Academy for International Education Upper School for Science and Technology

Academy for International Education (AIE), the District's first district-managed charter school, has been thriving since its inception in August 2011 and provides a quality school choice option. Since opening, enrollment has grown from 150 students to the current 665 students. To expand upon this successful model, the governing board submitted an application to open a secondary school, Academy for International Education Upper School for Science and Technology (AIE*USST), serving students in grades 6-12. At the November 20, 2018 meeting, under Agenda Item D-65, the School Board approved a charter school contract for AIE*USST for a five-year term ending June 30, 2024. AIE*USST will open to serve up to 300 students in grades 6-9 with the goal of expanding to 556 students in grades 6-12 by 2023.

As a result of the District's successful partnership with AIE, AIE*USST seeks to obtain charter school management services for the upper school as provided by Miami-Dade County Public Schools' Office of Innovation and School Choice.
