On December 13, 2006, the Board commissioned Precision Engineering & Surveying, Inc. (Precision) as Special Projects Consultant (SPC) to provide Civil Design Services for projects of up to \$1 million each for a four-year term.

The Agreement provides for a four (4) year term from December 13, 2006 through December 12, 2010, with the second, third and fourth years at the Board's option, under the same terms and conditions.

The total work order value issued to date for the first term under the current Agreement for Precision is \$0. To date, Precision has not received an overall performance evaluation score due to the fact no work orders were assigned.

Staff recommends authorization to exercise the second-year option of the Agreement with Precision Engineering & Surveying, Inc. for Civil Engineering Design Services under the same terms and conditions.
