SUBJECT: RE-ORGANIZATION: WITH RATIONALE AND FOR RESULTS

**COMMITTEE: LEGISLATIVE RELATIONS, PERSONNEL SERVICES AND
POLICY DEVELOPMENT**

Per Florida Statutes 1001.42 and 1012.22, the School Board has the responsibility to provide for the execution of plans for the establishment, organization, and operation of the district and provide for the appointment, promotion, suspension, and dismissal of employees.

It is through these responsibilities that the School Board, through its Superintendent, organizes its human resources to effect change and achieve success with desired outcomes of its strategic plan.

To best fulfill these responsibilities and act on the Superintendent's recommendation in a more responsible manner, the School Board must have maximum information from which to analyze recommended changes as well measure and evaluate desired outcomes.

Details of this item are forthcoming.
