COMMITTEE: INNOVATION, EFFICIENCY & GOVERNMENTAL RELATIONS

The School Board of Miami-Dade created the Efficiency and Competition Committee on March 12, 2002 and restructured the Committee on March 16, 2005. The Efficiency Committee has met and determined that its first order of business is to review each of the standing Board committees and to recommend to this Board whether to sunset, restructure or continue without change such committees.

The Efficiency Committee met on April 29 and May 16, 2005 and adopted the following criteria for assessing standing Board committees:

- What was the Committee's function and mission when it was created?
- Did the Committee fulfill its mission?
- Does the Committee have an ongoing function?
- Has the Committee met regularly?
- Does staff believe the Committee is valuable?
- Should the Committee be restructured/eliminated?
- Can its mission be accomplished in a more efficient streamlined manner?

The Efficiency Committee reviewed the committee known as the Summer Services Committee which is staffed by Ms. Rhoda Shirley, Executive Director, Specialized Programs/Extended Student Services.

The Summer Services Committee was established on August 22, 2001 to review summer school programs. On March 17, 2004, the Board adopted an item that directed the Superintendent to "create a committee to consider all aspects of establishing an effective summer school program for the next year... and... present these recommendations to The School Board of Miami-Dade, County, Florida at its February 13, 2002 meeting." The report was presented as requested.
