Requests have been received from Miami-Dade Community College, Keiser College, Florida International University, the University of Miami, Nova Southeastern University, and Barry University to enter into cooperative agreements in order for student trainees at these institutions to receive their practicum experience in the Miami-Dade County Public Schools (M-DCPS) physical and occupational therapy program. The student physical and occupational therapists and therapist assistants will be assigned to a registered physical and/or occupational therapist who will serve as a clinical instructor. Trainees will be supervised by these registered physical and occupational therapists .

No local funds are required.
