

MEMORANDUM

TO: Senior High Schools
FROM: Information Technology Services (ITS)
SUBJECT: **Twelfth Grade Student File Update ***REVISED CODE TABLE*****

On Wednesday, June 15, 2005, ITS will update the 12th grade student file with the Withdrawal Code information. The Graduation Type Code is used in determining the Withdrawal Code to be placed on the student record and to place the appropriate notation on the students' transcripts (example: Superintendent's Diplomas of Distinction, etc.). To process students with the correct withdrawal information, a Graduation Type Code for students earning specific diploma/completion options must be entered prior to June 15, 2005. No action is necessary for students earning only a Standard Diploma with no special connotation.

Students who meet the graduation test requirement through the concordant ACT or SAT scores must be entered as CPT Eligible-Certificate of Completion students (graduation type X, withdrawal code W8A). A withdrawal code of a WFT will be entered by the District if the student has been withdrawn with a W8A code. After school ends in June, schools must submit the appropriate documents as per the memorandum regarding the concordant scores.

Instructions for updating the Graduation Type Codes were sent in an e-mail, "ISIS Graduation Type Code Update," on May 18, 2005. Listed below are the Graduation Type Codes and the corresponding Withdrawal Code information that will be placed on the students' records:
