

Frank J. Bolaños, Member

**SUBJECT: GOOD NEIGHBORS: INCREASING PUBLIC
AWARENESS OF CONSTRUCTION PROJECTS**

**COMMITTEE: INNOVATION, EFFICIENCY & GOVERNMENTAL
RELATIONS**

The timely communication to all stakeholders of school construction projects will facilitate the success of the school district's capital plan. It is recommended that new policies be adopted to better inform residents in areas contiguous to school construction of the planned construction and solicit their feedback.

It is recommended that the Superintendent and Administration develop a policy for board approval that is similar to notification by municipalities in zoning matters, defines appropriate thresholds for what projects should be noticed and does not cause a significant delay to our standard construction timetables.

**ACTION PROPOSED BY
FRANK J. BOLAÑOS:**

That the School Board of Miami-Dade County, Florida direct the Superintendent to initiate rulemaking on a policy to better inform residents in areas contiguous to school construction of planned major construction projects as they are conceived and approved and solicit their feedback.
