

Office of School Facilities
Rose Diamond, Chief Facilities Officer

SUBJECT: AGREEMENT BETWEEN MIAMI-DADE COUNTY AND THE SCHOOL BOARD OF MIAMI-DADE COUNTY, FLORIDA, FOR THE CONSTRUCTION OF WASTEWATER FACILITIES TO SERVICE THE MIAMI PARK ELEMENTARY SCHOOL SITE PROJECT NO. A0767C

COMMITTEE: FACILITIES AND CONSTRUCTION REFORM

In order to provide wastewater services to the Miami Park Elementary School site and comply with the Consent Agreement between the Department of Environmental Resource Management and the School Board of Miami-Dade County, executed on May 13, 1998, the Board must install and connect an onsite sewer system and other appurtenances to the existing Miami-Dade County (County) infrastructure (see location map).

The 8-acre school site is located at 2225 NW 103 Street. A proposed 8-inch sewer force main shall interconnect to existing County-owned 12-inch sewer force main approximately at NW 19 Avenue and NW 103 Street. A private onsite Lift Station will be required to support the proposed sewer infrastructure. The approximate cost for the installation of these wastewater facilities is \$830,000.

The agreement for the wastewater facilities installation has been reviewed and recommended by the Office of School Facilities and the School Board Attorney's Office. Public utility facilities constructed on Board-owned property will be conveyed, with appropriate easements, to Miami-Dade County for future maintenance and operation.
