Silent Uninstall of Virusscan 4.5

Solution ID : nai3447 Last Modified : 4 MAR 2004

Goal and/or Problem Description

Performing a silent uninstall of VirusScan 4.5
Removing VirusScan 4.5 silently
Uninstalling VirusScan 4.5 from a command line

Problem Environment

McAfee VirusScan Multiplatform 4.5
Microsoft Windows 9x
Microsoft Windows NT
Microsoft Windows 2000

Changes affecting this problem

Change information is not available for this solution

Cause of this problem

Cause information is not available for this solution

Solution 1:

To perform a silent uninstall of VirusScan 4.5, run the following command line: "MSIEXEC /x {63CB7620-B423-4BF1-A7E4-75BB8B64740E} /Q".

Solution 2:

For VirusScan 9x and NT 4.0, go to 'Start | Run' and execute "<path>\SETUP.EXE REMOVE=ALL /q /i"
(Where <path> is the location of the installation package).
