SUBJECT: COMPREHENSIVE ASSESSMENT OF WHITE FLEET

COMMITTEE: INNOVATION, GOVERNMENTAL RELATIONS AND COMMUNITY ENGAGEMENT

LINK TO STRATEGIC BLUEPRINT: EFFECTIVE AND SUSTAINABLE BUSINESS PRACTICES

Under the guidelines of the Manual for Procedures for Managerial Exempt Personnel, the Superintendent of Schools is authorized to assign District vehicles to administrators when necessary for the performance of their job duties and in the best interest of the school system. Within the same guidelines, it provides that the school system will provide maintenance and gasoline for these vehicles.

During the September 13, 2016 School Board meeting, Agenda Item B-11 was proffered and passed by the Board directing the Superintendent to establish a manual of policies and procedures for the use of District owned vehicles by employees.

In an effort to maintain the safety, dependability, and condition of the vehicles, it is recommended that an assessment of the current SBAB Motor Pool and SBAB Administration Vehicles fleet be completed, and to include the current condition of each vehicle and the District personnel to whom receives these vehicles. It is further recommended that a schedule of maintenance for each vehicle be created and maintained.

Providing preventative care through a schedule of maintenance for the vehicles may result in a substantial cost savings to the District and provide the District personnel with a greater sense of security and dependability when utilizing the vehicles.

This Agenda Item has been reviewed and approved by the School Board Attorneys’ Office as to form and legal sufficiency.

ACTION PROPOSED BY PERLA TABARES HANTMAN:

That The School Board of Miami-Dade County, Florida authorizes the Superintendent to:

a. conduct an assessment of the SBAB Motor Pool and SBAB Administration Vehicles;
b. create a schedule of maintenance for the vehicles; and
c. report all information to the Board no later than January 2018.
