Introduction

Job Order Contracting (JOC) is a construction delivery method used to perform a wide variety of tasks and maintenance related activities awarded based on competitively bid adjustment factors. As the need arises, projects are assigned to the awarded contractor and work orders are issued based on the unit prices found in the task catalog book times adjustment factors.

Thirty-one contractors attended the mandatory pre-bid meeting on January 24, 2017. Bids were opened on February 7, 2017. The bid tabulation results are shown in Attachment A.

Award Recommendation

Based on the tabulated bid results, staff is recommending award to the responsive low bidders: Mexal Corporation and GEC Associates, Inc. The initial term of the contracts shall be for one year with two possible one-year renewal options, under the same terms

and conditions. The minimum value of the contract is \$50,000 and the maximum initial value is \$2,000,000. Both contracts have a mandatory 20% micro business and/or small business participation.

If the maximum value is reached prior to expiration of the contract term/renewal(s), the Superintendent or his/her designee may extend the maximum value twice for increments equal to the contractual limits within the contract/renewal term, provided the contractor produces a new Public Construction Performance and Guarantee Bond and a Public Construction Payment Bond for the extended contract amount.

The adjustment factors bid by the recommended contractors are favorable to the District and are in line with previously awarded JOC contracts.

For the purposes of bid analysis only, a Weighted Factor was calculated based on .90 x Item #1 + .10 x Item #2.

Funding for these contracts will be appropriated through individual projects and includes General Obligation Bond work.

RECOMMENDED:

That The School Board of Miami-Dade County, Florida award for Facilities Operations, Maintenance, on the basis of the weighted factor to the low bidders as follows:
