The proposed reorganization reflects the District's Strategic Plan and the Superintendent's priorities: to improve low performing schools, address finance, construction and budget issues, and enhance the District's focus on curriculum and instruction. The Superintendent has included among the criteria considered in the selection of key personnel to:

1. seek the highest quality individuals in their respective fields;
2. find experts who are willing to make multi-year commitments;
3. bring people in to address designated priorities without inflating the current budget; and
4. build a team that reflects the ethnic and linguistic diversity of our community.

The criteria and objectives of the reorganization are as follows:

1. The organizational structure will be focused on education as the primary mission of the District.
