Background:

At its meeting of February 7, 2018 (Agenda Item F-31), the Board commissioned JRT Construction Co. (JRT), as the Construction Management at-Risk (CMR) firm for the renovations project at Palmetto Middle School. This project was part of a Sheltered Market CMR solicitation for Small and Micro Business Enterprises. As part of their pre-construction services, JRT has worked closely with the Project Architect in developing construction documents by providing scheduling, as-built verification, constructability reviews and cost estimating services. This project is for the renovations to portions of the existing facility. This contract provides a Guaranteed Maximum Price (GMP) for construction to the Board.

On December 3, 2021, ninety-nine (99) sealed subcontractor bids were received and opened at the School Board Administration Building. The Project Architect and staff from the Office of School Facilities Construction witnessed the bid openings and tabulation process. Negotiations with JRT concluded successfully and the GMP agreed to for this project is \$4,304,796.23 which includes an Owner's Contingency of \$205,000 and an Allowance \$16,000. This contract covers all required work and includes subcontracts, materials, contingency, general conditions, bonds, overhead and profit.

The contract provides for compliance with Small Business, Micro Business and Minority Owned Business Utilization Goals. The Office of School Facilities Construction staff reviewed the SBE, MBE and M/WBE certification status of all subcontractors and verified the existence of a Letter of Intent for each, outlining roles and responsibilities.
