss to the District.

To ensure that the 'District's financial position remains positive, Board authorization is requested to allow a Reduction-in-Force/Layoff only if it becomes necessary. Any such Reduction-in-Force/Layoff affecting instructional and non-instructional staff would be implemented in accordance with School Board policies and applicable collective bargaining agreements. The number of position reductions will not exceed the stated Initial Loss included in this item and will be re-evaluated and adjusted in subsequent years to reflect changes in FTE. Additional information on the impact is provided in Attachments A and B.
