VI. Proposal Evaluation and Approval of a Proposal

- A. After the response period for a solicited proposal, or the public notification period for an unsolicited proposal has expired, all proposals received shall be evaluated according to the published criteria and ranked in order of preference. The ranking shall be conducted by a selection committee appointed by the Superintendent on a project-by-project basis and in compliance with existing procurement policies. Factors that must be considered in ranking the proposals include, but are not limited to, professional qualifications of the proposer(s), general business terms, innovative design techniques, or cost-reduction terms, and finance plans. The Superintendent may then begin negotiations for a comprehensive agreement with the highest-ranked firm. If the negotiation results are not satisfactory, the Superintendent may terminate negotiations with the proposer and negotiate with the second-ranked or subsequent-ranked firms, in the order consistent with this procedure. No proposer is guaranteed the award of a contract as a result of being favorably ranked for this project and the issuance of an unsolicited proposal shall create no rights in the proposer including rights as a bidder, under contract, or intellectual property. If only one proposal is received, the Superintendent may negotiate in good faith, but if the negotiation is unsatisfactory, negotiations may be terminated. Notwithstanding this process, any and all proposals may be rejected by the Superintendent or Board in accordance with this policy at any point in the process.
- B. The bid protest process in Policy 6320 shall apply only to any final Board decision to recommend a contract award to a proposer or to reject all bids, unless such protest is waived.

The Interim Agreement is a discretionary step, not necessary in all cases, but is available should the Board determine more investigation or due diligence is necessary about the proposed project before entering into a Comprehensive Agreement. - D. If Board financing of a debt obligation is involved, the Board's Treasury Advisory Committee shall review and approve the financing and debt proposal prior to publication.
- E. The full faith and credit of the Board may not be pledged to secure the financing of the private entity.

XI. Governmental Entities and Other Direct Negotiations

Aside from entering into a Comprehensive Agreement or Interim Agreement with a private entity or entities, the Board may enter into other contracting arrangements that include multiple government and private entities. When such contracting arrangements are contemplated, efforts must be undertaken to ensure that arrangements and transactions involving School Board-owned assets, real estate, and resources are properly evaluated and assessed prior to engaging into agreements that bind the Board beyond a period of one year.

In addition, the Superintendent must take steps to ensure that the transactions are transparent, as appropriate, and scrutinized and subject to audit, and that School Board-owned property is used for its intended purpose.

As such, the Board should be notified and appropriately briefed on any and all major transactions being contemplated by the Superintendent and/or District staff. This can be one Board item or several items, but all must be stated prior to the final approval of the project. Any Board agenda item(s) related to such transactions shall include and/or ensure the following:

A. Description of how the proposed project supports the education mission of the Board;

B. Description of the parties involved in the transaction, including those who are parties to any agreement wherein the School Board incurs liability. In identifying a party, the item should include the formal corporate name and fictitious names, if applicable. All related parties of interest must also be identified;

C. Detailed description of ownership interests, including parties' interests, the size, shape, location, lot size (square footage), building size;

D. Detailed description of the financial benefits to be obtained by all parties during the term of the agreements, including the benefits that accrue to the School Board;

E. All restrictions and encumbrances, covenants, use restrictions, and any other interests that bind and inure to the benefit of parties, their successors and assigns, and any other party that acquires any right, title, or interest in the project;

F. Development fees, lease payments, cash participation, net proceeds, payment provisions;

G. For projects involving leasehold interest, a full financial analysis with respect to the anticipated revenues and fiscal impact of the development over the life of a lease and the percentage, if any, and whether there are any archeological or historical designations or any biological, zoning or environmental problems (e.g., incinerators, active or inactive dump sites, toxic soil, underground storage tanks) on the property that could adversely impact the timely use of the property for the intended purpose;

H. Condition of title to the site or any known title defects;

I. Compatibility or incompatibility of present and projected uses of adjacent properties with the intended use;

J. Parties responsible for monitoring and enforcing any agreements or use restrictions concerning the project;

K. Estimated timeline for completion of the project;

L. Where such project involves any interest in Board-owned property or assets, the Superintendent shall obtain, as applicable, a reliable estimate of the value of such property or assets in a manner consistent with the appraisal and/or valuation procedures outlined in Policy 7315, *Disposal of Surplus Land and Other Real Property*, for a transfer, trade, public or private sale, and any other procedure associated with obtaining a fair and independent value of the property;

M. A recommendation from the School Site Planning Committee, if applicable, and a recommendation of the Chief Facilities Officer;

N. All agreements associated with a Board item must be provided to the Board at the time of the publication of the agenda for a Board meeting;

O. Incorporate a process for the Inspector General to be notified at the onset in any and all solicitations concerning such projects. In instances where a solicitation was not utilized, the Inspector General should be notified at the earliest opportunity and prior to publication of any and all Board items;

P. Use agreements and restrictions that must be recorded in a first priority position against the properties, prior to any financing documents or other encumbrances;

Q. The School Board maintains ownership and operation of the property during the use restriction period. The owner shall not convey, sublease, or transfer the property approved for this disposition without the consent of the Board, and the restrictions in favor of the Board shall run with the land;

R. Board Agenda Items resulting from such negotiations shall include and disclose those elements that are required for a Comprehensive Agreement as set forth in this policy.

The Board and the Superintendent shall be notified in a manner deemed appropriate if negotiations with the governmental entities and private entities have been determined viable by the Superintendent. The Superintendent shall also provide quarterly updates to the Board. This can be one Board item or several items, but all must be stated prior to the final approval of the project.

XII. Affordable Housing and Workforce Housing

Florida Statutes, Section 1001.43(12) permits the Board to use portions of school sites, land deemed not usable, or land declared as surplus by the Board to provide sites for affordable housing for teachers and other District personnel independently or in conjunction with other government agencies. In considering such arrangements, the Superintendent shall take steps to ensure that the mission of the District is being met, and that in making this determination, the Superintendent considers federal affordable housing laws that may limit the Board's ability to restrict affordable housing to teachers and district personnel.

Board Agenda Items involving Affordable Housing and Workforce shall include and disclose those items set forth in Section XI. above, and should also include those elements that are required for a Comprehensive Agreement as set forth in Section VII. of this policy. Based on a fiscal impact review, financial benefits to the Board and to any other parties shall be duly disclosed and substantiated.

When negotiations are in progress concerning a proposed affordable housing and/or workforce housing project, and such project has been determined by the Superintendent to be both viable and worthy of proceeding, the Superintendent shall notify the Board and the Inspector General. The Superintendent shall also provide quarterly updates to the Board.

XIII. Sovereign Immunity

Neither the sovereign immunity of the Board nor any Board officer or employee is waived as a result of participation in, or approval of, any part of a qualifying project or its operation, including, but not limited to, interconnection of the qualifying project with any other infrastructure or project.

XIV. Confidential Materials

The Board shall not be liable for any costs incurred by private entities in preparing, submitting, or presenting unsolicited proposals or competing proposals.

Respondent/Proposer may assert that any trade secrets, financial records, and proprietary or other confidential information in its unsolicited proposal are confidential information that it claims to be exempt from disclosure under applicable Florida public records laws. Such information may be included in the unsolicited proposal, but submitted in a separate, sealed binder, designed with the cover as CONFIDENTIAL MATERIALS. A Respondent/Proposer submitting materials claimed to be confidential shall include a cover letter listing all material designated as confidential and clearly mark each page of any material believed to be a trade secret or other confidential information/document in all capital letters and bold font as CONFIDENTIAL MATERIALS. If any portion of the unsolicited proposal or responding proposals contains non-confidential and confidential information, the Respondent/Proposer shall provide a redacted copy of the document within three (3) days of the request by the District. Failure to properly list a confidential document or the failure to redact a confidential document that is only partially confidential shall result in a waiver of any claim that the document is confidential or that the unredacted document contains confidential information.

If any person requests that the Board produce or disclose any of said purported confidential documents, the Board will advise the Respondent/Proposer and afford the Respondent/Proposer an opportunity to protect its assertion that said confidential information is exempt from production. If Respondent/Proposer fails to timely authorize the production of the information or document and/or fails to timely seek a protective order, and/or is unsuccessful in obtaining a protective order, the Board will produce the requested information or document. The Board will not actively contest any request to disclose such alleged confidential information or documents, and the Board cannot guarantee that the alleged confidential document or information may not be disclosed should it ultimately be determined not to be confidential under applicable Florida public records laws. The Respondent/Proposer shall indemnify the Board for any damages and costs the Board may incur due to the Respondent/Proposer's claim that its document or information is confidential. The Board can only agree to advise the Respondent/Proposer of such request and give the Respondent/Proposer an opportunity, at the Respondent/Proposer's sole and exclusive cost, to defend the request for disclosure of the confidential information or document in a court of competent jurisdiction or other applicable forum.
