

## MEMORANDUM

October 9, 2002

TO: All Locations

FROM: Information Technology Services  
Office of Information Technology

SUBJECT: **E-MAIL SECURITY BREECH**

There has been a breach in school security that is causing proliferation of an off color e-mail message. This message is not being sent by the school, but by a method called spamming. **Spamming** is the flooding of the Internet with many copies of the same message, in an attempt to force the message on people who otherwise would choose not to receive it. Information Technology Services (ITS) is working with the school to correct this situation.

If you have any questions regarding this memo, please call Support Services at 305-995-3705(0).
