**COMMITTEE: FACILITIES MANAGEMENT**

The purpose and intent of this item is to request that the School Board of Miami-Dade County, Florida, direct the Superintendent to conduct a study comparing the M-DCPS Educational Specifications with the minimum statutory requirement for the construction of classrooms and recommend revisions to the Board.

The study should identify those areas where M-DCPS Educational Specifications go beyond the statutory requirement, the rationale for the more stringent local requirements, the cost of applying the higher standard, and a recommended revision to the local educational specifications where appropriate.

Details of this item will be forthcoming.
