The policy also clarifies the standards and procedures for Board adoption of instructional materials and contains the qualifications of reviewers. In response to Item H-22, procedures for District-adopted materials are modified to include provisions for additional parent notice and participation. The policy states that the District shall rely on Florida Department of Education rules to determine what is age-appropriate, or in the absence of a rule, on a preponderance of reviews by subject experts and/or professionally recognized periodicals or organizations. District procedures are added for managing and maintaining the library collection to keep library collections accurate, up-to-date, attractive, and accessible, as well as removal and disposal of materials from the library collection. The satisfaction of student debt for lost, destroyed, or unnecessarily damaged materials through community service activities is established to be a rate of one (1) hour of community service for every \$15 valuation. Distinct procedures are clarified for parent or resident objections to adopted instructional materials and complaints about library/media center and other educational materials.

The policy amendments were drafted in collaboration with, and reviewed by, the Superintendent, Cabinet, and District staff. Minor revisions to this policy were made pursuant to Board direction at the School Board Committee Meeting. The Notice of Intended Action and repealed and replacement policies are attached.

**2510 - INSTRUCTIONAL MATERIALS, SCHOOL LIBRARY/MEDIA CENTER, AND OTHER EDUCATIONAL MATERIALS**

The Board has the constitutional duty and responsibility to select and provide adequate instructional materials for all students in accordance F.S. 1006.28 and 1006.283. For core subject areas, the Board must either (1) adopt instructional materials selected from the State-approved materials according to the state adoption cycles, (2) adopt instructional materials pursuant to a (local) Board instructional materials review program prescribed by this policy, or (3) a combination of both.

The Board is responsible for the content of all instructional materials and any other materials used in a classroom, made available in a school library/media center, or included on a reading list whether adopted and purchased from the state-adopted instructional materials list, adopted and purchased through the District instructional materials program or otherwise purchased or made available in the classroom.

Instructional materials and resources shall be provided in a variety of formats that are appropriate, timely, and essential to the attainment of specified educational objectives and are free of bias, stereotypes, distortions, and prejudices.

This policy provides a parent or resident the opportunity to proffer evidence to the district school board that:

- A. An instructional material does not meet the criteria of F.S. 1006.31(2) or 1006.40(3)(d) if it was selected for use in a course or otherwise made available to students in the school district but was not subject to the public notice, review, comment, and hearing procedures under F.S. 1006.283(2)(b)8., 9., and 11.
- B. Any material used in a classroom, made available in a school library, or included on a reading list contains content that is pornographic or prohibited under F.S. 847.012, is not suited to student needs and their ability to comprehend the material presented, or is inappropriate for the grade level and age group for which the material is used.

Materials found to violate these criteria will be discontinued for any grade level or age group for which such use is inappropriate or unsuitable.

**I. Definition of Instructional Materials**

F.S. 1006.29(2) defines the terms "instructional materials" as items having intellectual content that by design serve as a major tool for assisting in the instruction of a subject or course. These items

may be available in bound, unbound, kit, or package form and may consist of hardbacked or soft backed textbooks, electronic content, consumables, learning laboratories, manipulatives, electronic media, and computer courseware or software. Pursuant to F.S. 1006.28(1)(a)(1), "adequate instructional materials" means a sufficient number of student or site licenses or sets of materials.

## II. **Use of Instructional Materials**

Principals shall ensure that instructional materials are used to provide instruction to students enrolled at the grade level(s) for which the materials are designed and for effectively communicating to parents the manner in which materials are used to implement the curricular objectives. Principals are also responsible for overseeing compliance with school district procedures for selecting school library/media center materials at the school to which they are assigned. Use of materials must adhere to the "fair use" doctrine permitting the use of copyrighted works for instructional purposes. (See <https://www.copyright.gov/help/faq/>)

## III. **Adoption of Core Subject and Reproductive Health and Disease Education Instructional Materials**

The School Board shall adopt adequate instructional materials, as recommended by the Superintendent, that serve as the basis for instruction for each student in the core subject areas of mathematics, language arts, social studies, science, reading, and literature. The School Board shall also annually approve instructional materials used to teach reproductive health or any disease, including HIV/AIDS, its symptoms, development, and treatment.

### A. **State-Adopted Instructional Materials**

The Florida Commissioner of Education shall determine annually the areas in which instructional materials shall be submitted for adoption and evaluate them pursuant to law.

The Superintendent shall assign responsibilities for the District's participation in the State adoption of instructional materials, determine areas of the curriculum in which State adoption of instructional materials is needed and communicate those needs to the Commissioner of Education, and establish procedures for the requisition, purchase, receipt, storage, distribution, use, conservation, maintenance of records and reports, and management practices, and property accountability concerning instructional materials. The duties and responsibilities include keeping adequate records and accounts for all financial transactions for funds collected pursuant to F.S. 1006.28(3)(a). Such records and account shall be a component of the educational service delivery scope of the District's best financial management practices review under F.S. 1008.35.

### B. **Board-Adopted Instructional Materials (Not from State-Adopted List)**

The Board shall implement its own instructional materials adoption program for the selection of materials to be used in the subjects listed above in this section when materials from the state-adopted list are not available or recommended by the District.

Procedures shall be established, which are incorporated by reference in and made a part of this policy, to provide for evaluation and selection of Board-adopted instructional materials. These procedures shall include processes, criteria, and requirements for (1) selection of reviewers, one or more of whom must be a parent with a child enrolled in a District public school, (2) review of instructional materials, (3) selection of materials, including a thorough review of curriculum content, and (4) reviewer recommendations. The procedures must also identify by subject area, a review cycle for instructional materials, specify the qualifications of reviewers, establish a process that certifies the accuracy of instructional materials, and comply with all other requirements in F.S. 1006.283(2).

## IV. **Content Standards for Instructional Materials**

Pursuant to F.S. 1006.34, in the selection of instructional materials, library material, and other reading material used in the public school system, the standards used to determine the propriety of

the instructional material shall include: the age of the students who normally could be expected to have access to the material; the educational purpose to be served by the material with priority given to the selection of materials that align with Florida State Standards as provided for in F.S. 1003.41 and include instructional objectives contained within the curriculum frameworks for career and technical education; and the degree to which the material would be supplemented and explained by mature classroom instruction as part of a normal classroom instructional program.

**A. Alignment with Subject Standards**

Textbooks and instructional materials should provide quality learning experiences for students, enrich and support the curriculum, and be consistent with the Florida State Standards. Instructional materials evaluation committees shall evaluate instructional materials utilizing the procedural guidelines provided by the District's Instructional Materials department. Listed below are the major components of the review guidelines.

1. Content (Alignment with curriculum and Florida State Standards; level of treatment; expertise for content development; accuracy of content; currency of content; authenticity of content; multicultural representation; humanity and compassion)
2. Presentation (Comprehensiveness of student and teacher resources; alignment of instructional components; organization of instructional materials; readability of instructional materials; pacing of content; ease of use and durability of materials)
3. Learning (Motivational strategies; teaching a few "big ideas"; explicit instruction; guidance and support; active participation of students; targeted instructional strategies; targeted assessment strategies)

**B. Accurate, Objective, Balanced, Noninflammatory, Current, Free of Pornography and Prohibited Material and Suited to Student Needs**

Pursuant to F.S. 1006.40(3)(d), any materials purchased shall be free of pornography and material prohibited under F.S. 874.012, suited to student needs and their ability to comprehend the material presented, and appropriate for the grade level and age group for which the materials are used or made available.

Pursuant to F.S. 1006.31, instructional materials recommended by each reviewer shall be accurate, objective, balanced, noninflammatory, current, free of pornography and material prohibited under F.S. 847.012, and suited to student needs and their ability to comprehend the material presented. Reviewers shall consider for recommendation materials developed for academically talented students, such as students enrolled in advanced placement courses.

The District shall rely on Florida Department of Education rules to determine what is age-appropriate, or in the absence of rules, on a preponderance of reviews by subject experts and/or professionally recognized periodicals or organizations.

**C. Bias-Free**

Instructional materials must also be evaluated for bias-free content, of which there are five (5) areas in which bias is evidenced in instructional materials:

1. Contextual Invisibility (The omission or under representation of various racial and ethnic groups, people with disabilities, older people, women, and people from a variety of social classes.)
2. Stereotyping and Characterization (Assignment of traditional and rigid roles or attributes to a group.)

3. Historical Distortions and Omissions (Materials which present only one interpretation of an issue, situation, or group of people.)
4. Language Bias (Materials which perpetuate single-standard language usage that reflects bias based on gender, race, ethnicity, disability, age, and class.)
5. Inaccurate and Stereotypical Visual Images (Pictures which present and reinforce sexism, racial and ethnic stereotypes, etc.)

**D. Additional Considerations for Selection of Instructional Materials**

1. When recommending instructional materials, each reviewer shall:
  - a. Include only instructional materials that accurately portray the ethnic, socioeconomic, cultural, religious, physical, and racial diversity of our society, including men and women in professional, career, and executive roles, and the role and contributions of the entrepreneur and labor in the total development of this state and the United States.
  - b. Include only materials that accurately portray, whenever appropriate, humankind's place in ecological systems, including the necessity for the protection of our environment and conservation of our natural resources and the effects on the human system of the use of tobacco, alcohol, controlled substances, and other dangerous substances.
  - c. Include materials that encourage thrift, fire prevention, and humane treatment of people and animals.
  - d. Require, when appropriate to the comprehension of students, that materials for social science, history, or civics classes contain the Declaration of Independence and the Constitution of the United States.
2. Consideration should be given to the broad racial, ethnic, socioeconomic, and cultural diversity of this state. A reviewer may not recommend any instructional materials that contain any matter reflecting unfairly upon persons because of their race, color, creed, national origin, ancestry, gender, religion, disability, socioeconomic status, or occupation.

**V. Instructional Materials Adoption Procedures**

An adoption process must comply with the content standards in Section IV above and the following procedural requirements:

**A. Review Committee Membership**

1. Meetings of review committees convened for the purpose of ranking, eliminating, or selecting District-adopted instructional materials for recommendation to the Board must be noticed and open to the public in accordance with F.S. 286.011. Committees convened for such purposes must include parents of district students. Parents of district students will receive notification of meetings via email, phone calls, and through the parent portal/app and website.
2. Each review committee must consist of a minimum of five (5) participating members (three (3) instructional professionals and two (2) parents) with the flexibility of assigning an equal number of alternates. A member of a state adoption committee may not serve on the local adoption committee. The majority composition of a committee must consist of certified

instructional professionals that teach, supervise, or otherwise have an expertise in the subject area under review. Certified school-site teachers, certified District subject area specialists, or resource teachers including those from any academic or other appropriate District department may serve as committee members. Committee members will be appointed by the curriculum department whose subject area is under review for adoption from a pool of nominations submitted by principals, region staff, and/or District staff.

3. Each review committee must include two (2) participating parents and two alternates as follows:
  - a. Parents of district students will receive notification via email, phone calls, and through the parent portal/app of upcoming adoptions with procedures to express interest in volunteering to participate in a specific review committee. One (1) participating committee member and one (1) alternate will be selected from the eligible applicants interested in volunteering. If there are more parents interested in being part of a review committee than there are open parent seats, the parents to serve on the committee will be randomly selected with the first name serving as the participating committee member and the subsequent name as the alternate. Additional weighting will be applied to non-employee parents of the District prior to random selection. Likewise, selected employees that voluntarily applied to serve as parents must utilize personal or vacation days if selected to serve on a committee.
  - b. One (1) participating committee member and one (1) alternate will be appointed by the President of the Miami-Dade County Council of Parent-Teacher/Parent-Teacher-Student Association. The appointed parents may not be employees of the District.
4. Parents selected to serve on any review committee must have a verified child enrolled in a District public school and have the required availability for participation. Should the participating parent be unavailable during any stage of the adoption process, the alternate parent shall assume the role of committee member for the duration of the process.
5. Certified District subject area supervisors who have taught in the subject area being reviewed will serve as review committee facilitators to provide subject matter expertise to committee members. Supervisors may assist in the review process and correlation of publisher submissions with course and subject instructional objectives. Certified District subject area supervisors will serve as the committee chairperson. The committee chairperson is not a voting member of the selection committee.
6. Each reviewer of materials shall sign an affidavit that contains the requirements set forth in F.S. 1006.30.

} REVISED  
}

B. Evaluation Procedure

1. Members of a review committee must apply the standards set forth in Section IV above in evaluating all instructional materials.
2. Members of a review committee will receive instructions and training in the evaluation techniques to be used, characteristics of effective instructional materials, and the skills necessary to make valid and objective decisions regarding the content and rigor of instructional materials.
3. Evaluation techniques will include, as available, collection and review of the research about the instructional materials under consideration, as well as

other districts' experiences with the instructional materials being reviewed.

4. The review process will include scrutiny of each program's correlation to the State Standards and the assessments that are based on such standards.
  5. Evaluation instruments employed by the review committee members in its evaluation and selection process may be instruments developed by the Florida Department of Education or district-modified versions of the same.
  6. If a review committee elects to have publisher presentations, every publisher submitting materials for consideration in a specific subject area will be provided an equal opportunity to present. All publishers will be given equal time for the presentation. The committee chair will be responsible for ensuring equity.
  7. Review committee members will review materials and return recommendations to the Assistant Superintendent over Instructional Materials.
- C. Public notice and access to the recommended materials (student editions) must be provided at least twenty (20) calendar days prior to Board consideration of state-adopted or District-adopted materials being recommended for adoption. Parent notification of the availability of the materials will be provided using parent emails, postings on the district website/portal/app, and using automated phone calls.
- D. The Board shall conduct an open noticed School Board hearing to receive public comment on any (state-adopted or District-adopted) instructional materials being recommended by the Superintendent to the Board for adoption. Parents will be notified at least seven (7) calendar days prior through the regular publication procedures for Board meetings, as well as through use of the methods described above. The notice must specifically state which instructional materials are being reviewed and the manner in which the public can access the materials for review.
- E. The Board shall conduct an open noticed public meeting on a date other than the date of the School Board hearing required above to approve an annual instructional materials plan identifying instructional materials that will be purchased for the subsequent academic year by the District for the entire District; (This does not include instructional materials by a school or teacher for the benefit of only that teacher or school.) Parents will be notified at least seven (7) calendar days prior through the regular publication procedures for Board meetings, as well as through use of the methods described above. The notice must specifically state which instructional materials are being reviewed and the manner in which the public can access the materials for review.
- F. The Board shall receive public comment at the School Board hearing and the public meeting in accordance with Policy 0169.1, *Public Participation*.
- G. Instructional materials will be purchased in accordance with the requirements of Policy 6320, *Purchasing*. A publisher that offers instructional materials to a district school board must provide such materials at a price that, including all costs of electronic transmission, does not exceed the lowest price at which the publisher offers such instructional materials for approval or sale to any state or school district in the United States. A publisher shall reduce automatically the price of the instructional materials to the district school board to the extent that reductions in price are made elsewhere in the United States.
- H. No school official or member of a District or State instructional materials council shall accept any emolument, money, other valuable things, or any inducement, to directly or indirectly introduce, recommend, vote for, or otherwise influence the adoption or purchase of any instructional materials.

- I. No member of a District evaluation committee may discuss matters relating to instructional materials submitted for adoption with any agent of a publisher or manufacturer of instructional materials, either directly or indirectly, except during the period when the committee shall have been called into session for the purpose of evaluating instructional materials submitted for adoption or in a public presentation showcasing the materials. Aside from exception noted above, both parties (District evaluation committee member and agent of a publisher or manufacturer of instructional materials) must comply with the District's "Cone of Silence" (Policy 6325). Definition of the cone of silence and its stipulations may be found at <http://procurement.dadeschools.net/pdp.asp>.
- J. The District will notify parents of their ability to access their children's instructional materials and encourage parents to access the materials. This notification must be displayed prominently on the District's website and provided annually in written format to all parents of enrolled students.
- K. The Board shall annually approve in an open, noticed public meeting the instructional materials used to teach reproductive health or any disease, including HIV/AIDS, its symptoms, development, and treatment, as part of the school curriculum (See also Policy 2417). Such materials are subject to the process for public review and comment required by this section.
- L. The Board may assess and collect fees from publishers participating in the instructional materials approval process. The amount assessed and collected must be posted on the school district's website and reported to the Florida Department of Education. The fees may not exceed the actual cost of the review process, and the fees may not exceed \$3,500 per submission by a publisher. Any fees collected for this process shall be allocated for the support of the review process and maintained in a separate line item for auditing purposes. The fees shall be used to cover the actual cost of substitute teachers for each workday that a member of a school district's instructional staff is absent from his or her assigned duties for the purpose of rendering service as an instructional materials reviewer. In addition, each reviewer may be paid a stipend and is entitled to reimbursement for travel expenses and per diem in accordance with F.S. 112.061 for actual service in meetings.
- M. Additional Public Participation Requirements

The District will publish, on its website, in a searchable format prescribed by the Florida Department of Education, a list of all instructional materials, including those used to provide instruction required by F.S. 1003.42. The School Board must:

1. Provide access to student editions of recommended instructional materials in accordance with F.S. 1006.283(2)(b)8.a. before the School Board takes any official action on such materials. This process will include reasonable safeguards against the unauthorized use, reproduction, and distribution of instructional materials considered for adoption.
2. Select, approve, adopt, or purchase all materials as a separate line item on the agenda and provide a reasonable opportunity for public comment. Materials may not be selected, approved, or adopted as part of a consent agenda.
3. Annually submit to the Commissioner of Education a report that identifies:
  - a. Each material for which the school district received an objection pursuant to 1006.28(a)(2) for the school year and the specific objections thereto.

- b. Each material that was removed or discontinued as a result of an objection.
- c. The grade level and course for which a removed or discontinued material was used, as applicable.

The Florida Department of Education shall publish and regularly update a list of materials that were removed or discontinued as a result of an objection and disseminate the list to school districts for consideration in their selection procedures.

- N. The Superintendent shall annually certify to the department that all instructional materials for core courses used by the district are aligned with all applicable state standards and have been reviewed, selected, and adopted by the district school board in accordance with the school board hearing and public meeting requirements of this section.
- O. Emergency Review and Adoption of Instructional Materials

The Board may waive the instructional materials and adoption process requirements in this policy only when a statewide emergency has been declared by the Governor and the Governor has suspended the statutory instructional materials review and adoption process. The policy waiver shall be approved in advance by the Board in a public meeting before any instructional materials may be used by any instructional staff. The reason(s) for the requested waiver and the anticipated cost of the proposed instructional materials shall be specified in the Board item. The Board item requesting the waiver shall also include a link to the proposed instructional materials that is accessible to the public. If the emergency purchase of instructional materials is approved by the Board, the materials may be used immediately. However, the instructional materials review and adoption process in this policy shall be initiated at the next regular Board meeting even if the statutory process provisions are suspended.

**VI. Lost and Damaged Instructional Materials**

The principal shall collect from each student or the student's parent the purchase price of any instructional materials the student has lost, destroyed, or unnecessarily damaged and report and transmit the amount collected to the Superintendent. The failure to collect such sum upon reasonable effort by the principal may result in the suspension of the student from participating in extra-curricular activities or satisfaction of the debt by the student through community service activities at a rate of one (1) hour of community service for every \$15 valuation at the school site.

All money collected from the sale, exchange, loss, or damage of instructional materials shall:

- A. be transmitted to the district and added to the district appropriation for instructional materials for all textbook materials; or
- B. be deposited into the school's library internal fund account for all library/media center materials.

**VII. Parent and Resident Objections to Adoption of Specific Instructional Materials**

Any parent of a public-school student in the District or resident of Miami-Dade County may contest the Board's adoption of a specific instructional material. For purposes of this policy, "resident" means a resident of the county who has maintained his/her residence in Florida for the preceding year, has purchased a home that is occupied by him/her as his/her residence, or has established a domicile in Florida pursuant to F.S. 222.17.

Pursuant to F.S. 1006.28(2)(a)3. the following is the process by which the parent of a public-school student in the District or a resident of Miami-Dade County may contest the School Board's adoption of a specific instructional material:

- A. A parent of a public-school student in the District or a resident of Miami-Dade County may file a petition with the Board Clerk within thirty (30) calendar days after the Board's adoption of specific instructional materials on a form provided by the Board. An individual petitioner may submit only one (1) petition directly to the School Board Clerk that contains all of the petitioner's objections to the specific adopted instructional materials.
- B. The petition form shall be publicly available on the District's website. The petition must be signed and attested by the parent or resident, include the required contact information, and state the objection to the instructional material based on the criteria set forth in F.S. 1006.31(2) or 1006.40(3)(d) and Section IV.B. above. Petitions that do not contain the requisite information may not be considered by the hearing officer.
- C. Within thirty (30) days after the thirty (30) day period has expired, an unbiased and qualified hearing officer shall conduct an open public hearing on all petitions timely received. The hearing officer shall be appointed by the Superintendent and shall be neither an employee nor an agent of the Board.
- D. The hearing before the hearing officer is not subject to the provisions of F.S. Chapter 120 but the hearing officer shall provide sufficient procedural protections to allow each petitioner an adequate and fair opportunity to be heard and present evidence to the hearing officer.
- E. Petitioners will have an adequate and fair opportunity to be heard and present evidence (including documents and testimony) to the hearing officer that is related to the criteria for adopted instructional materials.
- F. Additional procedures for the review of petitions may be established by the hearing officer.

The media specialist will endeavor to stay informed about appropriate new publications, using multiple sources, such as discussions with colleagues, attendance at conferences, and reading a variety of periodicals and book reviews. The media specialist will also receive and consider suggestions or requests brought forward by other faculty, students and parents. In considering possible new acquisitions, the media specialist will consult reputable, professionally recognized reviewing periodicals and school community stakeholders. The media specialist will also assess the level of student interest in the subject(s) presented and the ability of students to comprehend the material. Books that are selected must be free of pornography and material prohibited under F.S. 847.012. After evaluation, the media specialist will inform the principal of those books that have been evaluated and are approved for inclusion in the collections. The procedure for developing library media center and reading list collections will be posted on the website for each school in the District.

A wide choice of materials that support the instructional program shall be available to students and professional staff to allow for varying achievement levels, free choice reading interests, and teaching/learning styles. The Board is responsible for the content of all instructional materials and any other materials used in a classroom, made available in a school library, or included on a reading list whether adopted and purchased from the state-adopted instructional materials list, adopted and purchased through the District instructional materials program or otherwise purchased or made available in the classroom. Instructional materials and resources shall be provided in a variety of formats that are appropriate, timely, and essential to the attainment of specified educational objectives and are free of bias, stereotypes, distortions, and prejudices. The use and adoption of all District-wide instructional materials, whether the use of the materials is greater or less than one year, shall be adopted in a manner that fully complies with the statutory instructional materials review process and this Policy.

"Adequate instructional materials" means a sufficient number of student or site licenses or sets of materials and have intellectual content that by design serve as the major tool for assisting in the instruction of a subject or course. These items may be provided in a variety of forms, bound, unbound, kit, or package form and may consist of hardbacked or softbacked textbooks, electronic content, consumables, learning laboratories, manipulatives, electronic media, and computer courseware or software. Instructional materials, including textbooks, educational media (library media print, nonprint, and electronic resources), computer software, digital content, videotapes. The Board must either (1) adopt instructional materials selected from the state-approved materials according to the state adoption cycles, (2) adopt instructional materials pursuant to a Board instructional materials review program prescribed by this policy, or (3) a combination of both.

### **I. State-Adopted Instructional Materials**

The Florida Commissioner of Education shall determine annually the areas in which instructional materials shall be submitted for adoption and evaluate them pursuant to law.

The Superintendent shall assign responsibilities for the District's participation in the State adoption of instructional materials, determine areas of the curriculum in which State adoption of instructional materials is needed and communicate those needs to the Commissioner of Education, and establish procedures for the requisition, purchase, receipt, storage, distribution, use, conservation, maintenance of records and reports, and management practices, and property accountability concerning instructional materials. The duties and responsibilities include keeping adequate records and accounts for all financial transactions for funds collected pursuant to F.S. 1006.28(3)(a). Such records and account shall be a component of the educational service delivery scope of the District's best financial management practices review under F.S. 1008.35.

### **II. Non-State Adopted Instructional Materials**

The Board shall implement its own instructional materials review and selection program for materials that are not State-adopted.

Procedures shall be established, which are incorporated by reference in and made a part of this policy, to provide for evaluation and selection of nonstate-adopted instructional materials. These procedures shall include processes, criteria, and requirements for (1) selection of reviewers, one or more of whom must be a parent with a child enrolled in a District public school, (2) review of instructional materials, (3) selection of materials, including a thorough review of curriculum content, and (4) reviewer recommendations. The procedures must also identify by subject area, a review cycle for instructional materials, specify the qualifications of reviewers, establish a process that certifies the accuracy of instructional materials, and comply with all other requirements in F.S. 1006.283(2).

evaluating instructional materials submitted for adoption or in a public presentation showcasing the materials. Aside from exception noted above, both parties (District evaluation committee member and agent of a publisher or manufacturer of instructional materials) must comply with the District's "Cone of Silence" (Policy 6325). A parent or resident may file a petition with the Board within thirty (30) calendar days after the Board's adoption of specific instructional materials on a form provided by the Board. The petition form shall be publicly available on the District's website. The petition must be signed by the parent or resident, include the required contact information, and state the objection to the instructional material based on the criteria set forth in F.S. 1006.31(2) or 1006.40(3)(d).

Within thirty (30) days after the thirty (30) day period has expired, an unbiased and qualified hearing officer shall conduct an open public hearing on all petitions timely received. The hearing officer shall be appointed by the Superintendent and shall be neither an employee nor agent of the Board.

The hearing before the hearing officer is not subject to the provisions of F.S. Chapter 120 but the hearing officer shall provide sufficient procedural protections to allow each petitioner an adequate and fair opportunity to be heard and present evidence to the hearing officer. Within fourteen (14) days of the conclusion of the hearing, the hearing officer will present his or her findings and recommendation in writing to the Board.

Within thirty (30) days after the Board receives the hearing officer's findings and recommendation, the Board, at a public meeting, will consider the petition, the hearing officer's findings and recommendation, and any evidence presented to the hearing officer, and make a final decision on the petition.

The decision of the Board shall be final and is not subject to further review or petition.
