**SUBJECT: FIRE SAFETY DEFICIENCIES**

The safety of our children while in school is of utmost priority in their education.

The School Board of Miami-Dade County has a responsibility to have a detailed and accurate account of the current status of these deficiencies and progress made to date to be able to evaluate its current policies in this area.

This item was discussed at the Board meeting of February 12 and presentations were made by staff and officials from the Miami-Dade Fire Department in advance of a detailed report. There remains a need to seek a speedy resolution to the most serious of fire code violations.

Details of this item are forthcoming.
