8405 - **SCHOOL SAFETY**

The School Board is committed to maintaining a safe and drug-free environment in all the District's schools. School crime and violence are multifaceted problems that need to be addressed in a manner that utilizes all available resources in the community through a coordinated effort of School District personnel, law enforcement agencies, and families. School administrators and local law enforcement officials must work together to provide for the safety and welfare of students while they are at school or a school-related event or are on their way to and from school.

I. Safe-School Officers

The Board shall establish or assign a safe-school officer at each school facility in the District, including charter schools, in accordance with F.S. 1006.12 and F.A.C. 6A-1.0018. A safe-school officer shall be present, at a minimum, during the school day when the school facility is open for instruction as defined by the approved school calendar. In order to fulfill this requirement, the Superintendent (1) may recommend, and the Board may appoint, school safety officers and/or (2) may enter into cooperative agreements with county and municipal law enforcement agencies for the provision of school resource officers as necessary, or (3) contract with a security agency as defined in F.S. 493.6101(18) to employ school security guards provided certain training and contractual conditions are met as required by F.S. 1006.12. The Superintendent, in consultation with the School Safety Specialist, is responsible for developing procedures relating to the assignment of safe-school officers outside the regular school day, including during before and after school, summer school, during extracurricular activities, and for school-sponsored events. School administration is responsible for determining if safe-school officers are needed for extra-curricular activities and after school

events. In making such determinations, administrators should consider pertinent safety factors, including but not limited to, the number of persons present, the ratio of staff members to students and other persons, the nature of the event, the characteristics of the venue, and any other safety and security measures available. Requests for added security measures should be sent in writing to the District Police Department through the Region. Charter schools are responsible to establish their own policies relating to the assignment of safe-school officers outside the regular school day, including during before and after school, summer school, during extracurricular activities, and for school-sponsored events in accordance with F.A.C. 6A-1.0018.

I.

Each Safe-School Officer shall complete mental health crisis intervention training in accordance with F.S. 1006.12(6).

A. Required Notifications Regarding Safe-School Officers

1. The school superintendent must notify the Office of Safe Schools when a safe-school officer assigned to any school facility in the district discharges a firearm in the exercise of safe-school officer duties, other than for training purposes, as provided in F.S. 1006.12(5). Notification must be made no later than seventy-two (72) hours of the incident by submitting Form SSON-2021 to SafeSchools@fldoe.org.
2. The Superintendent must notify the Office of Safe Schools when a safe-school officer assigned to a school facility in the District has been disciplined for misconduct or has been dismissed from their duties as a safe-school officer by their employer, including in cases where the officer is reassigned or moved to another school location, whether by a school district, charter school, law enforcement agency, or private security company, as provided in F.S. 1006.12 (5). Notification must be made no later than seventy-two (72) hours of the dismissal or disciplinary action by submitting Form SSON-2021 to SafeSchools@fldoe.org.
3. The Superintendent must notify the Office of Safe Schools when there is an allegation of misconduct that results in a safe-school officer being placed on administrative leave or reassigned pending completion of an investigation using the procedure set forth in F.A.C. 6A-1.0018. Within fifteen (15) days of completion of the investigation, updated information regarding the result of the investigation must be provided to the Office of Safe Schools.

B. Guardian Programs

The Board by a majority vote may implement a guardian program in accordance with law. Regardless of whether the Board implements a guardian program, however, a charter school governing board in the District may implement a guardian program in accordance with law.

II. **Emergency Operations Plan**

In accordance with Policy 8410, *Emergency Management*, the Superintendent, in conjunction with the School Safety Specialist, shall develop the District's Emergency Operations Plan (EOP), which includes an active assailant response plan and a mobile panic alert system, also known as "Alyssa's Alert." The EOP shall be annually reviewed and updated as necessary and provided to the Board and other relevant parties in accordance with this and other Board policies (See Policy 8410 and Policy 8420.01). The District's Alyssa's Alert system shall be developed in consultation with the county 911 authority and local emergency management office to ensure that the system integrates with local public safety answering point (PSAP) infrastructure to transmit calls and mobile activations. The District's mobile panic alert system must include mobile devices placed throughout each school campus. In determining the number and placement of devices needed to afford all staff members the ability to silently and easily activate a panic alert in the event of an on-campus emergency, districts must consider using a combination of fixed panic alert buttons, mobile and desktop applications, landline phone capabilities, and wearable panic alerts (such as on a lanyard). The District is required to maintain current listing of mobile panic alert systems implemented by all public schools, including charter schools, within the District. Such list shall include the school name, address, and MSID number, and vendor or application implemented. The District is required to provide such list to the Office at Safe Schools@fldoe.org in accordance with F.A.C. 6A-1.0018. Thereafter, the District must update this information within five (5) school days of a school opening or closing, or when any other change occurs that impacts the accuracy of District-provided information.

Also in accordance with Policy 8410, *Emergency Management, Preparedness, and Response*, drills for active assailant and hostage situations shall be conducted at least as often as emergency drills and fire drills required by the Florida Fire Prevention Code, as adopted by the State Fire Marshall. Completion of emergency drills shall be documented at all school facilities in the District. Law enforcement officers responsible for responding to the school in the event of an active assailant emergency, as determined necessary by the sheriff/local law enforcement authority in coordination with the District's School Safety Specialist, must be physically present on campus and directly involved in the execution of active assailant emergency drills. The District must notify law enforcement officers at least twenty-four (24) hours before conducting an active assailant emergency drill at which such law enforcement officers are expected to attend.

The Superintendent shall designate a District School Safety Specialist in accordance with State law and rules. The District shall develop procedures to allow charter school personnel input access to the FSSAT, or where input access is restricted to District personnel, to submit information so that FSSAT reporting requirements, including those for Fortify FL, threat ~~management~~~~assessment~~ teams, and active assailant response plans, include data from the charter schools. For charter schools that lack input access to the FSSAT, the charter school's governing board must ensure that any information needed for required reporting of safety information within FSSAT is timely provided to the District in accordance with District procedures;

- E. coordinating with appropriate public safety agencies, as defined in F.S. 365.171, that are designated as first responders to a school's campus to conduct a tour of such campus once every three (3) years and to provide recommendations related to school safety. Completion of such tours and any recommendations must be documented in each school's security risk assessment within FSSAT;

Any changes related to school safety, emergency issues, and recommendations provided by the public safety agencies will be considered as part of the recommendations by the School Safety Specialist to the Board.

- F. providing, or arranging for the provision of, youth mental health awareness and assistance training to all school personnel as set forth in F.S. 1012.584;

 1. that deficiencies relating to safe-school officer coverage must be resolved by the next school day;
 2. notification to the Office within twenty-four (24) hours at SafeSchools@fldoe.org of any deficiencies relating to safe-school officer coverage and any instance of noncompliance that is determined to be an imminent threat to the health, safety, or welfare of students or staff. Notifications made under this subparagraph must contain particularized facts beyond noncompliance with rule or statute that explain the imminent threat; and
 3. notification to the Office within three (3) days at SafeSchools@fldoe.org of any instance of noncompliance not corrected within sixty (60) days.
- J. providing any notice of suspected deficiency received by the Office of Safe Schools to the Superintendent immediately;

IV. **Recommendations of the School Safety Specialist**

Based on the findings of the school security risk assessment, the School Safety Specialist shall provide recommendations to the Superintendent and Board which identify strategies and activities that the Board should implement in order to address the findings and improve school safety and security. The Board must receive the school security assessment findings and the recommendations of the School Safety Specialist at a publicly noticed Board meeting to provide the public an opportunity to hear the Board members discuss and take action on the findings and recommendations. The *EOP* and *Threat Assessment and Mental Health Services Guide*, however, are confidential and not subject to review or release as public records to the extent provided by law.

Within thirty (30) days after the Board meeting, but not later than November 1, the School Safety Specialist shall report the school security risk assessment findings and the Board's action(s) to the Florida Office of Safe Schools in a district best-practices assessment in the FSSAT, which includes the school security risk assessment findings and recommendations as provided in F.S. 1006.07(6)(a)4.

V. Active Assailant Response Plan

The Board and each charter school governing board shall adopt an active assailant response plan (AARP) that includes security assessments, roles and responsibilities of all personnel, information sharing, training, identification of safe spaces and command posts, response to the threat of an active assailant, response to the threat of an active assailant on school grounds, communication with law enforcement, communication with parents and the public, and post-incident recovery. The District may include its District AARP in its EOP in accordance with Policy 8410. The District's "Alyssa's Alert" mobile panic alert system includes a mobile application with a panic alert feature that may enhance employee responses to active assailant emergencies. Employees shall follow established District active assailant and associated lockdown procedures in the EOP (see Policy 8410, *Emergency Management, Preparedness, and Response*). If the need arises to silently notify 911 or first responders, employees may use the District-selected mobile panic alert application as an alternative to dialing 911. All administrators are required to download and sign up for the District-selected mobile panic alert application.

By October 1, 2019, and annually thereafter, the Superintendent shall certify for each District operated school that all school personnel have received annual training on the procedures in the AARP and each charter school principal shall certify that all personnel in the charter school have received annual training on the procedures in its active assailant response plan.

VII. Drug-Free Schools

As part of the EOP, the Superintendent shall verify that procedures are in place for keeping schools safe and drug-free that include:

IX. Victims of Violent Crime

The parents and/or student victim of a violent crime in a school, on school grounds, in a school conveyance, or at a school-sponsored activity shall be offered the opportunity to transfer to another school within the District that serves the same grades. X. Threat Management Coordinator

The Superintendent will designate a Threat Management Coordinator to oversee threat management at all public K-12 District schools, including charter schools sponsored by or under contract with the District, in accordance with the requirements set forth in Florida law and State board of Education rules.

~~XVI~~.XVII. **Parental Notification Regarding School Safety**

The Superintendent shall develop and implement procedures for timely and accurate reporting of incidents related to school safety and discipline and shall provide training to appropriate personnel in accordance with law and State Board of Education rules. In determining the content of notifications to parents, districts must consider including specific information about the threat or incident necessary to inform parents and safeguard the community as determined by the threat managementassessment team, or other person or entity responsible for parent notification. Such information may include the date and time of the incident, the location and nature of the threat or incident, how and whether the threat or incident was resolved, a description of the suspect (where applicable), crime prevention and safety tips, and crime and threat reporting information. Parental notification should be made in consultation with local law enforcement and first responders in order to avoid compromising the safety of students and the efficacy of the emergency response and investigation.

The District must take into consideration the nature of the reported threat or incident, whether the threat or incident is ongoing or resolved, whether the threat is transient or substantive, and whether there is an imminent threat of harm to students and the campus community. The principal is responsible for the parental notification, which shall be accomplished through an automated messaging system. Parental notification by the principal should be made in consultation with local law enforcement and first responders in order to avoid compromising the safety of students and the efficacy of the emergency response and investigation.

- B. Pursuant to F.S. 1006.07(4), parents of public school students have a right to timely notification of unlawful acts and significant emergencies pursuant to F.S. 1006.07(4), which include weapons possession or use when there is intended harm toward another person, hostage, and active assailant situations; murder, homicide, or manslaughter; sex offenses, including rape, sexual assault or sexual misconduct with a student by school personnel; natural emergencies, including hurricanes, tornadoes, and severe storms; and exposure as a result of a manmade emergency. In the case of an imminent threat of harm to students, including but not limited to an active assailant incident or hostage situation, notification to parents shall be made as soon as practicable upon the determination that a threat occurred but not later than forty-eight (48) hours after the threat. The principal is responsible for the parental notification, which shall be accomplished through an automated messaging system. Pursuant to F.S. 1012.797 and notwithstanding F.S. 1012.31(3)(a)1. and 1012.796(4), within twenty-four (24) hours after notification to the Superintendent or governing board chair of a charter school by a law enforcement agency that an employee has been arrested for a felony or misdemeanor involving the abuse of a minor child or the sale or possession of a controlled substance, the school principal or designee shall notify parents of enrolled students who had direct contact with the employee and include, at a minimum, the name and specific charges against the employee.

~~XVII.~~XVIII. **Charter School Responsibilities to Comply with School Safety Requirements**

Charter schools and their governing boards are responsible for meeting the safety requirements set forth in all State statutes and rules. To ensure that the District School Safety Specialist is able to monitor and report on school safety and security at a charter school, each charter school must cooperate with the District School Safety Specialist's requests for information and access and:

- A. Provide contact information in the manner and frequency required by the District School Safety Specialist;

- B. Timely respond to requests for information and access made by the District School Safety Specialist and the Office of Safe Schools; and
- C. Coordinate with the District School Safety Specialist on curing suspected deficiencies identified by the School Safety Specialist and the Office of Safe Schools.

Prior to contracting for a mobile panic alert system that differs from that used by the charter's sponsor, a charter school must consult with the sponsor on any potential safety impact of using a different system. Charter schools are required to maintain current listings of panic mobile alert systems implemented in their schools. Such list shall include the school name, address, and MSID number, and vendor or application implemented. Charter schools are required to provide such list to the District, in accordance with District directives. Thereafter, charter schools must provide any updated information to the District within two (2) days of a school opening or closing, or when any other change occurs that impacts the accuracy of the information that is submitted by the District to the Office at SafeSchools@fldoe.org. Where a charter school lacks input access to FortifyFL, the charter's governing board must ensure that the information for school listings and school contact are timely provided to the District. A charter school governing board must ensure that FortifyFL contains contact information (telephone number and email address) for a school administrator designated by the governing board or principal to receive tips and notifications from FortifyFL for the charter school. For charter schools that lack input access to the FSSAT, the charter school's governing board must ensure that any information needed for required reporting of safety information within FSSAT is timely provided to the District. Emergency drills conducted at charter schools must be coordinated with the District's School Safety Specialist and documentation must be provided by the charter school to the District's School Safety Specialist, by the method and time, as established by the District's School Safety Specialist. Each charter school must adopt an active assailant response plan and train all school personnel by the beginning of the 2021-22 school year. Charter schools that open after the 2021-22 school year must adopt an active assailant response plan and train all school personnel on the plan before the school opens. Charter school governing boards must comply with District procedures for reporting information on safe-school officer discipline and dismissal, and discharge of a firearm in the exercise of safe-school officer duties occurring while assigned to a charter school.
