

Office of Superintendent of Schools
Board Meeting of May 15, 2002

May 9, 2002

Business Operations
Joe Arriola, Chief Business Officer

SUBJECT: EXTENSION OF CONTRACT WITH EVANS ENVIRONMENTAL AND GEOLOGICAL SCIENCE AND MANAGEMENT, INC. (EE&G)/EMSL ANALYTICAL, INC. (A JOINT VENTURE) FOR ASBESTOS TECHNICAL CONSULTING AND TESTING SERVICES - 1999/2001 (ALTERNATE/QUALITY CONTROL)

The School Board, at its meeting of May 12, 1999, awarded a contract for Asbestos Technical Consulting and Testing Services, as Alternate/Quality Control firm, to Evans Environmental and Geological Science and Management, Inc. (EE&G)/EMSL Analytical, Inc. (A Joint Venture). In order to renew contracts for these consulting services, a Request for Proposals was approved by the Board at its meeting of February 14, 2001, which was issued and advertised, and proposals were received on March 21, 2001. Submitting firms were interviewed and a selection was made for two prime consultants and one alternate/quality control consultant. However, a protest was raised regarding several submittal issues and award was withheld.

In order to continue receiving these services during review of the protest, extensions of the current contracts were approved by the Board until December 18, 2001. During that time, the School Board attorneys concluded that it was in the Board's best interest to reject all proposals received and to revise and reissue the Request for Proposals. In order to provide uninterrupted asbestos consulting and testing services, by maintaining the existing agreements until award of new contracts, the Board extended the existing contracts until May 16, 2002. Currently, the School Board attorneys are still reviewing licensure requirements and developing language to include in the Request for Proposals. Consequently, staff has concluded that the current contracts should be extended from May 16, 2002 until September 15, 2002, for a maximum compensation of \$100,000 in order to ensure continued services during the new selection and award process.] REVISED

RECOMMENDED: That The School Board of Miami-Dade County, Florida authorize the Superintendent to extend the current contract for Asbestos Technical Consulting and Testing Services, between Evans Environmental and Geological Science and Management, Inc./EMSL Analytical, Inc. (A Joint Venture) and Miami-Dade County Public Schools, from May 16, 2002 until September 15, 2002, for a maximum compensation of \$100,000 under the same terms and conditions.] REVISED
