

Office of School Board Members
Board Meeting of March 7, 2012

February 29, 2012

Ms. Raquel Regalado, Board Member

SUBJECT: YOU TUBE AND WEBSITES

**COMMITTEE: INSTRUCTIONAL EXCELLENCE AND COMMUNITY
ENGAGEMENT**

**LINK TO STRATEGIC
FRAMEWORK: STUDENT, PARENT AND COMMUNITY ENGAGEMENT**

With the Internet being a very popular means for students to enhance their learning, we should work diligently toward creating online tools for teachers and students, where students can easily access positive activities, get help, work risk-free and get positive reinforcement when they successfully complete their tasks.

Aiming at creating a safe and educational online environment for teachers and students, this item requests:

1. That a better explanation of the White and Black lists be created in order to understand what is blocked and unblocked.
2. That during the summer, a period of website submission be created for teachers.
3. That a list of purely educational websites for teachers be established.
4. That a district You Tube page be created where approved You Tube clips will be posted by district for use by teachers.

**ACTION PROPOSED BY
MS. RAQUEL REGALADO:**

That The School Board of Miami-Dade County, Florida, direct appropriate staff to create online tools that foster a more positive learning experience for students.

**Replacement
H-19**
