INTRODUCTION

The 2016-2017 school year marks the thirty-sixth (36th) year that citizens are involved in the Attendance Boundary Committee (ABC) process. This committee was established by the School Board and the Superintendent after numerous citizens expressed concerns about the lack of community involvement in attendance boundary recommendations. Subsequently, each year community members from various civic and educational advocacy organizations have diligently served on this committee, reviewing recommendations of proposed attendance boundaries for new schools and changes to the boundaries of existing schools.

The challenge this year is to continue to comply with the state mandate of Class Size Reduction while providing specific direction/information to communities as attendance boundaries are modified for 2017-2018. To ensure the appropriate distribution of students as new student stations are delivered, current boundary procedures allow the Superintendent of Schools, with the assistance of School Operations and the Office of School Facilities, to develop proposed boundary recommendations. The proposed recommendations were presented at Region Community Meetings to the affected school communities. The boundary recommendations were then reviewed by the seventeen (17) Attendance Boundary Committee members.

The development of attendance zone recommendations with community involvement continues to be a primary goal of the School Board, the Superintendent of Schools, and the ABC. Attendance boundary changes have been determined after several factors were considered. The factors are as follows:

1. Compliance with Class Size Reduction Mandate;
2. Impact on Special Education programs;
3. Use of available student stations within contiguous areas;
4. Degree and extent of transportation;
5. Programmatic impact due to lack of student housing;
6. Reduction of the number of schools students must attend;
7. Integrity of feeder systems;
8. Assignment of students from new residential developments to specific schools prior to completion of developments;
9. Construction of new schools;
10. Promotion and maintenance of diverse school enrollments; and
11. Prevention, reduction or elimination of racial isolation to the extent practical.

Attendance zone recommendations are long-range solutions designed to stabilize affected schools and bring schools within the mandates of Class Size Reduction. Determining attendance boundaries through ABC is a yearlong process with all meetings open to the public.

The recommendations that follow were reviewed by school and community organizations, i.e., Parent Teacher Association (PTA), Parent Teacher Student Association (PTSA), Educational Excellence School Advisory Council (EESAC), student leaders, etc. On March 2, 2017, staff presented the recommendations to the Diversity, Equity and Excellence Advisory Committee (DEEAC). DEEAC will present its report to the School Board at the Conference Session on Attendance Zone Recommendations which will be held on April 5, 2017.

ATTENDANCE BOUNDARY COMMITTEE (ABC)

Members of the Attendance Boundary Committee and their alternates are to be commended for their dedication and hard work in reviewing recommendations for the 2017-2018 school year. Miami-Dade County Public Schools and the community have been well served by their dedication and interest in the education of our students.

Due to the projected population increase in the City of Doral and to avoid disruption within the city with multiple boundary changes, recommendations are being proffered for Dr. Toni Bilbao Preparatory Academy.

RECOMMENDATION CONT.

A temporary boundary will be established for Dr. Toni Bilbao Preparatory Academy during the 2017-2018 and 2018-2019 school years with a permanent boundary being established during the 2019-2020 school year.

Dr. Toni Bilbao Preparatory Academy will open as a K-8 Center during the 2017-2018 school year, will initially serve students in grades PreK-2, and will add a grade level each year thereafter until 8th grade is added.

This is a novel idea that will ensure that families are not displaced or inconvenienced with a series of boundary changes that will occur in the Doral area.

EFFECT

This temporary recommendation will be in effect for the 2017-2018 and 2018-2019 school years. A new K-8 Center will be built at Grand Bay on NW 77 Terrace and NW 102 Avenue and will open for classes in August 2019 to relieve John I. Smith K-8 Center and Eugenia B. Thomas K-8 Center.

New boundaries will provide relief for the expected population growth from new residential units planned in the City of Doral.

Based on the recommendations for Dr. Toni Bilbao Preparatory Academy, approximately three hundred seventy-eight (378) students, currently attending kindergarten through first grade at Dr. Rolando Espinosa K-8 Center and John I. Smith K-8 Center will have the option of attending Dr. Toni Bilbao Preparatory Academy.

Students assigned to Dr. Toni Bilbao Preparatory Academy who have an older sibling in grades 3-8 attending Dr. Rolando Espinosa K-8 Center and/or John I. Smith K-8 Center will have the option of remaining at those schools for the 2017-2018 school year.
