The purpose of the federal Class-Size Reduction Program (CSR) is to continue to improve student achievement and ensure that all children receive more individualized attention. The goal of the CSR Program is to help schools improve student achievement by adding additional highly qualified teachers to the workforce to ensure that class size, particularly in early grades, is reduced to no more than 18 children per class.

The CSR Program is designed to complement other federal, state and local programs that have related purposes. Local Educational Agencies (LEA) must use CSR funds to supplement and not replace funds received from those state initiatives, so that the LEA can implement greater class size reductions than the LEA would have been able to accomplish under the state initiatives alone. The 1999-2000 allocation for the Title VI Class Size-Reduction Program is \$10,718,155.

No local funds are required.
