BLUEPRINT: IMFORMED, ENGAGED AND EMPOWERED
STAKEHOLDERS**

The Month of May is National Foster Care Awareness Month, families and children across the nation remember our children who have entered the child welfare system at no fault of their own.

Every child needs and deserves a loving, supportive, and nurturing, family; and foster care provides a unique opportunity to improve children's lives and enrich the lives of their families, and their communities.

As many as 3,400 children in Miami-Dade and Monroe Counties are in the child welfare system at any given time. The Florida Department of Children and Families, Community Based Care Lead Agencies, the Governor's Office of Adoption and Child Protection, Heart Galleries, state and local agencies and various organizations work together to raise awareness of foster care in Miami-Dade and Monroe Counties.

We recognize foster families, including relatives and grandparents, who are raising children that have been abused, abandoned or neglected and, need continued support in the days and years ahead.

As a community, we have a duty to provide these vulnerable children with the safety, stability and love they so desperately need and deserve.
