SUBJECT: REQUEST THAT THE SCHOOL BOARD OF MIAMI-DADE COUNTY, FLORIDA, APPROVE RESOLUTION NO. 07-31 PROMOTING STUDENT PEDESTRIAN SAFETY, AND ENDORSING THE PARTICIPATION OF MIAMI-DADE COUNTY PUBLIC SCHOOLS IN THE INTERNATIONAL "WALK OUR CHILDREN TO SCHOOL DAY" ON WEDNESDAY, OCTOBER 3, 2007

COMMITTEE: INNOVATION, EFFICIENCY AND GOVERNMENTAL RELATIONS

LINK TO DISTRICT STRATEGIC PLAN: IMPROVED SAFETY THROUGHOUT THE DISTRICT BY IMPLEMENTING PREVENTATIVE MEASURES AND EDUCATIONAL PROGRAMMING

The eleventh annual international "Walk Our Children to School Day," planned for Wednesday, October 3, 2007, promotes pedestrian safety education and awareness for the benefit of students across the nation that walk to school every day. The Metropolitan Planning Organization (MPO) and the Bicycle Pedestrian Advisory Committee endorsed this event. This event is also sponsored nationwide by the National SAFE KIDS Coalition.

According to the MPO, one hundred seventy-two (172) children under the age of fourteen (14) were injured, and three (3) children were killed in 2005, as a direct result of pedestrian accidents in Miami-Dade County. These numbers represent a decrease in injuries as compared to previous years.

Similar to last year's event, the international "Walk Our Children to School Day" is an exercise in safety involving students, parents, and schools to make pedestrian safety a priority for all children.

Listed below is a summary of the many benefits this event has to offer:

- "Walk Our Children to School Day" promotes safe walking skills. The event increases the awareness of safe walking skills and safe routes to school for both students and parents.
- "Walk Our Children to School Day" promotes physical health and activity. This event increases the awareness that walking is an exercise promoting good health and physical fitness.

- “Walk Our Children to School Day” promotes concern for the environment. Walking to school helps to reduce school-related traffic and pollution, which promotes a cleaner and healthier environment for everyone.
- “Walk Our Children to School Day” promotes increased driver awareness for pedestrians around schools. This event helps to reinforce the importance of reducing traffic speed and obeying the school speed zone limits around schools.

In conjunction with this program, it is recommended that the “WalkSafe” Pedestrian Safety Program curriculum be implemented to coincide with the “Walk Our Children to School Day” event. The “WalkSafe” Program was developed and implemented by the Ryder Trauma Center at the University of Miami Miller School of Medicine/Jackson Memorial Medical Center to reduce pediatric pedestrian injuries and fatalities.

To this end, the Board is asked to join in promoting student pedestrian safety and awareness on international “Walk Our Children to School Day,” on October 3, 2007.

There is no cost to the District.
