Charles J. Hurley, Chief of Police

SUBJECT: REQUEST THAT THE SCHOOL BOARD OF MIAMI-DADE COUNTY, FLORIDA, RECEIVE THE STATE-MANDATED ANNUAL "SAFETY AND SECURITY BEST PRACTICES" SELF-ASSESSMENT, AND AUTHORIZE THE SUPERINTENDENT TO REPORT THE SELF-ASSESSMENT RESULTS AND SCHOOL BOARD ACTION TO THE COMMISSIONER OF EDUCATION BY JULY 1, 2010

COMMITTEE: SCHOOL SUPPORT ACCOUNTABILITY

LINK TO STRATEGIC FRAMEWORK: STUDENT, PARENT, AND COMMUNITY ENGAGEMENT

Law HB 267, Safe Passage Legislation, requires school districts to use the Office of Program Policy Analysis and Government Accountability's (OPPAGA) "Safety and Security Best Practices" to conduct a self-assessment of their current safety and security practices. The Safe Passage Act was a product of the 2001 Legislature to ensure every child a safe passage through Florida's education system.

Specifically, Section 40 of this bill states:

1. The "Safety and Security Best Practices" developed by OPPAGA and approved by the Commissioner of Education shall be reviewed annually by OPPAGA and the Partnership for School Safety and Security established in s. 1006.07(6), Florida Statutes, and each entity shall make recommendations to the Commissioner of Education for the addition, revision, or deletion of best practices.
2. Each school district shall use the "Safety and Security Best Practices" to conduct a self-assessment of the school district's current safety and security practices. Based on these self-assessment findings, the superintendent of each school district shall provide recommendations to the school board, which identifies strategies, and activities that the school district should implement in order to improve school safety and security. By July 1, 2010, and annually thereafter, each school board must receive the self-assessment

results at a publicly noticed school board meeting to provide the public with an opportunity to hear the school board members discuss and take action on the report findings. Each superintendent shall report the self-assessment results and school board action to the Commissioner of Education within 30 days following the school board meeting.

The self assessment considered safety in the broadest sense. The "Safety and Security Best Practices" includes physical security and facilities, fire and casualty safety, regulations associated with safety or risk management departments, violence prevention and other activities linked to law enforcement and security departments and the all-hazard approach to critical incidents that is the basis of emergency management.

Copies of the "Safety and Security Best Practices" is available for inspection by the public in the Office of the Recording Secretary, Room 924, and the Citizen Information Center, Room 158, 1450 NE Second Avenue, Miami, 33132.

- RECOMMENDED:** That The School Board of Miami-Dade County, Florida:
1. receive the "Safety and Security Best Practices assessment results; and
 2. authorize the Superintendent of Schools to report the self-assessment results and School Board action to the Commissioner of Education by July 1, 2010.

Efficiency and Effectiveness

1. The district has established and implemented accountability mechanisms to ensure the performance, efficiency, and effectiveness of the safety and security program.

Indicators of Meeting the Best Practice	Yes	No	In Progress	N/A
a. The district has clearly stated goals and outcome-based, measurable, objectives for the program that reflect the intent (purpose) of the program and address the major aspects of the program's purpose and expenditures.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b. The district uses appropriate performance and cost-efficiency measures and interpretive benchmarks to evaluate the school safety and security program and uses these in management decision making. ^{1,2}	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
c. The district regularly conducts an assessment of performance and cost of the safety program and analyzes the potential cost savings of alternatives, such as outside contracting and privatization. ³	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Related Statutes and Rules

Miami-Dade Schools Police Department complies with all state statutes and school Board rules to provide safety and security for District, including evaluation and monitoring of performance weekly, monthly, quarterly and annually with continuous improvement where required.

Strategies and Actions to Be Taken

Review performance indicators monitored with outcome assessment, develop measurable objectives and goals.

Fiscal Impact and Timeline

Purchases over \$25,000 require Superintendent's Cabinet and Board approval, along with purchase orders paid within 30 days, and zero based budgeting for the District to ensure accountability and forecasting.

¹ This means that in budgeting and shifting resources the district considers several factors including goals, objectives, critical safety needs, and past performance of safety initiatives.

² Performance measures should include appropriate comparisons with peer districts in areas such as safety and discipline incidents, etc.

³ This assessment would include examining whether the overall safety program and individual safety initiatives (such as DARE or Crime Watch) are achieving the outcomes they are expected to achieve.

a. The district incorporates Crime Prevention through Environmental Design (CPTED) principles in the maintenance, renovation, and construction of district educational facilities. CPTED principles include <ul style="list-style-type: none"> • natural access and control of schools and campuses; • natural surveillance of schools and campuses both from within the facility and from adjacent streets by removing obstructions or trimming shrubbery; • school and campus territorial integrity, such as securing courtyards, site lighting, building lighting; • audio and motion detection systems covering ground floor doors, stairwells, offices and areas where expensive equipment is stored; • exterior stairs, balconies, ramps, and upper level corridors around the perimeter of buildings that have open-type handrails or other architectural features to allow surveillance; • open areas, such as plazas, the building's main entrance, parking lots, and bicycle compounds that are designed so they are visible by workers at work stations inside the buildings; and • designs that will promote the prevention of school crime and violence, such as exterior architectural features without footholds or handholds on exterior walls, tamper-proof doors and locks, and non-breakable glass or shelter window protection systems. Landscaping and tree placement should be designed so they do not provide access to roofs by unauthorized persons. The District incorporated CPTED principals into the design criteria that is utilized by designers for the development of remodeled/renovation projects. In addition, the M-DCPS Safety Department participates in the review of architectural design drawings for most projects.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Strategies and Actions to Be Taken

Confirm implementation of requirements during design review meetings.

⁴⁶ CPTED design principles include natural surveillance of school grounds, access control, and territoriality. CPTED design features include, but are not limited to, controlled access entrances, fencing, sufficient entrances and exits, signage, and front desks having views of the entrance. For more information, consult the Florida Safe School Design Guidelines (http://www.fl DOE.org/edfacil/safe_schools.asp).

⁴⁷ Training in Crime Prevention through Environmental Design is available from the state's Department of Education.

⁴⁸ These needs and designs include lighting, break-proof doors, security systems, fencing, and window or door bars. Essentially, is safety reviewed and addressed as part of the renovation or remodeling process?

The Department of Food & Nutrition manuals outlined procedures for use of food services to provide emergency meals for persons seeking shelter at designated emergency school sites and an extensive section on HACCP Standard Operating Procedures (SOP) including reporting, investigating and correcting the cause of any food safety incidents, including food recalls, potential communicable diseases and suspected food borne illness. In addition, the Department of Food & Nutrition train designated Emergency Shelter Food Service Managers annually on the process and provides on-going training on food sanitation, safety and HACCP procedures. Each school site is inspected by District inspectors to determine compliance with State Requirements for Educational Facilities and Florida State Fire Marshal prescribed fire safety codes. Each school is also inspected by the local municipality for fire safety compliance and Miami-Dade Health Department. Emergency procedures for food contamination are contained in the District EOP.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Strategies and Actions to Be Taken

On-going training in safety, sanitation and HACCP- SOP's. The Department of Food & Nutrition has initiated quarterly meetings with local Health Department to maintain open lines of communication and to proactively address trends or issues. The quarterly meetings have been in place for three years and include representatives from Maintenance, Facilities and Inspections, Safety to Life and Food and Nutrition. The multi-discipline approach has resulted in more timely response to corrective actions and fewer pending inspection issues. On-going program.

Fiscal Impact and Timeline

Improved sanitation and safety procedures save in accrued overtime expenditures for corrective action. As SOP's address inspection issues prior to unsatisfactory inspections, the cost for overtime for emergency repairs has been reduced.

⁶¹ Examples include EPA guidelines, Occupational Safety and Health Administration's Hazardous Communication Standards, federal and state regulations regarding hazardous materials plans, Asbestos Hazardous Emergency Response Act rules, and other mandated environmental and safety issues.
