Authorization is requested for the Superintendent of Schools to enter into a contractual agreement with United Cerebral Palsy Association of Miami, Inc., (UCP) to provide educational and related services for students with severe intellectual disabilities who have complex medical conditions that prevent enrollment in a public school setting. Students will be provided with specialized instruction, medical monitoring and related services, to include direct 1-to-1 specialized instruction, assistive technology, occupational therapy, physical therapy, respiratory services, and nursing services. UCP will provide services to a maximum of 12 students with severe intellectual disabilities in an amount not to exceed \$204,720. The facility is located at 16521 NW 1st Avenue, Miami, Florida 33165.

This program is evaluated by administrative and support staff from the Division of Special Education. The evaluation, including a facility review, site visits, and monitoring of student records and program delivery models, found the program to be effective in providing educational and related services and to be in compliance with the Individuals with Education Act (IDEA) requirements.

An exception to School Board Policy 6320 regarding bids or Request for Proposals should be granted as UCP is providing health related services to support students with severe intellectual disabilities who have complex medical conditions.
