SUBJECT: ADOPTION OF EDUCATIONAL FACILITIES PLAN AND FIVE-YEAR FACILITIES WORK PROGRAM REQUIRED BY S.1013.35, FLORIDA STATUTES

COMMITTEE: INNOVATION, EFFICIENCY & GOVERNMENTAL RELATIONS

Florida Statute 1013.35 requires each district school board to annually adopt an educational facilities plan and a five-year facilities work program. The facilities plan is a comprehensive planning document that includes long-range for facilities needs over five, ten, and twenty year periods. The work program is the 5-year listing of capital outlay projects adopted by the district school board as provided in subparagraphs (2)(a)2 and paragraph (2)(b) as part of the district educational facilities plan, which is required in order to:

1. Properly maintain the educational plant and ancillary facilities of the district.
2. Provide an adequate number of satisfactory student stations for the projected student enrollment of the district in K-12 programs in accordance with the goal in s. 1013.21.

The format of the work program has been prescribed by the state.

Florida law requires that the School Board consider and adopt the facilities plan and the work program after giving proper public notice and opportunity for public comment. The Educational Facilities Plan and Five-Year Facilities Work Program must be adopted prior to adoption of the budget following the public hearing at 5:01 p.m.

Year 1 of the work program reflects the Capital Outlay Budget for fiscal year 2005-2006, Years 2 through 5 are balanced and reflect the best revenue projections available as well as current priorities.

The following describes each of the sections in the document:
