

Sonia E. Díaz, Ed.D., Deputy Superintendent
Curriculum and Instruction

**SUBJECT: PROPOSED AMENDMENT OF SCHOOL BOARD RULE: INITIAL
 READING 6Gx13- 6A-1.48, K-8 CENTERS**

COMMITTEE: INSTRUCTIONAL EXCELLENCE & COMMUNITY ENGAGEMENT

K-8 Centers are one part of a coherent District effort to provide consistent, high-quality educational experiences for students by combining elementary and middle grades in a seamless articulation path. There are currently seven K-8 Centers operating in Miami-Dade County, and there are an additional seven approved for construction or conversion.

Although research regarding the superiority of the K-8 configuration over the traditional middle school is not definitive, it is no longer clear that middle grade students should be segregated from primary and intermediate students in separate schools. In addition, there is research indicating that a configuration that allows students to experience high-quality instruction consistently over at least a 3-year period promotes higher academic achievement at every level of schooling, including the early adolescent years. Nevertheless, a K-8 Center middle grade experience is not meant to be the equivalent of a traditional middle school environment. The K-8 Center offers a streamlined curriculum for grades six through eight that emphasizes the core academic subjects, but limits the possible range of electives, honors, and high school level courses available at the traditional middle school. The rule provides that parents of all students enrolled in grade five at an established K-8 Center shall choose to allow their children to continue at the K-8 Center for grades six through eight or to enroll them in the traditional middle school to which they would otherwise have been assigned.

At the School Board Meeting of February 16, 2005, the Superintendent committed to present a revised procedure for considering conversions of schools to K-8 Centers to the School Board. The proposed revisions alter the basis for considering conversion by stating that the process may be initiated by District staff, as well as Educational Excellence School Advisory Councils (EESACs), Parent Teacher Association/Parent Teacher Student Association (PTA/PTSA), or Region Center staff. In addition, the rationale for conversion must be based on the following underlying principles:

- a sound curricular basis, such as the extension of a unique academic program being successfully implemented at the elementary level;
- the provision of equitable support for successful transition to senior high school across the District in underserved communities;
- meeting the demands of anticipated population growth;
- providing equitable access to suitable facilities; and
- a Region Center proposal with community and school level support.

Instruction – Elementary and Secondary**K-8 CENTERS**

In the interest of broadening public school choice providing the best and most supportive environment for education, Miami-Dade County Public Schools provides offers K-8 Centers, which are configured to include students from kindergarten through grade eight, as an alternative to well as the traditional elementary and middle level configuration. A K-8 Center middle grade experience is not meant to be the equivalent of a traditional middle school environment. The K-8 Center offers a streamlined curriculum for grades six through eight that emphasizes the core academic subjects, but a tightly aligned curriculum for grade six through eight students that includes, in addition to the traditional core academic subjects, required foreign language for all students and an integrated subject alignment infusing technology, career path skills, real world projects, ethics, and character development. The K-8 Center also offers an extensive safety net to ensure that all students are ready for the transition to ninth grade, including a support team for every child who will follow his or her progress from grades six through eight. A K-8 Center middle grade experience is not, however, meant to be the equivalent of a traditional middle school environment. limits †The possible range of electives, honors, and high school level courses available at the traditional middle school may be limited at a K-8 Center because of the smaller number of students in grades six through eight. Physical education and athletics are may also be limited. The parents of all students enrolled in grade five at an established K-8 Center shall choose to allow their children to continue at the K-8 Center for grades six through eight or to enroll them in the traditional middle school to which they would otherwise have been assigned. that has been designated as an option.

The conversion of a school campus to a K-8 Center should be made primarily for the purpose of improving educational services, including the relief of overcrowding, the prevention of enrollment decline at the middle school level, the provision of curricular continuity, the provision of optimum academic and social support, the relief of overcrowding, and such factors that might be unique to a particular conversion.

Creation of K-8 Centers or conversions of schools to K-8 Centers may occur as follows:

- I. The Deputy for Curriculum and Instruction may plan such schools for the purpose of:
 - A. providing or extending a unique curricular program, or
 - B. providing equitable support for successful transition to senior high school across the District.
- II. The Chief Facilities Officer may plan such schools for the purpose of reducing overcrowding, meeting the demands of expected population growth, or providing equitable access to suitable facilities.

III. A proposal for conversion may be initiated by a Region Center, an Educational Excellence School Advisory Committee (EESAC), or a Parent Teacher Association/Parent Teacher Student Association (PTA/PTSA). The process for proposing the conversions of schools to K-8 Centers shall consist of begin with the submission of a written proposal to the respective Region Center for review. After a thorough evaluation of the proposal, the Region Superintendent shall attach a recommendation to approve or deny. Each proposal shall then be forwarded for analysis of the proposal by a the K-8 Center Technical Committee (which will include a district-level study of facilities-related and curricular aspects of the conversion, if necessary), review by a the K-8 Center Administrative Committee, and recommendation to the School Board. The following procedures for submission and review shall be followed.

IA. Proposal Submission

~~A. Proposals for conversion shall be initiated by the Educational Excellence School Advisory Committee (EESAC), Parent Teacher Association /Parent Teacher Student Association (PTA/PTSA), or the Assistant Superintendent of the ACCESS Center.~~
