Ofelia San Pedro, Deputy Superintendent

SUBJECT: **AGREEMENT BETWEEN MIAMI-DADE COUNTY AND THE SCHOOL BOARD OF MIAMI-DADE COUNTY, FLORIDA, FOR THE CONSTRUCTION OF WASTEWATER FACILITIES TO SERVICE THE F.C. MARTIN SCHOOL SITE PROJECT NO. B01013**

COMMITTEE: FACILITIES AND CONSTRUCTION REFORM

In order to provide wastewater services to the F. C. Martin Elementary School site, the Board must abandon an existing onsite septic system. The Board must then install and connect a proposed onsite wastewater gravity system, private lift station, sewer force main and other appurtenances to the existing Miami-Dade County (County) infrastructure (see location map).

The 15-acre school site is located at 14250 Boggs Drive. A proposed onsite gravity sewer system will connect to onsite private lift station and interconnect to an offsite force main at Douglass Road, in order to provide wastewater facilities to the School site. The approximate cost for the installation of these water facilities is \$400,000.

The agreement for the water facilities installation has been reviewed and recommended by the Office School Facilities and the School Board Attorney's Office. Public utility facilities constructed on Board-owned property will be conveyed, with appropriate easements, to Miami-Dade County for future maintenance and operation.

Location: 3101
Object: 5670
Func: 7400

RECOMMENDED: That The School Board of Miami-Dade County, Florida, authorize the Superintendent or his designee to execute an agreement with Miami-Dade County and the execution of relevant conveyance documents for the provision of wastewater services for the planned improvements at F.C. Martin School site, Project No. B01030 at an approximate cost of \$400,000, which is included in the construction contract.
