ACADEMIR CHARTER SCHOOL EAST AT DORAL (MSID 0412)
FIRST RENEWAL CHARTER SCHOOL CONTRACT

SECTION 1: GENERAL PROVISIONS

This First Renewal Charter School Contract (Contract or Charter) entered into as of the 22nd day of April 2026, between The School Board of Miami-Dade County, Florida, (Sponsor or School Board), and AcadeMir Charter School, Inc., a non-profit corporation organized under Chapter 617, F.S., d.b.a., AcadeMir Charter School East at Doral (MSID 0412) (School). This Contract is limited to the Corporation's AcadeMir Charter School East at Doral (MSID 0412). This Contract is effective upon approval by the parties.

1.1 Approved Application

The official Charter School Application/Renewal Packet approved by the School Board on March 21, 2018, is attached hereto as Appendix A. All attached appendices are incorporated by reference and constitute part of this Charter. In the event of any conflict between the Application and any other provision of this Charter, the Charter provision shall control. In the event the Contract has not been approved/entered into, then the Application will be deemed withdrawn, and no further action will be taken with respect to the Contract.

1.2 Term of Charter

The term of this Charter shall be fifteen (15) years, commencing July 1, 2026, and ending June 30, 2041. The initial contract was approved on May 19, 2021 for a five (5)-year term commencing July 1, 2021, and ending on June 30, 2026. Upon execution of that contract, the school's name was revised from AcadeMir Charter School East, as identified in the approved application, to AcadeMir Charter School East at Doral. In the event of expiration, the term shall be automatically extended on a month-to-month basis until the Charter has been renewed, non-renewed, or terminated by the Sponsor. If the parties cannot reach agreement on the terms of a new contract, either party may request mediation from the Florida Department of Education (FDOE), pursuant to Section 1002.33(7)(b), F.S. If the Commissioner of Education determines that the dispute cannot be settled through mediation, the dispute may be appealed to an administrative law judge appointed by the Division of Administrative Hearings. The administrative law judge has final order authority to rule on the dispute, including whether proposed provisions of the Charter violate the intended flexibility granted charter schools by statute.

1.2.1 Start-Up Date and School Calendar

- (A) **School Opening Date.** For the first year of operating under this Charter, the School shall begin classes on the same day as the Sponsor or at such other time as otherwise determined by the Governing Board. The School cannot open absent submission of all required documents listed in the District's Pre-Opening Checklist (Appendix AA). Pursuant to law, the School may defer the opening of its operations for up to three (3) years to provide time

for adequate facility planning. A charter school that elects to defer opening must provide written notice of such intent to the Sponsor and the parents of enrolled students at least thirty (30) calendar days before the first day of school indicating (1) the deferral status as provided by law, and (2) the proposed first day of school. The first two (2) planning years will extend the term of this Contract. By March 1st of the year they were approved to open, a charter school that indicates they will defer opening must provide the District with a status report to include a timeline of all key operational items and milestones. The charter school shall continue to provide periodic status reports and make allowances for site visits. Failure to open the School: (1) on the day indicated in this Contract, (2) on the day indicated in the school's deferral notice, or (3) after all available deferral years will result in this Contract becoming null and void.

- (B) **Academic Calendar.** For a new charter school, the School's calendar shall be consistent with the beginning of the Sponsor's school calendar for the first year of operation. For every year thereafter, and for all other charter schools, if the School's calendar differs from the Sponsor's public-school calendar, including the instructional days, the School shall provide reasonable notice and submit the proposed calendar to the Sponsor and parents of enrolled students prior to the start of the school year. - (C) **Renewal Packet Submission.** Any charter school seeking renewal shall complete a Charter Renewal Packet as provided by the Sponsor's renewal process.
- (D) **Renewal Term and Approval.** Renewals may be approved for a term up to five (5) years unless another term is mutually agreed upon, required, or allowed by law. The Sponsor may conduct a High-Stakes Review, as needed and/or upon charter renewal, and transmit the findings of the review to the Governing Board of the School. If the term of this Charter exceeds five years, the Sponsor may conduct a High-Stakes Review at least every five years and may transmit the findings of the review to the Governing Board of the School.

1.3 Termination or Non-Renewal

This Contract may be terminated or non-renewed during its term for any reason pursuant to State law or this Contract. Notices of non-compliance, non-renewal, or termination, cancellation and default are issued in accordance with the procedures set forth in this Charter and as otherwise required by law.

1.3.1 Causes for Termination or Non-Renewal

The Sponsor shall make student academic achievement for all students the most important factor when determining whether to renew or terminate this Charter. The Sponsor may choose not to renew or terminate this Charter if it finds that any of the following grounds below exist by clear and convincing evidence, as set forth in Section 1002.33, F.S.

- (i) failure to participate in the State's education accountability system created in Section 1008.31, F.S., as required in this section, or failure to meet the requirements for student performance established pursuant to this Charter;
- (ii) failure to meet generally accepted standards of fiscal management due to deteriorating financial conditions or financial emergencies determined pursuant to s. 1002.345, F.S.;
- (iii) material violation of law;
- (iv) if insufficient progress has been made in attaining the student achievement objectives of the charter and if it is not likely that such objectives can be achieved before expiration of the charter;
- (v) if the School earns two consecutive grades of "F" after all school grade appeals are final except otherwise provided in Section 1002.33, F.S.
- (vi) failure to cure a material breach of any term or condition of this Charter after written notice of non-compliance.

1.3.2 Causes for Immediate Termination

Pursuant to Section 1002.33(8)(c), this Charter may be terminated immediately if the Sponsor determines that an immediate and serious danger to the health, safety, or welfare of the School's students exists. Lack of a facility meeting the requirements of law in which to operate the School may constitute an immediate and serious danger to the health, safety, or welfare of the School's students.

1.3.3 Procedures for Termination or Non-Renewal

- (A) **Sponsor Notification Responsibilities.** The Sponsor shall notify the School's Governing Board and principal in writing at least ninety (90) days prior to non-renewing or terminating the Contract. The notice shall comply with the requirements of Section 1002.33, F.S., state in reasonable detail the grounds for the proposed action and stipulate that the Governing Board may request a hearing within fourteen (14) calendar days of receiving the notice.

- (B) **Hearing Request.** The School's Governing Board may request an administrative hearing before the Florida Division of Administrative Hearings (DOAH). This request must be authorized by a vote of the Governing Board in a legally advertised public meeting with a quorum present. Minutes or an adopted resolution documenting the action must be submitted with the request. The School shall file the request with the School Board Clerk pursuant to School Board Policies 0133, *Quasi-Judicial*, 9800, *Charter Schools*, and Section 120.54(5)(b), F.S. Legally sufficient requests shall be forwarded to DOAH. The DOAH hearing will be conducted pursuant to Florida Statute 1002.33, and Chapter 120, F.S. For purpose of notice, the Charter School's Governing Board is the last roster submitted by the School to the Sponsor.
- (C) **Continued Operations During Proceedings.** The School's Governing Board shall continue to operate the School until a final order terminating the charter is issued, during which time all provisions of this Contract shall remain in effect. The closing date shall be negotiated between the Sponsor and the School, unless otherwise provided for in a final order.
- (D) **Expenditures.** Upon notification of non-renewal or termination, the School may not expend more than \$10,000 per expenditure without prior written approval from the Sponsor unless the expenditure was included within the annual budget submitted to the Sponsor, is for reasonable attorney fees and costs during the pendency of any appeal, or reasonable fees and costs to conduct an independent audit.

1.3.4 Procedures for Immediate Termination

- (A) **Sponsor Notification Responsibilities.** The Sponsor's determination is subject to the procedures set forth in paragraph 1.4.2(A), except that the hearing may take place after the charter has been terminated. Upon immediate termination, the Sponsor shall notify the School's Governing Board chair, principal, and the FDOE in writing, detailing the specific facts and circumstances demonstrating the existence of such danger, explaining why the danger is likely to continue, and stating why immediate termination of the Charter is necessary to protect the health, safety, or welfare of the students, pursuant to Section 1002.33(8)(c), F.S.
- (B) **Hearing Request.** The Sponsor's determination is subject to the 90-day termination procedures in this Charter, except that, upon receiving written notice from the Sponsor, the Charter School's Governing Board has ten (10) calendar days to request a DOAH hearing. The hearing may take place after the charter has been terminated.

- (C) **Operation of the School.** The Sponsor shall assume operation of the school throughout the pendency of the hearing as provided for in Section 1002.33(8)(d), F.S., unless the continued operation of the School would materially threaten the health, safety or welfare of the students. Lack of a facility meeting the requirements of law may constitute a material threat to the health, safety, or welfare of the students. The Sponsor may seek an injunction in the circuit court in which the Charter School is located to enjoin continued operation of the Charter school if continued operation would materially threaten the health, safety, or welfare of the students. If the School has no facility at the time of termination, the Sponsor is not obligated to operate the School.
- (a) **Access to Records and Facilities.** Upon receipt of notice of immediate termination, the School shall immediately provide the Sponsor access to the School's facilities along with security system access codes and access codes for all School-owned or leased computers, software, networking, switching and all other technical systems in the School's facilities or remotely located areas serving the School, and shall make accessible to the Sponsor all student, educational, operational, and administrative records of the School including those held by third parties. Moreover, within two (2) business days, the School shall turn over to the Sponsor all records, information, receipts and documentation for all expenditures of public funds held by the School, including but not limited to Federal grants such as Title I and charter school grants, and grant the Sponsor access to the School's bank accounts which contain public funds, storage facilities, and all public property. The Sponsor shall assume operation of the school throughout the pendency of the hearing as provided for in s. 1002.33(8)(d), Florida Statutes, unless the continued operation of the School would materially threaten the health, safety or welfare of the students. Failure by the Sponsor to assume and continue operation of the School shall result in the awarding of reasonable costs and attorney's fees to the School if the School prevails on appeal. If the School prevails in an appeal through a final adjudication by an administrative law judge or by a final adjudication and mandate by the appellate court if an appeal to the appellate court is filed, the Sponsor shall, immediately, return to School all keys, security codes, all educational and administrative records of the School, and the School's facility. In that case, the

School's Governing Board shall resume operation and oversight of the School.

- (b) **Employees of the School.** The School's instructional and operational employees may continue working in the School during the time that the Sponsor operates the School at the Sponsor's option but will not be considered employees of the Sponsor. Any existing employment contracts that any School personnel may have with the School may not be assumed or transferred to the Sponsor or any entity created by the Sponsor during the assumption of operations of the School unless the Sponsor or its entity, and the School, agree otherwise. The Sponsor may take any appropriate personnel action regarding the School's employees.
- (c) **Disbursement of Funds.** The Sponsor shall only disburse school funds in order to pay the normal expenses of the School as they accrue in the ordinary course of school business. The Sponsor is not required to use its own funding resources to pay the School's debts.

1.3.5 School Election to Terminate or Non-Renew

If the School elects to terminate or non-renew the Charter, it shall provide reasonable prior notice of the election to parents of enrolled students, the Sponsor, and the FDOE, indicating the final date of operation as voted by the Governing Board at a publicly noticed meeting. A board resolution, signed by the School's Governing Board chair and secretary indicating support of this action, shall accompany the written notification provided to the Sponsor. The School agrees that such notification shall be considered a voluntary termination by the Governing Board and a waiver of its right to a hearing or appeal and that this voluntary termination shall not be reversed. Additionally, all post-termination provisions incorporated in this Contract shall apply.

1.3.6 Removal of Public Property

Upon notice of termination or non-renewal, the School shall not remove any public property, as defined in this Contract, from the premises without written Sponsor approval.

1.4 Post-Termination Provisions

1.4.1 Dissolution of School

The School shall be dissolved under the provisions of law under which the School was organized. Copies of all administrative, operational, and financial records of the School shall be provided to the Sponsor on or before the date the termination/non-renewal takes effect. The School shall also provide to the Sponsor the School's security system and technology access codes.

1.4.2 School Debt

If this Charter is not renewed or is terminated, the School shall be responsible for all the debts of the School. The Sponsor shall not assume the debt from any contracted services made between the Governing Body of the School, the Management Company, and/or third parties, including lease or rental agreements, except for a debt previously detailed and agreed upon, in writing, by both the Sponsor and the Governing Board and that may not reasonably be assumed to have been satisfied by the Sponsor. In no event shall the District be responsible under any assignment of a lease for any debts or obligations of the School incurred prior to such assignment.

1.4.3 Leases with the District

In the event of termination or non-renewal of this Charter, any and all leases existing between the District and the School shall be automatically cancelled, unless the lease provides otherwise.

1.4.4 Student Transfers and Records

In the event of termination or non-renewal, any students enrolled at the School may be enrolled at their home District school, or any other school, consistent with the District's student transfer procedures including transfer of all student records to the receiving school. All assets of the School purchased with public funds (except for capital funds and federal charter school program grant funds), including supplies, furniture and equipment, shall automatically revert to full ownership by the Sponsor, subject to complete satisfaction of any lawful liens or encumbrances. Any unencumbered public funds from the School, Sponsor property and improvements, furnishings, and equipment purchased with public funds, or financial or other records pertaining to the School, in the possession of any person, entity, or holding company, other than the School, shall be held in trust upon the Sponsor's request, until any appeal is resolved, and proper distribution of the property is determined. If the School's accounting records fail to clearly establish whether a particular asset was purchased with public funds, then it shall be presumed public funds were utilized and ownership of the asset shall automatically revert to the Sponsor (subject to any lawful liens and encumbrances). Property and assets purchased with public funds shall be defined as those goods purchased with grants and funds provided by a governmental entity. Public funds provided by the School and used by a management company to purchase property and assets for the School are

considered public funds.

1.4.6 Final Audit

Pursuant to s. 1002.33, F.S., upon notice of non-renewal, closure, or termination, an independent audit shall be completed within thirty (30) days to account for all public funds and assets. During the fiscal year in which termination or non-renewal occurs, the School Board of Miami-Dade County shall withhold from the School's Florida Education Finance Program (FEFP) funds, without penalty or interest, an amount necessary to pay for a final independent financial audit of the School. The audit shall be conducted by an independent certified public accountant.

2.1.2 Academic Student Performance Data

By September 15 of each year, the Sponsor shall provide the School with access to academic student performance data on state required assessments for each student attending the School that was enrolled the prior year in another public school, pursuant to s. 1002.33(7)(a)3., Florida Statutes.

The academic achievement goals shall include, at a minimum, growth and proficiency on state assessments, and may include performance on additional assessments included in the approved Application. If the School will not serve students in grades that participate in the statewide assessments the academic achievement goals shall be based on the assessments included in the approved application, and at least one assessment administered in traditional public schools in the District.
- (B) **Subsequent Charter Years.** By October 15 of the second year of the School's operation, the School shall provide its proposed academic achievement goals for the remaining years of the Charter, up to a maximum of four years or the end of the current Charter term, whichever occurs first, using the same parameters and testing set forth in this Contract. Schools that have contracts in excess of five years shall resubmit proposed academic achievement goals every four years pursuant to the process described in this paragraph.
- (C) **Sponsor Review.** The Sponsor shall review the proposed academic achievement goals within 30 days of receipt. If the Sponsor does not accept the proposed academic achievement goals, it shall provide the School a written explanation. If the Sponsor does not respond within 30 days of receipt, the academic achievement goals are deemed accepted. If the School and Sponsor cannot agree on academic achievement goals, either party may request mediation pursuant to Section 1002.33(6), F.S. The goals may be adjusted at any time upon mutual written consent of both parties.

- (D) **Governing Board Approval.** The School’s Governing Board shall review and approve the goals and objectives prior to its final submission. Minutes documenting approval must be taken and posted on the School’s website pursuant to Section 1002.33(9)(p)1.
- (E) **Performance Reporting.** Annually, the School shall report its performance against the academic goals in the format requested by the Sponsor. The School agrees to allow the Sponsor reasonable access to its facilities and records to review its data sources in order to assist the Sponsor in making a valid determination about the degree to which student performance requirements have been met, as stated in this Charter, and as required by Sections 1008.31 and 1008.345, F.S. Furthermore, the School shall allow the Sponsor to collect data through other means such as survey to conduct required research and/or evaluations. The Sponsor shall not impose additional reporting requirements on the School without providing reasonable and specific justification in writing to the School and the School shall provide required responses/data within the timelines that allow the Sponsor to meet required deadlines. If the School falls short of the academic achievement goals set forth under the provisions of this Charter, the Sponsor shall report such shortcomings to the School’s Governing Board and FDOE. The School and Sponsor may agree to adjust the goals through the same process set forth in this Section. Failure to make sufficient progress in attaining the student achievement objectives of the Charter, and it is not likely that such objectives can be achieved before expiration of the charter term, may constitute good cause for termination or non-renewal of this Charter.

by the Governing Board and the Sponsor. Upon approval by the Sponsor, the charter school shall begin implementation of the SIP.

However, the School must continue implementing the strategies outlined in its school improvement plan, subject to annual monitoring by the Sponsor.
- (C) **Waiver and Termination.** The Sponsor may waive the corrective action annually if it determines that the School is likely to improve its grade with additional time to implement strategies outlined in the school improvement plan. However, a school earning two consecutive grades of "F" is subject to immediate interventions under subparagraph 3. The School is no longer required to implement a corrective action if it improves its grade to a "C" or higher. However, the School must continue implementing strategies identified in its school improvement plan and the sponsor must annually review the School's implementation of the plan to ensure continued improvement.
- (D) **Selection of a New Corrective Action.** If the School fails to improve to a grade of "C" or higher after two full school years of implementing a

corrective action, the Governing Board must select a new corrective action to begin the following school year unless the Sponsor determines that additional time is likely to result in the School achieving a “C” or higher under the existing corrective action.

- (E) **Immediate Interventions.** Notwithstanding this subparagraph, a school earning two consecutive grades of “F” while implementing a corrective action is subject to immediate interventions under Section 1002.33(9)(n)3, F.S.

(A) Dual Enrollment Articulation Agreements. If the School chooses to provide a DE program, it shall develop and implement all Dual Enrollment

Articulation Agreements between the School and postsecondary institutions as required by law. The School shall also develop and implement a plan to inform all secondary students and their parents of dual enrollment opportunities as an educational option and mechanism for acceleration and shall ensure that dual enrollment courses taught on the high school campus will not be combined with any high school course. This agreement shall include the method of payment between the School and the postsecondary institution and shall be submitted annually to the Florida Department of Education and the Sponsor by August 1st.

- (B) **Eligible Institutions.** Pursuant to Section 1011.62, F.S., an eligible college or university that is accredited by a regional or national accrediting agency recognized by the United States Department of Education, which confers degrees as defined in Section 1005.02, F.S., shall be eligible to offer authorized dual enrollment programs.
- (C) **Funding.** Eligible students enrolled in a DE or early admission program through Florida College System institutions or other state universities are exempt from the payment of tuition and fees, pursuant to Section 1009.25, F.S. The fee exemption includes application, tuition, laboratory fees, and textbook fees for courses taken through dual enrollment. The School is responsible for paying all tuition and fees to the postsecondary institution for dual enrollment courses. The School is also responsible for paying for all dual enrollment instructional materials.
- (D) **Fees.** If the School offers AP/IB/AICE/DE courses, it shall not charge any fees for participation, textbooks, instructional materials, or examinations for any AP/IB/AICE/DE courses in which students are enrolled.
- (E) **Professional Development.** If the School offers AP/IB/AICE/DE courses, it shall provide all AP/IB/AICE/DE teachers with training and professional learning opportunities as required by the AP/IB/AICE/DE syllabus.

2.6 Student Promotion and Graduation

2.6.1 Student Progression Plan

The School will adopt, and implement with fidelity, the Sponsor's student progression plan (Appendix D) in effect for the current operational year. If the School elects to develop and adopt its own plan, it must secure approval from its Governing Board before submitting the plan to the Sponsor for approval. Once approved, the plan shall be attached herein as Appendix E. If the School opts to develop and implement their own SPP, the School shall establish a policy for determining that a student has satisfied the requirements for graduation that is consistent with the provisions of Florida law and shall inform the Sponsor of this policy and/or any changes to a previously adopted policy at least one (1) month

prior to the beginning of the school year. The School's student promotion policy shall be consistent with the provisions of the Application and applicable Florida law. Failure to comply with this provision may result in withholding of Full-Time Equivalent (FTE) until compliance.

2.6.2 Student Course Codes

The School shall follow the State's and/or Sponsor's Elementary School Academic Programs Course Codes and/or Authorized Courses for Secondary Schools, as appropriate.

2.6.3 Graduation Requirements

The School's policy for determining that a student has satisfied the requirements for graduation shall be consistent with the provisions of Florida law.

2.6.4 Accreditation

Secondary schools shall notify the parent and students of the School's accreditation status and the implications of non-accreditation in (a) the School's student enrollment form; (b) the Parent/Student Handbook; and (c) and Parent/Student contract. The notification must also be prominently displayed at all times on the School's website.

2.6.5 Compliance with Student Progression Requirements

Failure of secondary charter schools to comply with applicable Sections of 1003.42 and 1008.25, F.S. (Public School Student Progression; Student Support; Reporting Requirements) may constitute good cause for termination of this Charter.

2.7 English Language Learners

2.7.1 Plan Adoption and Approval

The School will adopt the District's English Language Learners Plan (Appendix F) in effect for the current operational year, and which meets the requirements of the League of United Latin American Citizens (LULAC) et al. v. State Board of Education Consent Decree. If the School elects to implement its own plan, approved by its Governing Board, it is attached hereto as Appendix G. The plan must include sufficient information and detail to allow the Sponsor to determine legal sufficiency.

2.7.2 Services for English Language Learners

Students at the School who are English Language Learners (ELL) will be served by English for Speakers of Other Languages (ESOL) endorsed or certified personnel. Failure to comply with all applicable laws ordinances, and codes of Federal, State, and locale governance including, without limitation, the Individuals with Disabilities Education Act (IDEA) and applicable laws relating to English Language Learners (ELL) if not timely cured after written notice constitutes good cause for termination of this Charter.

2.8 Exceptional Student Education

2.8.1 Program Requirements

Exceptional students shall be provided with programs implemented in accordance with applicable Federal, state, and local policies and procedures; and, specifically, the Individuals with Disabilities Education Act (IDEA), Section 504 of the Rehabilitation Act of 1973, Sections 1000.05 and 1001.42(4) (l) of the Florida Statutes, and Chapter 6A-6 of the Florida Administrative Code. Students with disabilities will be educated in the least restrictive environment and will be segregated only if the nature and severity of the disability is such that education in regular classes with the use of supplementary aids and services cannot be achieved satisfactorily. The School must maintain a continuum of ESE placements as indicated in the School's approved Application and Renewal Packet.

2.8.2 Non-Discrimination and Admission Procedures

The School shall not discriminate against students with disabilities in placement, assessment, identification, selection, or admission. The School shall not request a student's IEP, EP, Section 504 Plan, or other information regarding a student's special needs prior to or during the application and lottery process, nor shall the School access such information prior to or during the application and lottery process. Only schools that serve exclusively students with disabilities may request the IEP, EP, or Section 504 Plan as part of the application and lottery process to determine whether the services are compatible with the School's programmatic model.

2.8.3 Individualized Education Plans (IEPs) and 504 Plans

The School shall conduct Individual Educational Plans (IEPs) for eligible students, to include an annual IEP meeting with the eligible student's family. Upon enrollment, or notice of acceptance sent to the student, the School may request from the District information related to the student's program and needs, including the student's most recent IEP, which shall be provided within ten (10) days.

2.8.4 Student Placement and Referral

If the School determines, upon review of the IEP, that the student's needs cannot be met at the School, the School shall contact the Sponsor's District Staffing Specialist assigned to the School for assistance with an appropriate school assignment in accordance with this Contract. After enrollment, any student who is suspected of having a disability must be referred for evaluation in accordance with this Contract, and if eligible for services pursuant to IDEA or Section 504, an appropriate IEP or Section 504 plan must be developed before the student is referred to the District for consideration of another school assignment. The Sponsor shall be invited to and may attend the meeting, at which time the IEP team shall determine whether the School is an appropriate placement for the student.

2.8.5 Civil Rights Complaints and Investigations

If the School receives a complaint filed or becomes aware of an investigation with the U.S. Office of Civil Rights (OCR) or any other governmental entity and the complaint or investigation relates to the School and could involve the Sponsor, the School shall, within one (1) school day, notify the Sponsor and provide the Sponsor any documentation from the agency (except where to give such notice would violate the law or the directions of the investigating government entity). The School shall fully cooperate with the Sponsor during any investigation and/or proceeding by the OCR or any other governmental entity that could involve the Sponsor, including providing the Sponsor with a draft response to OCR and providing all necessary relevant information and supporting documentation, and making staff available for interviews, as deemed necessary. If the written information on the complaint does not allege, or it cannot be inferred from the facts given, an allegation against the Sponsor of: (1) discrimination based on race, color, national origin, sex, disability or age, (2) discrimination in violation of the Boy Scouts of America Equal Access Act of 2001, or (3) retaliation for the purpose of interfering with any right or privilege secured by the civil rights laws and regulations enforced by OCR, or as a result of making a complaint, testifying, or participating in any manner in an OCR proceeding, the School shall submit the final version of the response directly to OCR on its own behalf with a copy provided to the Sponsor. The School shall bear all costs, fees, reimbursements, and compensatory education associated with the investigation, including any incurred, agreed upon or awarded. Notwithstanding the aforementioned, the Sponsor shall assume or reimburse the costs attributable to, caused by or through the fault of the Sponsor, if any. Failure of the school to pay the costs, fees, reimbursements, and compensatory education within a reasonable time after the expiration or exhaustion of any appeals will result in the Sponsor deducting any amount owed from the School's FTE payments.

2.8.6 Sponsor Responsibilities

The Sponsor shall provide ESE administration services to the School, pursuant to Section 1002.33, F.S.

- (A) Student Evaluations.** The Sponsor shall conduct initial evaluations of students referred for potential Exceptional Student Education, Gifted, Section 504 eligibility, and for the re-evaluation of Exceptional Student Education students, in accordance with Federal and State mandates. All requirements for Response to Intervention (RtI) must be followed by the School with fidelity prior to and during the evaluation process. The School and/or parents may obtain private evaluations of students at their expense. These evaluations must be considered in determining eligibility but will not

necessarily substitute for an evaluation conducted by the Sponsor's personnel in a manner and timeframe consistent with that of all of the other Sponsor's schools.

- (B) **Initial LEA Representation.** A representative of the Sponsor shall serve as the Local Education Agency (LEA) Representative in all initial IEP, EP, and Section 504 Plan meetings. However, the administrator or designee in charge at the School will serve as the LEA Representative at all other annual and interim IEP, EP, and Section 504 meetings, which the School shall conduct.
- (C) **Compliance Monitoring.** The Sponsor will monitor the School for ESE compliance with applicable Federal, State, and local policies and procedures as outlined in the Exceptional Student Education Policies and Procedures (SP&P) (Appendix H). Failure to comply with Federal, State, or local law or policy, after notice and a reasonable opportunity to cure, may result in the Sponsor withholding FTE funding from the School until compliance is achieved.

2.8.7 School Responsibilities

- (A) **Disability Disclosure and Placement Determination.** The School shall not inquire about a student's disability status prior to registration/enrollment or notice of acceptance. No later than the tenth day of the student's attendance after the point of registration/enrollment or notice of acceptance, the School shall notify the Sponsor's District Staffing Specialist assigned to the School if the IEPs, EPs, or Section 504 Plans of students who have applied and been accepted cannot be implemented at the School. The Sponsor shall be invited to and may attend the meeting, at which time the IEP team shall determine whether the School is an appropriate placement for the student. If a student's IEP, EP, or Section 504 Plan can be implemented at the School, based on the continuum of services as outlined in the application or as revised by a modification to this Contract, the student shall not be required to attend another school. All IEP changes of placement shall be based upon data and student needs.
- (B) **Student Support and Evaluation Protocols.** The School shall initiate all Request for Assistance (RFA) and Student Support Team (SST) meetings when concerns are raised by school staff or parents about student's functioning. When a student is suspected of having a disability, the School shall make a written request to obtain parental consent for evaluation for referral to the Sponsor. If parental consent is denied or the parent fails to respond, the School must notify its legal counsel and the Sponsor for consideration of pursuing evaluation by using the mediation or due process

procedures. The School shall fully implement the required RtI, IEPs, EPs, Functional Behavioral Assessments (FBA)/Social Emotional Behavior Intervention Plans (SE-BIP) and Section 504 Plans of enrolled students, including delivery of supplementary aids and services and related services, unless the IEP, EP, or Section 504 team determines that the student's needs cannot be met at the School and placement at another school within the Sponsor's district constitutes the least restrictive environment on the continuum of alternative placements. The School must follow all disciplinary procedures and policies relevant to students with disabilities, including implementation of FBAs/SE-BIPs and manifestation determinations. In no instances should a student's IEP, EP, or Section 504 services or placements be changed solely for the purpose of accommodating the School's placement options.

- (C) **Delivery of Educational Services and Equipment.** The School shall deliver all educational related services and equipment indicated on the student's IEP, EP, or Section 504 Plan unless a determination has been made by the School and the Sponsor that the student's IEP cannot be implemented at the School. The School shall also provide related services and equipment, e.g., speech/language therapy, occupational therapy, physical therapy, nursing, counseling, assessment instruments, assistive technology devices, transportation and therapeutic equipment.
- (D) **Evaluations and Service Delivery.** The School shall conduct the evaluations of the School's students referred for Physical Therapy (PT), Occupational Therapy (OT), Speech and Language (SL), Nursing, Assistive Technology (AT) and Functional Behavior Assessment (FAB) services with personnel qualified in accordance with State of Florida regulations and in accordance with Response to Intervention requirements. If the student is determined eligible for these services and they are added to the student's IEP or Section 504 Plan, the School shall be responsible for the provision or delivery of required services to the student. The School shall ensure that the person(s) conducting evaluation(s) attend an IEP meeting to review the evaluations when eligibility for services is determined. All evaluations must include a review of the student's educational records, including but not limited to IEP or Section 504 Plan; identification and development of goals to be supported by PT, OT, SL behavioral intervention and/or assistive technology, and/or nursing; a treatment plan for the student; and reference to supporting medical documentation if applicable. The School shall ensure that all instructional personnel and service providers review and implement the student's IEP. The School shall ensure that all service providers

contribute to the student's annual and interim IEP meetings either in writing, by telephone, through electronic means, via video conferencing, or in person. Service providers must also contribute to status reports and updates on the student's IEP goals and benchmarks related to their areas of treatment. The School shall require all service providers to the student to attend orientation and in-service training on delivery of school-based services and how to support educationally relevant IEP goals. The Sponsor shall provide the orientation and in-service training. The Sponsor may conduct periodic reviews of the paperwork prepared by the service providers providing services to such students.

- (E) **Independent Educational Evaluations.** The School shall immediately notify the Sponsor if a parent requests an Independent Educational Evaluation (IEE) at public expense and work with the Sponsor to determine whether the IEE will be granted, or a due process action will be filed to defend the School's/Sponsor's evaluation. Responsibility for IEE due process litigation will be apportioned according to the type of evaluation at issue and in accordance with this Contract.
- (F) **Compliance with IDEA, Section 504, and EP Regulations.** The School shall comply with the requirements of the IDEA, Section 504, and regulations as they relate to the student's IEP/Section 504 Plan, and/or EP. The School shall ensure that the appropriate highly qualified instructional personnel of the School that are required members of the IEP committee attend all IEP, Section 504 and/or EP meetings.
- (G) **Policy for Service Animal Requests.** The Governing Board shall adopt a policy and procedure for consideration of service animal requests made to the School.
- (H) **Least Restrictive Environment.** Exceptional students shall be educated in the least-restrictive environment. Students whose needs cannot be appropriately addressed at the School as determined by an IEP, EP, or Section 504 team meeting held after enrollment, will be appropriately referred to the student's home school. The School shall contact the Sponsor's District Staffing Specialist assigned to the School and/or the Sponsor's Office of Exceptional Student Education to notify staff that the student has been referred to their home school.
- (I) **Professional Development Requirements.** The School shall make its personnel aware of professional development opportunities offered by the Sponsor's Office of Exceptional Student Education and Psychological Services departments. In addition, the School shall require all personnel assigned to implement IEPs, EPs, and Section 504 Plans to participate in

meetings and/or trainings required by the Sponsor's Office of Exceptional Student Education and Psychological Services departments.

- (J) **Enforcement of Compliance.** Failure to comply with federal, state, or local law or policy, after notice and a reasonable opportunity to cure, may result in the Sponsor withholding FTE funding from the School until compliance is achieved.

2.8.8 Due Process and Dispute Resolution Procedures

- (A) **Filing and Notification.** A student, parent, or guardian who indicates that they wish to file for a due process hearing, pursuant to State law and rules shall be given the appropriate forms by the LEA attending the meeting. These forms shall also be provided upon request at any other time. Parents must file due process hearing requests with the School Board Clerk pursuant to School Board Policy 0133, *Quasi-Judicial Functions*, and the procedural safeguards posted on the Sponsor's Exceptional Student Education website. Any due process requests received by the School must be forwarded to the Sponsor's ESE Director and legal counsel on the same business day. The Sponsor's legal counsel will ensure that all ESE due process hearing requests/complaints are filed with the Florida Division of Administrative Hearings (DOAH) and place the School on notice of the complaint. With regard to Section 504 due process requests, the Sponsor's legal counsel will evaluate the due process request and work with the School's legal counsel to determine the proper course of action in accordance with the School's and the Sponsor's procedural safeguards and hearing procedures.
- (B) **Review, Representation and Cost Responsibilities.** The Sponsor will review the due process complaint and hold an initial meeting to analyze the merits of the complaint. The School must select its own legal counsel to consult and cooperate with the Sponsor's legal counsel. The School's legal counsel will file a Notice of Appearance before the Division of Administrative Hearings within ten (10) days of the filing of the due process complaint. The School's legal counsel will participate in the initial strategy meeting with the Sponsor. Prior to the meeting, the School shall forward all relevant documentation to the Sponsor's legal counsel. Final decisions on legal strategies shall be made by the Sponsor's attorney in consultation with the School. The Sponsor's legal counsel will represent the Sponsor on all claims brought by parents related to evaluations referenced in this Contract. The School's legal counsel shall represent the School on claims related to all other evaluations, including at the School's election when the parent refuses to consent or fails to respond to the School's request for consent to evaluate. At the election of the Sponsor's legal counsel, if the School elects

not to pursue a claim regarding parental refusal/failure to provide consent to evaluate, the Sponsor may elect to pursue the claim after consultation with the Sponsor's counsel. The Sponsor's legal counsel will represent the Sponsor in all cases where a District employee fulfills the role of the LEA at the staffing/IEP meeting. The School's legal counsel will represent the School on all claims related to implementation of RtI, IEPs, Section 504 Plans, EPs, Manifestation Determination decisions, and where a School employee fulfills the role of the LEA at the staffing/IEP meeting. Claims related to IEPs will be represented by counsel for whichever party is responsible for the type of evaluation at issue. The Sponsor's legal counsel will seek a dismissal of the Sponsor with regard to claims over which the Sponsor had no role (e.g., implementation claims). However, if the dismissal is denied, the Sponsor's counsel will continue to provide recommendations and work with the School's counsel as co-counsel on the pending case. The School shall pay all costs associated with the administrative due process hearing, legal representation, discovery, court reporter, and interpreter and all appeals. In the event that the student, parents, or guardians prevail, either through a hearing, court action, or settlement, the School shall pay any and all attorneys' fees, reimbursements, compensatory education and any other costs incurred, agreed upon or awarded; however, the District shall assume or reimburse the costs of the defense attributable to, caused by or through the fault of the District, if any, as outlined above. Any costs, fees, or other expenses incurred, as set forth in this paragraph, will be automatically reduced from the FTE funds passed through the Sponsor to the School, without any penalty of interest, although the School may request, and the parties agree to a payment plan.

- (C) **Participation in Resolution and Mediation Sessions.** The School must designate an administrator and relevant members of the IEP team to attend a resolution or mediation session conducted by the Sponsor's due process team. The School's legal counsel and the Sponsor's legal counsel may participate in the resolution session only if the parent is an attorney or is represented by an attorney. If the Sponsor and the School elect to participate in mediation in lieu of a resolution session, the Sponsor's due process team will invite the legal counsels of the Sponsor and the School.
- (D) **Post-Mediation Recommendations and Cost Responsibilities.** Following the resolution session/mediation, the School shall review the recommendations of the Sponsor's due process team with their legal counsel and communicate in writing the School's position on resolution/settlement to the Sponsor's due process team. If the School opts

not to follow the recommendations of the Sponsor's due process team, the School will incur all costs associated with subsequent court orders as set forth in this Contract.

- (E) **Resolution and Advancement of Due Process Hearings.** If the matter is resolved by a written agreement, the Sponsor's legal counsel will file the appropriate motions for dismissal and closure of the case. If the matter is not resolved, the legal counsel of the Sponsor and the School shall ensure that representation in the due process hearing proceeds in accordance with this Contract and the procedural safeguards posted on the School's and/or Sponsor's Exceptional Student Education website. The School and the Sponsor shall each make available to participate in all necessary stages of the litigation all staff who participated in any evaluation or reevaluation, the preparation of any IEP, the implementation of any IEP that may be at issue in the hearing.

2.8.9 Reimbursement for Services

Under the Medicaid Certified School Match Program, the School may be eligible to seek reimbursement for certain services provided to Medicaid-eligible students who qualify for services under the IDEA, Part B or C. In order to seek reimbursements, the School shall follow the procedures established by the state agency which administers the program for Medicaid-reimbursable services to eligible students at the School.

2.8.10 Services Covered by the Administrative Fee

The Sponsor shall provide Exceptional Student Education administration services to the School, pursuant to Section 1002.33, F.S.

SECTION 3: ENROLLMENT AND STUDENT SERVICES

3.1 Grades Served

The School is authorized to serve Grades K – 5

3.2 Recruitment and Admissions

3.2.1 Recruitment

The School shall make reasonable efforts, in accordance with federal law, to achieve a racial or ethnic balance reflective of the community it serves or within the racial/ethnic range of other nearby public schools. The School shall recruit throughout all segments of the community and provide outreach materials in multiple languages appropriate to the geographical location of the Charter School. This may include direct mailings, public advertisement utilizing the local and community press and informational meetings at a variety of locations using both English and other languages where appropriate. Student recruitment and promotional efforts, materials, and activities shall be conducted so as not to exclude

or limit opportunities on the basis of race, sex, national origin, marital status or disability.

3.2.2 Non-Discriminatory Admission and Non-Sectarian Policies

The School shall be non-sectarian in its programs and admissions policies. The School shall be open to any student residing in Miami-Dade County and to students in other districts. Admission or dismissal must not be based on a student's academic performance. The School will accept all eligible students in accordance with Federal and State anti-discrimination laws and in accordance with the Florida Educational Equity Act, Section 1000.05(2) (a), F.S. The School will not discriminate on the basis of race, gender, ethnicity, religion, national or ethnic origin or disability in the admission of students. The School shall implement the enrollment policies and procedures and lottery process, as described in the approved Application. The School may not request, prior to enrollment or notice of acceptance, through the application or otherwise, information regarding the student's academic history, record of standardized testing performance, juvenile or disciplinary history or status, a student's Individual Education Plan (IEP), Education Plan (EP), Section 504 Plan, English Language Learner (ELL) Plan or other information regarding a student's special needs or use such information as a basis to deny or revoke enrollment. The School shall not access, directly or through a third party, any of the Sponsor's student information unless and until the student actually enrolls in the School. Violation of this provision constitutes good cause for termination.

Failure to accept all eligible students in accordance with Federal and State anti-discrimination laws and in accordance with the Florida Educational Equity Act, Section 1000.05(2)(a), F.S. constitutes good cause for termination of this Charter.

3.2.3 Lottery and Wait List Documentation

The School shall clearly indicate in its Policies and Procedures the lottery procedures and enrollment preferences the School will utilize. If the number of applications exceeds the capacity of the program, class, grade level, or building, all applicants shall have an equal chance of being admitted through a random selection process. The School shall maintain documentation in accordance with applicable Florida record retention laws for each enrollment lottery conducted, as well as any student wait lists that are generated and make them available to the Sponsor upon request. Lottery documentation shall be sufficient to allow the Sponsor to verify that the random selection process was fair, equitable, and in compliance with applicable State statutes. At a minimum, the following documentation shall be maintained and available to the Sponsor upon request at all times:

- (i) official current policies, processes, and timelines related to the enrollment lottery and wait list and documentation showing that the School's Governing Board adopted them at a regular public meeting;
- (ii) copies of student enrollment applications, any marketing materials, and all other enrollment materials;
- (iii) evidence of compliance with all policies, processes, and timelines approved by the Governing Board, and related to the application, lottery and wait list notification;
- (iv) evidence that the lottery process was posted on the School's website and clearly communicated to the public at large;
- (v) evidence that outreach materials have been communicated in multiple languages; and,
- (vi) copies of any wait lists, documents showing how the list was developed and any other evidence that complies with the approved policies, processes, and timelines.

3.2.4 Articulation Agreements Between Charter Schools

As required by State law, articulation agreements must be approved by the Sponsor prior to implementation. CSCS is authorized to approve articulation agreements that:

- (i) identify the sending school and receiving school;
- (ii) are approved by resolution of the governing board(s) of the participating schools at a regular public meeting prior to presentation to the Sponsor;
- (iii) implement standard vertical matriculation patterns (e.g., elementary to middle school, middle school to high school, K-8 to high school); and,
- (iv) do not negatively impact a student's opportunities to exercise school choice.

3.3 Enrollment

3.3.1 Preferences

The School may provide enrollment preferences pursuant to Section 1002.33(10)(d) F.S. and may otherwise limit enrollment to target those student populations identified in Section 1002.33(10)(e) F.S. and identified in the approved application.

3.3.2 Consent

To enroll a student, the School must obtain proof of consent from the student's parent or guardian, or from the student if the student is eighteen (18) years of age or older. The Charter School may not transfer an enrolled student to another charter school having a separate Master School Identification (MSID) Number without first obtaining the specific written approval of the student's parents/guardians before each transfer. General consent for student transfer is prohibited (e.g., consent included in a parent contract). A student may withdraw from the School at any time

and enroll in another public or private school, as determined by District policy. The School shall work in conjunction with the parent(s)/guardian(s) and the receiving school to ensure that such transfers minimize impact on the student's grades and academic achievement. Failure to obtain proof of consent to enroll, withdraw, or transfer each student from the student's parent/guardian or from the student, if the student is eighteen (18) years of age or older constitutes good cause for termination of this Charter.

3.3.3 Capacity and Class Size Requirements

Following is the student enrollment breakdown:

Years 1-15: 2026 – 2041 Grades K – 5, up to 650 students

The School shall comply with class size restrictions as required by law. The enrollment capacity shall be annually determined by the Charter School Governing Board in conjunction with the Sponsor based on factors set forth in Section 1002.33(10)(h), F.S. The School shall not enroll students in excess of the physical capacity of the building except as otherwise provided by law for schools operating multiple sessions, in which case the physical capacity of the School shall not be exceeded during any session. The Annual Enrollment Capacity of a high-performing school shall be determined by the Governing Board. No later than March 1st of each year, the School shall provide the Sponsor the proposed enrollment capacity for the subsequent school year. Monthly FTE payments shall be withheld, without interest, for students in excess of the School's annual enrollment capacity, as defined by the Contract. Failure to comply with maximum class size restrictions as required by law may constitute good cause for termination of this Charter. In the event the School defers its opening, in the student enrollment breakdown referenced in this paragraph, the initial term of the Contract shall be adjusted as permitted by law.

3.3.4 Projections

- (A) Preliminary Enrollment Projection.** If requested, no later than November 1st of each year, the School shall provide to the Sponsor the School's preliminary projected enrollment for the following school year. The preliminary projected enrollment shall not constitute a cap on the School's enrollment for the following school year.
- (B) Final Enrollment Projection.** The Sponsor may request that the School provide final enrollment projections for the upcoming school year no later than July 15th of each year. Final enrollment is not annual capacity, but the school's projection of how many students will be enrolled when the school year begins. The School shall not project enrollment or enroll students in excess of the physical capacity of the building, unless the School operates

multiple sessions, in which case the physical capacity of the School shall not be exceeded during any session.

3.3.5 Minimum Enrollment Requirements

Each year, the School agrees to enroll an eligible student by accepting a timely application through deadlines as determined by the Governing Board and publicly advertised. If the target goal of students is not met by the deadline, and the School wishes to extend, the School will give sufficient public notice and extend the application deadline for a set time as determined and publicized by the Governing Board. If, at the 10-day count, the registered enrollment as reflected in the Sponsor's data system is less than 75 percent of the School's total projected enrollment as described in either the approved Application for the first year or as determined under the provisions of this Charter, the School shall, upon written request by the Sponsor, submit a revised budget within thirty (30) days taking into account the reduced enrollment. Failure to provide the revised budget may constitute good cause for termination. The School's minimum enrollment for the first year of operation is N/A. The parties agree that this is the minimum enrollment that will support the School's operations. Failure to achieve the minimum enrollment by the October FTE reporting period for the first year of operation constitutes good cause for termination or non-renewal unless the School provides the Sponsor a revised and balanced budget and a cash flow statement that are realistic and reasonable within fifteen (15) calendar days of the October FTE reporting period. A budget to support this minimum enrollment is provided in the Budget for Initial Year of Operation Based on Minimum Enrollment (Appendix I).

3.3.6 High-Performing Charter Schools

A high-performing charter school must have documentation from the Commissioner of Education designating the School as high-performing pursuant to Section 1002.331, F.S. A high performing charter school shall notify the Sponsor in writing by March 1st of the preceding year if it intends to increase enrollment beyond the enrollment stated in this charter and/or to expand grade levels the following year. The School shall not, however, enroll students beyond the facility capacity at the time the enrollment increase will take effect. The written notice shall specify the amount of the enrollment increase, the grade levels that will be added, and evidence of the official facility capacity at the time the enrollment increase will take effect. To increase enrollment and add grade levels, this Contract must be amended through the Sponsor's current charter amendment process for these types of amendments in School Board Policy 9800, *Charter Schools*, except that the Sponsor shall modify the charter within 90 days to include the new enrolment maximum and may not make any other change. Failure to provide timely notice to the Sponsor shall preclude the School from increasing enrollment or expanding

grade levels.

3.3.7 Dispute Resolution

Disagreements between the Sponsor and the School relating to enrollment capacity will be resolved through dispute resolution pursuant to Section 1002.33, F.S.

3.3.8 Application and Enrollment Documentation

The School must maintain appropriate enrollment and student application documentation.

3.4 Withdrawal Policies and Procedures

3.4.1 Involuntary Student Withdrawal

The School will ensure that no pressure, coercion, negotiation, or other inappropriate inducement may be used to attempt to have parents or guardians withdraw students from the School. The School may not transfer a student unless the withdrawal or transfer is accomplished through the Sponsor's transfer policies. Students already enrolled at the School must be provided with the option to remain enrolled at the School for the following school year. Pursuant to Section 1002.33(7), F.S., admission or dismissal must not be based on a student's academic performance. Dismissing of students based on academic performance contrary to section 1002.33(10)(e)(5); constitutes a good cause for termination of this Charter.

3.4.2 Voluntary Student Withdrawal

A student may voluntarily withdraw from the School at any time and enroll in another school.

Students must be reported for 300 minutes per day of instructional time. The hourly equivalent for Kindergarten through Grade 3 is 720 instructional hours and 900 instructional hours for students in Grades 4 through 12. Schools operating on a double session calendar must be approved by the Sponsor. Approval by the Sponsor for a double session school does not reduce the required 300 minutes of instruction per day. Survey periods for Year-round School Programs are the same as for the regular fiscal year. Year-round schools shall report the first ninety (90) days of their regular 180-day school year in Survey 2 and the second ninety (90) days of their regular 180-day school year in Survey 3, regardless of when the tracks are in session.

4.4.2 Reporting Requirements

The School agrees to report its student enrollment to the District as provided in Section 1011.62, F.S., and in accordance with the definitions in Section 1011.61, F.S., at the agreed upon intervals and using the method used by the District when recording and reporting cost data by program. A representative of the School shall attend training offered by the Sponsor in the use of such systems and procedures at no cost to the School. The Sponsor's support for this function will be provided at cost and will not exceed the administrative fee allowed by law. Access by the School to additional data processing applications, materials, or forms not required in the statute, but available through the Sponsor, may be negotiated separately by the parties.

4.4.4 Accountability for Data Accuracy and Audit Adjustments

The School shall maintain auditable records of student attendance and grades. Reporting timelines shall be aligned with the Sponsor's timelines. Date Certain is always the Friday of the FTE Survey week. Corrections to data submitted for FTE processing will only be accepted for 6 weeks after Date Certain. The School is responsible for correcting student schedule changes. Incomplete student or teacher course records shall result in a loss of FTE funding. If the School submits data relevant to FTE, federal, or state grant funding that is later determined through the audit procedure to be inaccurate, the School shall be responsible for any reimbursement to the State, the United States Department of Education or the District for any errors or omissions in data that the School submitted. In addition, if the Sponsor is fined or penalized for School errors, the School shall reimburse the Sponsor for the full amount. If the School fails to reimburse the Sponsor, or agree on a payment plan, within a reasonable time after expiration or exhaustion of any appeals, the Sponsor shall deduct the amount owed from the School's FTE payments. After final disposition of any appeals, the District shall deduct any such adjustments from the School's subsequent revenue disbursements evenly over the remaining months of the fiscal year or according to an agreed upon payment plan.

For high-performing charter schools, as defined in Section 1002.331, F.S., the Sponsor may withhold a total administrative fee of up to two percent (2%) for enrollment up to and including 250 students per school.

4.5.3 Allowable Withholding from ESE Centers

The Sponsor shall withhold two percent (2%) for enrollment of up to and including 250 students in an ESE center that meets the requirements of the rules adopted by the State Board of Education pursuant to Section 1008.3415(3). If the School serves seventy-five percent (75%) or more exceptional education students as defined in Section 1003.01(3), the percentage shall be calculated based on the unweighted full-time equivalent students. ESE administrative services covered by the administrative fee, pursuant to Section 1002.33(20), F.S., include professional development related to IEP development; access to any electronic IEP system or forms; initial evaluation for ESE placement; and other supports and services as agreed to by the School and the District in this Charter.

4.5.4 Sponsor Use of Administrative Fee

The administrative fee retained by the Sponsor pursuant to this Contract includes a fee for academic and financial monitoring required of the Sponsor by law and other such services provided by the Sponsor which are required to be covered under statute. At any time, the Sponsor may request reports on school operations and student performance and the School shall provide the reports in a timely manner.

4.6.2 Initial Year Payment Procedures for New Charter Schools

For new charter school in the initial year of operation, payments will be made as required by the law. July through October payment shall be based on the School's projected enrollment as described on the cover sheet of the approved Application if a minimum of seventy-five (75) percent of the projected enrollment is entered into DSIS by the first day of the current month. Otherwise, or if the School's enrollment exceeds its projected enrollment, the Sponsor shall fund the School based on the number of students actually entered in DSIS as of the first day of the current month, not to exceed the Annual Enrollment Capacity. Thereafter, the results of full-time equivalent student membership surveys shall be used in adjusting the amount of funds distributed monthly to the School for the remainder of the fiscal year. Additional documents (e.g., student enrollment forms, student transfer forms, Integrated Student Information System rosters) may be required or requested to support the School's projections. Payments will be adjusted retroactively for prior period adjustments.

4.6.3 Payment Calculations for Subsequent Charter Years

For the following years of the charter, monthly payments will be calculated as follows:

- (i) The Sponsor may initially calculate monthly distributions to the School for up to four (4) months based on full-time (FTE) student enrollment distribution as of the prior year February FTE report.
- (ii) If enrollment at the end of the second week of student attendance fluctuates by twenty percent (20%) or more from prior year February FTE, then monthly distributions shall be proportionally adjusted. Thereafter, the results of the official FTE student surveys will be used in adjusting the amount of FEFP funds distributed to the School.

4.6.4 Payment Adjustments for Sponsor Services and Penalties

Payments may be adjusted for any amounts due the Sponsor for services provided, expenditures incurred by the Sponsor on behalf of the School, and any fines or penalties levied against the Sponsor because of the School's errors during the current or previous years, as well as for administrative oversight.

4.6.5 Reimbursements

The District shall make every effort to ensure that the School receives timely and efficient reimbursement of funds. Other than those payments provided for in this Contract, for which other requirements for timely payments have been made, the payment shall be issued no later than ten (10) working days after the District receives a distribution of state or federal funds. If a warrant of payment is not issued within ten (10) working days after the receipt of funding by the District, or the due date set forth in this Charter, the District shall pay to the School, in addition to the amount of the scheduled disbursement, interest at a rate of one percent (1%) per month calculated on a daily basis on the unpaid balance from the expiration of the ten (10) day period until such time as the warrant is issued. Late payments are subject to interest at the rate of 1% per month calculated on a daily basis until paid. Payment shall be made only to the account in an FDIC insured Active Qualified Public Depository account or a State-approved depository specified by the Governing Board.

4.6.6 Enrollment Capacity and Facility Compliance for Payments

Payment shall not be made for students in excess of the School's enrollment capacity, the School's valid facility capacity as determined by the School's Certificate of Occupancy, Certificate of Use, and/or Fire Permit (whichever is less) or this Contract. In the event that the required County and/or municipality facility permits do not indicate a facility capacity, the School must submit an official letter from the local jurisdiction confirming facility capacity certification by the Registered Architect. Where the local jurisdiction does not or is unable to issue an official determination of allowable capacity, the School may take one of the actions stated in this Contract. The Sponsor shall withhold monthly payments, without

interest, if the School's Certificate of Occupancy, Certificate of Use or Fire Permit has expired or has otherwise become invalid, until such defect has been cured.

4.6.7 Charter School Capital Outlay Funds

The Sponsor shall make timely and efficient payments to the School for capital outlay funds pursuant to Sections 1011.72 and 1013.62, F.S. The Sponsor shall not certify capital outlay plans or recommend awarding capital outlay if it cannot attest to the School's eligibility.

4.6.8 Adjustments Due to Holdbacks and Prorations

In the event of a State holdback or a proration which changes District funding, the School's funding will be adjusted proportionately to the extent required by the law. The Sponsor will not be responsible for any liabilities incurred by the School in the event of a State holdback. Notwithstanding the foregoing, distribution of FTE funds may be withheld, upon written notice by the Sponsor, if any of the following required documents are more than thirty (30) day overdue unless otherwise agreed or extended:

- (i) The School's monthly/quarterly financial statement as required by State Board of Education Rule 6A-1.0081, F.A.C.
- (ii) The School's annual financial audit as required by Section 218.39, F.S and this Charter.

The Sponsor shall release, in full, funds withheld under this provision within ten (10) days of receipt of the documents that resulted in the withholding of funds.

4.7 Summer School Provision

The School may choose to provide a summer school program using State allocated funds. All students attending a summer school session must be reported in FTE Survey 1 and Survey 4, as required by law. In the event that a student enrolled in the School attends any of the Sponsor's summer school programs, and the summer school program is not funded through Title I, the School shall reimburse the Sponsor for the cost of each student's summer school program, as determined by the Sponsor. If the School fails to comply with this provision within a reasonable time, the Sponsor may deduct the appropriate amount from the School's subsequent FTE or Federal funding payments.

4.8 Student Fees

4.8.1 Use of Student Fees

The School shall not charge fees, except those fees normally charged by the Sponsor or as allowed by law. Fees collected must be allocated directly to, and spent only on, the activity or material for which the fee is charged.

4.8.2 Fee Schedule

If the School intends to charge fees, it shall submit its comprehensive fee schedule to the Sponsor for review no later than July 1st prior to the school year in which the

fees are intended to be charged. No funds shall be collected until the School has been given written approval from the Sponsor. Additional fees shall not be imposed without the notification and approval of the Sponsor. Fees shall not be a barrier to enrollment. Non-payment of fees shall not be a basis for dismissal or non-re-enrollment. Upon approval of the fee schedule, all fees collected must be reported and recorded appropriately using proper accounting procedures as required by law. Any fees that are solicited, required, or accepted in violation of this paragraph shall be returned to the parent or guardian.

4.8.3 Student Fee Documentation

The School shall maintain documentation supporting the collection of the Sponsor-approved fees and make them available for Sponsor review.

4.8.4 Parent Donations

The School shall not require or accept monetary donations in lieu of volunteer hours or other parental obligations.

4.8.5 Restriction on Charging Tuition

The School shall not charge tuition.

4.9 Annual Budget

4.9.1 Governing Board Approval

The School's Governing Board shall adopt and maintain an annual balanced budget.

The School shall provide reasonable proof of the ability to fund the initial startup and the on-going operation of the School. By August 20 each year, the School's Governing Board shall formally adopt and provide to the Sponsor an updated Annual Budget Based on Enrollment Projections (Appendix P) for review, and, for the initial year of operation, a budget based upon minimum enrollment (Appendix Q). Each budget shall include projected sources of revenue, both public and private, planned expenditures covering the entire school year, a budget narrative and a staffing plan.

4.9.3 Submission Date

The School shall annually transmit to the Sponsor a copy of the School's adopted budget and a copy of the minutes of the Governing Board meeting documenting adoption of the budget on or before August 20th.

4.9.4 Amended Budget

Any amendments to the adopted budget shall be approved by the Governing Board at a scheduled meeting thereof and a copy provided to the District within ten (10) days of the meeting at which the budget was amended.

SECTION 12: MISCELLANEOUS PROVISIONS

12.1 Impossibility

Neither party shall be considered in default of this Contract if the performance of any section or all of this Contract is prevented, delayed, hindered or otherwise made impracticable or impossible by reason of any strike, flood, hurricane, riot, fire, explosion,

war, act of God, sabotage, accident, public health crisis, or any other casualty or cause beyond either party's control, and which cannot be overcome by reasonable diligence and without extraordinary expense.

12.2 Entire Agreement

This Contract shall constitute the full, entire, and complete agreement between the parties. All prior representations, understandings, and agreements whether written or oral are superseded and replaced by this Contract. This Contract may be altered, changed, added to, deleted from, or modified only through the voluntary, mutual consent of the parties in writing. Any substantial amendment to this Contract shall require approval of the Sponsor and the School's Governing Board.

12.3 No Assignment

This Contract shall not be assigned by either party. The School may, without the consent of the Sponsor, enter into contracts for services with an individual or group of individuals organized as a partnership or cooperative so long as the School remains ultimately responsible for those services as set forth in this Contract.

12.4 No Waiver

No waiver of any provision of this Contract shall be deemed or shall constitute a waiver of any other provision unless expressly stated. The failure of either party to insist in any one or more instances upon the strict performance of any one or more of the provisions of this Contract shall not be construed as a waiver or relinquishment of the term or provision, and the same shall continue in full force and effect. No waiver or relinquishment to any provision of this Contract shall be deemed to have been made by either party unless in writing and it is signed by both parties. No waiver or relinquishment of any right or privilege applicable under law shall be deemed to have been made unless the right or privilege is expressly described in a writing and signed by the party waiving or relinquishing the right or privilege.

12.5 Default Including Opportunity to Cure

Non-compliance with any of the terms and conditions of this Contract may constitute good cause for termination. After written notice of default under any provision hereto, absent any circumstance permitting immediate termination, the School shall have an opportunity to cure.

12.6 Survival Including Post-Termination

All representations and warranties made in this Contract shall survive termination of this Contract.

12.7 Severability

If any provision or any section of this Contract is determined to be unlawful, void or invalid, that determination shall not affect any other provision or any section of any other provision of this Contract and all remaining provisions shall continue in full force and effect.

12.8 Third Party Beneficiary

This Contract is not intended to create any rights of a third-party beneficiary. This clause shall not be construed, however, as contrary to any statutory or constitutional right possessed by a member of the community, a student, or parent/guardian of a student at the School.

12.9 Choice of Law, Venue, and Jury Waiver

This Contract is made and entered into in the State of Florida and shall be interpreted according to the laws of Florida, with venue in Miami-Dade County. The parties mutually agree that the language and all parts of this Contract shall in all cases be construed as a whole according to its fair meaning, and not strictly for or against any of the parties. The parties forever waive the right to trial by jury for any and all litigation between the parties arising out of or related to this Charter. The parties agree to have any such dispute settled by a judge alone, without a jury.

12.10 Authority

Each of the persons executing this Contract represent and warrant that they have the full power and authority to execute the Contract on behalf of the party for whom he or she signs and that he or she enters into this Contract of his or her own free will and accord and with his or her own judgment, and after consulting with anyone of his or her own choosing, including but not limited to his or her attorney. The School and the Sponsor both represent that they have been represented in connection with the negotiation and execution of this Contract, and they are satisfied with the representation.

12.11 Conflict/Dispute Resolution

12.11.1 Contractual Conflicts

If a conflict arises out of the terms, construction, or rights or obligations contained in this Contract, the Sponsor or the School may either use the Dispute Resolution Procedure (Appendix Z), or the procedure in Section 1002.33(7)(b) F.S., as applicable. This provision does not apply to non-renewals or terminations.

12.11.2 School Stakeholder Conflicts

In any case where this Charter conflicts with Florida law, the terms of the applicable statute or rule will control over the charter.

12.13 Citations

School Board Policies agreed to by the School in this Charter may be amended from time to time. Pursuant to law, the School may opt out of any Sponsor policy, upon amendment of the policy or otherwise, subject to the Sponsor's contract amendment process as required by law or this Charter. Whenever a Florida Statute or State Board of Education Rule is referenced in this Charter, it shall be construed to mean the statute or rule as it is amended from time to time. The Sponsor's policies will not control this Charter or be incorporated herein absent written consent of the Governing Board, or as required by law, unless the School has agreed to such policies in the approved Application or this Charter. The School's failure to comply with State law or rule will constitute grounds for termination of this Contract.

This Charter is the product of negotiation between the parties and therefore the terms of this Charter shall not be construed against either party as the drafter.

BRIDGEPREP ACADEMY OF DORAL ELEMENTARY SCHOOL (MSID 5028)
First Renewal Charter School Contract

SECTION 1: GENERAL PROVISIONS

This First Renewal of the Charter School Contract (Contract or Charter) entered into as of the 22nd day of April 2026, between The School Board of Miami-Dade County, Florida, (Sponsor or School Board), and BridgePrep Academy, Inc., a non-profit corporation organized under Chapter 617, F.S. (Corporation), d.b.a., BridgePrep Academy of Doral Elementary School (MSID 5028) (School). This Contract is limited to the Corporation's BridgePrep Academy of Doral Elementary School location. This Contract is effective upon approval by the parties.

1.1 Approved Application

The official Charter School Application/Renewal Packet approved by the School Board December 6, 2017, is attached hereto as Appendix A. All attached appendices are incorporated by reference and constitute part of this Charter. In the event of any conflict between the Application and any other provision of this Charter, the Charter provision shall control. In the event the Contract has not been approved/entered into, then the Application will be deemed withdrawn, and no further action will be taken with respect to the Contract.

1.2 Term of Charter

The term of this Charter shall be fifteen (15) years, commencing July 1, 2026, and ending June 30, 2041. The Sponsor and the School initially entered into a charter school contract on November 18, 2020, and amended on July 19, 2023, June 18, 2024, and May 21, 2025. In the event of expiration, the term shall be automatically extended on a month-to-month basis until the Charter has been renewed, non-renewed, or terminated by the Sponsor. If the parties cannot reach agreement on the terms of a new contract, either party may request mediation from the Florida Department of Education (FDOE), pursuant to Section 1002.33(7)(b), F.S. If the Commissioner of Education determines that the dispute cannot be settled through mediation, the dispute may be appealed to an administrative law judge appointed by the Division of Administrative Hearings. The administrative law judge has final order authority to rule on the dispute, including whether proposed provisions of the Charter violate the intended flexibility granted charter schools by statute.

1.2.1 Start-Up Date and School Calendar - N/A

- (A) **School Opening Date.** For the first year of operating under this Charter, the School shall begin classes on the same day as the Sponsor or at such other time as otherwise determined by the Governing Board. The School cannot open absent submission of all required documents listed in the District's Pre-Opening Checklist (Appendix AA). Pursuant to law, the School may defer the opening of its operations for up to three (3) years to provide time for adequate facility planning. A charter school that elects to defer opening must provide written notice of such intent to the Sponsor and the parents of enrolled students at least thirty (30) calendar days before the first day of

school indicating (1) the deferral status as provided by law, and (2) the proposed first day of school. The first two (2) planning years will extend the term of this Contract. By March 1st of the year they were approved to open, a charter school that indicates they will defer opening must provide the District with a status report to include a timeline of all key operational items and milestones. The charter school shall continue to provide periodic status reports and make allowances for site visits. Failure to open the School: (1) on the day indicated in this Contract, (2) on the day indicated in the school's deferral notice, or (3) after all available deferral years will result in this Contract becoming null and void.

- (B) **Academic Calendar.** For a new charter school, the School's calendar shall be consistent with the beginning of the Sponsor's school calendar for the first year of operation. For every year thereafter, and for all other charter schools, if the School's calendar differs from the Sponsor's public-school calendar, including the instructional days, the School shall provide reasonable notice and submit the proposed calendar to the Sponsor and parents of enrolled students prior to the start of the school year. Any calendar changes that differ from the Sponsor's calendar, must be provided upon request and approved by the Sponsor prior to implementation. Calendar modifications may incur a processing fee at a rate no greater than the Sponsor's actual cost
- (C) **Required Instructional Minutes.** Instructional minutes shall be a minimum of 300 minutes per day. The hourly equivalent for Kindergarten through Grade 3 is 720 instructional hours and 900 instructional hours for students in Grades 4 through 12. Schools operating on a double-session calendar must be approved by the FDOE. Survey periods for Year-Round School Programs shall be the same as for the regular fiscal year. Year-round schools shall report the first ninety (90) days of their regular 180-day school year in Survey 2 and the second 90 days of their regular 180-day school year in Survey 3, regardless of when the tracks are in session.

1.2.2 Charter Modification

This Contract may not be modified unless approved by both parties in writing pursuant to School Board Policy 9800, *Charter Schools* (Appendix B). No contract modifications shall be enforceable unless it is in writing and approved by both the Governing Board and the Sponsor. If the modification involves changes to the grade levels, except as provided by law for high-performing charter schools, the School must provide information acceptable to the Sponsor relating to operational capacity, curriculum, budget, facilities, and staff. Certain amendments related to high-performing charter school contracts are governed by Section 1002.331, F.S.

and are also in accordance with the charter contract amendment process contained in School Board Policy 9800, *Charter Schools*.

1.2.3 Charter Renewal

- (A) **Renewal Notice.** This Charter may be renewed as provided for in Section 1002.33, or 1002.331, F.S. No later than September 15th in the final academic year of this charter, a Sponsor shall provide notice to the School regarding the process and timeline for completing the programmatic review required under s. 1002.33(7)(c)1., Florida Statutes.
- (B) **Renewal Review and Evaluation.** Prior to renewal of this Charter, the Sponsor shall perform a review to determine the level of success of the School's educational program, organizational performance, financial performance and achievement of the goals and objectives required by State accountability standards and successful accomplishment of the criteria under Sections 1002.33(7)(a) and (8)(a) F.S., compliance with the terms of the Charter, and that none of the statutory grounds for nonrenewal exist. Upon completion of the programmatic review, but no later than ninety (90) days prior to the end of the charter term, the Sponsor shall notify the Governing Board of the Charter School in writing of the proposed action to renew, terminate, or non-renew the Charter, pursuant to Section 1002.33(8)(a), F.S.
- (C) **Renewal Packet Submission.** Any charter school seeking renewal shall complete a Charter Renewal Packet as provided by the Sponsor's renewal process.
- (D) **Renewal Term and Approval.** Renewals may be approved for a term up to five (5) years unless another term is mutually agreed upon, required, or allowed by law. Upon approval, the Contract will be renewed following the contract negotiation process in current School Board policy and as required by law.
- (E) **Periodic Review and Evaluation:** The Sponsor may annually evaluate the School on its performance and progress, including academic achievement goals. The Sponsor may conduct a High-Stakes Review, as needed and/or upon charter renewal, and transmit the findings of the review to the Governing Board of the School. If the term of this Charter exceeds five years, the Sponsor may conduct a High-Stakes Review at least every five years and may transmit the findings of the review to the Governing Board of the School.

1.3 Termination or Non-Renewal

This Contract may be terminated or non-renewed during its term for any reason pursuant to State law or this Contract. Notices of non-compliance, non-renewal, or termination,

cancellation and default are issued in accordance with the procedures set forth in this Charter and as otherwise required by law.

1.3.1 Causes for Termination or Non-Renewal

The Sponsor shall make student academic achievement for all students the most important factor when determining whether to renew or terminate this Charter. The Sponsor may choose not to renew or terminate this Charter if it finds that any of the following grounds below exist by clear and convincing evidence, as set forth in Section 1002.33, F.S.

- (i) failure to participate in the State’s education accountability system created in Section 1008.31, F.S., as required in this section, or failure to meet the requirements for student performance established pursuant to this Charter;
- (ii) failure to meet generally accepted standards of fiscal management due to deteriorating financial conditions or financial emergencies determined pursuant to s. 1002.345, F.S.;
- (iii) material violation of law;
- (iv) if insufficient progress has been made in attaining the student achievement objectives of the charter and if it is not likely that such objectives can be achieved before expiration of the charter; provided, however, that for long-term charters issued pursuant to s. 1002.33(7)(a)20., F.S., the Charter shall remain subject to annual review and may be terminated during the term of the Charter only in accordance with the provisions of Section 1002.33(8), F.S.;
- (v) if the School earns two consecutive grades of “F” after all school grade appeals are final except otherwise provided in Section 1002.33, F.S.

1.3.2 Causes for Immediate Termination

Pursuant to Section 1002.33(8)(c), this Charter may be terminated immediately if the Sponsor sets forth in writing the particular facts and circumstances demonstrating that an immediate and serious danger to the health, safety, or welfare of the School’s students exists; that the immediate and serious danger is likely to continue; and that an immediate termination of the charter is necessary. In making the determination as to whether good cause exists for immediate termination, the Sponsor will consider whether the totality of the circumstances warrant a decision to forego the procedures for a ninety (90) day termination. Lack of a facility meeting the requirements of law in which to operate the School may constitute an immediate and serious danger to the health, safety, or welfare of the School’s students.

1.3.3 Procedures for Termination or Non-Renewal

- (A) Sponsor Notification Responsibilities.** The Sponsor shall notify the School’s Governing Board and principal in writing at least ninety (90) days

prior to non-renewing or terminating the Contract. The notice shall comply with the requirements of Section 1002.33, F.S., state in reasonable detail the grounds for the proposed action, shall expressly find that one or more of the grounds for non-renewal under Section 1002.33(8)(a), exists by clear and convincing evidence, and stipulate that the Governing Board may request a hearing within fourteen (14) calendar days of receiving the notice. The hearing shall be conducted using the procedure specified in Section 1002.33(8)(b), Florida Statutes.

- (B) **Hearing Request.** The School's Governing Board may request an administrative hearing before the Florida Division of Administrative Hearings (DOAH). This request must be authorized by a vote of the Governing Board in a legally advertised public meeting with a quorum present. Minutes or an adopted resolution documenting the action must be submitted with the request. The School shall file the request with the School Board Clerk pursuant to School Board Policies 0133, *Quasi-Judicial*, 9800, *Charter Schools*, and Section 120.54(5)(b), F.S. Legally sufficient requests shall be forwarded to DOAH. The DOAH hearing will be conducted pursuant to Florida Statute 1002.33, and Chapter 120, F.S. Following the DOAH hearing, the administrative law judge shall submit a final order to the Sponsor. For purpose of notice, the Charter School's Governing Board is the last roster submitted by the School to the Sponsor.
- (C) **Continued Operations During Proceedings.** The School's Governing Board shall continue to operate the School until a final order terminating the charter is issued and all administrative remedies have been exhausted, during which time all provisions of this Contract shall remain in effect. The closing date shall be negotiated between the Sponsor and the School, unless otherwise provided for in a final order.
- (D) **Expenditures.** Upon notification of non-renewal or termination, the School may not expend more than \$10,000 per expenditure without prior written approval from the Sponsor unless the expenditure was included within the annual budget submitted to the Sponsor, is for reasonable attorney fees and costs during the pendency of any appeal, or reasonable fees and costs to conduct an independent audit.

1.3.4 Procedures for Immediate Termination

- (A) **Sponsor Notification Responsibilities.** The Sponsor's determination is subject to the procedures set forth in paragraph 1.4.2(A), except that the hearing may take place after the charter has been terminated. Upon immediate termination, the Sponsor shall notify the School's Governing Board chair, principal, and the FDOE in writing, detailing the specific facts

and circumstances demonstrating the existence of such danger, explaining why the danger is likely to continue, and stating why immediate termination of the Charter is necessary to protect the health, safety, or welfare of the students, pursuant to Section 1002.33(8)(c), F.S.

- (B) **Hearing Request.** The Sponsor's determination is subject to the 90-day termination procedures in this Charter, except that, upon receiving written notice from the Sponsor, the Charter School's Governing Board has ten (10) calendar days to request a DOAH hearing. The hearing may take place after the charter has been terminated.
- (C) **Operation of the School.** The Sponsor shall assume operation of the school throughout the pendency of the hearing as provided for in Section 1002.33(8)(d), F.S., unless the continued operation of the School would materially threaten the health, safety or welfare of the students. The Sponsor may seek an injunction in the circuit court in which the Charter School is located to enjoin continued operation of the Charter school if continued operation would materially threaten the health, safety, or welfare of the students. If the School has no facility at the time of termination, the Sponsor is not obligated to operate the School.
 - (a) **Access to Records and Facilities.** Upon receipt of notice of immediate termination, the School shall immediately provide the Sponsor access to the School's facilities along with security system access codes and access codes for all School-owned or leased computers, software, networking, switching and all other technical systems in the School's facilities or remotely located areas serving the School, and shall make accessible to the Sponsor all student, educational, operational, and administrative records of the School including those held by third parties. Moreover, within two (2) business days, the School shall turn over to the Sponsor copies of all records and information for all expenditures of public funds held by the School, including but not limited to Federal grants such as Title I and charter school grants and grant the Sponsor access to the School's bank accounts which contain public funds, storage facilities, and all public property. The Sponsor shall assume operation of the school throughout the pendency of the hearing as provided for in s. 1002.33(8)(d), Florida Statutes, unless the continued operation of the School would materially threaten the health, safety or welfare of the students. Failure by the Sponsor to assume and continue operation of the School shall result in the awarding of reasonable costs and attorney fees to the School if the

School prevails on appeal. If the School prevails in an appeal through a final adjudication by an administrative law judge or by a final adjudication and mandate by the appellate court if an appeal to the appellate court is filed, the Sponsor shall, immediately, return to School all keys, security codes, all educational and administrative records of the School, and the School's facility. In that case, the School's Governing Board shall resume operation and oversight of the School.

- (b) **Employees of the School.** The School's instructional and operational employees may continue working in the School during the time that the Sponsor operates the School at the Sponsor's option but will not be considered employees of the Sponsor. Any existing employment contracts that any School personnel may have with the School may not be assumed or transferred to the Sponsor or any entity created by the Sponsor during the assumption of operations of the School unless the Sponsor or its entity, and the School, agree otherwise. The Sponsor may take any appropriate personnel action regarding the School's employees.
- (c) **Disbursement of Funds.** The Sponsor shall only disburse school funds in order to pay the normal expenses of the School as they accrue in the ordinary course of school business. The Sponsor is not required to use its own funding resources to pay the School's debts.

1.3.5 School Election to Terminate or Non-Renew

If the School elects to terminate or non-renew the Charter, it shall provide reasonable prior notice of the election to parents of enrolled students, the Sponsor, and the FDOE, indicating the final date of operation as voted by the Governing Board at a publicly noticed meeting. A board resolution, signed by the School's Governing Board chair and secretary indicating support of this action, shall accompany the written notification provided to the Sponsor. The School agrees that such notification shall be considered a voluntary termination by the Governing Board and a waiver of its right to a hearing or appeal and that this voluntary termination shall not be reversed. Additionally, all post-termination provisions incorporated in this Contract shall apply.

1.3.6 Removal of Public Property

Upon notice of termination or non-renewal, the School shall not remove any public property, as defined in this Contract, from the premises without written Sponsor approval.

1.4 Post-Termination Provisions

1.4.1 Dissolution of School

The School shall be dissolved under the provisions of law under which the School was organized. Copies of all administrative, operational, and financial records of the School shall be provided to the Sponsor on or before the date the termination/non-renewal takes effect. The School shall also provide to the Sponsor the School's security system and technology access codes.

1.4.2 School Debt

If this Charter is not renewed or is terminated, the School shall be responsible for all the debts of the School. The Sponsor shall not assume the debt from any contracted services made between the Governing Body of the School, the Management Company, and/or third parties, including lease or rental agreements, except for a debt previously detailed and agreed upon, in writing, by both the Sponsor and the Governing Board and that may not reasonably be assumed to have been satisfied by the Sponsor. In no event shall the District be responsible under any assignment of a lease for any debts or obligations of the School incurred prior to such assignment.

1.4.3 Leases with the District

In the event of termination or non-renewal of this Charter, any and all leases existing between the District and the School shall be automatically cancelled, unless the lease provides otherwise.

1.4.4 Student Transfers and Records

In the event of termination or non-renewal, any students enrolled at the School may be enrolled at their home District school, or any other school, consistent with the District's student transfer procedures including transfer of all student records to the receiving school. If the School's

accounting records fail to clearly establish whether a particular asset was purchased with public funds, then it shall be presumed public funds were utilized and ownership of the asset shall automatically revert to the Sponsor (subject to any lawful liens and encumbrances). Property and assets purchased with public funds shall be defined as those goods purchased with grants and funds provided by a governmental entity. Public funds provided by the School and used by a management company to purchase property and assets for the School are considered public funds.

The academic achievement goals shall include, at a minimum, growth and proficiency on state assessments, and may include performance on additional assessments included in the approved Application. If the School will not serve students in grades that participate in the statewide assessments the academic achievement goals shall be based on the assessments included in the approved application, and at least one assessment administered in traditional public schools in the District.
- (B) **Subsequent Charter Years.** By October 15 of the second year of the School's operation, the School shall provide its proposed academic achievement goals for the remaining years of the Charter, up to a maximum of four years or the end of the current Charter term, whichever occurs first, using the same parameters and testing set forth in this Contract. Schools that have contracts in excess of five years shall resubmit proposed academic achievement goals every four years pursuant to the process described in this paragraph.
- (C) **Sponsor Review.** The Sponsor shall review the proposed academic achievement goals within 30 days of receipt. If the Sponsor does not accept

the proposed academic achievement goals, it shall provide the School a written explanation. If the Sponsor does not respond within 30 days of receipt, the academic achievement goals are deemed accepted. If the School and Sponsor cannot agree on academic achievement goals, either party may request mediation pursuant to Section 1002.33(6), F.S. The goals may be adjusted at any time upon mutual written consent of both parties.

- (D) **Governing Board Approval.** The School's Governing Board shall review and approve the goals and objectives prior to its final submission. Minutes documenting approval must be taken and posted on the School's website pursuant to Section 1002.33(9)(p)1.
- (E) **Performance Reporting.** Annually, the School shall report its performance against the academic goals in the format requested by the Sponsor. The School agrees to allow the Sponsor reasonable access to its facilities and records to review its data sources in order to assist the Sponsor in making a valid determination about the degree to which student performance requirements have been met, as stated in this Charter, and as required by Sections 1008.31 and 1008.345, F.S. Furthermore, the School shall allow the Sponsor to collect data through other means such as survey to conduct research and/or evaluations as required for state reporting requirements. The Sponsor shall not impose additional reporting requirements on the School without providing reasonable and specific justification in writing to the School and the School shall provide required responses/data within the timelines that allow the Sponsor to meet required deadlines. If the School falls short of the academic achievement goals set forth under the provisions of this Charter, the Sponsor shall report such shortcomings to the School's Governing Board and FDOE. The School and Sponsor may agree to adjust the goals through the same process set forth in this Section.

2.2 Performance Improvement Requirements for Low-Performing Schools

2.2.1 School Improvement Plan (SIP)

- (A) **Schools that Earn a Grade of "D" or "F."** Pursuant to Section 1002.33(9), if the School earns a grade of "D" or "F," the director and a representative of the Governing Board must appear before the Sponsor to present information regarding contract components with noted deficiencies. The Governing Board representatives must submit a SIP to the Sponsor for approval, outlining strategies to improve student performance and begin implementation of the SIP upon the Sponsor's approval.
- (B) **Schools Identified for Support by the FDOE.** If the School is identified by the FDOE (under the Every Student Succeeds Act) to be included in the list of schools for comprehensive support and improvement (CS&I),

additional targeted support and improvement (ATSI), or targeted support and improvement (TS&I), it must develop and implement a SIP approved by the Governing Board and the Sponsor. Upon approval by the Sponsor, the charter school shall begin implementation of the SIP.

- (C) **Posting and Monitoring of Approved School Improvement Plans.** Minutes documenting SIP approval must be posted on the School’s website pursuant to Section 1002.33(9)(p)1., F.S. The Governing Board shall monitor the implementation of the SIP.

 - (iii) Reorganize the school under new leadership, such as a new director or principal, who is authorized to hire new staff.
 - (iv) Voluntarily close the charter school.
- (B) **Implementation Timeline.** The selected corrective action must be implemented during the school year immediately following the receipt of the third consecutive grade below a "C." If the School improves to a grade of "C" or higher, the corrective action is no longer required. However, the School must continue implementing the strategies outlined in its school improvement plan, subject to annual monitoring by the Sponsor.
- (C) **Waiver and Termination.** The Sponsor may waive the corrective action annually if it determines that the School is likely to improve its grade with additional time to implement strategies outlined in the school improvement plan. However, a school earning two consecutive grades of “F” is subject to immediate interventions under subparagraph 3. The School is no longer required to implement a corrective action if it improves its grade to a “C” or higher. However, the School must continue implementing strategies identified in its school improvement plan and the sponsor must annually review the School’s implementation of the plan to ensure continued improvement.
- (D) **Selection of a New Corrective Action.** If the School fails to improve to a grade of “C” or higher after two full school years of implementing a corrective action, the Governing Board must select a new corrective action

to begin the following school year unless the Sponsor determines that additional time is likely to result in the School achieving a “C” or higher under the existing corrective action.

- (E) **Immediate Interventions.** Notwithstanding this subparagraph, a school earning two consecutive grades of “F” while implementing a corrective action is subject to immediate interventions under Section 1002.33(9)(n)3, F.S.

The School shall designate a School Assessment Coordinator from the School who is required to attend all training sessions and informational meetings required by the Sponsor for required State and optional District assessments and shall be responsible for proper test administration. The School shall immediately notify the Sponsor upon any change in the designated School Assessment Coordinator. All School personnel involved with any aspect of the testing process must have knowledge of and abide by State and Sponsor policies, procedures, and standards regarding test administration, test security, test audits, reporting of test results and shall cooperate with any investigations involving the School. institutions as required by law. The School shall also develop and implement a plan to inform all secondary students and their parents of dual enrollment opportunities as an educational option and mechanism for acceleration and shall ensure that dual enrollment courses taught on the high school campus will not be combined with any high school course. This agreement shall include the method of payment between the School and the postsecondary institution and shall be submitted annually to the Florida Department of Education and the Sponsor by August 1st.

Once approved, the plan shall be attached herein as Appendix E. If the School opts to develop and implement their own SPP, the School shall establish a policy for determining that a student has satisfied the requirements for graduation that is consistent with the provisions of Florida law and shall inform the Sponsor of this policy and/or any changes to a previously adopted policy at least one (1) month prior to the beginning of the school year. The School's student promotion policy

shall be consistent with the provisions of the Application and applicable Florida law. Failure to comply with this provision may result in withholding of Full-Time Equivalent (FTE) until compliance.

Secondary schools shall notify the parent and students of the School's accreditation status and the implications of non-accreditation in (a) the School's student enrollment form; (b) the Parent/Student Handbook; and (c) and Parent/Student contract. The notification must also be prominently displayed at all times on the School's website.

2.6.5 Compliance with Student Progression Requirements

Failure of secondary charter schools to comply with applicable Sections of 1003.42 and 1008.25, F.S. (Public School Student Progression; Student Support; Reporting Requirements) may constitute good cause for termination of this Charter.

2.7 English Language Learners

2.7.1 Plan Adoption and Approval

The School will adopt the District's English Language Learners Plan (Appendix F) in effect for the current operational year, and which meets the requirements of the League of United Latin American Citizens (LULAC) et al. v. State Board of Education Consent Decree. If the School elects to implement its own plan, approved by its Governing Board, it is attached hereto as Appendix G. The plan must include sufficient information and detail to allow the Sponsor to determine legal sufficiency.

2.7.2 Services for English Language Learners

Students at the School who are English Language Learners (ELL) will be served by English for Speakers of Other Languages (ESOL) endorsed or certified personnel. Failure to comply with all applicable laws ordinances, and codes of Federal, State, and locale governance including, without limitation, the Individuals with Disabilities Education Act (IDEA) and applicable laws relating to English Language Learners (ELL) if not timely cured after written notice constitutes good cause for termination of this Charter.

2.8 Exceptional Student Education

2.8.1 Program Requirements

Exceptional students shall be provided with programs implemented in accordance with applicable Federal, state, and local policies and procedures; and, specifically, the Individuals with Disabilities Education Act (IDEA), Section 504 of the Rehabilitation Act of 1973, Sections 1000.05 and 1001.42(4) (l) of the Florida Statutes, and Chapter 6A-6 of the Florida Administrative Code. Students with disabilities will be educated in the least restrictive environment and will be segregated only if the nature and severity of the disability is such that education in regular classes with the use of supplementary aids and services cannot be achieved satisfactorily. The School must maintain a continuum of ESE placements as indicated in the School's approved Application and Renewal Packet.

2.8.2 Non-Discrimination and Admission Procedures

The School shall not discriminate against students with disabilities in placement, assessment, identification, selection, or admission. The School shall not request a student's IEP, EP, Section 504 Plan, or other information regarding a student's special needs prior to or during the application and lottery process, nor shall the School access such information prior to or during the application and lottery process. Only schools that serve exclusively students with disabilities may request the IEP, EP, or Section 504 Plan as part of the application and lottery process to determine whether the services are compatible with the School's programmatic model.

2.8.3 Individualized Education Plans (IEPs) and 504 Plans

The School shall conduct Individual Educational Plans (IEPs) for eligible students, to include an annual IEP meeting with the eligible student's family. Upon enrollment, or notice of acceptance sent to the student, the School may request from the District information related to the student's program and needs, including the student's most recent IEP, which shall be provided within ten (10) days.

2.8.4 Student Placement and Referral

If the School determines, upon review of the IEP, that the student's needs cannot be met at the School, the School shall contact the Sponsor's District Staffing Specialist assigned to the School for assistance with an appropriate school assignment in accordance with this Contract. After enrollment, any student who is suspected of having a disability must be referred for evaluation in accordance with this Contract, and if eligible for services pursuant to IDEA or Section 504, an appropriate IEP or Section 504 plan must be developed before the student is referred to the District for consideration of another school assignment. The Sponsor shall be invited to and may attend the meeting, at which time the IEP team shall determine whether the School is an appropriate placement for the student.

2.8.5 Civil Rights Complaints and Investigations

If the School receives a complaint filed or becomes aware of an investigation with the U.S. Office of Civil Rights (OCR) or any other governmental entity and the complaint or investigation relates to the School and could involve the Sponsor, the School shall, within one (1) school day, notify the Sponsor and provide the Sponsor any documentation from the agency (except where to give such notice would violate the law or the directions of the investigating government entity). The School shall fully cooperate with the Sponsor during any investigation and/or proceeding by the OCR or any other governmental entity that could involve the Sponsor, including providing the Sponsor with a draft response to OCR and providing all necessary relevant information and supporting documentation, and making staff available for interviews, as deemed necessary. If the written information on the complaint does not allege, or it cannot be inferred from the facts given, an allegation against the Sponsor of: (1) discrimination based on race, color, national origin, sex, disability or age, (2) discrimination in violation of the Boy Scouts of America Equal Access Act of 2001, or (3) retaliation for the purpose of interfering with any right or privilege secured by the civil rights laws and regulations enforced by OCR, or as a result of making a complaint, testifying, or participating in any manner in an OCR proceeding, the School shall submit the final version of the response directly to OCR on its own behalf with a copy provided to the Sponsor. The School shall bear all costs, fees, reimbursements, and compensatory education associated with the investigation, including any incurred, agreed upon or awarded. Notwithstanding the aforementioned, the Sponsor shall assume or reimburse the costs attributable to, caused by or through the fault of the Sponsor, if any. Failure of the school to pay the costs, fees, reimbursements, and compensatory education within a reasonable time after the expiration or exhaustion of any appeals will result in the Sponsor deducting any amount owed from the School's FTE payments.

2.8.6 Sponsor Responsibilities

The Sponsor shall provide ESE administration services to the School, pursuant to Section 1002.33, F.S.

- (A) Student Evaluations.** The Sponsor shall conduct initial evaluations of students referred for potential Exceptional Student Education, Gifted, Section 504 eligibility, and for the re-evaluation of Exceptional Student Education students, in accordance with Federal and State mandates. All requirements for Response to Intervention (RtI) must be followed by the School with fidelity prior to and during the evaluation process. The School and/or parents may obtain private evaluations of students at their expense. These evaluations must be considered in determining eligibility but will not

necessarily substitute for an evaluation conducted by the Sponsor's personnel in a manner and timeframe consistent with that of all of the other Sponsor's schools.

- (B) **Initial LEA Representation.** A representative of the Sponsor shall serve as the Local Education Agency (LEA) Representative in all initial IEP, EP, and Section 504 Plan meetings. However, the administrator or designee in charge at the School will serve as the LEA Representative at all other annual and interim IEP, EP, and Section 504 meetings, which the School shall conduct.
- (C) **Compliance Monitoring.** The Sponsor will monitor the School for ESE compliance with applicable Federal, State, and local policies and procedures as outlined in the Exceptional Student Education Policies and Procedures (SP&P) (Appendix H). Failure to comply with Federal, State, or local law or policy, after notice and a reasonable opportunity to cure, may result in the Sponsor withholding FTE funding from the School until compliance is achieved.

2.8.7 School Responsibilities

- (A) **Disability Disclosure and Placement Determination.** The School shall not inquire about a student's disability status prior to registration/enrollment or notice of acceptance. No later than the tenth day of the student's attendance after the point of registration/enrollment or notice of acceptance, the School shall notify the Sponsor's District Staffing Specialist assigned to the School if the IEPs, EPs, or Section 504 Plans of students who have applied and been accepted cannot be implemented at the School. The Sponsor shall be invited to and may attend the meeting, at which time the IEP team shall determine whether the School is an appropriate placement for the student. If a student's IEP, EP, or Section 504 Plan can be implemented at the School, based on the continuum of services as outlined in the application or as revised by a modification to this Contract, the student shall not be required to attend another school. All IEP changes of placement shall be based upon data and student needs.
- (B) **Student Support and Evaluation Protocols.** The School shall initiate all Request for Assistance (RFA) and Student Support Team (SST) meetings when concerns are raised by school staff or parents about student's functioning. When a student is suspected of having a disability, the School shall make a written request to obtain parental consent for evaluation for referral to the Sponsor. If parental consent is denied or the parent fails to respond, the School must notify its legal counsel and the Sponsor for consideration of pursuing evaluation by using the mediation or due process

procedures. The School shall fully implement the required RtI, IEPs, EPs, Functional Behavioral Assessments (FBA)/Social Emotional Behavior Intervention Plans (SE-BIP) and Section 504 Plans of enrolled students, including delivery of supplementary aids and services and related services, unless the IEP, EP, or Section 504 team determines that the student's needs cannot be met at the School and placement at another school within the Sponsor's district constitutes the least restrictive environment on the continuum of alternative placements. The School must follow all disciplinary procedures and policies relevant to students with disabilities, including implementation of FBAs/SE-BIPs and manifestation determinations. In no instances should a student's IEP, EP, or Section 504 services or placements be changed solely for the purpose of accommodating the School's placement options.

- (C) **Delivery of Educational Services and Equipment.** The School shall deliver all educational related services and equipment indicated on the student's IEP, EP, or Section 504 Plan unless a determination has been made by the School and the Sponsor that the student's IEP cannot be implemented at the School. The School shall also provide related services and equipment, e.g., speech/language therapy, occupational therapy, physical therapy, nursing, counseling, assessment instruments, assistive technology devices, transportation and therapeutic equipment.
- (D) **Evaluations and Service Delivery.** The School shall conduct the evaluations of the School's students referred for Physical Therapy (PT), Occupational Therapy (OT), Speech and Language (SL), Nursing, Assistive Technology (AT) and Functional Behavior Assessment (FAB) services with personnel qualified in accordance with State of Florida regulations and in accordance with Response to Intervention requirements. If the student is determined eligible for these services and they are added to the student's IEP or Section 504 Plan, the School shall be responsible for the provision or delivery of required services to the student. The School shall ensure that the person(s) conducting evaluation(s) attend an IEP meeting to review the evaluations when eligibility for services is determined. All evaluations must include a review of the student's educational records, including but not limited to IEP or Section 504 Plan; identification and development of goals to be supported by PT, OT, SL behavioral intervention and/or assistive technology, and/or nursing; a treatment plan for the student; and reference to supporting medical documentation if applicable. The School shall ensure that all instructional personnel and service providers review and implement the student's IEP. The School shall ensure that all service providers

contribute to the student's annual and interim IEP meetings either in writing, by telephone, through electronic means, via video conferencing, or in person. Service providers must also contribute to status reports and updates on the student's IEP goals and benchmarks related to their areas of treatment. The School shall require all service providers to the student to attend orientation and in-service training on delivery of school-based services and how to support educationally relevant IEP goals. The Sponsor shall provide the orientation and in-service training. The Sponsor may conduct periodic reviews of the paperwork prepared by the service providers providing services to such students.

- (E) **Independent Educational Evaluations.** The School shall immediately notify the Sponsor if a parent requests an Independent Educational Evaluation (IEE) at public expense and work with the Sponsor to determine whether the IEE will be granted, or a due process action will be filed to defend the School's/Sponsor's evaluation. 2.8.8 Due Process and Dispute Resolution Procedures

- (A) **Filing and Notification.** A student, parent, or guardian who indicates that they wish to file for a due process hearing, pursuant to State law and rules shall be given the appropriate forms by the LEA attending the meeting. These forms shall also be provided upon request at any other time. Parents must file due process hearing requests with the School Board Clerk pursuant to School Board Policy 0133, *Quasi-Judicial Functions*, and the procedural safeguards posted on the Sponsor's Exceptional Student Education website. Any due process requests received by the School must be forwarded to the Sponsor's ESE Director and legal counsel on the same business day. The Sponsor's legal counsel will ensure that all ESE due process hearing requests/complaints are filed with the Florida Division of Administrative Hearings (DOAH) and place the School on notice of the complaint. With regard to Section 504 due process requests, the Sponsor's legal counsel will evaluate the due process request and work with the School's legal counsel to determine the proper course of action in accordance with the School's and the Sponsor's procedural safeguards and hearing procedures.
- (B) **Review, Representation and Cost Responsibilities.** The Sponsor will review the due process complaint and hold an initial meeting to analyze the merits of the complaint. The School must select its own legal counsel to consult and cooperate with the Sponsor's legal counsel. The School's legal counsel shall represent the School on claims related to all other evaluations, including at the School's election when the parent refuses to consent or fails to respond to the School's request for consent to evaluate. At the election of the Sponsor's legal counsel, if the School elects

not to pursue a claim regarding parental refusal/failure to provide consent to evaluate, the Sponsor may elect to pursue the claim after consultation with the Sponsor's counsel. The Sponsor's legal counsel will represent the Sponsor in all cases where a District employee fulfills the role of the LEA at the staffing/IEP meeting. The School's legal counsel will represent the School on all claims related to implementation of RtI, IEPs, Section 504 Plans, EPs, Manifestation Determination decisions, and where a School employee fulfills the role of the LEA Representative at the staffing/IEP meeting. The Sponsor's legal counsel will seek a dismissal of the Sponsor with regard to claims over which the Sponsor had no role (e.g., implementation claims). However, if the dismissal is denied, the Sponsor's counsel will continue to provide recommendations and work with the School's counsel as co-counsel on the pending case. The School shall pay all costs associated with the administrative due process hearing, legal representation, discovery, court reporter, and interpreter and all appeals. In the event that the student, parents, or guardians prevail, either through a hearing, court action, or settlement, the School shall pay any and all attorneys' fees, reimbursements, compensatory education and any other costs incurred, agreed upon or awarded; however, the District shall assume or reimburse the costs of the defense attributable to, caused by or through the fault of the District, if any, as outlined above. Any costs, fees, or other expenses incurred, as set forth in this paragraph, will be automatically reduced from the FTE funds passed through the Sponsor to the School, without any penalty of interest, although the School may request, and the parties agree to a payment plan.

- (D) **Post-Mediation Recommendations and Cost Responsibilities.** Following the resolution session/mediation, the School shall review the recommendations of the Sponsor's due process team with their legal counsel and communicate in writing the School's position on resolution/settlement to the Sponsor's due process team. If the School opts

not to follow the recommendations of the Sponsor’s due process team, the School will incur all costs associated with subsequent court orders as set forth in this Contract.

- (E) **Resolution and Advancement of Due Process Hearings.** If the matter is resolved by a written agreement, the Sponsor’s legal counsel will file the appropriate motions for dismissal and closure of the case. If the matter is not resolved, the legal counsel of the Sponsor and the School shall ensure that representation in the due process hearing proceeds in accordance with this Contract and the procedural safeguards posted on the School’s and/or Sponsor’s Exceptional Student Education website. The School and the Sponsor shall each make available to participate in all necessary stages of the litigation all staff who participated in any evaluation or reevaluation, the preparation of any IEP, the implementation of any IEP that may be at issue in the hearing.

The School shall not access, directly or through a third party, any of the Sponsor's student information unless and until the student actually enrolls in the School. Violation of this provision constitutes good cause for termination.

Failure to accept all eligible students in accordance with Federal and State anti-discrimination laws and in accordance with the Florida Educational Equity Act, Section 1000.05(2)(a), F.S. constitutes good cause for termination of this Charter.

If the number of applications exceeds the capacity of the program, class, grade level, or building, all applicants shall have an equal chance of being admitted through a random selection process. The School shall maintain documentation in accordance with applicable Florida record retention laws for each enrollment lottery conducted, as well as any student wait lists that are generated and make them available to the Sponsor upon request. Lottery documentation shall be sufficient to allow the Sponsor to verify that the random selection process was fair, equitable, and in compliance with applicable State statutes. At a minimum, the following documentation shall be maintained and available to the Sponsor upon request at all times:

- (iv) do not negatively impact a student's opportunities to exercise school choice.

3.3 Enrollment

3.3.1 Preferences

The School may provide enrollment preferences pursuant to Section 1002.33(10)(d) F.S. and may otherwise limit enrollment to target those student populations identified in Section 1002.33(10)(e) F.S. and identified in the approved application.

3.3.2 Consent

To enroll a student, the School must obtain proof of consent from the student's parent or guardian, or from the student if the student is eighteen (18) years of age or older. The Charter School may not transfer an enrolled student to another charter school having a separate Master School Identification (MSID) Number without first obtaining the specific written approval of the student's parents/guardians before each transfer. General consent for student transfer is prohibited (e.g., consent included in a parent contract). A student may withdraw from the School at any time

and enroll in another public or private school, as determined by District policy. The School shall work in conjunction with the parent(s)/guardian(s) and the receiving school to ensure that such transfers minimize impact on the student's grades and academic achievement.

Monthly FTE payments shall be withheld, without interest, for students in excess of the School's annual enrollment capacity, as defined by the Contract.

3.3.4 Projections

- (A) **Preliminary Enrollment Projection.** If requested, no later than November 1st of each year, the School shall provide to the Sponsor the School's preliminary projected enrollment for the following school year. The preliminary projected enrollment shall not constitute a cap on the School's enrollment for the following school year.
- (B) **Final Enrollment Projection.** The Sponsor may request that the School provide final enrollment projections for the upcoming school year no later than July 15th of each year. Final enrollment is not annual capacity, but the school's projection of how many students will be enrolled when the school year begins. Each year, the School agrees to enroll an eligible student by accepting a timely application through deadlines as determined by the Governing Board and publicly advertised. If the target goal of students is not met by the deadline, and the School wishes to extend, the School will give sufficient public notice and extend the application deadline for a set time as determined and publicized by the Governing

Board. If, at the 10-day count, the registered enrollment as reflected in the Sponsor's data system is less than 75 percent of the School's total projected enrollment as described in either the approved Application for the first year or as determined under the provisions of this Charter, the School shall, upon written request by the Sponsor, submit a revised budget within thirty (30) days taking into account the reduced enrollment. Failure to provide the revised budget may constitute good cause for termination. The School's minimum enrollment for the first year of operation is N/A. The parties agree that this is the minimum enrollment that will support the School's operations. Failure to achieve the minimum enrollment by the October FTE reporting period for the first year of operation constitutes good cause for termination or non-renewal unless the School provides the Sponsor a revised and balanced budget and a cash flow statement that are realistic and reasonable within fifteen (15) calendar days of the October FTE reporting period. A budget to support this minimum enrollment is provided in the Budget for Initial Year of Operation Based on Minimum Enrollment (Appendix I).

A high performing charter school shall notify the Sponsor in writing by March 1st of the preceding year if it intends to increase enrollment beyond the enrollment stated in this charter and/or to expand grade levels the following year. The School shall not, however, enroll students beyond the facility capacity at the time the enrollment increase will take effect. The written notice shall specify the amount of the enrollment increase, the grade levels that will be added, and evidence of the official facility capacity at the time the enrollment increase will take effect. To increase enrollment and add grade levels, this Contract must be amended through the Sponsor's current charter amendment process for these types of amendments in School Board Policy 9800, *Charter Schools*, except that the Sponsor shall modify the charter within 90 days to include the new enrollment maximum and may not make any other change. The Sponsor will notify the School of its status within thirty (30) days after receiving the application. To receive reimbursement of Federal funds, in accordance with this option, the following provisions apply:

- (i) **Sponsor Notification of the Availability of Other Funds.** The Sponsor shall provide to the School by July 15th of each year, or at other times of the school year if other Federal funds become available, a projected annual allocation for all Federal funds that the School may draw as reimbursement for services provided. The projected annual allocation shall be based upon the School's Final Projected Enrollment as provided in this Charter or other data as applicable to the Federal funds to be allocated.

When a grantor requires that the Sponsor serve as the fiscal agent for a grant, the School shall comply with all applicable Federal, State, and local statutes and/or regulations, the terms and conditions of the grant, School Board policies, and administrative/grant procedures, for grants submitted through the District, which include, but are not limited to:

- (i) Prior to generating any paperwork to the funding agency, the School shall notify CSCS in writing of its intent to submit a grant application;
- (ii) CSCS will forward the written request, along with the

- grant application guidelines, to M-DCPS' Office of Grants Administration (OGA);

 - (vi) In the event any grantor requires the Sponsor to monitor and/or review the School's expenditures pursuant to any grant the School receives, the School shall comply within a reasonable time with any and all additional reporting requirements or corrective action prescribed by the grantor or Sponsor. If it is determined that a reimbursement of grant funds is required as a result of an audit or other investigation, the School is solely responsible for making the reimbursement;
 - (vii) In the event the Sponsor must serve as fiscal agent, and indirect costs are an allowable expense of the grant, the School agrees that the Sponsor will be permitted to retain grant funds in an amount equal to the annually negotiated indirect cost rate as determined by the FDOE or as prescribed by the grant. Indirect costs shall be reflected in the budget of the grant application submitted by the School;
 - (viii) If the Sponsor develops a District-wide grant, the School may be included in the District proposal in accordance with the school eligibility requirements and grant guidelines within the Request for Proposals;
 - (ix) When grant proposals are developed by the Sponsor's staff using student or school counts that include the School's students, and the grant is awarded to the Sponsor, the pro-rata share of the dollars or services received from that grant shall be distributed to the School, if eligible, as prescribed by the grant and defined in the budget developed for the grant; and,
 - (x) The District will not advance cash to the grant recipient to cover its estimated disbursement needs. All payments will be on a reimbursement basis only.

4.3 Other Funding Sources

The School may secure funding from private institutions, corporations, businesses and/or individuals. Funding shall be properly accounted for and documented.

4.4 Student Enrollment Reporting

4.4.1 Instructional Time Requirements

Students must be reported for 300 minutes per day of instructional time. The hourly equivalent for Kindergarten through Grade 3 is 720 instructional hours and 900 instructional hours for students in Grades 4 through 12. Schools operating on a double session calendar must be approved by the Sponsor. Approval by the Sponsor for a double session school does not reduce the required 300 minutes of instruction per day. Survey periods for Year-round School Programs are the same as for the regular fiscal year. Year-round schools shall report the first ninety (90) days of their regular 180-day school year in Survey 2 and the second ninety (90) days of their regular 180-day school year in Survey 3, regardless of when the tracks are in session.

4.4.2 Reporting Requirements

The School agrees to report its student enrollment to the District as provided in Section 1011.62, F.S., and in accordance with the definitions in Section 1011.61, F.S., at the agreed upon intervals and using the method used by the District when recording and reporting cost data by program. The School shall use the Sponsor's electronic data processing facility and procedures for the processing of student enrollment, attendance, FTE data collection, assessment information, IEPs, EPs, ELL Plan, Section 504 plans and any other required individual student plan. The School shall schedule students for electronic processing of FTE in accordance with the Sponsor's electronic FTE procedures. The District shall include the School's enrollment when recording and reporting cost data by program.

4.4.3 Training and Support for District Applications

The Sponsor shall provide the School with access to its student information system and provide training for the School's personnel in the use of designated District applications necessary to respond to the statutory requirements of Section 1008.345, F.S., including the annual report and the State/District required assessment program. A representative of the School shall attend training offered by the Sponsor in the use of such systems and procedures at no cost to the School. The Sponsor's support for this function will be provided at cost and will not exceed the administrative fee allowed by law. Access by the School to additional data processing applications, materials, or forms not required in the statute, but available through the Sponsor, may be negotiated separately by the parties.

4.4.4 Accountability for Data Accuracy and Audit Adjustments

The School shall maintain auditable records of student attendance and grades. Reporting timelines shall be aligned with the Sponsor's timelines. Date Certain is always the Friday of the FTE Survey week. Corrections to data submitted for FTE processing will only be accepted for 6 weeks after Date Certain. The School is

responsible for correcting student schedule changes. Incomplete student or teacher course records shall result in a loss of FTE funding. If the School submits data relevant to FTE, federal, or state grant funding that is later determined through the audit procedure to be inaccurate, the School shall be responsible for any reimbursement to the State, the United States Department of Education or the District for any errors or omissions in data that the School submitted provided that the District has timely sent notice to the School of alleged errors discovered through such audit(s) so that the School, on its own, or through the Sponsor, at the School's expense may participate in any proceedings to challenge or appeal such audit findings.. In addition, if the Sponsor is fined or penalized for School errors, the School shall reimburse the Sponsor for the full amount. If the School fails to reimburse the Sponsor, or agree on a payment plan, within a reasonable time after expiration or exhaustion of any appeals, the Sponsor shall deduct the amount owed from the School's FTE payments. After final disposition of any appeals, the District shall deduct any such adjustments from the School's subsequent revenue disbursements evenly over the remaining months of the fiscal year or according to an agreed upon payment plan.

4.5 Administrative Fee

The Sponsor shall not withhold an administrative fee from federal or state grants unless explicitly authorized by law. Funds from the reimbursement of any portion of the administrative fee to the school shall be used only for capital outlay purposes as specified in Section 1013.62(2), Florida Statutes. The Sponsor shall not withhold an administrative fee from capital outlay funds unless explicitly authorized by Florida law. The Sponsor shall provide those administrative and educational services specified in Section 1002.33(20)(a), Florida Statutes, to the School at no additional fee. These services shall include contract management services, FTE and data reporting, exceptional student education administration services, services related to eligibility and reporting duties required to ensure that school lunch services under the federal lunch program, consistent with the needs of the School, are provided by the school district at the request of the School; test administration services, including payment of the costs of state-required or district required student assessments; processing of teacher certificate data services, and information services, including equal access to student information systems that are used by public schools in the district in which the charter school is located as provided in Section 1002.33(20)(a), Florida Statutes. A sponsor may not charge charter schools any additional fees or surcharges for administrative and educational services in addition to the maximum percentage of administrative fees withheld pursuant to this Section 1002.33(20)(a), Florida Statutes. A sponsor may not charge or withhold any administrative fee against a charter school for any funds specifically allocated

by the Legislature to be used for teacher compensation. Access by the School to other services not required in Section 1002.33(20)(a), Florida Statutes, but available through the Sponsor, may be negotiated separately by the parties.

4.5.1 Allowable Withholding

The Sponsor shall withhold five percent (5%) of available funds for the first 250 students as defined in Section 1002.33(20)(a), F.S., not including capital outlay funds, Federal and State grants, or any other funds, unless otherwise explicitly limited by law.

4.5.2 Allowable Withholding from High-Performing Charter Schools

For high-performing charter schools, as defined in Section 1002.331, F.S., the Sponsor may withhold a total administrative fee of up to two percent (2%) for enrollment up to and including 250 students per school.

4.5.3 Allowable Withholding from ESE Centers

The Sponsor shall withhold two percent (2%) for enrollment of up to and including 250 students in an ESE center that meets the requirements of the rules adopted by the State Board of Education pursuant to Section 1008.3415(3). If the School serves seventy-five percent (75%) or more exceptional education students as defined in Section 1003.01(3), the percentage shall be calculated based on the unweighted full-time equivalent students. ESE administrative services covered by the administrative fee, pursuant to Section 1002.33(20), F.S., include professional development related to IEP development; access to any electronic IEP system or forms; initial evaluation for ESE placement; and other supports and services as agreed to by the School and the District in this Charter.

4.5.4 Sponsor Use of Administrative Fee

The administrative fee retained by the Sponsor pursuant to this Contract includes a fee for academic and financial monitoring required of the Sponsor by law and other such services provided by the Sponsor which are required to be covered under statute. At any time, the Sponsor may request reports on school operations and student performance and the School shall provide the reports in a timely manner.

(A) Access to Optional Sponsor Services. Access by the School to services not required by law, but available through the Sponsor, may be negotiated separately by the parties. The Sponsor is not obligated to provide any services not required by law.

(B) Provision of School Lunches. The School shall provide food services to its students consistent with applicable Florida Statutes. If the School elects to participate in the National School Lunch Program it shall follow all applicable federal rules and regulations.

4.6 Distribution of Funds

The Sponsor shall calculate and submit twelve (12) monthly payments to the School. The first payment will be made by July 31st. Subsequent payments will be made monthly by the 15th of each month beginning with August 15th.

4.6.2 Initial Year Payment Procedures for New Charter Schools

For new charter school in the initial year of operation, payments will be made as required by the law. July through October payment shall be based on the School's projected enrollment as described on the cover sheet of the approved Application if a minimum of seventy-five (75) percent of the projected enrollment is entered into DSIS by the first day of the current month. Otherwise, or if the School's enrollment exceeds its projected enrollment, the Sponsor shall fund the School based on the number of students actually entered in DSIS as of the first day of the current month, not to exceed the Annual Enrollment Capacity. Thereafter, the results of full-time equivalent student membership surveys shall be used in adjusting the amount of funds distributed monthly to the School for the remainder of the fiscal year. Additional documents (e.g., student enrollment forms, student transfer forms, Integrated Student Information System rosters) may be required or requested to support the School's projections. Payments will be adjusted retroactively for prior period adjustments.

4.6.3 Payment Calculations for Subsequent Charter Years

For the following years of the charter, monthly payments will be calculated as follows:

- (i) The Sponsor may initially calculate monthly distributions to the School for up to four (4) months based on full-time (FTE) student enrollment distribution as of the prior year February FTE report.
- (ii) If enrollment at the end of the second week of student attendance fluctuates by twenty percent (20%) or more from prior year February FTE, then monthly distributions shall be proportionally adjusted. Thereafter, the results of the official FTE student surveys will be used in adjusting the amount of FEFP funds distributed to the School.

4.6.4 Payment Adjustments for Sponsor Services and Penalties

If the School submits data relevant to FTE, Federal, or grant funding that is later determined through the audit procedure to be inaccurate, the School shall be responsible for any reimbursement to the State, the United States Department of Education or the District for any errors or omissions in data that the School submitted provided that the District has timely sent notice to the School of alleged errors discovered through such audit(s) so that the School, on its own, or through the Sponsor, at the School's expense may participate in any proceedings to

challenge or appeal such audit findings. After final disposition of any appeals, the District shall deduct any such adjustments from the School's subsequent revenue disbursements evenly over the remaining months of the fiscal year or according to an agreed upon payment plan..

4.6.5 Reimbursements

The District shall make every effort to ensure that the School receives timely and efficient reimbursement of funds. Other than those payments provided for in this Contract, for which other requirements for timely payments have been made, the payment shall be issued no later than ten (10) working days after the District receives a distribution of state or federal funds. If a warrant of payment is not issued within ten (10) working days after the receipt of funding by the District, or the due date set forth in this Charter, the District shall pay to the School, in addition to the amount of the scheduled disbursement, interest at a rate of one percent (1%) per month calculated on a daily basis on the unpaid balance from the expiration of the ten (10) day period until such time as the warrant is issued. Late payments are subject to interest at the rate of 1% per month calculated on a daily basis until paid. Payment shall be made only to the account in an FDIC insured Active Qualified Public Depository account or a State-approved depository specified by the Governing Board.

4.6.6 Enrollment Capacity and Facility Compliance for Payments

Payment shall not be made for students in excess of the School's enrollment capacity, the School's valid facility capacity as determined by the School's Certificate of Occupancy, Certificate of Use, and/or Fire Permit (whichever is less) or this Contract. In the event that the required County and/or municipality facility permits do not indicate a facility capacity, the School must submit an official letter from the local jurisdiction confirming facility capacity certification by the Registered Architect. Where the local jurisdiction does not or is unable to issue an official determination of allowable capacity, the School may take one of the actions stated in this Contract. The Sponsor shall withhold monthly payments, without interest, if the School's Certificate of Occupancy, Certificate of Use or Fire Permit has expired or has otherwise become invalid, until such defect has been cured.

4.6.7 Charter School Capital Outlay Funds

The Sponsor shall make timely and efficient payments to the School for capital outlay funds pursuant to Sections 1011.72 and 1013.62, F.S. The Sponsor shall not certify capital outlay plans or recommend awarding capital outlay if it cannot attest to the School's eligibility.

4.6.8 Adjustments Due to Holdbacks and Prorations

In the event of a State holdback or a proration which changes District funding, the School's funding will be adjusted proportionately to the extent required by the law.

The Sponsor will not be responsible for any liabilities incurred by the School in the event of a State holdback. Notwithstanding the foregoing, distribution of FTE funds may be withheld, upon written notice by the Sponsor, if any of the following required documents are more than thirty (30) day overdue unless otherwise agreed or extended:

- (i) The School's monthly/quarterly financial statement as required by State Board of Education Rule 6A-1.0081, F.A.C.
- (ii) The School's annual financial audit as required by Section 218.39, F.S and this Charter.

The Sponsor shall release, in full, funds withheld under this provision within ten (10) days of receipt of the documents that resulted in the withholding of funds.

4.7 Summer School Provision

The School may choose to provide a summer school program using State allocated funds. All students attending a summer school session must be reported in FTE Survey 1 and Survey 4, as required by law. In the event that a student enrolled in the School attends any of the Sponsor's summer school programs, and the summer school program is not funded through Title I, the School shall reimburse the Sponsor for the cost of each student's summer school program, as determined by the Sponsor. If the School fails to comply with this provision within a reasonable time, the Sponsor may deduct the appropriate amount from the School's subsequent FTE or Federal funding payments.

4.8 Student Fees

4.8.1 Use of Student Fees

The School shall not charge fees, except those fees normally charged by the Sponsor or as allowed by law. Fees collected must be allocated directly to, and spent only on, the activity or material for which the fee is charged.

4.8.2 Fee Schedule

If the School intends to charge fees, it shall submit its comprehensive fee schedule to the Sponsor for review no later than July 1st prior to the school year in which the fees are intended to be charged. No funds shall be collected until the School has been given written approval from the Sponsor. Additional fees shall not be imposed without the notification and approval of the Sponsor. Fees shall not be a barrier to enrollment. Non-payment of fees shall not be a basis for dismissal or non-re-enrollment. Upon approval of the fee schedule, all fees collected must be reported and recorded appropriately using proper accounting procedures as required by law. Any fees that are solicited, required, or accepted in violation of this paragraph shall be returned to the parent or guardian.

4.8.3 Student Fee Documentation

SECTION 1: GENERAL PROVISIONS

This First Renewal of the Charter School Contract (Contract or Charter) entered into as of the 22nd day of April 2026, between The School Board of Miami-Dade County, Florida, (Sponsor or School Board), and BridgePrep Academy, Inc., a non-profit corporation organized under Chapter 617, F.S. (Corporation), d.b.a., BridgePrep Academy of Doral Middle-High School (MSID 5038) (School). This Contract is limited to the Corporation's BridgePrep Academy of Doral Middle-High School location. This Contract is effective upon approval by the parties.

1.1 Approved Application

The official Charter School Application/Renewal Packet approved by the School Board December 6, 2017, is attached hereto as Appendix A. All attached appendices are incorporated by reference and constitute part of this Charter. In the event of any conflict between the Application and any other provision of this Charter, the Charter provision shall control. In the event the Contract has not been approved/entered into, then the Application will be deemed withdrawn, and no further action will be taken with respect to the Contract.

1.2 Term of Charter

The term of this Charter shall be five (5) years, commencing July 1, 2026, and ending June 30, 2031. The Sponsor and the School initially entered into a charter school contract on November 18, 2020, and amended on July 19, 2023, June 18, 2024, and May 21, 2025. In the event of expiration, the term shall be automatically extended on a month-to-month basis until the Charter has been renewed, non-renewed, or terminated by the Sponsor. If the parties cannot reach agreement on the terms of a new contract, either party may request mediation from the Florida Department of Education (FDOE), pursuant to Section 1002.33(7)(b), F.S. If the Commissioner of Education determines that the dispute cannot be settled through mediation, the dispute may be appealed to an administrative law judge appointed by the Division of Administrative Hearings. The administrative law judge has final order authority to rule on the dispute, including whether proposed provisions of the Charter violate the intended flexibility granted charter schools by statute.

1.2.1 Start-Up Date and School Calendar - N/A

- (A) **School Opening Date.** For the first year of operating under this Charter, the School shall begin classes on the same day as the Sponsor or at such other time as otherwise determined by the Governing Board. The School cannot open absent submission of all required documents listed in the District's Pre-Opening Checklist (Appendix AA). Pursuant to law, the School may defer the opening of its operations for up to three (3) years to provide time for adequate facility planning. A charter school that elects to defer opening must provide written notice of such intent to the Sponsor and the parents of enrolled students at least thirty (30) calendar days before the first day of

school indicating (1) the deferral status as provided by law, and (2) the proposed first day of school. The first two (2) planning years will extend the term of this Contract. By March 1st of the year they were approved to open, a charter school that indicates they will defer opening must provide the District with a status report to include a timeline of all key operational items and milestones. The charter school shall continue to provide periodic status reports and make allowances for site visits. Failure to open the School: (1) on the day indicated in this Contract, (2) on the day indicated in the school's deferral notice, or (3) after all available deferral years will result in this Contract becoming null and void.

- (B) **Academic Calendar.** For a new charter school, the School's calendar shall be consistent with the beginning of the Sponsor's school calendar for the first year of operation. For every year thereafter, and for all other charter schools, if the School's calendar differs from the Sponsor's public-school calendar, including the instructional days, the School shall provide reasonable notice and submit the proposed calendar to the Sponsor and parents of enrolled students prior to the start of the school year. Any calendar changes that differ from the Sponsor's calendar, must be provided upon request and approved by the Sponsor prior to implementation. Calendar modifications may incur a processing fee at a rate no greater than the Sponsor's actual cost
- (C) **Required Instructional Minutes.** Instructional minutes shall be a minimum of 300 minutes per day. The hourly equivalent for Kindergarten through Grade 3 is 720 instructional hours and 900 instructional hours for students in Grades 4 through 12. Schools operating on a double-session calendar must be approved by the FDOE. Survey periods for Year-Round School Programs shall be the same as for the regular fiscal year. Year-round schools shall report the first ninety (90) days of their regular 180-day school year in Survey 2 and the second 90 days of their regular 180-day school year in Survey 3, regardless of when the tracks are in session.

1.2.2 Charter Modification

This Contract may not be modified unless approved by both parties in writing pursuant to School Board Policy 9800, *Charter Schools* (Appendix B). No contract modifications shall be enforceable unless it is in writing and approved by both the Governing Board and the Sponsor. If the modification involves changes to the grade levels, except as provided by law for high-performing charter schools, the School must provide information acceptable to the Sponsor relating to operational capacity, curriculum, budget, facilities, and staff. Certain amendments related to high-performing charter school contracts are governed by Section 1002.331, F.S.

and are also in accordance with the charter contract amendment process contained in School Board Policy 9800, *Charter Schools*.

1.2.3 Charter Renewal

- (A) **Renewal Notice.** This Charter may be renewed as provided for in Section 1002.33, or 1002.331, F.S. No later than September 15th in the final academic year of this charter, a Sponsor shall provide notice to the School regarding the process and timeline for completing the programmatic review required under s. 1002.33(7)(c)1., Florida Statutes.
- (B) **Renewal Review and Evaluation.** Prior to renewal of this Charter, the Sponsor shall perform a review to determine the level of success of the School's educational program, organizational performance, financial performance and achievement of the goals and objectives required by State accountability standards and successful accomplishment of the criteria under Sections 1002.33(7)(a) and (8)(a) F.S., compliance with the terms of the Charter, and that none of the statutory grounds for nonrenewal exist. Upon completion of the programmatic review, but no later than ninety (90) days prior to the end of the charter term, the Sponsor shall notify the Governing Board of the Charter School in writing of the proposed action to renew, terminate, or non-renew the Charter, pursuant to Section 1002.33(8)(a), F.S.
- (C) **Renewal Packet Submission.** Any charter school seeking renewal shall complete a Charter Renewal Packet as provided by the Sponsor's renewal process.
- (D) **Renewal Term and Approval.** Renewals may be approved for a term up to five (5) years unless another term is mutually agreed upon, required, or allowed by law. Upon approval, the Contract will be renewed following the contract negotiation process in current School Board policy and as required by law.
- (E) **Periodic Review and Evaluation:** The Sponsor may annually evaluate the School on its performance and progress, including academic achievement goals. The Sponsor may conduct a High-Stakes Review, as needed and/or upon charter renewal, and transmit the findings of the review to the Governing Board of the School. If the term of this Charter exceeds five years, the Sponsor may conduct a High-Stakes Review at least every five years and may transmit the findings of the review to the Governing Board of the School.

1.3 Termination or Non-Renewal

This Contract may be terminated or non-renewed during its term for any reason pursuant to State law or this Contract. Notices of non-compliance, non-renewal, or termination,

cancellation and default are issued in accordance with the procedures set forth in this Charter and as otherwise required by law.

1.3.1 Causes for Termination or Non-Renewal

The Sponsor shall make student academic achievement for all students the most important factor when determining whether to renew or terminate this Charter. The Sponsor may choose not to renew or terminate this Charter if it finds that any of the following grounds below exist by clear and convincing evidence, as set forth in Section 1002.33, F.S.

- (i) failure to participate in the State’s education accountability system created in Section 1008.31, F.S., as required in this section, or failure to meet the requirements for student performance established pursuant to this Charter;
- (ii) failure to meet generally accepted standards of fiscal management due to deteriorating financial conditions or financial emergencies determined pursuant to s. 1002.345, F.S.;
- (iii) material violation of law;
- (iv) if insufficient progress has been made in attaining the student achievement objectives of the charter and if it is not likely that such objectives can be achieved before expiration of the charter; provided, however, that for long-term charters issued pursuant to s. 1002.33(7)(a)20., F.S., the Charter shall remain subject to annual review and may be terminated during the term of the Charter only in accordance with the provisions of Section 1002.33(8), F.S.;
- (v) if the School earns two consecutive grades of “F” after all school grade appeals are final except otherwise provided in Section 1002.33, F.S.

1.3.2 Causes for Immediate Termination

Pursuant to Section 1002.33(8)(c), this Charter may be terminated immediately if the Sponsor sets forth in writing the particular facts and circumstances demonstrating that an immediate and serious danger to the health, safety, or welfare of the School’s students exists; that the immediate and serious danger is likely to continue; and that an immediate termination of the charter is necessary. In making the determination as to whether good cause exists for immediate termination, the Sponsor will consider whether the totality of the circumstances warrant a decision to forego the procedures for a ninety (90) day termination. Lack of a facility meeting the requirements of law in which to operate the School may constitute an immediate and serious danger to the health, safety, or welfare of the School’s students.

1.3.3 Procedures for Termination or Non-Renewal

- (A) Sponsor Notification Responsibilities.** The Sponsor shall notify the School’s Governing Board and principal in writing at least ninety (90) days

prior to non-renewing or terminating the Contract. The notice shall comply with the requirements of Section 1002.33, F.S., state in reasonable detail the grounds for the proposed action, shall expressly find that one or more of the grounds for non-renewal under Section 1002.33(8)(a), exists by clear and convincing evidence, and stipulate that the Governing Board may request a hearing within fourteen (14) calendar days of receiving the notice. The hearing shall be conducted using the procedure specified in Section 1002.33(8)(b), Florida Statutes.

- (B) **Hearing Request.** The School's Governing Board may request an administrative hearing before the Florida Division of Administrative Hearings (DOAH). This request must be authorized by a vote of the Governing Board in a legally advertised public meeting with a quorum present. Minutes or an adopted resolution documenting the action must be submitted with the request. The School shall file the request with the School Board Clerk pursuant to School Board Policies 0133, *Quasi-Judicial*, 9800, *Charter Schools*, and Section 120.54(5)(b), F.S. Legally sufficient requests shall be forwarded to DOAH. The DOAH hearing will be conducted pursuant to Florida Statute 1002.33, and Chapter 120, F.S. Following the DOAH hearing, the administrative law judge shall submit a final order to the Sponsor. For purpose of notice, the Charter School's Governing Board is the last roster submitted by the School to the Sponsor.
- (C) **Continued Operations During Proceedings.** The School's Governing Board shall continue to operate the School until a final order terminating the charter is issued and all administrative remedies have been exhausted, during which time all provisions of this Contract shall remain in effect. The closing date shall be negotiated between the Sponsor and the School, unless otherwise provided for in a final order.
- (D) **Expenditures.** Upon notification of non-renewal or termination, the School may not expend more than \$10,000 per expenditure without prior written approval from the Sponsor unless the expenditure was included within the annual budget submitted to the Sponsor, is for reasonable attorney fees and costs during the pendency of any appeal, or reasonable fees and costs to conduct an independent audit.

1.3.4 Procedures for Immediate Termination

- (A) **Sponsor Notification Responsibilities.** The Sponsor's determination is subject to the procedures set forth in paragraph 1.4.2(A), except that the hearing may take place after the charter has been terminated. Upon immediate termination, the Sponsor shall notify the School's Governing Board chair, principal, and the FDOE in writing, detailing the specific facts

and circumstances demonstrating the existence of such danger, explaining why the danger is likely to continue, and stating why immediate termination of the Charter is necessary to protect the health, safety, or welfare of the students, pursuant to Section 1002.33(8)(c), F.S.

- (B) **Hearing Request.** The Sponsor's determination is subject to the 90-day termination procedures in this Charter, except that, upon receiving written notice from the Sponsor, the Charter School's Governing Board has ten (10) calendar days to request a DOAH hearing. The hearing may take place after the charter has been terminated.
- (C) **Operation of the School.** The Sponsor shall assume operation of the school throughout the pendency of the hearing as provided for in Section 1002.33(8)(d), F.S., unless the continued operation of the School would materially threaten the health, safety or welfare of the students. The Sponsor may seek an injunction in the circuit court in which the Charter School is located to enjoin continued operation of the Charter school if continued operation would materially threaten the health, safety, or welfare of the students. If the School has no facility at the time of termination, the Sponsor is not obligated to operate the School.
 - (a) **Access to Records and Facilities.** Upon receipt of notice of immediate termination, the School shall immediately provide the Sponsor access to the School's facilities along with security system access codes and access codes for all School-owned or leased computers, software, networking, switching and all other technical systems in the School's facilities or remotely located areas serving the School, and shall make accessible to the Sponsor all student, educational, operational, and administrative records of the School including those held by third parties. Moreover, within two (2) business days, the School shall turn over to the Sponsor copies of all records and information for all expenditures of public funds held by the School, including but not limited to Federal grants such as Title I and charter school grants and grant the Sponsor access to the School's bank accounts which contain public funds, storage facilities, and all public property. The Sponsor shall assume operation of the school throughout the pendency of the hearing as provided for in s. 1002.33(8)(d), Florida Statutes, unless the continued operation of the School would materially threaten the health, safety or welfare of the students. Failure by the Sponsor to assume and continue operation of the School shall result in the awarding of reasonable costs and attorney fees to the School if the

School prevails on appeal. If the School prevails in an appeal through a final adjudication by an administrative law judge or by a final adjudication and mandate by the appellate court if an appeal to the appellate court is filed, the Sponsor shall, immediately, return to School all keys, security codes, all educational and administrative records of the School, and the School's facility. In that case, the School's Governing Board shall resume operation and oversight of the School.

- (b) **Employees of the School.** The School's instructional and operational employees may continue working in the School during the time that the Sponsor operates the School at the Sponsor's option but will not be considered employees of the Sponsor. Any existing employment contracts that any School personnel may have with the School may not be assumed or transferred to the Sponsor or any entity created by the Sponsor during the assumption of operations of the School unless the Sponsor or its entity, and the School, agree otherwise. The Sponsor may take any appropriate personnel action regarding the School's employees.
- (c) **Disbursement of Funds.** The Sponsor shall only disburse school funds in order to pay the normal expenses of the School as they accrue in the ordinary course of school business. The Sponsor is not required to use its own funding resources to pay the School's debts.

1.3.5 School Election to Terminate or Non-Renew

If the School elects to terminate or non-renew the Charter, it shall provide reasonable prior notice of the election to parents of enrolled students, the Sponsor, and the FDOE, indicating the final date of operation as voted by the Governing Board at a publicly noticed meeting. A board resolution, signed by the School's Governing Board chair and secretary indicating support of this action, shall accompany the written notification provided to the Sponsor. The School agrees that such notification shall be considered a voluntary termination by the Governing Board and a waiver of its right to a hearing or appeal and that this voluntary termination shall not be reversed. Additionally, all post-termination provisions incorporated in this Contract shall apply.

1.3.6 Removal of Public Property

Upon notice of termination or non-renewal, the School shall not remove any public property, as defined in this Contract, from the premises without written Sponsor approval.

1.4 Post-Termination Provisions

1.4.1 Dissolution of School

The School shall be dissolved under the provisions of law under which the School was organized. Copies of all administrative, operational, and financial records of the School shall be provided to the Sponsor on or before the date the termination/non-renewal takes effect. The School shall also provide to the Sponsor the School's security system and technology access codes.

1.4.2 School Debt

If this Charter is not renewed or is terminated, the School shall be responsible for all the debts of the School. The Sponsor shall not assume the debt from any contracted services made between the Governing Body of the School, the Management Company, and/or third parties, including lease or rental agreements, except for a debt previously detailed and agreed upon, in writing, by both the Sponsor and the Governing Board and that may not reasonably be assumed to have been satisfied by the Sponsor. In no event shall the District be responsible under any assignment of a lease for any debts or obligations of the School incurred prior to such assignment.

1.4.3 Leases with the District

In the event of termination or non-renewal of this Charter, any and all leases existing between the District and the School shall be automatically cancelled, unless the lease provides otherwise.

1.4.4 Student Transfers and Records

In the event of termination or non-renewal, any students enrolled at the School may be enrolled at their home District school, or any other school, consistent with the District's student transfer procedures including transfer of all student records to the receiving school. Upon termination or closure of the School, all student education records shall be transferred immediately to the receiving school or the Sponsor for processing and maintenance, as directed by the Office of Charter School Compliance and Support (CSCS).

1.4.5 Disposition of Assets and Unencumbered Funds

All assets of the School purchased with public funds (except for capital funds and federal charter school program grant funds), including supplies, furniture and equipment, shall automatically revert to full ownership by the Sponsor, subject to complete satisfaction of any lawful liens or encumbrances. Any unencumbered public funds from the School, Sponsor property and improvements, furnishings, and equipment purchased with public funds, or financial or other records pertaining to the School, in the possession of any person, entity, or holding company, other than the School, shall be held in trust upon the Sponsor's request, until any appeal is resolved, and proper distribution of the property is determined. If the School's

accounting records fail to clearly establish whether a particular asset was purchased with public funds, then it shall be presumed public funds were utilized and ownership of the asset shall automatically revert to the Sponsor (subject to any lawful liens and encumbrances). Property and assets purchased with public funds shall be defined as those goods purchased with grants and funds provided by a governmental entity. Public funds provided by the School and used by a management company to purchase property and assets for the School are considered public funds.

1.4.6 Final Audit

Pursuant to s. 1002.33, F.S., upon notice of non-renewal, closure, or termination, an independent audit shall be completed within thirty (30) days to account for all public funds and assets. During the fiscal year in which termination or non-renewal occurs, the School Board of Miami-Dade County shall withhold from the School's Florida Education Finance Program (FEFP) funds, without penalty or interest, an amount necessary to pay for a final independent financial audit of the School. The audit shall be conducted by an independent certified public accountant.

1.5 General Statutory Requirements

1.5.1 Non-Discrimination

The School shall not discriminate in educational programs/activities or employment and shall provide equal opportunity for all as required by all applicable Federal, State and local laws, rules, regulations and court orders. The School shall designate a Title IX Coordinator in accordance with 34 C.F.R. § 106.8 to coordinate its compliance with Title IX of the Education Amendments of 1972, 20 U.S.C. § 1681, et. seq. and 34 C.F.R. 1.5.2 Compliance

The School shall comply with those statutes that specifically apply to charter schools as set forth in Section 1002.33 generally, subsection 1002.33(16), and other applicable State laws. The School agrees that it will abide by all Federal and State laws, statutes, rules, and regulations applicable to charter schools and also abide by the terms and conditions of the Charter.

SECTION 2: EDUCATIONAL PROGRAM

2.1 Academic Accountability

2.1.1 Incoming Baseline Standard of Student Academic Achievement

The School will establish the current incoming baseline standards of student academic achievement, the outcomes to be achieved, and the method of

measurement that will be used, as described in the approved Application or otherwise described in this Contract, in a format provided by the Sponsor.

2.1.2 Academic Student Performance Data

By September 15 of each year, the Sponsor shall provide the School with access to academic student performance data on state required assessments for each student attending the School that was enrolled the prior year in another public school, pursuant to s. 1002.33(7)(a)3., Florida Statutes.

2.1.3 Academic Progress Rates for Comparable Student Populations

By September 15 of each year, the Sponsor shall provide the School the rates of academic progress for the prior year for comparable student populations in the District. The data shall include proficiency and growth on state assessments for English Language Arts and Mathematics by grade grouping (grades 3-5, 6-8, 9-12) for the following student groups:

- i. Students scoring a level 1 on prior year assessment
- ii. Students scoring a level 2 on prior year assessment
- iii. Students scoring a level 3 or higher on prior year assessments
- iv. Students with disabilities
- v. English Language Learners

2.1.4 Academic Achievement Goals

- (A) **First Year of Operation.** By October 15 of the first year of the School's operation, the School shall provide its proposed academic achievement goals for the current year to the Sponsor. The academic achievement goals shall include, at a minimum, growth and proficiency on state assessments, and may include performance on additional assessments included in the approved Application. If the School will not serve students in grades that participate in the statewide assessments the academic achievement goals shall be based on the assessments included in the approved application, and at least one assessment administered in traditional public schools in the District.
- (B) **Subsequent Charter Years.** By October 15 of the second year of the School's operation, the School shall provide its proposed academic achievement goals for the remaining years of the Charter, up to a maximum of four years or the end of the current Charter term, whichever occurs first, using the same parameters and testing set forth in this Contract. Schools that have contracts in excess of five years shall resubmit proposed academic achievement goals every four years pursuant to the process described in this paragraph.
- (C) **Sponsor Review.** The Sponsor shall review the proposed academic achievement goals within 30 days of receipt. If the Sponsor does not accept

the proposed academic achievement goals, it shall provide the School a written explanation. If the Sponsor does not respond within 30 days of receipt, the academic achievement goals are deemed accepted. If the School and Sponsor cannot agree on academic achievement goals, either party may request mediation pursuant to Section 1002.33(6), F.S. The goals may be adjusted at any time upon mutual written consent of both parties.

- (D) **Governing Board Approval.** The School's Governing Board shall review and approve the goals and objectives prior to its final submission. Minutes documenting approval must be taken and posted on the School's website pursuant to Section 1002.33(9)(p)1.
- (E) **Performance Reporting.** Annually, the School shall report its performance against the academic goals in the format requested by the Sponsor. The School agrees to allow the Sponsor reasonable access to its facilities and records to review its data sources in order to assist the Sponsor in making a valid determination about the degree to which student performance requirements have been met, as stated in this Charter, and as required by Sections 1008.31 and 1008.345, F.S. Furthermore, the School shall allow the Sponsor to collect data through other means such as survey to conduct research and/or evaluations as required for state reporting requirements. The Sponsor shall not impose additional reporting requirements on the School without providing reasonable and specific justification in writing to the School and the School shall provide required responses/data within the timelines that allow the Sponsor to meet required deadlines. If the School falls short of the academic achievement goals set forth under the provisions of this Charter, the Sponsor shall report such shortcomings to the School's Governing Board and FDOE. The School and Sponsor may agree to adjust the goals through the same process set forth in this Section.

2.2 Performance Improvement Requirements for Low-Performing Schools

2.2.1 School Improvement Plan (SIP)

- (A) **Schools that Earn a Grade of "D" or "F."** Pursuant to Section 1002.33(9), if the School earns a grade of "D" or "F," the director and a representative of the Governing Board must appear before the Sponsor to present information regarding contract components with noted deficiencies. The Governing Board representatives must submit a SIP to the Sponsor for approval, outlining strategies to improve student performance and begin implementation of the SIP upon the Sponsor's approval.
- (B) **Schools Identified for Support by the FDOE.** If the School is identified by the FDOE (under the Every Student Succeeds Act) to be included in the list of schools for comprehensive support and improvement (CS&I),

additional targeted support and improvement (ATSI), or targeted support and improvement (TS&I), it must develop and implement a SIP approved by the Governing Board and the Sponsor. Upon approval by the Sponsor, the charter school shall begin implementation of the SIP.

- (C) **Posting and Monitoring of Approved School Improvement Plans.** Minutes documenting SIP approval must be posted on the School’s website pursuant to Section 1002.33(9)(p)1., F.S. The Governing Board shall monitor the implementation of the SIP.

2.2.2 Corrective Actions

- (A) **Selection of Corrective Actions.** If the School earns three consecutive grades below a “C,” the School’s Governing Board must select and implement one of the following corrective actions:
 - (i) Contract with an outside entity to provide educational services directly to students, instructional personnel, and school administrators, as prescribed by State Board of Education rules.
 - (ii) Contract with an external organization with a demonstrated record of effectiveness to operate the school.
 - (iii) Reorganize the school under new leadership, such as a new director or principal, who is authorized to hire new staff.
 - (iv) Voluntarily close the charter school.
- (B) **Implementation Timeline.** The selected corrective action must be implemented during the school year immediately following the receipt of the third consecutive grade below a "C." If the School improves to a grade of "C" or higher, the corrective action is no longer required. However, the School must continue implementing the strategies outlined in its school improvement plan, subject to annual monitoring by the Sponsor.
- (C) **Waiver and Termination.** The Sponsor may waive the corrective action annually if it determines that the School is likely to improve its grade with additional time to implement strategies outlined in the school improvement plan. However, a school earning two consecutive grades of “F” is subject to immediate interventions under subparagraph 3. The School is no longer required to implement a corrective action if it improves its grade to a “C” or higher. However, the School must continue implementing strategies identified in its school improvement plan and the sponsor must annually review the School’s implementation of the plan to ensure continued improvement.
- (D) **Selection of a New Corrective Action.** If the School fails to improve to a grade of “C” or higher after two full school years of implementing a corrective action, the Governing Board must select a new corrective action

to begin the following school year unless the Sponsor determines that additional time is likely to result in the School achieving a “C” or higher under the existing corrective action.

- (E) **Immediate Interventions.** Notwithstanding this subparagraph, a school earning two consecutive grades of “F” while implementing a corrective action is subject to immediate interventions under Section 1002.33(9)(n)3, F.S.

The School will select and implement its own progress monitoring tools and assessments pursuant to statute. The School shall provide notice to the District when making changes to the assessments utilized. The School shall be responsible for the costs of additional assessments, including District assessments that are not required by law or this Charter (except those developed with federal funds or those developed using the Florida’s Item Bank and Test Platform) and progress monitoring tools unless the Sponsor is required, by law, to be responsible for the costs. . The School shall provide notice to the District when making changes to the assessments utilized.

2.3.3 Advanced Academic Program Assessments

If the School offers advanced academic programs (e.g., International Baccalaureate, Advanced Placement, and/or Advanced international Certificate of Education Program), the School shall provide official assessment results within the timeframe required by law and in the format determined by the Sponsor.

2.3.6 Test Administration, Security, and Support

The School shall designate a School Assessment Coordinator from the School who is required to attend all training sessions and informational meetings required by the Sponsor for required State and optional District assessments and shall be responsible for proper test administration. Any material violation of assessment administration and security procedures may constitute good cause for termination of this Charter.

2.4.1 Implementation

The School shall implement its educational and related programs as specified in its School Board-approved Application (Appendix A). Any material changes to the education program or curriculum as described in the approved Application or Charter require Sponsor approval. This includes the School's curriculum, the instructional methods, distinctive instructional techniques, and the identification and acquisition of appropriate technologies to enhance educational and administrative performance. The School shall make reading a primary focus of the curriculum and provide sufficient resources to identify and provide specialized instruction for students who are reading below grade level. Further, the curriculum and instructional strategies for reading shall be consistent with Standards and grounded in scientifically based reading research. Failure to implement a reading curriculum that is consistent with effective reading strategies grounded in scientifically based reading research if not timely cured after written notice may constitute good cause for termination of this Charter.

2.4.5 Mathematics Curriculum and Support for Below-Level Students

The School shall ensure that mathematics is a primary focus of the curriculum, consistent with the requirements of Section 1002.33(7)(a)2.b., Florida Statutes. Courses will be offered in accordance with the approved Application or Renewal Packet. To meet this requirement, each school that offers these options may provide courses through virtual instruction, if the virtual course significantly integrates post-secondary level content for which a student may earn college credit, as determined by the Florida Department of Education, and for which a standardized end-of-course assessment, as applicable and approved by the department, is administered.

2.5.2 Dual Enrollment (DE)

Pursuant to Section 1007.271, F.S., the School may provide dual enrollment opportunities to any student meeting the eligibility requirements and expressing the desire to enroll.

institutions as required by law. The School shall also develop and implement a plan to inform all secondary students and their parents of dual enrollment opportunities as an educational option and mechanism for acceleration and shall ensure that dual enrollment courses taught on the high school campus will not be combined with any high school course. This agreement shall include the method of payment between the School and the postsecondary institution and shall be submitted annually to the Florida Department of Education and the Sponsor by August 1st.

- (B) **Eligible Institutions.** Pursuant to Section 1011.62, F.S., an eligible college or university that is accredited by a regional or national accrediting agency recognized by the United States Department of Education, which confers degrees as defined in Section 1005.02, F.S., shall be eligible to offer authorized dual enrollment programs.

2.6 Student Promotion and Graduation

2.6.1 Student Progression Plan

The School will not adopt, and implement with fidelity, the Sponsor's student progression plan (Appendix D) in effect for the current operational year. If the School elects to develop and adopt its own plan, it must secure approval from its Governing Board before submitting the plan to the Sponsor for approval. Once approved, the plan shall be attached herein as Appendix E. If the School opts to develop and implement their own SPP, the School shall establish a policy for determining that a student has satisfied the requirements for graduation that is consistent with the provisions of Florida law and shall inform the Sponsor of this policy and/or any changes to a previously adopted policy at least one (1) month prior to the beginning of the school year. The School's student promotion policy

shall be consistent with the provisions of the Application and applicable Florida law. Failure to comply with this provision may result in withholding of Full-Time Equivalent (FTE) until compliance.

Secondary schools shall notify the parent and students of the School's accreditation status and the implications of non-accreditation in (a) the School's student enrollment form; (b) the Parent/Student Handbook; and (c) and Parent/Student contract. The notification must also be prominently displayed at all times on the School's website.

2.6.5 Compliance with Student Progression Requirements

Failure of secondary charter schools to comply with applicable Sections of 1003.42 and 1008.25, F.S. (Public School Student Progression; Student Support; Reporting Requirements) may constitute good cause for termination of this Charter.

2.7 English Language Learners

2.7.1 Plan Adoption and Approval

The School will adopt the District's English Language Learners Plan (Appendix F) in effect for the current operational year, and which meets the requirements of the League of United Latin American Citizens (LULAC) et al. v. State Board of Education Consent Decree. If the School elects to implement its own plan, approved by its Governing Board, it is attached hereto as Appendix G. The plan must include sufficient information and detail to allow the Sponsor to determine legal sufficiency.

2.7.2 Services for English Language Learners

Students at the School who are English Language Learners (ELL) will be served by English for Speakers of Other Languages (ESOL) endorsed or certified personnel. Failure to comply with all applicable laws ordinances, and codes of Federal, State, and locale governance including, without limitation, the Individuals with Disabilities Education Act (IDEA) and applicable laws relating to English Language Learners (ELL) if not timely cured after written notice constitutes good cause for termination of this Charter.

2.8 Exceptional Student Education

2.8.1 Program Requirements

Exceptional students shall be provided with programs implemented in accordance with applicable Federal, state, and local policies and procedures; and, specifically, the Individuals with Disabilities Education Act (IDEA), Section 504 of the Rehabilitation Act of 1973, Sections 1000.05 and 1001.42(4) (l) of the Florida Statutes, and Chapter 6A-6 of the Florida Administrative Code. Students with disabilities will be educated in the least restrictive environment and will be segregated only if the nature and severity of the disability is such that education in regular classes with the use of supplementary aids and services cannot be achieved satisfactorily. The School must maintain a continuum of ESE placements as indicated in the School's approved Application and Renewal Packet.

2.8.2 Non-Discrimination and Admission Procedures

The School shall not discriminate against students with disabilities in placement, assessment, identification, selection, or admission. The School shall not request a student's IEP, EP, Section 504 Plan, or other information regarding a student's special needs prior to or during the application and lottery process, nor shall the School access such information prior to or during the application and lottery process. Only schools that serve exclusively students with disabilities may request the IEP, EP, or Section 504 Plan as part of the application and lottery process to determine whether the services are compatible with the School's programmatic model.

2.8.3 Individualized Education Plans (IEPs) and 504 Plans

The School shall conduct Individual Educational Plans (IEPs) for eligible students, to include an annual IEP meeting with the eligible student's family. Upon enrollment, or notice of acceptance sent to the student, the School may request from the District information related to the student's program and needs, including the student's most recent IEP, which shall be provided within ten (10) days.

2.8.4 Student Placement and Referral

If the School determines, upon review of the IEP, that the student's needs cannot be met at the School, the School shall contact the Sponsor's District Staffing Specialist assigned to the School for assistance with an appropriate school assignment in accordance with this Contract. After enrollment, any student who is suspected of having a disability must be referred for evaluation in accordance with this Contract, and if eligible for services pursuant to IDEA or Section 504, an appropriate IEP or Section 504 plan must be developed before the student is referred to the District for consideration of another school assignment. The Sponsor shall be invited to and may attend the meeting, at which time the IEP team shall determine whether the School is an appropriate placement for the student.

2.8.5 Civil Rights Complaints and Investigations

If the School receives a complaint filed or becomes aware of an investigation with the U.S. Office of Civil Rights (OCR) or any other governmental entity and the complaint or investigation relates to the School and could involve the Sponsor, the School shall, within one (1) school day, notify the Sponsor and provide the Sponsor any documentation from the agency (except where to give such notice would violate the law or the directions of the investigating government entity). The School shall fully cooperate with the Sponsor during any investigation and/or proceeding by the OCR or any other governmental entity that could involve the Sponsor, including providing the Sponsor with a draft response to OCR and providing all necessary relevant information and supporting documentation, and making staff available for interviews, as deemed necessary. If the written information on the complaint does not allege, or it cannot be inferred from the facts given, an allegation against the Sponsor of: (1) discrimination based on race, color, national origin, sex, disability or age, (2) discrimination in violation of the Boy Scouts of America Equal Access Act of 2001, or (3) retaliation for the purpose of interfering with any right or privilege secured by the civil rights laws and regulations enforced by OCR, or as a result of making a complaint, testifying, or participating in any manner in an OCR proceeding, the School shall submit the final version of the response directly to OCR on its own behalf with a copy provided to the Sponsor. The School shall bear all costs, fees, reimbursements, and compensatory education associated with the investigation, including any incurred, agreed upon or awarded. Notwithstanding the aforementioned, the Sponsor shall assume or reimburse the costs attributable to, caused by or through the fault of the Sponsor, if any. Failure of the school to pay the costs, fees, reimbursements, and compensatory education within a reasonable time after the expiration or exhaustion of any appeals will result in the Sponsor deducting any amount owed from the School's FTE payments.

2.8.6 Sponsor Responsibilities

The Sponsor shall provide ESE administration services to the School, pursuant to Section 1002.33, F.S.

- (A) Student Evaluations.** The Sponsor shall conduct initial evaluations of students referred for potential Exceptional Student Education, Gifted, Section 504 eligibility, and for the re-evaluation of Exceptional Student Education students, in accordance with Federal and State mandates. All requirements for Response to Intervention (RtI) must be followed by the School with fidelity prior to and during the evaluation process. The School and/or parents may obtain private evaluations of students at their expense. These evaluations must be considered in determining eligibility but will not

necessarily substitute for an evaluation conducted by the Sponsor's personnel in a manner and timeframe consistent with that of all of the other Sponsor's schools.

- (B) **Initial LEA Representation.** A representative of the Sponsor shall serve as the Local Education Agency (LEA) Representative in all initial IEP, EP, and Section 504 Plan meetings. However, the administrator or designee in charge at the School will serve as the LEA Representative at all other annual and interim IEP, EP, and Section 504 meetings, which the School shall conduct.
- (C) **Compliance Monitoring.** The Sponsor will monitor the School for ESE compliance with applicable Federal, State, and local policies and procedures as outlined in the Exceptional Student Education Policies and Procedures (SP&P) (Appendix H). Failure to comply with Federal, State, or local law or policy, after notice and a reasonable opportunity to cure, may result in the Sponsor withholding FTE funding from the School until compliance is achieved.

2.8.7 School Responsibilities

- (A) **Disability Disclosure and Placement Determination.** The School shall not inquire about a student's disability status prior to registration/enrollment or notice of acceptance. No later than the tenth day of the student's attendance after the point of registration/enrollment or notice of acceptance, the School shall notify the Sponsor's District Staffing Specialist assigned to the School if the IEPs, EPs, or Section 504 Plans of students who have applied and been accepted cannot be implemented at the School. The Sponsor shall be invited to and may attend the meeting, at which time the IEP team shall determine whether the School is an appropriate placement for the student. If a student's IEP, EP, or Section 504 Plan can be implemented at the School, based on the continuum of services as outlined in the application or as revised by a modification to this Contract, the student shall not be required to attend another school. All IEP changes of placement shall be based upon data and student needs.
- (B) **Student Support and Evaluation Protocols.** The School shall initiate all Request for Assistance (RFA) and Student Support Team (SST) meetings when concerns are raised by school staff or parents about student's functioning. When a student is suspected of having a disability, the School shall make a written request to obtain parental consent for evaluation for referral to the Sponsor. If parental consent is denied or the parent fails to respond, the School must notify its legal counsel and the Sponsor for consideration of pursuing evaluation by using the mediation or due process

procedures. The School shall fully implement the required RtI, IEPs, EPs, Functional Behavioral Assessments (FBA)/Social Emotional Behavior Intervention Plans (SE-BIP) and Section 504 Plans of enrolled students, including delivery of supplementary aids and services and related services, unless the IEP, EP, or Section 504 team determines that the student's needs cannot be met at the School and placement at another school within the Sponsor's district constitutes the least restrictive environment on the continuum of alternative placements. The School must follow all disciplinary procedures and policies relevant to students with disabilities, including implementation of FBAs/SE-BIPs and manifestation determinations. In no instances should a student's IEP, EP, or Section 504 services or placements be changed solely for the purpose of accommodating the School's placement options.

- (C) **Delivery of Educational Services and Equipment.** The School shall deliver all educational related services and equipment indicated on the student's IEP, EP, or Section 504 Plan unless a determination has been made by the School and the Sponsor that the student's IEP cannot be implemented at the School. The School shall also provide related services and equipment, e.g., speech/language therapy, occupational therapy, physical therapy, nursing, counseling, assessment instruments, assistive technology devices, transportation and therapeutic equipment.
- (D) **Evaluations and Service Delivery.** The School shall conduct the evaluations of the School's students referred for Physical Therapy (PT), Occupational Therapy (OT), Speech and Language (SL), Nursing, Assistive Technology (AT) and Functional Behavior Assessment (FAB) services with personnel qualified in accordance with State of Florida regulations and in accordance with Response to Intervention requirements. If the student is determined eligible for these services and they are added to the student's IEP or Section 504 Plan, the School shall be responsible for the provision or delivery of required services to the student. The School shall ensure that the person(s) conducting evaluation(s) attend an IEP meeting to review the evaluations when eligibility for services is determined. All evaluations must include a review of the student's educational records, including but not limited to IEP or Section 504 Plan; identification and development of goals to be supported by PT, OT, SL behavioral intervention and/or assistive technology, and/or nursing; a treatment plan for the student; and reference to supporting medical documentation if applicable. The School shall ensure that all instructional personnel and service providers review and implement the student's IEP. The School shall ensure that all service providers

contribute to the student's annual and interim IEP meetings either in writing, by telephone, through electronic means, via video conferencing, or in person. Service providers must also contribute to status reports and updates on the student's IEP goals and benchmarks related to their areas of treatment. The School shall require all service providers to the student to attend orientation and in-service training on delivery of school-based services and how to support educationally relevant IEP goals. The Sponsor shall provide the orientation and in-service training. The Sponsor may conduct periodic reviews of the paperwork prepared by the service providers providing services to such students.

- (E) **Independent Educational Evaluations.** The School shall immediately notify the Sponsor if a parent requests an Independent Educational Evaluation (IEE) at public expense and work with the Sponsor to determine whether the IEE will be granted, or a due process action will be filed to defend the School's/Sponsor's evaluation. Responsibility for IEE due process litigation will be apportioned according to the type of evaluation at issue and in accordance with this Contract.
- (F) **Compliance with IDEA, Section 504, and EP Regulations.** The School shall comply with the requirements of the IDEA, Section 504, and regulations as they relate to the student's IEP/Section 504 Plan, and/or EP. The School shall ensure that the appropriate highly qualified instructional personnel of the School that are required members of the IEP committee attend all IEP, Section 504 and/or EP meetings.
- (G) **Policy for Service Animal Requests.** The Governing Board shall adopt a policy and procedure for consideration of service animal requests made to the School.
- (H) **Least Restrictive Environment.** Exceptional students shall be educated in the least-restrictive environment. Students whose needs cannot be appropriately addressed at the School as determined by an IEP, EP, or Section 504 team meeting held after enrollment, will be appropriately referred to the student's home school. The School shall contact the Sponsor's District Staffing Specialist assigned to the School and/or the Sponsor's Office of Exceptional Student Education to notify staff that the student has been referred to their home school.
- (I) **Professional Development Requirements.** The School shall make its personnel aware of professional development opportunities offered by the Sponsor's Office of Exceptional Student Education and Psychological Services departments. In addition, the School shall require all personnel assigned to implement IEPs, EPs, and Section 504 Plans to participate in

meetings and/or trainings required by the Sponsor's Office of Exceptional Student Education and Psychological Services departments.

- (J) **Enforcement of Compliance.** Failure to comply with federal, state, or local law or policy, after notice and a reasonable opportunity to cure, may result in the Sponsor withholding FTE funding from the School until compliance is achieved.

2.8.8 Due Process and Dispute Resolution Procedures

- (A) **Filing and Notification.** A student, parent, or guardian who indicates that they wish to file for a due process hearing, pursuant to State law and rules shall be given the appropriate forms by the LEA attending the meeting. These forms shall also be provided upon request at any other time. Parents must file due process hearing requests with the School Board Clerk pursuant to School Board Policy 0133, *Quasi-Judicial Functions*, and the procedural safeguards posted on the Sponsor's Exceptional Student Education website. Any due process requests received by the School must be forwarded to the Sponsor's ESE Director and legal counsel on the same business day. The Sponsor's legal counsel will ensure that all ESE due process hearing requests/complaints are filed with the Florida Division of Administrative Hearings (DOAH) and place the School on notice of the complaint. With regard to Section 504 due process requests, the Sponsor's legal counsel will evaluate the due process request and work with the School's legal counsel to determine the proper course of action in accordance with the School's and the Sponsor's procedural safeguards and hearing procedures.
- (B) **Review, Representation and Cost Responsibilities.** The Sponsor will review the due process complaint and hold an initial meeting to analyze the merits of the complaint. The School must select its own legal counsel to consult and cooperate with the Sponsor's legal counsel. The School's legal counsel will file a Notice of Appearance before the Division of Administrative Hearings within ten (10) days of the filing of the due process complaint. The School's legal counsel will participate in the initial strategy meeting with the Sponsor. Prior to the meeting, the School shall forward all relevant documentation to the Sponsor's legal counsel. Final decisions on legal strategies shall be made by the Sponsor's attorney in consultation with the School. The Sponsor's legal counsel will represent the Sponsor on all claims brought by parents related to evaluations referenced in this Contract. The School's legal counsel shall represent the School on claims related to all other evaluations, including at the School's election when the parent refuses to consent or fails to respond to the School's request for consent to evaluate. At the election of the Sponsor's legal counsel, if the School elects

not to pursue a claim regarding parental refusal/failure to provide consent to evaluate, the Sponsor may elect to pursue the claim after consultation with the Sponsor's counsel. The Sponsor's legal counsel will represent the Sponsor in all cases where a District employee fulfills the role of the LEA at the staffing/IEP meeting. The School's legal counsel will represent the School on all claims related to implementation of RtI, IEPs, Section 504 Plans, EPs, Manifestation Determination decisions, and where a School employee fulfills the role of the LEA Representative at the staffing/IEP meeting. Claims related to IEPs will be represented by counsel for whichever party is responsible for the type of evaluation at issue. The Sponsor's legal counsel will seek a dismissal of the Sponsor with regard to claims over which the Sponsor had no role (e.g., implementation claims). However, if the dismissal is denied, the Sponsor's counsel will continue to provide recommendations and work with the School's counsel as co-counsel on the pending case. The School shall pay all costs associated with the administrative due process hearing, legal representation, discovery, court reporter, and interpreter and all appeals. In the event that the student, parents, or guardians prevail, either through a hearing, court action, or settlement, the School shall pay any and all attorneys' fees, reimbursements, compensatory education and any other costs incurred, agreed upon or awarded; however, the District shall assume or reimburse the costs of the defense attributable to, caused by or through the fault of the District, if any, as outlined above. Any costs, fees, or other expenses incurred, as set forth in this paragraph, will be automatically reduced from the FTE funds passed through the Sponsor to the School, without any penalty of interest, although the School may request, and the parties agree to a payment plan.

- (C) **Participation in Resolution and Mediation Sessions.** The School must designate an administrator and relevant members of the IEP team to attend a resolution or mediation session conducted by the Sponsor's due process team. The School's legal counsel and the Sponsor's legal counsel may participate in the resolution session only if the parent is an attorney or is represented by an attorney. If the Sponsor and the School elect to participate in mediation in lieu of a resolution session, the Sponsor's due process team will invite the legal counsels of the Sponsor and the School.
- (D) **Post-Mediation Recommendations and Cost Responsibilities.** Following the resolution session/mediation, the School shall review the recommendations of the Sponsor's due process team with their legal counsel and communicate in writing the School's position on resolution/settlement to the Sponsor's due process team. If the School opts

not to follow the recommendations of the Sponsor's due process team, the School will incur all costs associated with subsequent court orders as set forth in this Contract.

- (E) **Resolution and Advancement of Due Process Hearings.** If the matter is resolved by a written agreement, the Sponsor's legal counsel will file the appropriate motions for dismissal and closure of the case. If the matter is not resolved, the legal counsel of the Sponsor and the School shall ensure that representation in the due process hearing proceeds in accordance with this Contract and the procedural safeguards posted on the School's and/or Sponsor's Exceptional Student Education website. The School and the Sponsor shall each make available to participate in all necessary stages of the litigation all staff who participated in any evaluation or reevaluation, the preparation of any IEP, the implementation of any IEP that may be at issue in the hearing.

2.8.9 Reimbursement for Services

Under the Medicaid Certified School Match Program, the School may be eligible to seek reimbursement for certain services provided to Medicaid-eligible students who qualify for services under the IDEA, Part B or C. In order to seek reimbursements, the School shall follow the procedures established by the state agency which administers the program for Medicaid-reimbursable services to eligible students at the School.

The School shall recruit throughout all segments of the community and provide outreach materials in multiple languages appropriate to the geographical location of the Charter School. This may include direct mailings, public advertisement utilizing the local and community press and informational meetings at a variety of locations using both English and other languages where appropriate. The School shall be non-sectarian in its programs and admissions policies. The School shall be open to any student residing in Miami-Dade County and to students in other districts. The School will accept all eligible students in accordance with Federal and State anti-discrimination laws and in accordance with the Florida Educational Equity Act, Section 1000.05(2) (a), F.S. The School will not discriminate on the basis of race, gender, ethnicity, religion, national or ethnic origin or disability in the admission of students. The School shall implement the enrollment policies and procedures and lottery process, as described in the approved Application. The School shall not access, directly or through a third party, any of the Sponsor's student information unless and until the student actually enrolls in the School. Violation of this provision constitutes good cause for termination.

Failure to accept all eligible students in accordance with Federal and State anti-discrimination laws and in accordance with the Florida Educational Equity Act, Section 1000.05(2)(a), F.S. constitutes good cause for termination of this Charter.

3.2.3 Lottery and Wait List Documentation

The School shall clearly indicate in its Policies and Procedures the lottery procedures and enrollment preferences the School will utilize. If the number of applications exceeds the capacity of the program, class, grade level, or building, all applicants shall have an equal chance of being admitted through a random selection process. The School shall maintain documentation in accordance with applicable Florida record retention laws for each enrollment lottery conducted, as well as any student wait lists that are generated and make them available to the Sponsor upon request. Lottery documentation shall be sufficient to allow the Sponsor to verify that the random selection process was fair, equitable, and in compliance with applicable State statutes. At a minimum, the following documentation shall be maintained and available to the Sponsor upon request at all times:

3.3 Enrollment

3.3.1 Preferences

The School may provide enrollment preferences pursuant to Section 1002.33(10)(d) F.S. and may otherwise limit enrollment to target those student populations identified in Section 1002.33(10)(e) F.S. and identified in the approved application.

3.3.2 Consent

To enroll a student, the School must obtain proof of consent from the student's parent or guardian, or from the student if the student is eighteen (18) years of age or older. The Charter School may not transfer an enrolled student to another charter school having a separate Master School Identification (MSID) Number without first obtaining the specific written approval of the student's parents/guardians before each transfer. General consent for student transfer is prohibited (e.g., consent included in a parent contract). A student may withdraw from the School at any time

and enroll in another public or private school, as determined by District policy. The School shall work in conjunction with the parent(s)/guardian(s) and the receiving school to ensure that such transfers minimize impact on the student's grades and academic achievement.

3.3.3 Capacity and Class Size Requirements

Following is the student enrollment breakdown:

Years 1-5 [2026-2031]: Grades 6th to 12th - up to 800 students

The School shall comply with class size restrictions as required by law. The enrollment capacity shall be annually determined by the Charter School Governing Board in conjunction with the Sponsor based on factors set forth in Section 1002.33(10)(h), F.S. The School shall not enroll students in excess of the physical capacity of the building except as otherwise provided by law for schools operating multiple sessions, in which case the physical capacity of the School shall not be exceeded during any session. The Annual Enrollment Capacity of a high-performing school shall be determined by the Governing Board. No later than March 1st of each year, the School shall provide the Sponsor the proposed enrollment capacity for the subsequent school year. Monthly FTE payments shall be withheld, without interest, for students in excess of the School's annual enrollment capacity, as defined by the Contract.

3.3.4 Projections

- (A) **Preliminary Enrollment Projection.** If requested, no later than November 1st of each year, the School shall provide to the Sponsor the School's preliminary projected enrollment for the following school year. The preliminary projected enrollment shall not constitute a cap on the School's enrollment for the following school year.
- (B) **Final Enrollment Projection.** The Sponsor may request that the School provide final enrollment projections for the upcoming school year no later than July 15th of each year. Final enrollment is not annual capacity, but the school's projection of how many students will be enrolled when the school year begins. The School shall not project enrollment or enroll students in excess of the physical capacity of the building, unless the School operates multiple sessions, in which case the physical capacity of the School shall not be exceeded during any session.

3.3.5 Minimum Enrollment Requirements

Each year, the School agrees to enroll an eligible student by accepting a timely application through deadlines as determined by the Governing Board and publicly advertised. If the target goal of students is not met by the deadline, and the School wishes to extend, the School will give sufficient public notice and extend the application deadline for a set time as determined and publicized by the Governing

Board. If, at the 10-day count, the registered enrollment as reflected in the Sponsor's data system is less than 75 percent of the School's total projected enrollment as described in either the approved Application for the first year or as determined under the provisions of this Charter, the School shall, upon written request by the Sponsor, submit a revised budget within thirty (30) days taking into account the reduced enrollment. Failure to provide the revised budget may constitute good cause for termination. The School's minimum enrollment for the first year of operation is N/A. The parties agree that this is the minimum enrollment that will support the School's operations. Failure to achieve the minimum enrollment by the October FTE reporting period for the first year of operation constitutes good cause for termination or non-renewal unless the School provides the Sponsor a revised and balanced budget and a cash flow statement that are realistic and reasonable within fifteen (15) calendar days of the October FTE reporting period. A budget to support this minimum enrollment is provided in the Budget for Initial Year of Operation Based on Minimum Enrollment (Appendix I).

3.3.6 High-Performing Charter Schools

A high-performing charter school must have documentation from the Commissioner of Education designating the School as high-performing pursuant to Section 1002.331, F.S. A high performing charter school shall notify the Sponsor in writing by March 1st of the preceding year if it intends to increase enrollment beyond the enrollment stated in this charter and/or to expand grade levels the following year. The School shall not, however, enroll students beyond the facility capacity at the time the enrollment increase will take effect. The written notice shall specify the amount of the enrollment increase, the grade levels that will be added, and evidence of the official facility capacity at the time the enrollment increase will take effect. To increase enrollment and add grade levels, this Contract must be amended through the Sponsor's current charter amendment process for these types of amendments in School Board Policy 9800, *Charter Schools*, except that the Sponsor shall modify the charter within 90 days to include the new enrollment maximum and may not make any other change. Failure to provide timely notice to the Sponsor shall preclude the School from increasing enrollment or expanding grade levels.

Disagreements between the Sponsor and the School relating to enrollment capacity may be resolved through dispute resolution pursuant to Section 1002.33, F.S.

3.3.8 Application and Enrollment Documentation

The School must maintain appropriate enrollment and student application documentation.

3.4 Withdrawal Policies and Procedures

3.4.1 Involuntary Student Withdrawal

The School will ensure that no pressure, coercion, negotiation, or other inappropriate inducement may be used to attempt to have parents or guardians withdraw students from the School. The School may not transfer a student unless the withdrawal or transfer is accomplished through the Sponsor's transfer policies. Students already enrolled at the School must be provided with the option to remain enrolled at the School for the following school year. Pursuant to Section 1002.33(7), F.S., admission or dismissal must not be based on a student's academic performance. Except as authorized under section 1002.33(10)(e)(5). The School shall implement the dismissal policies as described in the approved Application or subsequently submitted to and approved by the Sponsor.

3.4.2 Voluntary Student Withdrawal

The School shall maintain confidentiality of student records as required by Federal and State law.

3.5.1 Student Information System and Electronic Gradebook

The School will use the Sponsor's electronic grade book system. The School shall use records and grade procedures that adequately provide the information required by the Sponsor. The School may use the Sponsor's electronic grade book system. If the School elects to use an alternative student information system and recording system, the system must comply with the State's reporting guidelines and be approved by the Sponsor. If the School chooses to use an application other than the system in use by the Sponsor, it will be responsible for daily data entry directly into the District's student information system (DSIS) for attendance and quarterly data entry for academic, effort, and conduct grades for students. Schools that opt to use an alternative gradebook system will be required to provide some form of prior year electronic audit trail. ITS support will not be provided to schools that do not use the District's electronic gradebook system.

(A) Attendance. The School must report daily attendance of each student to the District to meet District attendance reporting requirements, as required by law. Schools that use an alternative grade book system will not be able to upload grade or attendance data to the Information Technology Services

(ITS) department. Schools not uploading will be required to have a documented procedure in place for communicating attendance and grades to the School's attendance clerk, prior to the opening of schools.

- (B) **Grades.** All quarterly, academic, effort, and conduct grades, shall be entered within fifteen (15) business days after the close of each grading period. For students who withdraw during the school year, academic, effort and conduct grades must be entered upon the student's withdrawal.
- (C) **Compliance with Reporting Requirements.** After timely notice and opportunity to cure, failure to use records and grade procedures that adequately provide the information required by the Sponsor, FDOE and statute may constitute cause for termination of this Charter.

3.5.2 Transmittal of Educational Records

The School shall transmit to the Sponsor's Department of Records and Forms Management, a listing of the types of Category A and B educational records pursuant to State Board of Education Rule 6A-1.0955 and the procedures from the Division of Student Services as stipulated in the Student Educational Records manual, subject to law. This report shall be transmitted each year prior to July 1st.

3.5.3 Transfer of Student Cumulative Records

- (A) **Students Transferring to a Public School within Miami-Dade County.** All cumulative records (both Category A, Permanent Information, and Category B, Temporary Information) of students leaving the School, whether by transfer to a traditional public school within the school system or withdrawal to attend another charter school, shall be immediately transferred upon receipt of an official request from a receiving Miami-Dade County public school or a Sponsor's charter school. The School may retain copies of the departing student's academic records created during the student's attendance at the School.
- (B) **Students Withdrawing to Non-Sponsor Schools.** Upon withdrawal of a student's enrollment at the School, all cumulative records (both Category A, Permanent Information, and Category B, Temporary Information) of students leaving the School, but not transferring to a Sponsor's public school or charter school, shall be retained at the School in accordance with law and the Sponsor's records retention procedures. Requests for student records from public or private schools outside of the County and private schools within the County must be made in writing. Only copies of requested records may be provided. Access to student records shall be provided to parents and/or eligible students in accordance with FERPA. The school's COSC must meet or exceed the minimum standards set forth in the Sponsor's COSC. Any provision of the COSC which is more stringent than the Sponsor's code of student conduct must align with the mission of the charter school and be acknowledged electronically or in writing by the parent. The Sponsor may review the code and offer recommendations. Any complaint or appeal related to the COSC must be resolved by the charter school's governing board using the board's established procedures and must be in compliance with applicable law and rules. During the period when a School's alternative COSC is awaiting governing board approval, the School must adopt the Sponsor's COSC.

3.6.2 Disciplinary Policies and Compliance with Legal Requirements

The School's policies for discipline, suspension, and recommendation for expulsion are described in the approved Application and in the School's Student/Parent Contract/Handbook (Appendixes L and M). The School must continue to follow all Federal and State laws related to discipline of students with disabilities, including but not limited to Manifestation Determinations if required by the IDEA or Section 504. Failure to comply with this provision may result in withholding of FTE and constitutes good cause for termination.

3.6.3 Incident Reporting

The School is required to timely and accurately submit documentation of all disciplinary actions into the District's Student Information System, using the Student Case Management procedures, by offense within two school days of the disciplinary action or as soon as reasonably practical. Additionally, the School will accurately report all SESIR incidents to the District within 48 hours of the occurrence.

The hourly equivalent for Kindergarten through Grade 3 is 720 instructional hours and 900 instructional hours for students in Grades 4 through 12. Schools operating on a double session calendar must be approved by the Sponsor. Approval by the Sponsor for a double session school does not reduce the required 300 minutes of instruction per day. Survey periods for Year-round School Programs are the same as for the regular fiscal year. Year-round schools shall report the first ninety (90) days of their regular 180-day school year in Survey 2 and the second ninety (90) days of their regular 180-day school year in Survey 3, regardless of when the tracks are in session.

Date Certain is always the Friday of the FTE Survey week. Corrections to data submitted for FTE processing will only be accepted for 6 weeks after Date Certain. The School is

responsible for correcting student schedule changes. Incomplete student or teacher course records shall result in a loss of FTE funding. If the School submits data relevant to FTE, federal, or state grant funding that is later determined through the audit procedure to be inaccurate, the School shall be responsible for any reimbursement to the State, the United States Department of Education or the District for any errors or omissions in data that the School submitted provided that the District has timely sent notice to the School of alleged errors discovered through such audit(s) so that the School, on its own, or through the Sponsor, at the School's expense may participate in any proceedings to challenge or appeal such audit findings.. If the School serves seventy-five percent (75%) or more exceptional education students as defined in Section 1003.01(3), the percentage shall be calculated based on the unweighted full-time equivalent students. ESE administrative services covered by the administrative fee, pursuant to Section 1002.33(20), F.S., include professional development related to IEP development; access to any electronic IEP system or forms; initial evaluation for ESE placement; and other supports and services as agreed to by the School and the District in this Charter.

The Sponsor shall calculate and submit twelve (12) monthly payments to the School. The first payment will be made by July 31st. Subsequent payments will be made monthly by the 15th of each month beginning with August 15th.

4.6.2 Initial Year Payment Procedures for New Charter Schools

For new charter school in the initial year of operation, payments will be made as required by the law. July through October payment shall be based on the School's projected enrollment as described on the cover sheet of the approved Application if a minimum of seventy-five (75) percent of the projected enrollment is entered into DSIS by the first day of the current month. Otherwise, or if the School's enrollment exceeds its projected enrollment, the Sponsor shall fund the School based on the number of students actually entered in DSIS as of the first day of the current month, not to exceed the Annual Enrollment Capacity. Thereafter, the results of full-time equivalent student membership surveys shall be used in adjusting the amount of funds distributed monthly to the School for the remainder of the fiscal year. Additional documents (e.g., student enrollment forms, student transfer forms, Integrated Student Information System rosters) may be required or requested to support the School's projections. Payments will be adjusted retroactively for prior period adjustments.

4.6.3 Payment Calculations for Subsequent Charter Years

For the following years of the charter, monthly payments will be calculated as follows:

- (i) The Sponsor may initially calculate monthly distributions to the School for up to four (4) months based on full-time (FTE) student enrollment distribution as of the prior year February FTE report.
- (ii) If enrollment at the end of the second week of student attendance fluctuates by twenty percent (20%) or more from prior year February FTE, then monthly distributions shall be proportionally adjusted. Thereafter, the results of the official FTE student surveys will be used in adjusting the amount of FEFP funds distributed to the School.

4.6.4 Payment Adjustments for Sponsor Services and Penalties

If the School submits data relevant to FTE, Federal, or grant funding that is later determined through the audit procedure to be inaccurate, the School shall be responsible for any reimbursement to the State, the United States Department of Education or the District for any errors or omissions in data that the School submitted provided that the District has timely sent notice to the School of alleged errors discovered through such audit(s) so that the School, on its own, or through the Sponsor, at the School's expense may participate in any proceedings to

challenge or appeal such audit findings. After final disposition of any appeals, the District shall deduct any such adjustments from the School's subsequent revenue disbursements evenly over the remaining months of the fiscal year or according to an agreed upon payment plan..

4.6.5 Reimbursements

The District shall make every effort to ensure that the School receives timely and efficient reimbursement of funds. Other than those payments provided for in this Contract, for which other requirements for timely payments have been made, the payment shall be issued no later than ten (10) working days after the District receives a distribution of state or federal funds. If a warrant of payment is not issued within ten (10) working days after the receipt of funding by the District, or the due date set forth in this Charter, the District shall pay to the School, in addition to the amount of the scheduled disbursement, interest at a rate of one percent (1%) per month calculated on a daily basis on the unpaid balance from the expiration of the ten (10) day period until such time as the warrant is issued. Late payments are subject to interest at the rate of 1% per month calculated on a daily basis until paid. Payment shall be made only to the account in an FDIC insured Active Qualified Public Depository account or a State-approved depository specified by the Governing Board.

4.6.6 Enrollment Capacity and Facility Compliance for Payments

Payment shall not be made for students in excess of the School's enrollment capacity, the School's valid facility capacity as determined by the School's Certificate of Occupancy, Certificate of Use, and/or Fire Permit (whichever is less) or this Contract. In the event that the required County and/or municipality facility permits do not indicate a facility capacity, the School must submit an official letter from the local jurisdiction confirming facility capacity certification by the Registered Architect. Where the local jurisdiction does not or is unable to issue an official determination of allowable capacity, the School may take one of the actions stated in this Contract. The Sponsor shall withhold monthly payments, without interest, if the School's Certificate of Occupancy, Certificate of Use or Fire Permit has expired or has otherwise become invalid, until such defect has been cured.

4.6.7 Charter School Capital Outlay Funds

The Sponsor shall make timely and efficient payments to the School for capital outlay funds pursuant to Sections 1011.72 and 1013.62, F.S. The Sponsor shall not certify capital outlay plans or recommend awarding capital outlay if it cannot attest to the School's eligibility.

4.6.8 Adjustments Due to Holdbacks and Prorations

In the event of a State holdback or a proration which changes District funding, the School's funding will be adjusted proportionately to the extent required by the law.

The Sponsor will not be responsible for any liabilities incurred by the School in the event of a State holdback. Notwithstanding the foregoing, distribution of FTE funds may be withheld, upon written notice by the Sponsor, if any of the following required documents are more than thirty (30) day overdue unless otherwise agreed or extended:

- (i) The School's monthly/quarterly financial statement as required by State Board of Education Rule 6A-1.0081, F.A.C.

The School may choose to provide a summer school program using State allocated funds. All students attending a summer school session must be reported in FTE Survey 1 and Survey 4, as required by law. In the event that a student enrolled in the School attends any of the Sponsor's summer school programs, and the summer school program is not funded through Title I, the School shall reimburse the Sponsor for the cost of each student's summer school program, as determined by the Sponsor. If the School fails to comply with this provision within a reasonable time, the Sponsor may deduct the appropriate amount from the School's subsequent FTE or Federal funding payments.

4.8 Student Fees

4.8.1 Use of Student Fees

The School shall not charge fees, except those fees normally charged by the Sponsor or as allowed by law. Fees collected must be allocated directly to, and spent only on, the activity or material for which the fee is charged.

4.8.2 Fee Schedule

If the School intends to charge fees, it shall submit its comprehensive fee schedule to the Sponsor for review no later than July 1st prior to the school year in which the fees are intended to be charged. No funds shall be collected until the School has been given written approval from the Sponsor. Additional fees shall not be imposed without the notification and approval of the Sponsor. Fees shall not be a barrier to enrollment. Non-payment of fees shall not be a basis for dismissal or non-re-enrollment. Upon approval of the fee schedule, all fees collected must be reported and recorded appropriately using proper accounting procedures as required by law. Any fees that are solicited, required, or accepted in violation of this paragraph shall be returned to the parent or guardian.

4.8.3 Student Fee Documentation

applicable. Charter school applicants shall not be employed until their fingerprints have been submitted to the Florida Department of Law Enforcement (FDLE) and the Agency for Health Care Administration (AHCA) for a determination of employment eligibility through the Care Provider Background Screening Clearinghouse (“Clearinghouse”).

- (B) **Employment Eligibility Documentation.** Confirmation of employment eligibility must be kept on file at the charter school site for audit purposes and made available to the Sponsor upon request.
- (C) **Cost Responsibility.** The School or the applicant shall bear any, and all costs associated with the required fingerprinting and Level 2 background screening.
- (D) **Rescreening Requirements.** The School must comply with all rescreening requirements set forth in law. Instructional and non-instructional personnel who are hired or contracted to fill positions in a charter school and members of the governing board of such charter school in compliance with F.S. 1002.33(12)(g), upon employment, engagement of services, or appointment, shall undergo background screening as required under F.S. 1012.465 or 1012.56, whichever is applicable.

SECTION 1: GENERAL PROVISIONS

This Third Renewal of the Charter School Contract (Contract or Charter) entered into as of the 22nd day of April 2026, between The School Board of Miami-Dade County, Florida, (Sponsor or School Board), and BridgePrep Academy, Inc., a non-profit corporation organized under Chapter 617, F.S. (Corporation), d.b.a., BridgePrep Academy of Village Green (MSID 3034) (School). This Contract is limited to the Corporation's BridgePrep Academy of Village Green location. This Contract is effective upon approval by the parties.

1.1 Approved Application

The official Charter School Application/Renewal Packet approved by the School Board November 24, 2010, is attached hereto as Appendix A. All attached appendices are incorporated by reference and constitute part of this Charter. In the event of any conflict between the Application and any other provision of this Charter, the Charter provision shall control. In the event the Contract has not been approved/entered into, then the Application will be deemed withdrawn, and no further action will be taken with respect to the Contract.

1.2 Term of Charter

The term of this Charter shall be fifteen (15) years, commencing July 1, 2026, and ending June 30, 2041. The Sponsor and the School initially entered into a charter school contract on May 11, 2011, and amended on July 17, 2013, February 11, 2015, and May 13, 2015. The contract was then first renewed on June 22, 2016, and the renewed contract was amended on September 6, 2017, June 20, 2018, and July 24, 2019. A second renewal was approved on June 23, 2021, and this contract was amended on August 18, 2021, June 22, 2022, August 15, 2022, and on December 20, 2023. In the event of expiration, the term shall be automatically extended on a month-to-month basis until the Charter has been renewed, non-renewed, or terminated by the Sponsor. If the parties cannot reach agreement on the terms of a new contract, either party may request mediation from the Florida Department of Education (FDOE), pursuant to Section 1002.33(7)(b), F.S. If the Commissioner of Education determines that the dispute cannot be settled through mediation, the dispute may be appealed to an administrative law judge appointed by the Division of Administrative Hearings. The administrative law judge has final order authority to rule on the dispute, including whether proposed provisions of the Charter violate the intended flexibility granted charter schools by statute.

1.2.1 Start-Up Date and School Calendar - N/A

- (A) **School Opening Date.** For the first year of operating under this Charter, the School shall begin classes on the same day as the Sponsor or at such other time as otherwise determined by the Governing Board. The School cannot open absent submission of all required documents listed in the District's Pre-Opening Checklist (Appendix AA). Pursuant to law, the School may

defer the opening of its operations for up to three (3) years to provide time for adequate facility planning. A charter school that elects to defer opening must provide written notice of such intent to the Sponsor and the parents of enrolled students at least thirty (30) calendar days before the first day of school indicating (1) the deferral status as provided by law, and (2) the proposed first day of school. The first two (2) planning years will extend the term of this Contract. By March 1st of the year they were approved to open, a charter school that indicates they will defer opening must provide the District with a status report to include a timeline of all key operational items and milestones. The charter school shall continue to provide periodic status reports and make allowances for site visits. Failure to open the School: (1) on the day indicated in this Contract, (2) on the day indicated in the school's deferral notice, or (3) after all available deferral years will result in this Contract becoming null and void.

- (B) **Academic Calendar.** For a new charter school, the School's calendar shall be consistent with the beginning of the Sponsor's school calendar for the first year of operation. For every year thereafter, and for all other charter schools, if the School's calendar differs from the Sponsor's public-school calendar, including the instructional days, the School shall provide reasonable notice and submit the proposed calendar to the Sponsor and parents of enrolled students prior to the start of the school year. Any calendar changes that differ from the Sponsor's calendar, must be provided upon request and approved by the Sponsor prior to implementation. Calendar modifications may incur a processing fee at a rate no greater than the Sponsor's actual cost
- (C) **Required Instructional Minutes.** Instructional minutes shall be a minimum of 300 minutes per day. The hourly equivalent for Kindergarten through Grade 3 is 720 instructional hours and 900 instructional hours for students in Grades 4 through 12. Schools operating on a double-session calendar must be approved by the FDOE. Survey periods for Year-Round School Programs shall be the same as for the regular fiscal year. Year-round schools shall report the first ninety (90) days of their regular 180-day school year in Survey 2 and the second 90 days of their regular 180-day school year in Survey 3, regardless of when the tracks are in session.

1.2.2 Charter Modification

This Contract may not be modified unless approved by both parties in writing pursuant to School Board Policy 9800, *Charter Schools* (Appendix B). No contract modifications shall be enforceable unless it is in writing and approved by both the Governing Board and the Sponsor. If the modification involves changes to the grade

levels, except as provided by law for high-performing charter schools, the School must provide information acceptable to the Sponsor relating to operational capacity, curriculum, budget, facilities, and staff. Certain amendments related to high-performing charter school contracts are governed by Section 1002.331, F.S. and are also in accordance with the charter contract amendment process contained in School Board Policy 9800, *Charter Schools*.

1.2.3 Charter Renewal

- (A) **Renewal Notice.** This Charter may be renewed as provided for in Section 1002.33, or 1002.331, F.S. No later than September 15th in the final academic year of this charter, a Sponsor shall provide notice to the School regarding the process and timeline for completing the programmatic review required under s. 1002.33(7)(c)1., Florida Statutes.
- (B) **Renewal Review and Evaluation.** Prior to renewal of this Charter, the Sponsor shall perform a review to determine the level of success of the School's educational program, organizational performance, financial performance and achievement of the goals and objectives required by State accountability standards and successful accomplishment of the criteria under Sections 1002.33(7)(a) and (8)(a) F.S., compliance with the terms of the Charter, and that none of the statutory grounds for nonrenewal exist. Upon completion of the programmatic review, but no later than ninety (90) days prior to the end of the charter term, the Sponsor shall notify the Governing Board of the Charter School in writing of the proposed action to renew, terminate, or non-renew the Charter, pursuant to Section 1002.33(8)(a), F.S.
- (C) **Renewal Packet Submission.** Any charter school seeking renewal shall complete a Charter Renewal Packet as provided by the Sponsor's renewal process.
- (D) **Renewal Term and Approval.** Renewals may be approved for a term up to five (5) years unless another term is mutually agreed upon, required, or allowed by law. Upon approval, the Contract will be renewed following the contract negotiation process in current School Board policy and as required by law.
- (E) **Periodic Review and Evaluation:** The Sponsor may annually evaluate the School on its performance and progress, including academic achievement goals. The Sponsor may conduct a High-Stakes Review, as needed and/or upon charter renewal, and transmit the findings of the review to the Governing Board of the School. If the term of this Charter exceeds five years, the Sponsor may conduct a High-Stakes Review at least every five

years and may transmit the findings of the review to the Governing Board of the School.

1.3 Termination or Non-Renewal

This Contract may be terminated or non-renewed during its term for any reason pursuant to State law or this Contract. Notices of non-compliance, non-renewal, or termination, cancellation and default are issued in accordance with the procedures set forth in this Charter and as otherwise required by law.

1.3.1 Causes for Termination or Non-Renewal

The Sponsor shall make student academic achievement for all students the most important factor when determining whether to renew or terminate this Charter. The Sponsor may choose not to renew or terminate this Charter if it finds that any of the following grounds below exist by clear and convincing evidence, as set forth in Section 1002.33, F.S.

- (i) failure to participate in the State’s education accountability system created in Section 1008.31, F.S., as required in this section, or failure to meet the requirements for student performance established pursuant to this Charter;
- (ii) failure to meet generally accepted standards of fiscal management due to deteriorating financial conditions or financial emergencies determined pursuant to s. 1002.345, F.S.;
- (iii) material violation of law;
- (iv) if insufficient progress has been made in attaining the student achievement objectives of the charter and if it is not likely that such objectives can be achieved before expiration of the charter; provided, however, that for long-term charters issued pursuant to s. 1002.33(7)(a)20., F.S., the Charter shall remain subject to annual review and may be terminated during the term of the Charter only in accordance with the provisions of Section 1002.33(8), F.S.;
- (v) if the School earns two consecutive grades of “F” after all school grade appeals are final except otherwise provided in Section 1002.33, F.S.

1.3.2 Causes for Immediate Termination

Pursuant to Section 1002.33(8)(c), this Charter may be terminated immediately if the Sponsor sets forth in writing the particular facts and circumstances demonstrating that an immediate and serious danger to the health, safety, or welfare of the School’s students exists; that the immediate and serious danger is likely to continue; and that an immediate termination of the charter is necessary. In making the determination as to whether good cause exists for immediate termination, the Sponsor will consider whether the totality of the circumstances warrant a decision to forego the procedures for a ninety (90) day termination. Lack of a facility meeting the requirements of law in which to operate the School may constitute an

immediate and serious danger to the health, safety, or welfare of the School's students.

1.3.3 Procedures for Termination or Non-Renewal

- (A) **Sponsor Notification Responsibilities.** The Sponsor shall notify the School's Governing Board and principal in writing at least ninety (90) days prior to non-renewing or terminating the Contract. The notice shall comply with the requirements of Section 1002.33, F.S., state in reasonable detail the grounds for the proposed action, shall expressly find that one or more of the grounds for non-renewal under Section 1002.33(8)(a), exists by clear and convincing evidence, and stipulate that the Governing Board may request a hearing within fourteen (14) calendar days of receiving the notice. The hearing shall be conducted using the procedure specified in Section 1002.33(8)(b), Florida Statutes.
- (B) **Hearing Request.** The School's Governing Board may request an administrative hearing before the Florida Division of Administrative Hearings (DOAH). This request must be authorized by a vote of the Governing Board in a legally advertised public meeting with a quorum present. Minutes or an adopted resolution documenting the action must be submitted with the request. The School shall file the request with the School Board Clerk pursuant to School Board Policies 0133, *Quasi-Judicial*, 9800, *Charter Schools*, and Section 120.54(5)(b), F.S. Legally sufficient requests shall be forwarded to DOAH. The DOAH hearing will be conducted pursuant to Florida Statute 1002.33, and Chapter 120, F.S. Following the DOAH hearing, the administrative law judge shall submit a final order to the Sponsor. For purpose of notice, the Charter School's Governing Board is the last roster submitted by the School to the Sponsor.
- (C) **Continued Operations During Proceedings.** The School's Governing Board shall continue to operate the School until a final order terminating the charter is issued and all administrative remedies have been exhausted, during which time all provisions of this Contract shall remain in effect. The closing date shall be negotiated between the Sponsor and the School, unless otherwise provided for in a final order.
- (D) **Expenditures.** Upon notification of non-renewal or termination, the School may not expend more than \$10,000 per expenditure without prior written approval from the Sponsor unless the expenditure was included within the annual budget submitted to the Sponsor, is for reasonable attorney fees and costs during the pendency of any appeal, or reasonable fees and costs to conduct an independent audit.

1.3.4 Procedures for Immediate Termination

- (A) **Sponsor Notification Responsibilities.** The Sponsor's determination is subject to the procedures set forth in paragraph 1.4.2(A), except that the hearing may take place after the charter has been terminated. Upon immediate termination, the Sponsor shall notify the School's Governing Board chair, principal, and the FDOE in writing, detailing the specific facts and circumstances demonstrating the existence of such danger, explaining why the danger is likely to continue, and stating why immediate termination of the Charter is necessary to protect the health, safety, or welfare of the students, pursuant to Section 1002.33(8)(c), F.S.
- (B) **Hearing Request.** The Sponsor's determination is subject to the 90-day termination procedures in this Charter, except that, upon receiving written notice from the Sponsor, the Charter School's Governing Board has ten (10) calendar days to request a DOAH hearing. The hearing may take place after the charter has been terminated.
- (C) **Operation of the School.** The Sponsor shall assume operation of the school throughout the pendency of the hearing as provided for in Section 1002.33(8)(d), F.S., unless the continued operation of the School would materially threaten the health, safety or welfare of the students. The Sponsor may seek an injunction in the circuit court in which the Charter School is located to enjoin continued operation of the Charter school if continued operation would materially threaten the health, safety, or welfare of the students. If the School has no facility at the time of termination, the Sponsor is not obligated to operate the School.
 - (a) **Access to Records and Facilities.** Upon receipt of notice of immediate termination, the School shall immediately provide the Sponsor access to the School's facilities along with security system access codes and access codes for all School-owned or leased computers, software, networking, switching and all other technical systems in the School's facilities or remotely located areas serving the School, and shall make accessible to the Sponsor all student, educational, operational, and administrative records of the School including those held by third parties. Moreover, within two (2) business days, the School shall turn over to the Sponsor copies of all records and information for all expenditures of public funds held by the School, including but not limited to Federal grants such as Title I and charter school grants and grant the Sponsor access to the School's bank accounts which contain public funds, storage facilities, and all public property. The Sponsor shall assume

operation of the school throughout the pendency of the hearing as provided for in s. 1002.33(8)(d), Florida Statutes, unless the continued operation of the School would materially threaten the health, safety or welfare of the students. Failure by the Sponsor to assume and continue operation of the School shall result in the awarding of reasonable costs and attorney fees to the School if the School prevails on appeal. If the School prevails in an appeal through a final adjudication by an administrative law judge or by a final adjudication and mandate by the appellate court if an appeal to the appellate court is filed, the Sponsor shall, immediately, return to School all keys, security codes, all educational and administrative records of the School, and the School's facility. In that case, the School's Governing Board shall resume operation and oversight of the School.

- (b) **Employees of the School.** The School's instructional and operational employees may continue working in the School during the time that the Sponsor operates the School at the Sponsor's option but will not be considered employees of the Sponsor. Any existing employment contracts that any School personnel may have with the School may not be assumed or transferred to the Sponsor or any entity created by the Sponsor during the assumption of operations of the School unless the Sponsor or its entity, and the School, agree otherwise. The Sponsor may take any appropriate personnel action regarding the School's employees.
- (c) **Disbursement of Funds.** The Sponsor shall only disburse school funds in order to pay the normal expenses of the School as they accrue in the ordinary course of school business. The Sponsor is not required to use its own funding resources to pay the School's debts.

1.3.5 School Election to Terminate or Non-Renew

If the School elects to terminate or non-renew the Charter, it shall provide reasonable prior notice of the election to parents of enrolled students, the Sponsor, and the FDOE, indicating the final date of operation as voted by the Governing Board at a publicly noticed meeting. A board resolution, signed by the School's Governing Board chair and secretary indicating support of this action, shall accompany the written notification provided to the Sponsor. The School agrees that such notification shall be considered a voluntary termination by the Governing Board and a waiver of its right to a hearing or appeal and that this voluntary termination shall not be reversed. Additionally, all post-termination provisions incorporated in this Contract shall apply.

1.3.6 Removal of Public Property

Upon notice of termination or non-renewal, the School shall not remove any public property, as defined in this Contract, from the premises without written Sponsor approval.

1.4 Post-Termination Provisions

1.4.1 Dissolution of School

The School shall be dissolved under the provisions of law under which the School was organized. Copies of all administrative, operational, and financial records of the School shall be provided to the Sponsor on or before the date the termination/non-renewal takes effect. The School shall also provide to the Sponsor the School's security system and technology access codes.

1.4.2 School Debt

If this Charter is not renewed or is terminated, the School shall be responsible for all the debts of the School. The Sponsor shall not assume the debt from any contracted services made between the Governing Body of the School, the Management Company, and/or third parties, including lease or rental agreements, except for a debt previously detailed and agreed upon, in writing, by both the Sponsor and the Governing Board and that may not reasonably be assumed to have been satisfied by the Sponsor. In no event shall the District be responsible under any assignment of a lease for any debts or obligations of the School incurred prior to such assignment.

1.4.3 Leases with the District

In the event of termination or non-renewal of this Charter, any and all leases existing between the District and the School shall be automatically cancelled, unless the lease provides otherwise.

1.4.4 Student Transfers and Records

In the event of termination or non-renewal, any students enrolled at the School may be enrolled at their home District school, or any other school, consistent with the District's student transfer procedures including transfer of all student records to the receiving school. Upon termination or closure of the School, all student education records shall be transferred immediately to the receiving school or the Sponsor for processing and maintenance, as directed by the Office of Charter School Compliance and Support (CSCS).

1.4.5 Disposition of Assets and Unencumbered Funds

All assets of the School purchased with public funds (except for capital funds and federal charter school program grant funds), including supplies, furniture and equipment, shall automatically revert to full ownership by the Sponsor, subject to complete satisfaction of any lawful liens or encumbrances. Any unencumbered public funds from the School, Sponsor property and improvements, furnishings,

and equipment purchased with public funds, or financial or other records pertaining to the School, in the possession of any person, entity, or holding company, other than the School, shall be held in trust upon the Sponsor's request, until any appeal is resolved, and proper distribution of the property is determined. If the School's accounting records fail to clearly establish whether a particular asset was purchased with public funds, then it shall be presumed public funds were utilized and ownership of the asset shall automatically revert to the Sponsor (subject to any lawful liens and encumbrances). Property and assets purchased with public funds shall be defined as those goods purchased with grants and funds provided by a governmental entity. Public funds provided by the School and used by a management company to purchase property and assets for the School are considered public funds.

1.4.6 Final Audit

Pursuant to s. 1002.33, F.S., upon notice of non-renewal, closure, or termination, an independent audit shall be completed within thirty (30) days to account for all public funds and assets. During the fiscal year in which termination or non-renewal occurs, the School Board of Miami-Dade County shall withhold from the School's Florida Education Finance Program (FEFP) funds, without penalty or interest, an amount necessary to pay for a final independent financial audit of the School. The audit shall be conducted by an independent certified public accountant.

1.5 General Statutory Requirements

1.5.1 Non-Discrimination

The School shall not discriminate in educational programs/activities or employment and shall provide equal opportunity for all as required by all applicable Federal, State and local laws, rules, regulations and court orders. The School agrees that it will abide by all Federal and State laws, statutes, rules, and regulations applicable to charter schools and also abide by the terms and conditions of the Charter.

SECTION 2: EDUCATIONAL PROGRAM

The academic achievement goals shall include, at a minimum, growth and proficiency on state assessments, and may include performance on additional assessments included in the approved Application. If the School will not serve students in grades that participate in the statewide assessments the academic achievement goals shall be based on the assessments included in the approved application, and at least one assessment administered in traditional public schools in the District.

(B) **Subsequent Charter Years.** By October 15 of the second year of the School's operation, the School shall provide its proposed academic achievement goals for the remaining years of the Charter, up to a maximum of four years or the end of the current Charter term, whichever occurs first, using the same parameters and testing set forth in this Contract. Schools that

have contracts in excess of five years shall resubmit proposed academic achievement goals every four years pursuant to the process described in this paragraph.

- (C) **Sponsor Review.** The Sponsor shall review the proposed academic achievement goals within 30 days of receipt. If the Sponsor does not accept the proposed academic achievement goals, it shall provide the School a written explanation. If the Sponsor does not respond within 30 days of receipt, the academic achievement goals are deemed accepted. If the School and Sponsor cannot agree on academic achievement goals, either party may request mediation pursuant to Section 1002.33(6), F.S. The goals may be adjusted at any time upon mutual written consent of both parties.
- (D) **Governing Board Approval.** The School's Governing Board shall review and approve the goals and objectives prior to its final submission. Minutes documenting approval must be taken and posted on the School's website pursuant to Section 1002.33(9)(p)1.
- (E) **Performance Reporting.** Annually, the School shall report its performance against the academic goals in the format requested by the Sponsor. The School agrees to allow the Sponsor reasonable access to its facilities and records to review its data sources in order to assist the Sponsor in making a valid determination about the degree to which student performance requirements have been met, as stated in this Charter, and as required by Sections 1008.31 and 1008.345, F.S. Furthermore, the School shall allow the Sponsor to collect data through other means such as survey to conduct research and/or evaluations as required for state reporting requirements. The Sponsor shall not impose additional reporting requirements on the School without providing reasonable and specific justification in writing to the School and the School shall provide required responses/data within the timelines that allow the Sponsor to meet required deadlines. If the School falls short of the academic achievement goals set forth under the provisions of this Charter, the Sponsor shall report such shortcomings to the School's Governing Board and FDOE. The School and Sponsor may agree to adjust the goals through the same process set forth in this Section.

2.2 Performance Improvement Requirements for Low-Performing Schools

2.2.1 School Improvement Plan (SIP)

The Governing Board representatives must submit a SIP to the Sponsor for

approval, outlining strategies to improve student performance and begin implementation of the SIP upon the Sponsor's approval.

- (B) **Schools Identified for Support by the FDOE.** If the School is identified by the FDOE (under the Every Student Succeeds Act) to be included in the list of schools for comprehensive support and improvement (CS&I), additional targeted support and improvement (ATSI), or targeted support and improvement (TS&I), it must develop and implement a SIP approved by the Governing Board and the Sponsor. Upon approval by the Sponsor, the charter school shall begin implementation of the SIP.

If the School improves to a grade of "C" or higher, the corrective action is no longer required. However, the School must continue implementing the strategies outlined in its school improvement plan, subject to annual monitoring by the Sponsor.
- (C) **Waiver and Termination.** The Sponsor may waive the corrective action annually if it determines that the School is likely to improve its grade with additional time to implement strategies outlined in the school improvement plan. However, a school earning two consecutive grades of "F" is subject to immediate interventions under subparagraph 3. The School is no longer required to implement a corrective action if it improves its grade to a "C" or higher. However, the School must continue implementing strategies identified in its school improvement plan and the sponsor must annually

review the School's implementation of the plan to ensure continued improvement.

- (D) **Selection of a New Corrective Action.** If the School fails to improve to a grade of "C" or higher after two full school years of implementing a corrective action, the Governing Board must select a new corrective action to begin the following school year unless the Sponsor determines that additional time is likely to result in the School achieving a "C" or higher under the existing corrective action.
- (E) **Immediate Interventions.** Notwithstanding this subparagraph, a school earning two consecutive grades of "F" while implementing a corrective action is subject to immediate interventions under Section 1002.33(9)(n)3, F.S.

The School shall designate a School Assessment Coordinator from the School who is required to attend all training sessions and informational meetings required by the Sponsor for required State and optional District assessments and shall be responsible for proper test administration. The School shall permit the Sponsor to monitor or proctor all aspects of the School's test administration if the Sponsor deems it necessary. Any material violation of assessment administration and security procedures may constitute good cause for termination of this Charter.

Courses will be offered in accordance with the approved Application or Renewal Packet. To meet this requirement, each school that offers these options may provide courses through virtual instruction, if the virtual course significantly integrates post-secondary level content for which a student may earn college credit, as determined by the Florida Department of Education, and for which a

- (E) Professional Development.** If the School offers AP/IB/AICE/DE courses, it shall provide all AP/IB/AICE/DE teachers with training and professional learning opportunities as required by the AP/IB/AICE/DE syllabus.

2.6 Student Promotion and Graduation

2.6.1 Student Progression Plan

The School will not adopt, and implement with fidelity, the Sponsor's student

progression plan (Appendix D) in effect for the current operational year. If the School elects to develop and adopt its own plan, it must secure approval from its Governing Board before submitting the plan to the Sponsor for approval. Once approved, the plan shall be attached herein as Appendix E. If the School opts to develop and implement their own SPP, the School shall establish a policy for determining that a student has satisfied the requirements for graduation that is consistent with the provisions of Florida law and shall inform the Sponsor of this policy and/or any changes to a previously adopted policy at least one (1) month prior to the beginning of the school year. The School's student promotion policy shall be consistent with the provisions of the Application and applicable Florida law. Failure to comply with this provision may result in withholding of Full-Time Equivalent (FTE) until compliance.

2.6.2 Student Course Codes

The School shall follow the State's and/or Sponsor's Elementary School Academic Programs Course Codes and/or Authorized Courses for Secondary Schools, as appropriate.

2.6.3 Graduation Requirements

The School's policy for determining that a student has satisfied the requirements for graduation shall be consistent with the provisions of Florida law.

2.6.4 Accreditation

Secondary schools shall notify the parent and students of the School's accreditation status and the implications of non-accreditation in (a) the School's student enrollment form; (b) the Parent/Student Handbook; and (c) and Parent/Student contract. The notification must also be prominently displayed at all times on the School's website.

2.6.5 Compliance with Student Progression Requirements

Failure of secondary charter schools to comply with applicable Sections of 1003.42 and 1008.25, F.S. (Public School Student Progression; Student Support; Reporting Requirements) may constitute good cause for termination of this Charter.

2.7 English Language Learners

2.7.1 Plan Adoption and Approval

The School will adopt the District's English Language Learners Plan (Appendix F) in effect for the current operational year, and which meets the requirements of the League of United Latin American Citizens (LULAC) et al. v. State Board of Education Consent Decree. If the School elects to implement its own plan, approved by its Governing Board, it is attached hereto as Appendix G. The plan must include sufficient information and detail to allow the Sponsor to determine legal sufficiency.

2.7.2 Services for English Language Learners

Students at the School who are English Language Learners (ELL) will be served by English for Speakers of Other Languages (ESOL) endorsed or certified personnel. Failure to comply with all applicable laws ordinances, and codes of Federal, State, and locale governance including, without limitation, the Individuals with Disabilities Education Act (IDEA) and applicable laws relating to English Language Learners (ELL) if not timely cured after written notice constitutes good cause for termination of this Charter.

2.8 Exceptional Student Education

2.8.1 Program Requirements

Exceptional students shall be provided with programs implemented in accordance with applicable Federal, state, and local policies and procedures; and, specifically, the Individuals with Disabilities Education Act (IDEA), Section 504 of the Rehabilitation Act of 1973, Sections 1000.05 and 1001.42(4) (l) of the Florida Statutes, and Chapter 6A-6 of the Florida Administrative Code. Students with disabilities will be educated in the least restrictive environment and will be segregated only if the nature and severity of the disability is such that education in regular classes with the use of supplementary aids and services cannot be achieved satisfactorily. The School must maintain a continuum of ESE placements as indicated in the School's approved Application and Renewal Packet.

2.8.2 Non-Discrimination and Admission Procedures

The School shall not discriminate against students with disabilities in placement, assessment, identification, selection, or admission. The School shall not request a student's IEP, EP, Section 504 Plan, or other information regarding a student's special needs prior to or during the application and lottery process, nor shall the School access such information prior to or during the application and lottery process. Only schools that serve exclusively students with disabilities may request the IEP, EP, or Section 504 Plan as part of the application and lottery process to determine whether the services are compatible with the School's programmatic model.

2.8.3 Individualized Education Plans (IEPs) and 504 Plans

The School shall conduct Individual Educational Plans (IEPs) for eligible students, to include an annual IEP meeting with the eligible student's family. Upon enrollment, or notice of acceptance sent to the student, the School may request from the District information related to the student's program and needs, including the student's most recent IEP, which shall be provided within ten (10) days.

2.8.4 Student Placement and Referral

If the School determines, upon review of the IEP, that the student's needs cannot be met at the School, the School shall contact the Sponsor's District Staffing Specialist

assigned to the School for assistance with an appropriate school assignment in accordance with this Contract. After enrollment, any student who is suspected of having a disability must be referred for evaluation in accordance with this Contract, and if eligible for services pursuant to IDEA or Section 504, an appropriate IEP or Section 504 plan must be developed before the student is referred to the District for consideration of another school assignment. The Sponsor shall be invited to and may attend the meeting, at which time the IEP team shall determine whether the School is an appropriate placement for the student.

2.8.5 Civil Rights Complaints and Investigations

If the School receives a complaint filed or becomes aware of an investigation with the U.S. Office of Civil Rights (OCR) or any other governmental entity and the complaint or investigation relates to the School and could involve the Sponsor, the School shall, within one (1) school day, notify the Sponsor and provide the Sponsor any documentation from the agency (except where to give such notice would violate the law or the directions of the investigating government entity). The School shall fully cooperate with the Sponsor during any investigation and/or proceeding by the OCR or any other governmental entity that could involve the Sponsor, including providing the Sponsor with a draft response to OCR and providing all necessary relevant information and supporting documentation, and making staff available for interviews, as deemed necessary. If the written information on the complaint does not allege, or it cannot be inferred from the facts given, an allegation against the Sponsor of: (1) discrimination based on race, color, national origin, sex, disability or age, (2) discrimination in violation of the Boy Scouts of America Equal Access Act of 2001, or (3) retaliation for the purpose of interfering with any right or privilege secured by the civil rights laws and regulations enforced by OCR, or as a result of making a complaint, testifying, or participating in any manner in an OCR proceeding, the School shall submit the final version of the response directly to OCR on its own behalf with a copy provided to the Sponsor. The School shall bear all costs, fees, reimbursements, and compensatory education associated with the investigation, including any incurred, agreed upon or awarded. Notwithstanding the aforementioned, the Sponsor shall assume or reimburse the costs attributable to, caused by or through the fault of the Sponsor, if any. Failure of the school to pay the costs, fees, reimbursements, and compensatory education within a reasonable time after the expiration or exhaustion of any appeals will result in the Sponsor deducting any amount owed from the School's FTE payments.

2.8.6 Sponsor Responsibilities

The Sponsor shall provide ESE administration services to the School, pursuant to Section 1002.33, F.S.

- (A) **Student Evaluations.** The Sponsor shall conduct initial evaluations of students referred for potential Exceptional Student Education, Gifted, Section 504 eligibility, and for the re-evaluation of Exceptional Student Education students, in accordance with Federal and State mandates. All requirements for Response to Intervention (RtI) must be followed by the School with fidelity prior to and during the evaluation process. The School and/or parents may obtain private evaluations of students at their expense. These evaluations must be considered in determining eligibility but will not necessarily substitute for an evaluation conducted by the Sponsor's personnel in a manner and timeframe consistent with that of all of the other Sponsor's schools.
- (B) **Initial LEA Representation.** A representative of the Sponsor shall serve as the Local Education Agency (LEA) Representative in all initial IEP, EP, and Section 504 Plan meetings. However, the administrator or designee in charge at the School will serve as the LEA Representative at all other annual and interim IEP, EP, and Section 504 meetings, which the School shall conduct.
- (C) **Compliance Monitoring.** The Sponsor will monitor the School for ESE compliance with applicable Federal, State, and local policies and procedures as outlined in the Exceptional Student Education Policies and Procedures (SP&P) (Appendix H). Failure to comply with Federal, State, or local law or policy, after notice and a reasonable opportunity to cure, may result in the Sponsor withholding FTE funding from the School until compliance is achieved.

2.8.7 School Responsibilities

- (A) **Disability Disclosure and Placement Determination.** The School shall not inquire about a student's disability status prior to registration/enrollment or notice of acceptance. No later than the tenth day of the student's attendance after the point of registration/enrollment or notice of acceptance, the School shall notify the Sponsor's District Staffing Specialist assigned to the School if the IEPs, EPs, or Section 504 Plans of students who have applied and been accepted cannot be implemented at the School. The Sponsor shall be invited to and may attend the meeting, at which time the IEP team shall determine whether the School is an appropriate placement for the student. If a student's IEP, EP, or Section 504 Plan can be implemented at the School, based on the continuum of services as outlined in the application or as revised by a modification to this Contract, the student shall not be required to attend another school. All IEP changes of placement shall be based upon data and student needs.

- (B) **Student Support and Evaluation Protocols.** The School shall initiate all Request for Assistance (RFA) and Student Support Team (SST) meetings when concerns are raised by school staff or parents about student's functioning. When a student is suspected of having a disability, the School shall make a written request to obtain parental consent for evaluation for referral to the Sponsor. If parental consent is denied or the parent fails to respond, the School must notify its legal counsel and the Sponsor for consideration of pursuing evaluation by using the mediation or due process procedures. The School shall fully implement the required RtI, IEPs, EPs, Functional Behavioral Assessments (FBA)/Social Emotional Behavior Intervention Plans (SE-BIP) and Section 504 Plans of enrolled students, including delivery of supplementary aids and services and related services, unless the IEP, EP, or Section 504 team determines that the student's needs cannot be met at the School and placement at another school within the Sponsor's district constitutes the least restrictive environment on the continuum of alternative placements. The School must follow all disciplinary procedures and policies relevant to students with disabilities, including implementation of FBAs/SE-BIPs and manifestation determinations. In no instances should a student's IEP, EP, or Section 504 services or placements be changed solely for the purpose of accommodating the School's placement options.
- (C) **Delivery of Educational Services and Equipment.** The School shall deliver all educational related services and equipment indicated on the student's IEP, EP, or Section 504 Plan unless a determination has been made by the School and the Sponsor that the student's IEP cannot be implemented at the School. The School shall also provide related services and equipment, e.g., speech/language therapy, occupational therapy, physical therapy, nursing, counseling, assessment instruments, assistive technology devices, transportation and therapeutic equipment.
- (D) **Evaluations and Service Delivery.** The School shall conduct the evaluations of the School's students referred for Physical Therapy (PT), Occupational Therapy (OT), Speech and Language (SL), Nursing, Assistive Technology (AT) and Functional Behavior Assessment (FAB) services with personnel qualified in accordance with State of Florida regulations and in accordance with Response to Intervention requirements. If the student is determined eligible for these services and they are added to the student's IEP or Section 504 Plan, the School shall be responsible for the provision or delivery of required services to the student. The School shall ensure that the person(s) conducting evaluation(s) attend an IEP meeting to review the

evaluations when eligibility for services is determined. All evaluations must include a review of the student's educational records, including but not limited to IEP or Section 504 Plan; identification and development of goals to be supported by PT, OT, SL behavioral intervention and/or assistive technology, and/or nursing; a treatment plan for the student; and reference to supporting medical documentation if applicable. The School shall ensure that all instructional personnel and service providers review and implement the student's IEP. The School shall ensure that all service providers contribute to the student's annual and interim IEP meetings either in writing, by telephone, through electronic means, via video conferencing, or in person. Service providers must also contribute to status reports and updates on the student's IEP goals and benchmarks related to their areas of treatment. The School shall require all service providers to the student to attend orientation and in-service training on delivery of school-based services and how to support educationally relevant IEP goals. The Sponsor shall provide the orientation and in-service training. The Sponsor may conduct periodic reviews of the paperwork prepared by the service providers providing services to such students.

- (E) **Independent Educational Evaluations.** The School shall immediately notify the Sponsor if a parent requests an Independent Educational Evaluation (IEE) at public expense and work with the Sponsor to determine whether the IEE will be granted, or a due process action will be filed to defend the School's/Sponsor's evaluation. Responsibility for IEE due process litigation will be apportioned according to the type of evaluation at issue and in accordance with this Contract.
- (F) **Compliance with IDEA, Section 504, and EP Regulations.** The School shall comply with the requirements of the IDEA, Section 504, and regulations as they relate to the student's IEP/Section 504 Plan, and/or EP. The School shall ensure that the appropriate highly qualified instructional personnel of the School that are required members of the IEP committee attend all IEP, Section 504 and/or EP meetings.
- (G) **Policy for Service Animal Requests.** The Governing Board shall adopt a policy and procedure for consideration of service animal requests made to the School.
- (H) **Least Restrictive Environment.** Exceptional students shall be educated in the least-restrictive environment. Students whose needs cannot be appropriately addressed at the School as determined by an IEP, EP, or Section 504 team meeting held after enrollment, will be appropriately referred to the student's home school. The School shall contact the

Sponsor's District Staffing Specialist assigned to the School and/or the Sponsor's Office of Exceptional Student Education to notify staff that the student has been referred to their home school.

- (I) **Professional Development Requirements.** The School shall make its personnel aware of professional development opportunities offered by the Sponsor's Office of Exceptional Student Education and Psychological Services departments. In addition, the School shall require all personnel assigned to implement IEPs, EPs, and Section 504 Plans to participate in meetings and/or trainings required by the Sponsor's Office of Exceptional Student Education and Psychological Services departments.
- (J) **Enforcement of Compliance.** Failure to comply with federal, state, or local law or policy, after notice and a reasonable opportunity to cure, may result in the Sponsor withholding FTE funding from the School until compliance is achieved.

2.8.8 Due Process and Dispute Resolution Procedures

- (A) **Filing and Notification.** A student, parent, or guardian who indicates that they wish to file for a due process hearing, pursuant to State law and rules shall be given the appropriate forms by the LEA attending the meeting. These forms shall also be provided upon request at any other time. Parents must file due process hearing requests with the School Board Clerk pursuant to School Board Policy 0133, *Quasi-Judicial Functions*, and the procedural safeguards posted on the Sponsor's Exceptional Student Education website. Any due process requests received by the School must be forwarded to the Sponsor's ESE Director and legal counsel on the same business day. The Sponsor's legal counsel will ensure that all ESE due process hearing requests/complaints are filed with the Florida Division of Administrative Hearings (DOAH) and place the School on notice of the complaint. With regard to Section 504 due process requests, the Sponsor's legal counsel will evaluate the due process request and work with the School's legal counsel to determine the proper course of action in accordance with the School's and the Sponsor's procedural safeguards and hearing procedures.
- (B) **Review, Representation and Cost Responsibilities.** The Sponsor will review the due process complaint and hold an initial meeting to analyze the merits of the complaint. The School must select its own legal counsel to consult and cooperate with the Sponsor's legal counsel. The School's legal counsel will file a Notice of Appearance before the Division of Administrative Hearings within ten (10) days of the filing of the due process complaint. The School's legal counsel will participate in the initial strategy meeting with the Sponsor. Prior to the meeting, the School shall forward all

relevant documentation to the Sponsor's legal counsel. Final decisions on legal strategies shall be made by the Sponsor's attorney in consultation with the School. The Sponsor's legal counsel will represent the Sponsor on all claims brought by parents related to evaluations referenced in this Contract. The School's legal counsel shall represent the School on claims related to all other evaluations, including at the School's election when the parent refuses to consent or fails to respond to the School's request for consent to evaluate. At the election of the Sponsor's legal counsel, if the School elects not to pursue a claim regarding parental refusal/failure to provide consent to evaluate, the Sponsor may elect to pursue the claim after consultation with the Sponsor's counsel. The Sponsor's legal counsel will represent the Sponsor in all cases where a District employee fulfills the role of the LEA at the staffing/IEP meeting. The School's legal counsel will represent the School on all claims related to implementation of RtI, IEPs, Section 504 Plans, EPs, Manifestation Determination decisions, and where a School employee fulfills the role of the LEA Representative at the staffing/IEP meeting. Claims related to IEPs will be represented by counsel for whichever party is responsible for the type of evaluation at issue. The Sponsor's legal counsel will seek a dismissal of the Sponsor with regard to claims over which the Sponsor had no role (e.g., implementation claims). However, if the dismissal is denied, the Sponsor's counsel will continue to provide recommendations and work with the School's counsel as co-counsel on the pending case. The School shall pay all costs associated with the administrative due process hearing, legal representation, discovery, court reporter, and interpreter and all appeals. In the event that the student, parents, or guardians prevail, either through a hearing, court action, or settlement, the School shall pay any and all attorneys' fees, reimbursements, compensatory education and any other costs incurred, agreed upon or awarded; however, the District shall assume or reimburse the costs of the defense attributable to, caused by or through the fault of the District, if any, as outlined above. Any costs, fees, or other expenses incurred, as set forth in this paragraph, will be automatically reduced from the FTE funds passed through the Sponsor to the School, without any penalty of interest, although the School may request, and the parties agree to a payment plan.

- (C) **Participation in Resolution and Mediation Sessions.** The School must designate an administrator and relevant members of the IEP team to attend a resolution or mediation session conducted by the Sponsor's due process team. The School's legal counsel and the Sponsor's legal counsel may participate in the resolution session only if the parent is an attorney or is

represented by an attorney. If the Sponsor and the School elect to participate in mediation in lieu of a resolution session, the Sponsor's due process team will invite the legal counsels of the Sponsor and the School.

- (D) **Post-Mediation Recommendations and Cost Responsibilities.** Following the resolution session/mediation, the School shall review the recommendations of the Sponsor's due process team with their legal counsel and communicate in writing the School's position on resolution/settlement to the Sponsor's due process team. If the School opts not to follow the recommendations of the Sponsor's due process team, the School will incur all costs associated with subsequent court orders as set forth in this Contract.
- (E) **Resolution and Advancement of Due Process Hearings.** If the matter is resolved by a written agreement, the Sponsor's legal counsel will file the appropriate motions for dismissal and closure of the case. If the matter is not resolved, the legal counsel of the Sponsor and the School shall ensure that representation in the due process hearing proceeds in accordance with this Contract and the procedural safeguards posted on the School's and/or Sponsor's Exceptional Student Education website. The School and the Sponsor shall each make available to participate in all necessary stages of the litigation all staff who participated in any evaluation or reevaluation, the preparation of any IEP, the implementation of any IEP that may be at issue in the hearing.

2.8.9 Reimbursement for Services

Under the Medicaid Certified School Match Program, the School may be eligible to seek reimbursement for certain services provided to Medicaid-eligible students who qualify for services under the IDEA, Part B or C. In order to seek reimbursements, the School shall follow the procedures established by the state agency which administers the program for Medicaid-reimbursable services to eligible students at the School.

2.8.10 Services Covered by the Administrative Fee

The Sponsor shall provide Exceptional Student Education administration services to the School, pursuant to Section 1002.33, F.S.

SECTION 3: ENROLLMENT AND STUDENT SERVICES

3.1 Grades Served

The School is authorized to serve Grades K – 5th

3.2 Recruitment and Admissions

3.2.1 Recruitment

The School shall make reasonable efforts, in accordance with federal law, to

achieve a racial or ethnic balance reflective of the community it serves or within the racial/ethnic range of other nearby public schools. The School shall recruit throughout all segments of the community and provide outreach materials in multiple languages appropriate to the geographical location of the Charter School. This may include direct mailings, public advertisement utilizing the local and community press and informational meetings at a variety of locations using both English and other languages where appropriate. Student recruitment and promotional efforts, materials, and activities shall be conducted so as not to exclude or limit opportunities on the basis of race, sex, national origin, marital status or disability.

3.2.2 Non-Discriminatory Admission and Non-Sectarian Policies

The School shall be non-sectarian in its programs and admissions policies. The School shall be open to any student residing in Miami-Dade County and to students in other districts. Admission or dismissal must not be based on a student's academic performance. The School will accept all eligible students in accordance with Federal and State anti-discrimination laws and in accordance with the Florida Educational Equity Act, Section 1000.05(2) (a), F.S. The School will not discriminate on the basis of race, gender, ethnicity, religion, national or ethnic origin or disability in the admission of students. The School shall implement the enrollment policies and procedures and lottery process, as described in the approved Application. The School may not request, prior to enrollment or notice of acceptance, through the application or otherwise, information regarding the student's academic history, record of standardized testing performance, juvenile or disciplinary history or status, a student's Individual Education Plan (IEP), Education Plan (EP), Section 504 Plan, English Language Learner (ELL) Plan or other information regarding a student's special needs or use such information as a basis to deny or revoke enrollment. The School shall not access, directly or through a third party, any of the Sponsor's student information unless and until the student actually enrolls in the School. Violation of this provision constitutes good cause for termination.

Failure to accept all eligible students in accordance with Federal and State anti-discrimination laws and in accordance with the Florida Educational Equity Act, Section 1000.05(2)(a), F.S. constitutes good cause for termination of this Charter.

3.2.3 Lottery and Wait List Documentation

The School shall clearly indicate in its Policies and Procedures the lottery procedures and enrollment preferences the School will utilize. If the number of applications exceeds the capacity of the program, class, grade level, or building, all applicants shall have an equal chance of being admitted through a random selection process. The School shall maintain documentation in accordance with applicable

Florida record retention laws for each enrollment lottery conducted, as well as any student wait lists that are generated and make them available to the Sponsor upon request. Lottery documentation shall be sufficient to allow the Sponsor to verify that the random selection process was fair, equitable, and in compliance with applicable State statutes. At a minimum, the following documentation shall be maintained and available to the Sponsor upon request at all times:

- (i) official current policies, processes, and timelines related to the enrollment lottery and wait list and documentation showing that the School's Governing Board adopted them at a regular public meeting;
- (ii) copies of student enrollment applications, any marketing materials, and all other enrollment materials;
- (iii) evidence of compliance with all policies, processes, and timelines approved by the Governing Board, and related to the application, lottery and wait list notification;
- (iv) evidence that the lottery process was posted on the School's website and clearly communicated to the public at large;
- (v) evidence that outreach materials have been communicated in multiple languages; and,
- (vi) copies of any wait lists, documents showing how the list was developed and any other evidence that complies with the approved policies, processes, and timelines.

3.2.4 Articulation Agreements Between Charter Schools

As required by State law, articulation agreements must be approved by the Sponsor prior to implementation. CSCS is authorized to approve articulation agreements that:

- (i) identify the sending school and receiving school;
- (ii) are approved by resolution of the governing board(s) of the participating schools at a regular public meeting prior to presentation to the Sponsor;
- (iii) implement standard vertical matriculation patterns (e.g., elementary to middle school, middle school to high school, K-8 to high school); and,
- (iv) do not negatively impact a student's opportunities to exercise school choice.

3.3 Enrollment

3.3.1 Preferences

The School may provide enrollment preferences pursuant to Section 1002.33(10)(d) F.S. and may otherwise limit enrollment to target those student populations identified in Section 1002.33(10)(e) F.S. and identified in the approved application.

3.3.2 Consent

To enroll a student, the School must obtain proof of consent from the student's

parent or guardian, or from the student if the student is eighteen (18) years of age or older. The Charter School may not transfer an enrolled student to another charter school having a separate Master School Identification (MSID) Number without first obtaining the specific written approval of the student's parents/guardians before each transfer. General consent for student transfer is prohibited (e.g., consent included in a parent contract). A student may withdraw from the School at any time and enroll in another public or private school, as determined by District policy. The School shall work in conjunction with the parent(s)/guardian(s) and the receiving school to ensure that such transfers minimize impact on the student's grades and academic achievement.

3.3.3 Capacity and Class Size Requirements

Following is the student enrollment breakdown:

Years 1-15 [2026-2041]: Grades K to 5- up to 1,000 students

The School shall comply with class size restrictions as required by law. The enrollment capacity shall be annually determined by the Charter School Governing Board in conjunction with the Sponsor based on factors set forth in Section 1002.33(10)(h), F.S. The School shall not enroll students in excess of the physical capacity of the building except as otherwise provided by law for schools operating multiple sessions, in which case the physical capacity of the School shall not be exceeded during any session. The Annual Enrollment Capacity of a high-performing school shall be determined by the Governing Board. No later than March 1st of each year, the School shall provide the Sponsor the proposed enrollment capacity for the subsequent school year. Monthly FTE payments shall be withheld, without interest, for students in excess of the School's annual enrollment capacity, as defined by the Contract.

3.3.4 Projections

- (A) Preliminary Enrollment Projection.** If requested, no later than November 1st of each year, the School shall provide to the Sponsor the School's preliminary projected enrollment for the following school year. The preliminary projected enrollment shall not constitute a cap on the School's enrollment for the following school year.
- (B) Final Enrollment Projection.** The Sponsor may request that the School provide final enrollment projections for the upcoming school year no later than July 15th of each year. Final enrollment is not annual capacity, but the school's projection of how many students will be enrolled when the school year begins. The School shall not project enrollment or enroll students in excess of the physical capacity of the building, unless the School operates multiple sessions, in which case the physical capacity of the School shall not be exceeded during any session.

3.3.5 Minimum Enrollment Requirements

Each year, the School agrees to enroll an eligible student by accepting a timely application through deadlines as determined by the Governing Board and publicly advertised. If the target goal of students is not met by the deadline, and the School wishes to extend, the School will give sufficient public notice and extend the application deadline for a set time as determined and publicized by the Governing Board. If, at the 10-day count, the registered enrollment as reflected in the Sponsor's data system is less than 75 percent of the School's total projected enrollment as described in either the approved Application for the first year or as determined under the provisions of this Charter, the School shall, upon written request by the Sponsor, submit a revised budget within thirty (30) days taking into account the reduced enrollment. Failure to provide the revised budget may constitute good cause for termination. The School's minimum enrollment for the first year of operation is N/A. The parties agree that this is the minimum enrollment that will support the School's operations. Failure to achieve the minimum enrollment by the October FTE reporting period for the first year of operation constitutes good cause for termination or non-renewal unless the School provides the Sponsor a revised and balanced budget and a cash flow statement that are realistic and reasonable within fifteen (15) calendar days of the October FTE reporting period. A budget to support this minimum enrollment is provided in the Budget for Initial Year of Operation Based on Minimum Enrollment (Appendix I).

3.3.6 High-Performing Charter Schools

A high-performing charter school must have documentation from the Commissioner of Education designating the School as high-performing pursuant to Section 1002.331, F.S. A high performing charter school shall notify the Sponsor in writing by March 1st of the preceding year if it intends to increase enrollment beyond the enrollment stated in this charter and/or to expand grade levels the following year. The School shall not, however, enroll students beyond the facility capacity at the time the enrollment increase will take effect. The written notice shall specify the amount of the enrollment increase, the grade levels that will be added, and evidence of the official facility capacity at the time the enrollment increase will take effect. To increase enrollment and add grade levels, this Contract must be amended through the Sponsor's current charter amendment process for these types of amendments in School Board Policy 9800, *Charter Schools*, except that the Sponsor shall modify the charter within 90 days to include the new enrollment maximum and may not make any other change. Failure to provide timely notice to the Sponsor shall preclude the School from increasing enrollment or expanding grade levels.

3.3.7 Dispute Resolution

Disagreements between the Sponsor and the School relating to enrollment capacity may be resolved through dispute resolution pursuant to Section 1002.33, F.S.

3.3.8 Application and Enrollment Documentation

The School must maintain appropriate enrollment and student application documentation.

3.4 Withdrawal Policies and Procedures

3.4.1 Involuntary Student Withdrawal

The School will ensure that no pressure, coercion, negotiation, or other inappropriate inducement may be used to attempt to have parents or guardians withdraw students from the School. The School may not transfer a student unless the withdrawal or transfer is accomplished through the Sponsor's transfer policies. Students already enrolled at the School must be provided with the option to remain enrolled at the School for the following school year. Pursuant to Section 1002.33(7), F.S., admission or dismissal must not be based on a student's academic performance. Except as authorized under section 1002.33(10)(e)(5). The School shall implement the dismissal policies as described in the approved Application or subsequently submitted to and approved by the Sponsor.

3.4.2 Voluntary Student Withdrawal

A student may voluntarily withdraw from the School at any time and enroll in another school.

3.5 Maintenance of Student Records

The School shall maintain both active and archival student records for current/former students in accordance with Sections 1003.25 and 1002.22- 1002.222, F.S., State Board of Education Rule 6A-1.0955, and the State of Florida General Records Schedule GS7 for Public Schools Pre-K – 12 and Adult and Career Education, as applicable to the charter schools. The School shall maintain confidentiality of student records as required by Federal and State law.

3.5.1 Student Information System and Electronic Gradebook

The School will use the Sponsor's electronic grade book system. The School shall use records and grade procedures that adequately provide the information required by the Sponsor. The School may use the Sponsor's electronic grade book system. If the School elects to use an alternative student information system and recording system, the system must comply with the State's reporting guidelines and be approved by the Sponsor. If the School chooses to use an application other than the system in use by the Sponsor, it will be responsible for daily data entry directly into the District's student information system (DSIS) for attendance and quarterly data entry for academic, effort, and conduct grades for students. Schools that opt to use an alternative gradebook system will be required to provide some form of prior year

electronic audit trail. ITS support will not be provided to schools that do not use the District's electronic gradebook system.

- (A) **Attendance.** The School must report daily attendance of each student to the District to meet District attendance reporting requirements, as required by law. Schools that use an alternative grade book system will not be able to upload grade or attendance data to the Information Technology Services (ITS) department. Schools not uploading will be required to have a documented procedure in place for communicating attendance and grades to the School's attendance clerk, prior to the opening of schools.

The hourly equivalent for Kindergarten through Grade 3 is 720 instructional hours and 900 instructional hours for students in Grades 4 through 12. Schools operating on a double session calendar must be approved by the Sponsor. Approval by the Sponsor for a double session school does not reduce the required 300 minutes of instruction per day. Survey periods for Year-round School Programs are the same as for the regular fiscal year. Year-round schools shall report the first ninety (90) days of their regular 180-day school year in Survey 2 and the second ninety (90) days of their regular 180-day school year in Survey 3, regardless of when the tracks are in session.

The School agrees to report its student enrollment to the District as provided in Section 1011.62, F.S., and in accordance with the definitions in Section 1011.61, F.S., at the agreed upon intervals and using the method used by the District when recording and reporting cost data by program. A representative of the School shall attend training offered by the Sponsor in the use of such systems and procedures at no cost to the School. The Sponsor's support for this function will be provided at cost and will not exceed the administrative fee allowed by law. Access by the School to additional data processing applications, materials, or forms not required in the statute, but available through the Sponsor, may be negotiated separately by the parties.

4.4.4 Accountability for Data Accuracy and Audit Adjustments

The School shall maintain auditable records of student attendance and grades. Reporting timelines shall be aligned with the Sponsor's timelines. Date Certain is always the Friday of the FTE Survey week. Corrections to data submitted for FTE processing will only be accepted for 6 weeks after Date Certain. The School is responsible for correcting student schedule changes. Incomplete student or teacher course records shall result in a loss of FTE funding. If the School submits data relevant to FTE, federal, or state grant funding that is later determined through the audit procedure to be inaccurate, the School shall be responsible for any reimbursement to the State, the United States Department of Education or the District for any errors or omissions in data that the School submitted provided that the District has timely sent notice to the School of alleged errors discovered through such audit(s) so that the School, on its own, or through the Sponsor, at the School's expense may participate in any proceedings to challenge or appeal such audit findings.. In addition, if the Sponsor is fined or penalized for School errors, the School shall reimburse the Sponsor for the full amount. If the School fails to reimburse the Sponsor, or agree on a payment plan, within a reasonable time after expiration or exhaustion of any appeals, the Sponsor shall deduct the amount owed from the School's FTE payments. After final disposition of any appeals, the District shall deduct any such adjustments from the School's subsequent revenue disbursements evenly over the remaining months of the fiscal year or according to an agreed upon payment plan.

The Sponsor shall not withhold an administrative fee from federal or state grants unless explicitly authorized by law. Funds from the reimbursement of any portion of the administrative fee to the school shall be used only for capital outlay purposes as specified in Section 1013.62(2), Florida Statutes. The Sponsor shall not withhold an administrative fee from capital outlay funds unless explicitly authorized by Florida law. The Sponsor shall provide those administrative and educational services specified in Section 1002.33(20)(a), Florida Statutes, to the School at no additional fee. These services shall include contract management services, FTE and data reporting, exceptional student education administration services, services related to eligibility and reporting duties required to ensure that school lunch services under the federal lunch program, consistent with the needs of the School, are provided by the school district at the request of the School; test administration services, including payment of the costs of state-required or district required student assessments; processing of teacher certificate data services, and information services, including equal access to student information systems that are used by public schools in the district in which the charter school is located as provided in

Section 1002.33(20)(a), Florida Statutes. A sponsor may not charge charter schools any additional fees or surcharges for administrative and educational services in addition to the maximum percentage of administrative fees withheld pursuant to this Section 1002.33(20)(a), Florida Statutes. A sponsor may not charge or withhold any administrative fee against a charter school for any funds specifically allocated by the Legislature to be used for teacher compensation. The Sponsor shall withhold two percent (2%) for enrollment of up to and including 250 students in an ESE center that meets the requirements of the rules adopted by the State Board of Education pursuant to Section 1008.3415(3). If the School serves seventy-five percent (75%) or more exceptional education students as defined in Section 1003.01(3), the percentage shall be calculated based on the unweighted full-time equivalent students. ESE administrative services covered by the administrative fee, pursuant to Section 1002.33(20), F.S., include professional development related to IEP development; access to any electronic IEP system or forms; initial evaluation for ESE placement; and other supports and services as agreed to by the School and the District in this Charter.

4.5.4 Sponsor Use of Administrative Fee

The administrative fee retained by the Sponsor pursuant to this Contract includes a fee for academic and financial monitoring required of the Sponsor by law and other such services provided by the Sponsor which are required to be covered under statute. At any time, the Sponsor may request reports on school operations and student performance and the School shall provide the reports in a timely manner.

For new charter school in the initial year of operation, payments will be made as required by the law. July through October payment shall be based on the School's projected enrollment as described on the cover sheet of the approved Application if a minimum of seventy-five (75) percent of the projected enrollment is entered into DSIS by the first day of the current month. Otherwise, or if the School's enrollment exceeds its projected enrollment, the Sponsor shall fund the School based on the number of students actually entered in DSIS as of the first day of the current month, not to exceed the Annual Enrollment Capacity. Thereafter, the results of full-time equivalent student membership surveys shall be used in adjusting the amount of funds distributed monthly to the School for the remainder of the fiscal year. Additional documents (e.g., student enrollment forms, student transfer forms, Integrated Student Information System rosters) may be required or requested to support the School's projections. Payments will be adjusted retroactively for prior period adjustments.

4.6.3 Payment Calculations for Subsequent Charter Years

For the following years of the charter, monthly payments will be calculated as follows:

- (i) The Sponsor may initially calculate monthly distributions to the School for up to four (4) months based on full-time (FTE) student enrollment distribution as of the prior year February FTE report.
- (ii) If enrollment at the end of the second week of student attendance fluctuates by twenty percent (20%) or more from prior year February FTE, then monthly distributions shall be proportionally adjusted. Thereafter, the results of the official FTE student surveys will be used in adjusting the amount of FEFP funds distributed to the School.

4.6.4 Payment Adjustments for Sponsor Services and Penalties

If the School submits data relevant to FTE, Federal, or grant funding that is later determined through the audit procedure to be inaccurate, the School shall be responsible for any reimbursement to the State, the United States Department of

Education or the District for any errors or omissions in data that the School submitted provided that the District has timely sent notice to the School of alleged errors discovered through such audit(s) so that the School, on its own, or through the Sponsor, at the School's expense may participate in any proceedings to challenge or appeal such audit findings. After final disposition of any appeals, the District shall deduct any such adjustments from the School's subsequent revenue disbursements evenly over the remaining months of the fiscal year or according to an agreed upon payment plan..

4.6.5 Reimbursements

The District shall make every effort to ensure that the School receives timely and efficient reimbursement of funds. Other than those payments provided for in this Contract, for which other requirements for timely payments have been made, the payment shall be issued no later than ten (10) working days after the District receives a distribution of state or federal funds. If a warrant of payment is not issued within ten (10) working days after the receipt of funding by the District, or the due date set forth in this Charter, the District shall pay to the School, in addition to the amount of the scheduled disbursement, interest at a rate of one percent (1%) per month calculated on a daily basis on the unpaid balance from the expiration of the ten (10) day period until such time as the warrant is issued. Late payments are subject to interest at the rate of 1% per month calculated on a daily basis until paid. Payment shall be made only to the account in an FDIC insured Active Qualified Public Depository account or a State-approved depository specified by the Governing Board.

4.6.6 Enrollment Capacity and Facility Compliance for Payments

Payment shall not be made for students in excess of the School's enrollment capacity, the School's valid facility capacity as determined by the School's Certificate of Occupancy, Certificate of Use, and/or Fire Permit (whichever is less) or this Contract. In the event that the required County and/or municipality facility permits do not indicate a facility capacity, the School must submit an official letter from the local jurisdiction confirming facility capacity certification by the Registered Architect. Where the local jurisdiction does not or is unable to issue an official determination of allowable capacity, the School may take one of the actions stated in this Contract. The Sponsor shall withhold monthly payments, without interest, if the School's Certificate of Occupancy, Certificate of Use or Fire Permit has expired or has otherwise become invalid, until such defect has been cured.

4.6.7 Charter School Capital Outlay Funds

The Sponsor shall make timely and efficient payments to the School for capital outlay funds pursuant to Sections 1011.72 and 1013.62, F.S. The Sponsor shall not

certify capital outlay plans or recommend awarding capital outlay if it cannot attest to the School's eligibility.

4.6.8 Adjustments Due to Holdbacks and Prorations

In the event of a State holdback or a proration which changes District funding, the School's funding will be adjusted proportionately to the extent required by the law. The Sponsor will not be responsible for any liabilities incurred by the School in the event of a State holdback. Notwithstanding the foregoing, distribution of FTE funds may be withheld, upon written notice by the Sponsor, if any of the following required documents are more than thirty (30) day overdue unless otherwise agreed or extended:

- (i) The School's monthly/quarterly financial statement as required by State Board of Education Rule 6A-1.0081, F.A.C.
- (ii) The School's annual financial audit as required by Section 218.39, F.S and this Charter.

The Sponsor shall release, in full, funds withheld under this provision within ten (10) days of receipt of the documents that resulted in the withholding of funds.

The School may choose to provide a summer school program using State allocated funds. All students attending a summer school session must be reported in FTE Survey 1 and Survey 4, as required by law. In the event that a student enrolled in the School attends any of the Sponsor's summer school programs, and the summer school program is not funded through Title I, the School shall reimburse the Sponsor for the cost of each student's summer school program, as determined by the Sponsor. If the School fails to comply with this provision within a reasonable time, the Sponsor may deduct the appropriate amount from the School's subsequent FTE or Federal funding payments.

4.8 Student Fees

4.8.1 Use of Student Fees

The School shall not charge fees, except those fees normally charged by the Sponsor or as allowed by law. Fees collected must be allocated directly to, and spent only on, the activity or material for which the fee is charged.

4.8.2 Fee Schedule

If the School intends to charge fees, it shall submit its comprehensive fee schedule to the Sponsor for review no later than July 1st prior to the school year in which the fees are intended to be charged. No funds shall be collected until the School has been given written approval from the Sponsor. Additional fees shall not be imposed without the notification and approval of the Sponsor. Fees shall not be a barrier to enrollment. Non-payment of fees shall not be a basis for dismissal or non-re-enrollment. Upon approval of the fee schedule, all fees collected must be reported

and recorded appropriately using proper accounting procedures as required by law. Any fees that are solicited, required, or accepted in violation of this paragraph shall be returned to the parent or guardian.

4.8.3 Student Fee Documentation

12.2 Entire Agreement

This Contract shall constitute the full, entire, and complete agreement between the parties. All prior representations, understandings, and agreements whether written or oral are superseded and replaced by this Contract. Doral Academy High School (MSID 7020)
Second Renewal of the Charter School Contract

SECTION 1: GENERAL PROVISIONS

This Second Renewal of the Charter School Contract (Contract or Charter) entered into as of the 22nd day of April 2026, between The School Board of Miami-Dade County, Florida, (Sponsor or School Board), and The Doral Academy, Inc., a non-profit corporation organized under Chapter 617, F.S., d.b.a., Doral Academy High School (School). This Contract is limited to the Corporation's Doral Academy High School (MSID 7020). This Contract shall become effective on the date it is approved by both parties.

1.1 Approved Application

The official Charter School Application/Renewal Packet was approved on March 14, 2001, by the School Board, and is attached hereto as Appendix A. All attached appendices are incorporated by reference and constitute part of this Charter. In the event of any conflict between the Application and any other provision of this Charter, the Charter provision shall control.

1.2 Term of Charter

The term of the charter contract shall be for fifteen (15) years, commencing July 1, 2026, and ending June 30, 2041. The Charter School Contract amended this initial contract on April 18, 2002, and July 11, 2002. The first renewal of the contract was approved on May 12, 2011, and amended on June 19, 2019, May 19, 2021, February 9, 2022 and on March 11, 2026. In the event of expiration, the term shall be automatically extended on a month-to-month basis until the Charter has been renewed, non-renewed, or terminated by the Sponsor. If the parties cannot reach agreement on the terms of a new contract, either party may request mediation from the Florida Department of Education (FDOE), pursuant to Section 1002.33(7)(b), F.S. If the Commissioner of Education determines that the dispute cannot be settled through mediation, the dispute may be appealed to an administrative law judge appointed by the Division of Administrative Hearings all in accordance with Section 1002.33(7)(b), F.S. The administrative law judge has final order authority to rule on the dispute, including whether proposed provisions of the Charter violate the intended flexibility granted charter schools by statute.

1.2.1 Start-Up Date and School Calendar

- (A) **School Opening Date.** For the first year of operating under this Charter, the School shall begin classes on the same day as the Sponsor or at such other time as otherwise determined by the Governing Board. The School cannot open absent submission of all required documents listed in the District's Pre-Opening Checklist (Appendix AA). Pursuant to law, the School may defer the opening of its operations for up to three (3) years to provide time for adequate facility planning. A charter school that elects to defer opening

must provide written notice of such intent to the Sponsor and the parents of enrolled students at least thirty (30) calendar days before the first day of school indicating (1) the deferral status as provided by law, and (2) the proposed first day of school. The first two (2) planning years will extend the term of this Contract. By March 1st of the year they were approved to open, a charter school that indicates they will defer opening must provide the District with a proposed opening date and a status report to include a timeline of all key operational items and milestones. The charter school shall continue to provide periodic status reports and make allowances for site visits. Failure to open the School after all available deferral years will result in automatic rescission of the contract with notice to the School but with no further action required of the Sponsor.

- (B) **Academic Calendar.** For a new charter school, the School's calendar shall be consistent with the beginning of the Sponsor's school calendar for the first year of operation. For every year thereafter, and for all other charter schools, if the School's calendar differs from the Sponsor's public-school calendar, including the instructional days, the School shall provide reasonable notice and submit the proposed calendar to the Sponsor and parents of enrolled students prior to the start of the school year. Any calendar changes that differ from the Sponsor's calendar, must be provided upon request to the Sponsor prior to implementation. Calendar modifications may incur a processing fee at a rate no greater than the Sponsor's actual cost.
- (C) **Required Instructional Minutes.** Instructional minutes shall be a minimum of 300 minutes per day. The hourly equivalent for Kindergarten through Grade 3 is 720 instructional hours and 900 instructional hours for students in Grades 4 through 12. Schools operating on a double-session calendar must be approved by the FDOE. Survey periods for Year-Round School Programs shall be the same as for the regular fiscal year. Year-round schools shall report the first ninety (90) days of their regular 180-day school year in Survey 2 and the second 90 days of their regular 180-day school year in Survey 3, regardless of when the tracks are in session.

1.2.2 Charter Modification

This Contract may not be modified unless approved by both parties in writing pursuant to School Board Policy 9800, *Charter Schools* (Appendix B). No contract modification shall be enforceable unless it is in writing and approved by both the Governing Board and the Sponsor. If the modification involves changes to the grade levels, except as provided by law for high-performing charter schools, the School must provide information acceptable to the Sponsor relating to operational

capacity, curriculum, budget, facilities, and staff. Certain amendments related to high-performing charter school contracts are governed by Section 1002.331, F.S. and are also in accordance with the charter contract amendment process contained in School Board Policy 9800, *Charter Schools*, to the extent School Board Policy does not limit or conflict with the statutory provisions of F.S. 1002.33 and/or 1002.331. In the event of a conflict between School Board Policy and the statute, the statute will prevail. The Sponsor may not require the School to waive the provisions of s. 1002.331, F.S., or require a student enrollment cap that prohibits a high-performing charter school from increasing enrollment in accordance with s. 1002.331(2), F.S., as a condition of approval or renewal of the Charter.

1.2.3 Charter Renewal

- (A) **Renewal Notice.** This Charter may be renewed as provided for in Section 1002.33, or 1002.331, F.S. No later than September 15th in the final academic year of this charter, a Sponsor shall provide notice to the School regarding the process and timeline for completing the programmatic review required under s. 1002.33(7)(c)1., Florida Statutes.
- (B) **Renewal Review and Evaluation.** Prior to renewal of this Charter, the Sponsor shall perform a review to determine the level of success of the School's educational program, organizational performance, financial performance and achievement of the goals and objectives required by State accountability standards and successful accomplishment of the criteria under Sections 1002.33(7)(a) and (8)(a) F.S., compliance with the terms of the Charter, and that none of the statutory grounds for nonrenewal exist. Upon completion of the programmatic review, but no later than ninety (90) days prior to the end of the charter term, the Sponsor shall notify the Governing Board of the Charter School in writing of the proposed action to renew, terminate, or non-renew the Charter, pursuant to Section 1002.33(8)(a), F.S.
- (C) **Renewal Packet Submission.** Any charter school seeking renewal shall complete a Charter Renewal Packet as provided by the Sponsor's renewal process in Policy 9800 in effect as the date of this charter. In the event of any revision to policy 9800, the policy in effect at the time the charter was executed shall remain in effect until the revisions to the policy are mutually agreed upon in writing.
- (D) **Renewal Term and Approval.** Renewals may be approved for a term up to five (5) years unless another term is mutually agreed upon, required, or allowed by law. Upon approval, the Contract will be renewed following the contract negotiation process in current School Board policy and as required by law.

- (E) **Periodic Review and Evaluation:** The Sponsor may annually evaluate the School on its performance and progress meeting the standards and targets included in this charter, including academic achievement goals established by the school pursuant to this charter. If the term of this Charter exceeds five years, the Sponsor may conduct a High-Stakes Review not more often than once every five years or upon renewal and shall transmit the findings of the review to the Governing Board of the School.

1.3 Termination or Non-Renewal

This Contract may be terminated or non-renewed during its term for any cause of termination or non-renewal identified in section 1002.33 which is not cured within thirty (30) days after notice and reasonable opportunity to cure, except for deficiencies regarding immediate threats to student and staff health, safety and welfare which must be cured immediately, and where it is not possible to cure within the time required herein, the School will present to the Sponsor and diligently follow a plan and schedule in which to cure any deficiency as soon as reasonably possible. Notices of non-compliance, non-renewal, or termination, cancellation and default must comply with the requirements set forth in section 1002.33 and as otherwise required by law.

1.3.1 Causes for Termination or Non-Renewal.

The Sponsor shall make student academic achievement for all students the most important factor when determining whether to renew or terminate this Charter. The Sponsor may choose not to renew or terminate this Charter if it finds that any of the following grounds below exist by clear and convincing evidence, as set forth in Section 1002.33, F.S.

- (i) failure to participate in the State's education accountability system created in Section 1008.31, F.S., as required in this section, or failure to meet the requirements for student performance established by the school pursuant to this Charter;
- (ii) failure to meet generally accepted standards of fiscal management due to deteriorating financial conditions or financial emergencies determined pursuant to s. 1002.345, F.S.;
- (iii) material violation of law;
- (iv) if insufficient progress has been made in attaining the student achievement objectives of the charter and if it is not likely that such objectives can be achieved before expiration of the charter;
- (v) if the School earns two consecutive grades of "F" after all school grade appeals are final except as otherwise provided in Section 1002.33(9)n3, F.S.
- (vi) failure to cure a material breach of any term or condition of this Charter after written notice of non-compliance.

1.3.2 Causes for Immediate Termination

Pursuant to Section 1002.33(8)(c), this Charter may be terminated immediately if the Sponsor sets forth in writing the particular facts and circumstances demonstrating that an immediate and serious danger to the health, safety, or welfare of the School's students exists; that the immediate and serious danger is likely to continue; and that an immediate termination of the charter is necessary. Lack of a facility meeting the requirements of law in which to operate the School may constitute an immediate and serious danger to the health, safety, or welfare of the School's students.

1.3.3 Procedures for Termination or Non-Renewal

- (A) **Sponsor Notification Responsibilities.** The Sponsor shall notify the School's Governing Board and principal in writing at least ninety (90) days prior to non-renewing or terminating the Contract. The notice shall comply with the requirements of Section 1002.33(8), F.S., state in reasonable detail the grounds for the proposed action and stipulate that the Governing Board may request a hearing within fourteen (14) calendar days of receiving the notice.
- (B) **Hearing Request.** The School's Governing Board may request an administrative hearing before the Florida Division of Administrative Hearings (DOAH). This request must be authorized by a vote of the Governing Board and be submitted pursuant to the notice provisions of this charter. Minutes or an adopted resolution documenting the action must be submitted with the request. The School shall file the request with the School Board Clerk pursuant to School Board Policies 0133, *Quasi-Judicial*, 9800, *Charter Schools*, and Section 120.54(5)(b), F.S. Legally sufficient requests shall be forwarded to DOAH. The DOAH hearing will be conducted pursuant to Florida Statute 1002.33, and Chapter 120, F.S. Following the DOAH hearing, the administrative law judge shall submit a final order to the Sponsor. For purpose of notice, the Charter School's Governing Board is the last roster submitted by the School to the Sponsor.
- (C) **Continued Operations During Proceedings.** The School's Governing Board shall continue to operate the School until a final order terminating the charter is issued, during which time all provisions of this Contract shall remain in effect. The closing date shall be negotiated between the Sponsor and the School, unless otherwise provided for in a final order.
- (D) **Expenditures.** Upon notification of non-renewal or termination, the School may not expend more than \$10,000 per expenditure without prior written approval from the Sponsor unless the expenditure was included within the annual budget submitted to the Sponsor, is for reasonable attorney fees and

costs during the pendency of any appeal, or reasonable fees and costs to conduct an independent audit.

1.3.4 Procedures for Immediate Termination

- (A) **Sponsor Notification Responsibilities.** The Sponsor's determination is subject to the procedures set forth in section 1002.33(8)(c), F.S. Upon immediate termination, the Sponsor shall notify the School's Governing Board chair, principal, and the FDOE in writing, clearly identifying the specific issues that resulted in the immediate termination and provide evidence of prior notification of issues resulting in the immediate termination, if applicable, and detailing the specific facts and circumstances demonstrating the existence of such danger, explaining why the danger is likely to continue, and stating why immediate termination of the Charter is necessary to protect the health, safety, or welfare of the students, pursuant to Section 1002.33(8)(c), F.S.
- (B) **Hearing Request.** The Sponsor's determination is subject to the 90-day termination procedures in section 1002.33(8)(b), F.S. Upon receiving written notice from the Sponsor, the Charter School's Governing Board has ten (10) calendar days to request a DOAH hearing. The hearing may take place after the charter has been terminated.
- (C) **Operation of the School.** The School shall continue to operate the school throughout the pendency of the hearing (including any related appeals) as provided for in s. 1002.33(8)(d), F.S., unless the continued operation of the School would materially threaten the health, safety of welfare of the students. Pursuant to s. 1002.33(8)(c), F.S., the Sponsor may seek an injunction in the circuit court in which the Charter School is located to enjoin continued operation of the Charter school if continued operation would materially threaten the health, safety, or welfare of the students. If the School has no facility at the time of termination, the Sponsor is not obligated to operate the School.

 - (a) **Access to Records and Facilities.** Upon immediate termination, the School shall immediately provide the Sponsor access to the School's facilities along with security system access codes and access codes for all School-owned or leased computers, software, networking, switching and all other technical systems in the School's facilities or remotely located areas serving the School, and shall make accessible to the Sponsor all student, educational, operational, and administrative records of the School including those held by third parties. Moreover, within two (2) business days, the School shall turn over to the Sponsor all records, information, receipts and

documentation for all expenditures of public funds, including the location of the public funds, held by the School, including but not limited to Federal grants such as Title I and charter school grants, and grant the Sponsor access to the School's public funds, storage facilities, and all public property. In the event the Sponsor obtained an injunction to enjoin continued operation of the School, the Sponsor shall assume operation of the School. Failure by the Sponsor to assume and continue operation of the School, where the Sponsor had the obligation to operate the School, shall result in the awarding of reasonable costs and attorney's fees to the School if the School prevails on appeal. If the Sponsor obtained an injunction to enjoin operation of the school and therefore assume operation of the School and the School prevails in an appeal through a final adjudication by an administrative law judge or by a final adjudication and mandate by the appellate court if an appeal to the appellate court is filed, the Sponsor shall, immediately, return to School all keys, security codes, all educational and administrative records of the School, and the School's facility. In that case, the School's Governing Board shall resume operation and oversight of the School.

(b) Employees of the School. The School's instructional and operational employees may continue working in the School during the time that the Sponsor operates the School, after being awarded an injunction, at the Sponsor's option but will not be considered employees of the Sponsor. Any existing employment contracts that any School personnel may have with the School may not be assumed or transferred to the Sponsor or any entity created by the Sponsor during the assumption of operations of the School unless the Sponsor or its entity, and the School, agree otherwise. The Sponsor may take any appropriate personnel action regarding the School's employees and will give notice to the School before taking any such action.

(c) Disbursement of Funds. The Sponsor shall not disburse school funds except to pay the normal expenses of the School as they accrue in the ordinary course of school business. The Sponsor is not required to use its own funding resources to pay the School's debts.

1.3.5 School Election to Terminate or Non-Renew

If the School elects to terminate or non-renew the Charter, it shall provide reasonable prior notice of the election to parents of enrolled students, the Sponsor,

and the FDOE, indicating the final date of operation as voted by the Governing Board at a publicly noticed meeting. A board resolution, signed by the School's Governing Board chair and secretary indicating support of this action, shall accompany the written notification provided to the Sponsor. The School agrees that such notification shall be considered a voluntary termination by the Governing Board and a waiver of its right to a hearing or appeal and that this voluntary termination shall not be reversed, except by the Governing Board and in accordance with law. Additionally, all post-termination provisions incorporated in this Contract shall apply.

1.3.6 Removal of Public Property

Upon notice of termination or non-renewal, the School shall not remove any public property, as defined by law, from the premises without written Sponsor approval, except in the ordinary course of the School operations so as not to disrupt the continuity of instruction.

1.4 Post-Termination Provisions

1.4.1 Dissolution of School

The School shall be dissolved under the provisions of law under which the School was organized. Copies of all administrative, operational, and financial records of the School shall be provided to the Sponsor on or before the date the termination/non-renewal takes effect. The School shall also provide to the Sponsor the School's security system and technology access codes.

1.4.2 School Debt

If this Charter is not renewed or is terminated, the School shall be responsible for all the debts of the School. The Sponsor shall not assume the debt from any contracted services made between the Governing Body of the School, the Management Company, and/or third parties, including lease or rental agreements, except for a debt previously detailed and agreed upon, in writing, by both the Sponsor and the Governing Board and that have been satisfied by the Sponsor. In no event shall the District be responsible under any assignment of a lease to the Sponsor for any debts or obligations of the School arising under that lease and incurred prior to such assignment.

1.4.3 Leases with the District

In the event of termination or non-renewal of this Charter, any and all leases existing between the District and the School shall be automatically cancelled, unless the lease provides otherwise.

1.4.4 Student Transfers and Records

In the event of termination or non-renewal, any students enrolled at the School may be enrolled at their home District school, or any other school, consistent with the District's student transfer procedures including transfer of all student records to the

receiving school. Upon termination or closure of the School, all student education records shall be transferred immediately to the receiving school or to the Sponsor in accordance with law and School Board Policy 9800.

1.4.5 Disposition of Assets and Unencumbered Funds

In the event the School is dissolved or is otherwise terminated, all sponsor property and improvements, furnishings and equipment purchased with public funds shall automatically revert to full ownership by the sponsor, subject to complete satisfaction of any lawful liens or encumbrances. Any unencumbered public funds from the School, Sponsor property and improvements, furnishings, and equipment purchased with public funds, or financial or other records pertaining to the School, in the possession of any person, entity, or holding company, other than the School, shall be held in trust upon the Sponsor's request, until any appeal is resolved, and proper distribution of the property is determined. If the School's accounting records fail to clearly establish whether a particular asset was purchased with public funds, then it shall be presumed public funds were utilized and ownership of the asset shall automatically revert to the Sponsor (subject to any lawful liens and encumbrances). Property and assets purchased with public funds shall be defined as those goods purchased with grants and funds provided by a governmental entity. Public funds provided by the School and used by a management company to purchase property and assets for the School are considered public funds.

1.4.6 Final Audit

Pursuant to s. 1002.33, F.S., upon notice of non-renewal, closure, or termination, an independent audit shall be completed within thirty (30) days to account for all public funds and assets. During the fiscal year in which termination or non-renewal occurs, the School may commission and pay for a final independent financial audit of the School. In the event the School does not elect to commission an independent audit upon notice of non-renewal, closure, or termination, the School Board of Miami-Dade County shall withhold from the School's Florida Education Finance Program (FEFP) funds, without penalty or interest, an amount necessary to pay for a final independent financial audit of the School. The audit shall be conducted by an independent certified public accountant previously approved by the school absent good cause not to do so.

1.5 General Statutory Requirements

1.5.1 Non-Discrimination

The School shall not discriminate in educational programs/activities or employment and shall provide equal opportunity for all as required by all applicable Federal, State and local laws, rules, regulations and court orders directed to the School as a party and subject to all rights and appeal. The School shall designate a Title IX Coordinator as required by law to coordinate its compliance with Title IX

of the Education Amendments of 1972, 20 U.S.C. § 1681, et. seq. and 34 C.F.R. Part 106. The School shall designate a Section 504 Coordinator to coordinate its compliance with Section 504 of the Rehabilitation Act of 1973, 29 U.S.C. § 701, et. seq. and 34 C.F.R. Part 108, subpart D.

1.5.2 Compliance

The School shall comply with those statutes that specifically apply to charter schools as set forth in Section 1002.33 generally, subsection 1002.33(16), and other applicable State laws. The School agrees that it will abide by all Federal and State laws, statutes, rules, and regulations applicable to charter schools and also abide by the terms and conditions of the Charter.

SECTION 2: EDUCATIONAL PROGRAM

2.1 Academic Accountability

2.1.1 Incoming Baseline Standard of Student Academic Achievement

The School will establish the current incoming baseline standards of student academic achievement, the outcomes to be achieved, and the method of measurement that will be used, as described in the approved Application or otherwise described in this Contract, in a format provided by the Sponsor.

2.1.2 Academic Student Performance Data

By September 15 of each year, the Sponsor shall provide the School with access to academic student performance data on state required assessments for each student attending the School that was enrolled the prior year in another public school, pursuant to s. 1002.33(7)(a)3., Florida Statutes.

2.1.3 Academic Progress Rates for Comparable Student Populations

By September 15 of each year, the Sponsor shall provide the School the rates of academic progress for the prior year for comparable student populations in the District. The data shall include proficiency and growth on state assessments for English Language Arts and Mathematics by grade grouping (grades 3-5, 6-8, 9-12) for the following student groups:

- i. Students scoring a level 1 on prior year assessment
- ii. Students scoring a level 2 on prior year assessment
- iii. Students scoring a level 3 or higher on prior year assessments
- iv. Students with disabilities
- v. English Language Learners

2.1.4 Academic Achievement Goals

(A) First Year of Operation. By October 15 of the first year of the School's operation, the School shall provide its proposed academic achievement goals for the current year to the Sponsor. The academic achievement goals shall include, at a minimum, growth and proficiency on state assessments,

and may include performance on additional assessments included in the approved Application. If the School will not serve students in grades that participate in the statewide assessments the academic achievement goals shall be based on the assessments included in the approved application, and at least one assessment administered in traditional public schools in the District.

- (B) **Subsequent Charter Years.** By October 15 of the second year of the School's operation, the School shall provide its proposed academic achievement goals for the remaining years of the Charter, up to a maximum of four years or the end of the current Charter term, whichever occurs first, using the same parameters and testing set forth in this Contract. Schools that have contracts in excess of five years shall resubmit proposed academic achievement goals every four years pursuant to the process described in this paragraph.
- (C) **Sponsor Review.** The Sponsor shall review the proposed academic achievement goals within 30 days of receipt. If the Sponsor does not accept the proposed academic achievement goals, it shall provide the School a written explanation. If the Sponsor does not respond within 30 days of receipt, the academic achievement goals are deemed accepted. If the School and Sponsor cannot agree on academic achievement goals, either party may request mediation pursuant to Section 1002.33(6), F.S. The goals may be adjusted at any time upon mutual written consent of both parties.
- (D) **Governing Board Approval.** The School's Governing Board shall review and approve the goals and objectives prior to its final submission. Minutes documenting approval must be taken and posted on the School's website pursuant to Section 1002.33(9)(p)1.
- (E) **Performance Reporting.** Annually, the School shall report its performance against the academic goals in the format requested by the Sponsor. The School agrees to allow the Sponsor reasonable access to its facilities and records to review its data sources in order to assist the Sponsor in making a valid determination about the degree to which student performance requirements have been met, as stated in this Charter, and as required by Sections 1008.31 and 1008.345, F.S. upon reasonable notice and in a manner so as to reasonably minimize disruption to students and school operations. Furthermore, the School shall allow the Sponsor to collect data through other means such as survey to conduct required research and/or evaluations. The Sponsor shall not impose additional reporting requirements on the School without providing reasonable and specific justification in writing to the School and the School shall provide required

responses/data within the timelines that allow the Sponsor to meet required deadlines. If the School falls short of the academic achievement goals set forth under the provisions of this Charter, the Sponsor shall report such shortcomings to the School's Governing Board and FDOE. The School and Sponsor may agree to adjust the goals through the same process set forth in this Section.

2.2 Performance Improvement Requirements for Low-Performing Schools

2.2.1 School Improvement Plan (SIP)

- (A) Schools that Earn a Grade of “D” or “F.”** Pursuant to Section 1002.33(9), if the School earns a grade of “D” or “F,” the director and a representative of the Governing Board must appear before the Sponsor to present information regarding contract components with noted deficiencies. The Governing Board representatives must submit a SIP to the Sponsor for approval, outlining strategies to improve student performance and begin implementation of the SIP upon the Sponsor's approval.
- (B) Schools Identified for Support by the FDOE.** If the School is identified by the FDOE (under the Every Student Succeeds Act) to be included in the list of schools for comprehensive support and improvement (CS&I), additional targeted support and improvement (ATSI), or targeted support and improvement (TS&I), it must develop and implement a SIP approved by the Governing Board and the Sponsor. Upon approval by the Sponsor, the school shall implement the SIP, as required by law.
- (C) Posting and Monitoring of Approved School Improvement Plans.** Minutes documenting SIP approval must be posted on the School's website pursuant to Section 1002.33(9)(p)1., F.S. The Governing Board shall monitor the implementation of the SIP.

2.2.2 Corrective Actions

- (A) Selection of Corrective Actions.** If the School earns three consecutive grades below a “C,” the School's Governing Board must select and implement one of the following corrective actions:
 - (i) Contract with an outside entity to provide educational services directly to students, instructional personnel, and school administrators, as prescribed by State Board of Education rules.
 - (ii) Contract with an external organization with a demonstrated record of effectiveness to operate the school.
 - (iii) Reorganize the school under new leadership, such as a new director or principal, who is authorized to hire new staff.
 - (iv) Voluntarily close the charter school.

- (B) **Implementation Timeline.** The selected corrective action must be implemented during the school year immediately following the receipt of the third consecutive grade below a "C." If the School improves to a grade of "C" or higher, the corrective action is no longer required. However, the School must continue implementing the strategies outlined in its school improvement plan, subject to annual monitoring by the Sponsor.
- (C) **Waiver and Termination.** The Sponsor may waive the corrective action annually if it determines that the School is likely to improve its grade with additional time to implement strategies outlined in the school improvement plan. However, a school earning two consecutive grades of "F" is subject to immediate interventions provided by law.
- (D) **Selection of a New Corrective Action.** If the School fails to improve to a grade of "C" or higher after two full school years of implementing a corrective action, the Governing Board must select a new corrective action to begin the following school year unless the Sponsor determines that additional time is likely to result in the School achieving a "C" or higher under the existing corrective action.
- (E) **Immediate Interventions.** Notwithstanding this subparagraph, a school earning two consecutive grades of "F" while implementing a corrective action is subject to immediate interventions under Section 1002.33(9)(n)3, F.S.

2.3 Assessments

Students shall participate in assessment programs as described in the approved Application and Renewal Packet if applicable. Any proposed changes shall be mutually agreed upon between the School and the Sponsor.

All students at the School will participate in all State assessment programs and assessments required by law. The School shall facilitate required alternate assessments and comply with state reporting procedures.

2.3.2 Additional Assessments

Students may participate in any or all District assessment programs in which the Sponsor's students in comparable grades or schools are required to participate and shall participate in any other assessments to the extent described in the Application. The School will select and implement its own progress monitoring tools and assessments as required by statute. The School shall be responsible for the costs of additional assessments, including District assessments that are not required by law or this Charter (except those developed with federal funds or those developed using the Florida's Item Bank and Test Platform) and progress monitoring tools unless the Sponsor is required, by law, to be responsible for the costs.

2.3.3 Advanced Academic Program Assessments

If the School offers advanced academic programs (e.g., International Baccalaureate, Advanced Placement, and/or Advanced international Certificate of Education Program), the School shall provide official assessment results to the Sponsor.

2.3.4 Preliminary Scholastic Aptitude Test (PSAT)

If the School offers the PSAT, it shall provide for the administration of the PSAT/National Merit Scholarship Qualifying Test (NMSQT) in the tenth grade. The School is responsible for the application and receipt of the College Entrance Examination Board (CEEB) number from the Educational Testing System (ETS) and shall timely submit confirmation of that number to the Sponsor.

2.3.5 Accommodations

If an IEP, 504 Plan or an EP for a student indicates accommodations or an alternate assessment for participation in a State assessment, or District assessment, as applicable, the School will facilitate the accommodations or alternate assessment and comply with State reporting procedures.

2.3.6 Test Administration, Security, and Support

The School shall designate a School Assessment Coordinator from the School who is required to attend all training sessions and informational meetings required by the Sponsor for required State and optional District assessments and shall be responsible for proper test administration. Within 5 business days, the School shall notify the Sponsor of any change in the designated School Assessment Coordinator. The School shall require all School personnel involved with any aspect of the testing process to abide by State and Sponsor policies, procedures, and standards regarding applicable test administration, test security, test audits, reporting of test results and shall cooperate with any investigations involving the School. The School shall comply with the applicable employee screening process as described in this Contract regarding all individuals who will serve as test administrators, proctors, and other support personnel required for accountability testing. The Sponsor shall provide to the applicable School staff all services or support activities that are routinely provided to the Sponsor's staff regarding implementation of optional District and State-required assessment activities, e.g., procedures for test administration, staff training, dissemination and collection of materials, monitoring, scoring, analysis, and summary reporting all at no cost to the School. The School shall permit the Sponsor to monitor or proctor all aspects of the School's test administration if the Sponsor reasonably deems it necessary and in a manner so as to minimize disruption to students and school operations in accordance with established monitoring protocols.

2.3.7 Reports

The District shall provide the School with reports on District and State assessments in the same manner and at the same time as for all public schools in the District. The Sponsor shall use results from the state assessment programs referenced in this Contract, the data elements included in the annual report, and any other information acquired by the Sponsor to provide the State Board of Education and the Commissioner of Education the analysis and comparison of the School's student performance.

2.3.8 Technology Infrastructure

The School shall, at its expense, provide adequate technological infrastructure to support all required online test administration.

2.4 Curriculum

2.4.1 Implementation

The School shall implement its educational and related programs as specified in its School Board-approved Application (Appendix A). Any material changes to the education program or curriculum as described in the approved Application or Charter require Sponsor approval, including instructional methods, distinctive instructional techniques, and technologies to enhance educational performance. These technologies must promote safe, ethical, and appropriate use in compliance with legal and professional standards.

2.4.2 Material Changes

Updates, revisions, and/or changes to the curriculum programs described in the Application and as requested by the Sponsor as a condition of the Application's approval are incorporated as part of the official School Board approved Charter School Application included as Appendix A. Any request to materially change the School's curriculum must be submitted to the Sponsor in writing, comply with all applicable laws and be approved by the Sponsor before the changes are implemented.

2.4.3 Instructional Materials

The School shall provide each student with current instructional materials in each core course. The School shall provide adequate technological infrastructure to support and deliver all digital instructional materials. Furthermore, the School will maintain, and have available for review, a current textbook or digital textbook inventory for core courses which shall include title, date of adoption cycle, and number of texts and or licenses available and in use.

2.4.4 Comprehensive Evidence-Based Reading Plan

The School will adopt and implement with fidelity, the Sponsor's Comprehensive Evidence-Based Reading Plan (CERP), and Rule 6A-6.053, F.A.C., including all instructional materials which are the responsibility of the School to procure unless

it has chosen to use an alternate research-based core reading plan. Annually, the School shall determine whether to adopt the Sponsor's CERP. If the School elects to develop its own CERP, it must submit its CERP, approved by its Governing Board, to the Sponsor by July 15 and meet the requirements of all applicable law. If the School has elected to implement an alternate research-based core reading plan, it is attached herein as Appendix C. The School shall make reading a primary focus of the curriculum and provide sufficient resources to identify and provide specialized instruction for students who are reading below grade level. Further, the curriculum and instructional strategies for reading shall be consistent with Florida Standards and grounded in scientifically based reading research.

2.4.5 Mathematics Curriculum and Support for Below-Level Students

Pursuant to s. 1002.33, F.S., the School shall ensure that mathematics is a primary focus of the curriculum and that resources are provided to identify and provide specialized instruction for students who are performing below grade level, consistent with the requirements of Section 1002.33(7)(a)2.b., Florida Statutes.

2.5 Advanced Academics and Acceleration Options

2.5.1 Advanced Placement

The School shall advise each student of courses through which a secondary student can earn college credit, including Advanced Placement, International Baccalaureate, Advanced International Certificate of Education, dual enrollment, early admission, and career academy courses and courses that lead to industry certification, as well as the availability of course offerings through virtual instruction. Courses will be offered in accordance with the approved Application or Renewal Packet. To meet this requirement, each school that offers these options may provide courses through virtual instruction, if the virtual course significantly integrates postsecondary level content for which a student may earn college credit, as determined by the Florida Department of Education, and for which a standardized end-of-course assessment, as applicable and approved by the department, is administered.

2.5.2 Dual Enrollment (DE)

Pursuant to Section 1007.271, F.S., the School may provide dual enrollment opportunities to any student meeting the eligibility requirements and expressing the desire to enroll.

(A) Dual Enrollment Articulation Agreements. If the School chooses to provide a DE program, it shall develop and implement all Dual Enrollment Articulation Agreements between the School and postsecondary institutions as required by law. The School shall also develop and implement a plan to inform all secondary students and their parents of dual enrollment opportunities as an educational option and mechanism for acceleration and

shall ensure that dual enrollment courses taught on the high school campus will not be combined with any high school course. This agreement shall include the method of payment between the School and the postsecondary institution and shall be submitted annually to the Florida Department of Education and the Sponsor by August 1st.

- (B) **Eligible Institutions.** Pursuant to Section 1011.62, F.S., an eligible college or university, which is not for profit, that is accredited by a regional or national accrediting agency recognized by the United States Department of Education, which confers degrees as defined in Section 1005.02, F.S., shall be eligible to offer authorized dual enrollment programs.
- (C) **Funding.** Eligible students enrolled in a DE or early admission program through Florida College System institutions or other state universities are exempt from the payment of tuition and fees, pursuant to Section 1009.25, F.S. The fee exemption includes application, tuition, laboratory fees, and textbook fees for courses taken through dual enrollment. The School is responsible for paying all tuition and fees to the postsecondary institution for dual enrollment courses. The School is also responsible for paying for all dual enrollment instructional materials.
- (D) **Fees.** If the School offers AP/IB/AICE/DE courses, it shall not charge any fees for participation, textbooks, instructional materials, or examinations for any AP/IB/AICE/DE courses in which students are enrolled.
- (E) **Professional Development.** If the School offers AP/IB/AICE/DE courses, it shall provide all AP/IB/AICE/DE teachers with training and professional learning opportunities as required by the AP/IB/AICE/DE syllabus.

2.6 Student Promotion and Graduation

2.6.1 Student Progression Plan

The School will adopt, and implement with fidelity, the Sponsor's student progression plan (Appendix D) in effect for the current operational year. If the School elects to develop and adopt its own plan, it must secure approval from its Governing Board before submitting the plan to the Sponsor for approval. Once approved, the plan shall be attached herein as Appendix E. If the School opts to develop and implement their own SPP, the School shall establish a policy for determining that a student has satisfied the requirements for graduation that is consistent with the provisions of Florida law and shall inform the Sponsor of this policy and/or any changes to a previously adopted policy at least one (1) month prior to the beginning of the school year. The School's student promotion policy shall be consistent with the provisions of the Application and applicable Florida law.

2.6.2 Student Course Codes

The School shall follow the State's and/or Sponsor's Elementary School Academic Programs Course Codes and/or Authorized Courses for Secondary Schools, as appropriate.

2.6.3 Graduation Requirements

The School's policy for determining that a student has satisfied the requirements for graduation shall be consistent with the provisions of Florida law.

2.6.4 Accreditation

Secondary schools shall notify the parent and students of the School's accreditation status and the implications of non-accreditation in (a) the School's student enrollment form; (b) the Parent/Student Handbook; and (c) and Parent/Student contract. The notification must also be prominently displayed at all times on the School's website.

2.7 English Language Learners

2.7.1 Plan Adoption and Approval

The School will adopt the District's English Language Learners Plan (Appendix F) in effect for the current operational year, and which meets the requirements of the League of United Latin American Citizens (LULAC) et al. v. State Board of Education Consent Decree. If the School elects to implement its own plan, approved by its Governing Board, it is attached hereto as Appendix G. The plan must include sufficient information and detail to allow the Sponsor to determine legal sufficiency.

2.7.2 Services for English Language Learners

Students at the School who are English Language Learners (ELL) will be served by English for Speakers of Other Languages (ESOL) endorsed or certified personnel. The School shall comply with all applicable laws ordinances, and codes of Federal, State, and local governance including, without limitation, the Individuals with Disabilities Education Act (IDEA) and applicable laws relating to English Language Learners (ELL) and must timely cure any violation after written notice.

2.8 Exceptional Student Education

2.8.1 Program Requirements

Exceptional students shall be provided with programs implemented in accordance with applicable Federal, state, and local policies and procedures; and, specifically, the Individuals with Disabilities Education Act (IDEA), Section 504 of the Rehabilitation Act of 1973, Sections 1000.05 and 1001.42(4) (l) of the Florida Statutes, and Chapter 6A-6 of the Florida Administrative Code. Students with disabilities will be educated in the least restrictive environment and will be segregated only if the nature and severity of the disability is such that education in

regular classes with the use of supplementary aids and services cannot be achieved satisfactorily. The School must maintain a continuum of ESE placements as indicated in the School's approved Application and Renewal Packet.

2.8.2 Non-Discrimination and Admission Procedures

The School shall not discriminate against students with disabilities in placement, assessment, identification, selection, or admission. The School shall not request a student's IEP, EP, Section 504 Plan, or other information regarding a student's special needs prior to or during the application and lottery process, nor shall the School access such information prior to or during the application and lottery process. Only schools that serve exclusively students with disabilities may request the IEP, EP, or Section 504 Plan as part of the application and lottery process to determine whether the services are compatible with the School's programmatic model. After enrollment, any student who is suspected of having a disability must be referred for evaluation in accordance with this Contract, and if eligible for services pursuant to IDEA or Section 504, an appropriate IEP or Section 504 plan must be developed before the student is referred to the District for consideration of another school assignment. The Sponsor shall be invited to and may attend the meeting, at which time the IEP team shall determine whether the School is an appropriate placement for the student.

2.8.3 Individualized Education Plans (IEPs) and 504 Plans

The School shall conduct Individual Educational Plan (IEP) and 504 plan meetings for eligible students, to include an annual IEP or 504 meeting with the eligible student's family. Upon enrollment, or notice of acceptance sent to the student, the School may request from the District information related to the student's program and needs, including the student's most recent IEP or 504 plan, which shall be provided within ten (10) days.

2.8.4 Student Placement and Referral

If the School determines, upon review of the IEP, that the student's needs cannot be met at the School, the School shall contact the Sponsor's District Staffing Specialist assigned to the School for assistance with an appropriate school assignment in accordance with this Contract.

2.8.5 Civil Rights Complaints and Investigations

If the School receives a complaint filed or becomes aware of an investigation with the U.S. Office of Civil Rights (OCR) or any other governmental entity and the complaint or investigation relates to the School and could involve the Sponsor, the School shall, within one (1) school day, notify the Sponsor and provide the Sponsor any documentation from the agency (except where to give such notice would violate the law or the directions of the investigating government entity). The School shall fully cooperate with the Sponsor during any investigation and/or

proceeding by the OCR or any other governmental entity that could involve the Sponsor, including providing the Sponsor with a draft response to OCR and providing all necessary relevant information and supporting documentation, and making staff available for interviews, as deemed necessary. If the written information on the complaint does not allege, or it cannot be inferred from the facts given, an allegation against the Sponsor of: (1) discrimination based on race, color, national origin, sex, disability or age, (2) discrimination in violation of the Boy Scouts of America Equal Access Act of 2001, or (3) retaliation for the purpose of interfering with any right or privilege secured by the civil rights laws and regulations enforced by OCR, or as a result of making a complaint, testifying, or participating in any manner in an OCR proceeding, the School shall submit the final version of the response directly to OCR on its own behalf with a copy provided to the Sponsor. The School shall bear all costs, fees, reimbursements, and compensatory education associated with the investigation, including any incurred, agreed upon or awarded relief by OCR attributed to, caused by or through the fault of the School. Notwithstanding the aforementioned, the Sponsor shall assume or reimburse the costs attributable to, caused by or through the fault of the Sponsor, if any. Failure of the school to pay the costs, fees, reimbursements, and compensatory education within a reasonable time after the expiration or exhaustion of any appeals will result in the Sponsor deducting any amount owed from the School's FTE payments.

2.8.6 Sponsor Responsibilities

The Sponsor shall provide ESE administration services to the School, pursuant to Section 1002.33, F.S.

- (A) Student Evaluations.** The Sponsor shall conduct all initial evaluations of students referred for potential Exceptional Student Education, Gifted, Section 504 eligibility, and for the re-evaluation of Exceptional Student Education students, in accordance with Federal and State mandates to determine whether a student is a child with disability under Section 300.8 of the IDEA. All requirements for Response to Intervention (RtI) must be followed by the School with fidelity prior to and during the evaluation process. The School and/or parents may obtain private evaluations of students at their expense. These evaluations must be considered in determining eligibility but will not necessarily substitute for an evaluation conducted by the Sponsor's personnel in a manner and timeframe consistent with that of all of the other Sponsor's schools.
- (B) Initial LEA Representation.** A representative of the Sponsor shall serve as the Local Education Agency (LEA) Representative in all initial IEP, EP, and Section 504 Plan meetings. However, the administrator or designee in

charge at the School will serve as the LEA Representative at all other annual and interim IEP, EP, and Section 504 meetings, which the School shall conduct.

- (C) **Compliance Monitoring.** The Sponsor will monitor the School for ESE compliance with applicable Federal, State, and local policies and procedures as outlined in the Exceptional Student Education Policies and Procedures (SP&P) (Appendix H). Failure to comply with Federal, State, or local law or policy, after notice and a reasonable opportunity to cure, may result in the Sponsor withholding FTE funding from the School until compliance is achieved.

2.8.7 School Responsibilities

- (A) **Disability Disclosure and Placement Determination.** The School shall not inquire about a student's disability status prior to registration/enrollment or notice of acceptance. No later than the tenth day of the student's attendance after the point of registration/enrollment or notice of acceptance, and receipt of the IEP, EP, or Section 504 Plan, the School shall notify the Sponsor's District Staffing Specialist assigned to the School if the IEPs, EPs, or Section 504 Plans of students who have applied and been accepted cannot be implemented at the School. The Sponsor shall be invited to and may attend the meeting, at which time the IEP team shall determine whether the School is an appropriate placement for the student. If a student's IEP, EP, or Section 504 Plan can be implemented at the School, based on the continuum of services as outlined in the application or as revised by a modification to this Contract, the student shall not be required to attend another school. All IEP changes of placement shall be based upon data and student needs.
- (B) **Student Support and Evaluation Protocols.** The School shall initiate all Request for Assistance (RFA) and Student Support Team (SST) meetings when concerns are raised by school staff or parents about student's functioning. When a student is suspected of having a disability, the School shall make a written request to obtain parental consent for evaluation for referral to the Sponsor. If parental consent is denied or the parent fails to respond, the School must notify its legal counsel and the Sponsor for consideration of pursuing evaluation by using the mediation or due process procedures. The School shall fully implement the required RtI, IEPs, EPs, Functional Behavioral Assessments (FBA)/Social Emotional Behavior Intervention Plans (SE-BIP) and Section 504 Plans of enrolled students, including delivery of supplementary aids and services and related services, unless the IEP, EP, or Section 504 team determines that the student's needs

cannot be met at the School and placement at another school within the Sponsor's district constitutes the least restrictive environment on the continuum of alternative placements. The School must follow all disciplinary procedures and policies relevant to students with disabilities, including implementation of FBAs/SE-BIPs and manifestation determinations. In no instances should a student's IEP, EP, or Section 504 services or placements be changed solely for the purpose of accommodating the School's placement options.

- (C) **Delivery of Educational Services and Equipment.** The School shall deliver all educational related services and equipment indicated on the student's IEP, EP, or Section 504 Plan unless a determination has been made by the School and the Sponsor that the student's IEP cannot be implemented at the School. The School shall also provide related services and equipment, e.g., speech/language therapy, occupational therapy, physical therapy, nursing, counseling, assessment instruments, assistive technology devices, transportation and therapeutic equipment.

To receive reimbursement of Federal funds, in accordance with this option, the following provisions apply:
- (i) **Sponsor Notification of the Availability of Other Funds.** The Sponsor shall provide to the School by July 15th of each year, or at other times of the school year if other Federal funds become available, a projected annual allocation for all Federal funds that the School may draw as reimbursement for services provided. Any eligible student enrolled in the School shall be provided Federal funds at the same level of service provided to other eligible students in the schools operated by the Sponsor. When a grantor requires that the Sponsor serve as the fiscal agent for a grant, the School shall comply with all applicable Federal, State, and local statutes and/or regulations, the terms and conditions of the grant, School Board policies, and administrative/grant procedures, for grants submitted through the District, which include, but are not limited to:

review the School's expenditures pursuant to any grant the School receives, the School shall comply within a reasonable time with any and all additional reporting requirements or corrective action prescribed by the grantor or Sponsor. If it is determined that a reimbursement of grant funds is required as a result of an audit or other investigation, the School is solely responsible for making the reimbursement;

- (vii) In the event the Sponsor must serve as fiscal agent, and indirect costs are an allowable expense of the grant, the School agrees that the Sponsor will be permitted to retain grant funds in an amount equal to the annually negotiated indirect cost rate as determined by the FDOE or as prescribed by the grant. Indirect costs shall be reflected in the budget of the grant application submitted by the School;
- (viii) If the Sponsor develops a District-wide grant, the School may be included in the District proposal in accordance with the school eligibility requirements and grant guidelines within the Request for Proposals;
- (ix) When grant proposals are developed by the Sponsor's staff using student or school counts that include the School's students, and the grant is awarded to the Sponsor, the pro-rata share of the dollars or services received from that grant shall be distributed to the School, if eligible, as prescribed by the grant and defined in the budget developed for the grant; and,
- (x) The District will not advance cash to the grant recipient to cover its estimated disbursement needs. All payments will be on a reimbursement basis only.

4.3 Other Funding Sources

The School may secure funding from private institutions, corporations, businesses and/or individuals. Funding shall be properly accounted for and documented.

4.4 Student Enrollment Reporting

4.4.1 Instructional Time Requirements

Students must be reported for 300 minutes per day of instructional time. The hourly equivalent for Kindergarten through Grade 3 is 720 instructional hours and 900 instructional hours for students in Grades 4 through 12. Schools operating on a double session calendar must be approved by the Sponsor. Approval by the Sponsor for a double session school does not reduce the required 300 minutes of instruction per day. Survey periods for Year-round School Programs are the same as for the regular fiscal year. Year-round schools shall report the first ninety (90) days of their regular 180-day school year in Survey 2 and the second ninety (90) days of their

regular 180-day school year in Survey 3, regardless of when the tracks are in session.

4.4.2 Reporting Requirements

The School agrees to report its student enrollment to the District as provided in Section 1011.62, F.S., and in accordance with the definitions in Section 1011.61, F.S., at the agreed upon intervals and using the method used by the District when recording and reporting cost data by program. The School shall use the Sponsor's electronic data processing facility and procedures for the processing of student enrollment, attendance, FTE data collection, assessment information, IEPs, EPs, ELL Plan, Section 504 plans and any other required individual student plan. The School shall schedule students for electronic processing of FTE in accordance with the Sponsor's electronic FTE procedures. The District shall include the School's enrollment when recording and reporting cost data by program.

4.4.3 Training and Support for District Applications

The Sponsor shall provide the School with access to its student information system and provide training at no cost to the School for the School's personnel in the use of designated District applications necessary to respond to the statutory requirements of Section 1008.345, F.S., including the annual report and the State/District required assessment program. A representative of the School shall attend such training offered by the Sponsor in the use of such systems and procedures at no cost to the School. The Sponsor's support for this function will be provided at cost and will not exceed the administrative fee allowed by law. Access by the School to additional data processing applications, materials, or forms not required in the statute, but available through the Sponsor, may be negotiated separately by the parties.

4.4.4 Accountability for Data Accuracy and Audit Adjustments

The School shall maintain auditable records of student attendance and grades. Reporting timelines shall be aligned with the Sponsor's timelines. Date Certain is always the Friday of the FTE Survey week. Corrections to data submitted for FTE processing will only be accepted within the limits allowed by law. The School is responsible for correcting student schedule changes. Incomplete student or teacher course records shall result in a suspension of FTE funding until corrected as required by law. If the School submits data relevant to FTE, federal, or state grant funding that is later determined through the audit procedure to be inaccurate, the School shall be responsible for any reimbursement to the State, the United States Department of Education or the District for any errors or omissions in data that the School submitted. In addition, if the Sponsor is fined or penalized for School errors, the School shall reimburse the Sponsor for the full amount. If the School fails to reimburse the Sponsor, or agree on a payment plan, within a reasonable time after

expiration or exhaustion of any appeals, the Sponsor shall deduct the amount owed from the School's FTE payments.

4.5 Administrative Fee

4.5.1 Allowable Withholding

The Sponsor shall withhold five percent (5%) of available funds for the first 250 students as defined in Section 1002.33(20)(a), F.S., not including capital outlay funds, Federal and State grants, or any other funds, unless otherwise explicitly limited by law.

4.5.2 Allowable Withholding from High-Performing Charter Schools

For high-performing charter schools, as defined in Section 1002.331, F.S., the Sponsor may withhold a total administrative fee of up to two percent (2%) for enrollment up to and including 250 students per school.

4.5.3 Allowable Withholding from ESE Centers

The Sponsor shall withhold two percent (2%) for enrollment of up to and including 250 students in an ESE center that meets the requirements of the rules adopted by the State Board of Education pursuant to Section 1008.3415(3). If the School serves seventy-five percent (75%) or more exceptional education students as defined in Section 1003.01(3), the percentage shall be calculated based on the unweighted full-time equivalent students. ESE administrative services covered by the administrative fee, pursuant to Section 1002.33(20), F.S., include professional development related to IEP development; access to any electronic IEP system or forms; initial evaluation for ESE placement; and other supports and services as agreed to by the School and the District in this Charter.

4.5.4 Sponsor Use of Administrative Fee

The administrative fee retained by the Sponsor pursuant to this Contract includes a fee for academic and financial monitoring required of the Sponsor by law and other such services provided by the Sponsor which are required to be covered under statute. At any time, the Sponsor may request reports on school operations and student performance and the School shall provide the reports in a timely manner.

(A) Access to Optional Sponsor Services. Access by the School to services not required by law, but available through the Sponsor, may be negotiated separately by the parties. The Sponsor is not obligated to provide any services not required by law.

4.6 Distribution of Funds

4.6.1 Sponsor Payment Schedule

The Sponsor shall calculate and submit twelve (12) monthly payments to the School. The first payment will be made by July 31st. Subsequent payments will be made monthly by the 15th of each month beginning with August 15th.

4.6.2 Initial Year Payment Procedures for New Charter Schools

For new charter school in the initial year of operation, payments will be made as required by the law. July through October payment shall be based on the School's projected enrollment as described on the cover sheet of the approved Application if a minimum of seventy-five (75) percent of the projected enrollment is entered into DSIS by the first day of the current month. Otherwise, or if the School's enrollment exceeds its projected enrollment, the Sponsor shall fund the School based on the number of students actually entered in DSIS as of the first day of the current month, not to exceed the Annual Enrollment Capacity. Thereafter, the results of full-time equivalent student membership surveys shall be used in adjusting the amount of funds distributed monthly to the School for the remainder of the fiscal year. Additional documents (e.g., student enrollment forms, student transfer forms, Integrated Student Information System rosters) may be required or requested to support the School's projections. Payments will be adjusted retroactively for prior period adjustments.

4.6.3 Payment Calculations for Subsequent Charter Years

For the following years of the charter, monthly payments will be calculated as follows:

- (i) The Sponsor may initially calculate monthly distributions to the School for up to four (4) months based on full-time (FTE) student enrollment distribution as of the prior year February FTE report.
- (ii) If enrollment at the end of the second week of student attendance fluctuates by twenty percent (20%) or more from prior year February FTE, then monthly distributions shall be proportionally adjusted. Thereafter, the results of the official FTE student surveys will be used in adjusting the amount of FEFP funds distributed to the School.

4.6.4 Payment Adjustments for Sponsor Services and Penalties

Payments may be adjusted for any amounts due the Sponsor for services provided, expenditures incurred by the Sponsor on behalf of the School, and any fines or penalties levied against the Sponsor because of the School's errors during the current or previous years, as well as for administrative oversight.

4.6.5 Reimbursements

The District shall make every effort to ensure that the School receives timely and efficient reimbursement of funds. Other than those payments provided for in this

Contract, for which other requirements for timely payments have been made, the payment shall be issued no later than ten (10) working days after the District receives a distribution of state or federal funds. If a warrant of payment is not issued within ten (10) working days after the receipt of funding by the District, or the due date set forth in this Charter, the District shall pay to the School, in addition to the amount of the scheduled disbursement, interest at a rate of one percent (1%) per month calculated on a daily basis on the unpaid balance from the expiration of the ten (10) day period until such time as the warrant is issued. Late payments are subject to interest at the rate of 1% per month calculated on a daily basis until paid. Payment shall be made only to the account in an FDIC insured Active Qualified Public Depository account or a State-approved depository specified by the Governing Board.

4.6.6 Enrollment Capacity and Facility Compliance for Payments

Payment shall not be made for students in excess of the School's enrollment capacity, the School's valid facility capacity as determined by the School's Certificate of Occupancy, Certificate of Use, and/or Fire Permit (whichever is less) or this Contract. In the event that the required County and/or municipality facility permits do not indicate a facility capacity, the School must submit an official letter from the local jurisdiction confirming facility capacity certification by the Registered Architect. Where the local jurisdiction does not or is unable to issue an official determination of allowable capacity, the School may take one of the actions stated in this Contract. The Sponsor shall withhold monthly payments, without interest, if the School's Certificate of Occupancy, Certificate of Use or Fire Permit has expired or has otherwise become invalid, until such defect has been cured.

4.6.7 Charter School Capital Outlay Funds

The Sponsor shall make timely and efficient payments to the School for capital outlay funds pursuant to Sections 1011.72 and 1013.62, F.S. The Sponsor shall not certify capital outlay plans or recommend awarding capital outlay if it cannot attest to the School's eligibility.

4.6.8 Adjustments Due to Holdbacks and Prorations

In the event of a State holdback or a proration which changes District funding, the School's funding will be adjusted proportionately to the extent required by the law. The Sponsor will not be responsible for any liabilities incurred by the School in the event of a State holdback. Notwithstanding the foregoing, distribution of FTE funds may be withheld, upon written notice by the Sponsor, if any of the following required documents are more than thirty (30) day overdue unless otherwise agreed or extended:

- (i) The School's monthly/quarterly financial statement as required by State Board of Education Rule 6A-1.0081, F.A.C.

- (ii) The School's annual financial audit as required by Section 218.39, F.S and this Charter.

The Sponsor shall release, in full, funds withheld under this provision within ten (10) days of receipt of the documents that resulted in the withholding of funds.

4.7 Summer School Provision

The School may choose to provide a summer school program using State allocated funds. All students attending a summer school session must be reported in FTE Survey 1 and Survey 4, as required by law. In the event that a student enrolled in the School attends any of the Sponsor's summer school programs, and the summer school program is not funded through Title I, the School shall reimburse the Sponsor for the cost of each student's summer school program, as determined by the Sponsor. If the School fails to comply with this provision within a reasonable time, the Sponsor may deduct the appropriate amount from the School's subsequent FTE or Federal funding payments.

4.8 Student Fees

4.8.1 Use of Student Fees

The School shall not charge fees, except those fees normally charged by the Sponsor or as allowed by law. Fees collected must be allocated directly to, and spent only on, the activity or material for which the fee is charged.

4.8.2 Fee Schedule

If the School intends to charge fees, it shall submit its comprehensive fee schedule to the Sponsor for review no later than July 1st prior to the school year in which the fees are intended to be charged. No funds shall be collected until the School has been given written approval from the Sponsor. Additional fees shall not be imposed without the notification and approval of the Sponsor. Fees shall not be a barrier to enrollment. Non-payment of fees shall not be a basis for dismissal or non-re-enrollment. Upon approval of the fee schedule, all fees collected must be reported and recorded appropriately using proper accounting procedures as required by law. Any fees that are solicited, required, or accepted in violation of this paragraph shall be returned to the parent or guardian.

4.8.3 Student Fee Documentation

The School shall maintain documentation supporting the collection of the Sponsor-approved fees and make them available for Sponsor review.

4.8.4 Parent Donations

The School shall not require or accept monetary donations in lieu of volunteer hours or other parental obligations.

4.8.5 Restriction on Charging Tuition

SECTION 1: GENERAL PROVISIONS

1.1 Recitals

The above recitals are true and correct and are incorporated into this Agreement.

1.2 Approved Application

The Charter School Applications/Renewal Packets approved by the School Board on November 24, 2010, are attached hereto as Appendix A. All attached appendices are incorporated by reference and constitute part of this Charter. In the event of any conflict between the Application and any other provision of this Charter, the Charter provision shall control. In the event the Contract has not been approved/entered into, then the Application will be deemed withdrawn, and no further action will be taken with respect to the Contract.

1.2 Term of Charter

The term of this Charter shall be fifteen (15) years, commencing July 1, 2026, and ending June 30, 2041. In the event of expiration, the term shall be automatically extended on a month-to-month basis until the Charter has been renewed, non-renewed, or terminated by the Sponsor. If the parties cannot reach agreement on the terms of a new contract, either party may request mediation from the Florida Department of Education (FDOE), pursuant to Section 1002.33(7)(b), F.S. If the Commissioner of Education determines that the dispute cannot be settled through mediation, the dispute may be appealed to an

administrative law judge appointed by the Division of Administrative Hearings. The administrative law judge has final order authority to rule on the dispute, including whether proposed provisions of the Charter violate the intended flexibility granted charter schools by statute.

1.2.1 Start-Up Date and School Calendar

- (A) **School Opening Date.** For the first year of operating under this Charter, the School shall begin classes on the same day as the Sponsor or at such other time as otherwise determined by the Governing Board. The School cannot open absent submission of all required documents listed in the District's Pre-Opening Checklist (Appendix AA). Pursuant to law, the School may defer the opening of its operations for up to three (3) years to provide time for adequate facility planning. A charter school that elects to defer opening must provide written notice of such intent to the Sponsor and the parents of enrolled students at least thirty (30) calendar days before the first day of school indicating (1) the deferral status as provided by law, and (2) the proposed first day of school. The first two (2) planning years will extend the term of this Contract. By March 1st of the year they were approved to open, a charter school that indicates they will defer opening must provide the District with a status report to include a timeline of all key operational items and milestones. The charter school shall continue to provide periodic status reports and make allowances for site visits. Failure to open the School: (1) on the day indicated in this Contract, (2) on the day indicated in the school's deferral notice, or (3) after all available deferral years will result in this Contract becoming null and void.
- (B) **Academic Calendar.** For a new charter school, the School's calendar shall be consistent with the beginning of the Sponsor's school calendar for the first year of operation. For every year thereafter, and for all other charter schools, if the School's calendar differs from the Sponsor's public-school calendar, including the instructional days, the School shall provide reasonable notice and submit the proposed calendar to the Sponsor and parents of enrolled students prior to the start of the school year. Any calendar changes that differ from the Sponsor's calendar, must be provided upon request and approved by the Sponsor prior to implementation. Calendar modifications may incur a processing fee at a rate no greater than the Sponsor's actual cost.
- (C) **Required Instructional Minutes.** Instructional minutes shall be a minimum of 300 minutes per day. The hourly equivalent for Kindergarten through Grade 3 is 720 instructional hours and 900 instructional hours for students in Grades 4 through 12. Schools operating on a double-session

calendar must be approved by the FDOE. Survey periods for Year-Round School Programs shall be the same as for the regular fiscal year. Year-round schools shall report the first ninety (90) days of their regular 180-day school year in Survey 2 and the second 90 days of their regular 180-day school year in Survey 3, regardless of when the tracks are in session.

1.2.2 Charter Modification

This Contract may not be modified unless approved by both parties in writing pursuant to School Board Policy 9800, *Charter Schools* (Appendix B). No contract modifications shall be enforceable unless it is in writing and approved by both the Governing Board and the Sponsor. If the modification involves changes to the grade levels, except as provided by law for high-performing charter schools, the School must provide information acceptable to the Sponsor relating to operational capacity, curriculum, budget, facilities, and staff. Certain amendments related to high-performing charter school contracts are governed by Section 1002.331, F.S. and are also in accordance with the charter contract amendment process contained in School Board Policy 9800, *Charter Schools*.

1.2.3 Charter Renewal

- (A) **Renewal Notice.** This Charter may be renewed as provided for in Section 1002.33, or 1002.331, F.S. No later than September 15th in the final academic year of this charter, a Sponsor shall provide notice to the School regarding the process and timeline for completing the programmatic review required under s. 1002.33(7)(c)1., Florida Statutes.
- (B) **Renewal Review and Evaluation.** Prior to renewal of this Charter, the Sponsor shall perform a review to determine the level of success of the School's educational program, organizational performance, financial performance and achievement of the goals and objectives required by State accountability standards and successful accomplishment of the criteria under Sections 1002.33(7)(a) and (8)(a) F.S., compliance with the terms of the Charter, and that none of the statutory grounds for nonrenewal exist. Upon completion of the programmatic review, but no later than ninety (90) days prior to the end of the charter term, the Sponsor shall notify the Governing Board of the Charter School in writing of the proposed action to renew, terminate, or non-renew the Charter, pursuant to Section 1002.33(8)(a), F.S.
- (C) **Renewal Packet Submission.** Any charter school seeking renewal shall complete a Charter Renewal Packet as provided by the Sponsor's renewal process.
- (D) **Renewal Term and Approval.** Renewals may be approved for a term up to five (5) years unless another term is mutually agreed upon, required, or

allowed by law. Upon approval, the Contract will be renewed following the contract negotiation process in current School Board policy and as required by law.

- (E) **Periodic Review and Evaluation:** The Sponsor may annually evaluate the School on its performance and progress, including academic achievement goals. The Sponsor may conduct a High-Stakes Review, as needed and/or upon charter renewal, and transmit the findings of the review to the Governing Board of the School. If the term of this Charter exceeds five years, the Sponsor may conduct a High-Stakes Review at least every five years and may transmit the findings of the review to the Governing Board of the School.

1.3 Termination or Non-Renewal

This Contract may be terminated or non-renewed during its term for any reason pursuant to State law or this Contract. Notices of non-compliance, non-renewal, or termination, cancellation and default are issued in accordance with the procedures set forth in this Charter and as otherwise required by law.

1.3.1 Causes for Termination or Non-Renewal

The Sponsor shall make student academic achievement for all students the most important factor when determining whether to renew or terminate this Charter. The Sponsor may choose not to renew or terminate this Charter if it finds that any of the following grounds below exist by clear and convincing evidence, as set forth in Section 1002.33, F.S.

- (i) failure to participate in the State's education accountability system created in Section 1008.31, F.S., as required in this section, or failure to meet the requirements for student performance established pursuant to this Charter;
- (ii) failure to meet generally accepted standards of fiscal management due to deteriorating financial conditions or financial emergencies determined pursuant to s. 1002.345, F.S.;
- (iii) material violation of law;
- (iv) if insufficient progress has been made in attaining the student achievement objectives of the charter and if it is not likely that such objectives can be achieved before expiration of the charter;
- (v) if the School earns two consecutive grades of "F" after all school grade appeals are final except otherwise provided in Section 1002.33, F.S.
- (vi) failure to cure a material breach of any term or condition of this Charter after written notice of non-compliance.

1.3.2 Causes for Immediate Termination

Pursuant to Section 1002.33(8)(c), this Charter may be terminated immediately if the Sponsor determines that an immediate and serious danger to the health, safety,

or welfare of the School's students exists. Lack of a facility meeting the requirements of law in which to operate the School may constitute an immediate and serious danger to the health, safety, or welfare of the School's students.

1.3.3 Procedures for Termination or Non-Renewal

- (A) **Sponsor Notification Responsibilities.** The Sponsor shall notify the School's Governing Board and principal in writing at least ninety (90) days prior to non-renewing or terminating the Contract. The notice shall comply with the requirements of Section 1002.33, F.S., state in reasonable detail the grounds for the proposed action and stipulate that the Governing Board may request a hearing within fourteen (14) calendar days of receiving the notice.
- (B) **Hearing Request.** The School's Governing Board may request an administrative hearing before the Florida Division of Administrative Hearings (DOAH). This request must be authorized by a vote of the Governing Board in a legally advertised public meeting with a quorum present. Minutes or an adopted resolution documenting the action must be submitted with the request. The School shall file the request with the School Board Clerk pursuant to School Board Policies 0133, *Quasi-Judicial*, 9800, *Charter Schools*, and Section 120.54(5)(b), F.S. Legally sufficient requests shall be forwarded to DOAH. The DOAH hearing will be conducted pursuant to Florida Statute 1002.33, and Chapter 120, F.S. Following the DOAH hearing, the administrative law judge shall submit a final order to the Sponsor. For purpose of notice, the Charter School's Governing Board is the last roster submitted by the School to the Sponsor.
- (C) **Continued Operations During Proceedings.** The School's Governing Board shall continue to operate the School until a final order terminating the charter is issued, during which time all provisions of this Contract shall remain in effect. The closing date shall be negotiated between the Sponsor and the School, unless otherwise provided for in a final order.
- (D) **Expenditures.** Upon notification of non-renewal or termination, the School may not expend more than \$10,000 per expenditure without prior written approval from the Sponsor unless the expenditure was included within the annual budget submitted to the Sponsor, is for reasonable attorney fees and costs during the pendency of any appeal, or reasonable fees and costs to conduct an independent audit.

1.3.4 Procedures for Immediate Termination

- (A) **Sponsor Notification Responsibilities.** The Sponsor's determination is subject to the procedures set forth in paragraph 1.4.2(A), except that the hearing may take place after the charter has been terminated. Upon immediate termination, the Sponsor shall notify the School's Governing

Board chair, principal, and the FDOE in writing, detailing the specific facts and circumstances demonstrating the existence of such danger, explaining why the danger is likely to continue, and stating why immediate termination of the Charter is necessary to protect the health, safety, or welfare of the students, pursuant to Section 1002.33(8)(c), F.S.

(B) **Hearing Request.** The Sponsor's determination is subject to the 90-day termination procedures in this Charter, except that, upon receiving written notice from the Sponsor, the Charter School's Governing Board has ten (10) calendar days to request a DOAH hearing. The hearing may take place after the charter has been terminated.

(C) **Operation of the School.** The Sponsor shall assume operation of the school throughout the pendency of the hearing as provided for in Section 1002.33(8)(d), F.S., unless the continued operation of the School would materially threaten the health, safety or welfare of the students. Lack of a facility meeting the requirements of law may constitute a material threat to the health, safety, or welfare of the students. The Sponsor may seek an injunction in the circuit court in which the Charter School is located to enjoin continued operation of the Charter school if continued operation would materially threaten the health, safety, or welfare of the students. If the School has no facility at the time of termination, the Sponsor is not obligated to operate the School.

(a) **Access to Records and Facilities.** Upon receipt of notice of immediate termination, the School shall immediately provide the Sponsor access to the School's facilities along with security system access codes and access codes for all School-owned or leased computers, software, networking, switching and all other technical systems in the School's facilities or remotely located areas serving the School, and shall make accessible to the Sponsor all student, educational, operational, and administrative records of the School including those held by third parties. Moreover, within two (2) business days, the School shall turn over to the Sponsor all records, information, receipts and documentation for all expenditures of public funds held by the School, including but not limited to Federal grants such as Title I and charter school grants, and grant the Sponsor access to the School's bank accounts which contain public funds, storage facilities, and all public property. The Sponsor shall assume operation of the school throughout the pendency of the hearing as provided for in s. 1002.33(8)(d), Florida Statutes, unless the continued operation of the School would materially threaten the

health, safety or welfare of the students. Failure by the Sponsor to assume and continue operation of the School shall result in the awarding of reasonable costs and attorney's fees to the School if the School prevails on appeal. If the School prevails in an appeal through a final adjudication by an administrative law judge or by a final adjudication and mandate by the appellate court if an appeal to the appellate court is filed, the Sponsor shall, immediately, return to School all keys, security codes, all educational and administrative records of the School, and the School's facility. In that case, the School's Governing Board shall resume operation and oversight of the School.

- (b) **Employees of the School.** The School's instructional and operational employees may continue working in the School during the time that the Sponsor operates the School at the Sponsor's option but will not be considered employees of the Sponsor. Any existing employment contracts that any School personnel may have with the School may not be assumed or transferred to the Sponsor or any entity created by the Sponsor during the assumption of operations of the School unless the Sponsor or its entity, and the School, agree otherwise. The Sponsor may take any appropriate personnel action regarding the School's employees.
- (c) **Disbursement of Funds.** The Sponsor shall only disburse school funds in order to pay the normal expenses of the School as they accrue in the ordinary course of school business. The Sponsor is not required to use its own funding resources to pay the School's debts.

1.3.5 School Election to Terminate or Non-Renew

If the School elects to terminate or non-renew the Charter, it shall provide reasonable prior notice of the election to parents of enrolled students, the Sponsor, and the FDOE, indicating the final date of operation as voted by the Governing Board at a publicly noticed meeting. A board resolution, signed by the School's Governing Board chair and secretary indicating support of this action, shall accompany the written notification provided to the Sponsor. The School agrees that such notification shall be considered a voluntary termination by the Governing Board and a waiver of its right to a hearing or appeal and that this voluntary termination shall not be reversed. Additionally, all post-termination provisions incorporated in this Contract shall apply.

1.3.6 Removal of Public Property

Upon notice of termination or non-renewal, the School shall not remove any public property, as defined in this Contract, from the premises without written Sponsor approval.

1.4 Post-Termination Provisions

1.4.1 Dissolution of School

The School shall be dissolved under the provisions of law under which the School was organized. Copies of all administrative, operational, and financial records of the School shall be provided to the Sponsor on or before the date the termination/non-renewal takes effect. The School shall also provide to the Sponsor the School's security system and technology access codes.

1.4.2 School Debt

If this Charter is not renewed or is terminated, the School shall be responsible for all the debts of the School. The Sponsor shall not assume the debt from any contracted services made between the Governing Body of the School, the Management Company, and/or third parties, including lease or rental agreements, except for a debt previously detailed and agreed upon, in writing, by both the Sponsor and the Governing Board and that may not reasonably be assumed to have been satisfied by the Sponsor. In no event shall the District be responsible under any assignment of a lease for any debts or obligations of the School incurred prior to such assignment.

1.4.3 Leases with the District

In the event of termination or non-renewal of this Charter, any and all leases existing between the District and the School shall be automatically cancelled, unless the lease provides otherwise.

1.4.4 Student Transfers and Records

In the event of termination or non-renewal, any students enrolled at the School may be enrolled at their home District school, or any other school, consistent with the District's student transfer procedures including transfer of all student records to the receiving school. Upon termination or closure of the School, all student education records shall be transferred immediately to the receiving school or the Sponsor for processing and maintenance, as directed by the Office of Charter School Compliance and Support (CSCS).

1.4.5 Disposition of Assets and Unencumbered Funds

All assets of the School purchased with public funds (except for capital funds and federal charter school program grant funds), including supplies, furniture and equipment, shall automatically revert to full ownership by the Sponsor, subject to complete satisfaction of any lawful liens or encumbrances. Any unencumbered public funds from the School, Sponsor property and improvements, furnishings,

and equipment purchased with public funds, or financial or other records pertaining to the School, in the possession of any person, entity, or holding company, other than the School, shall be held in trust upon the Sponsor's request, until any appeal is resolved, and proper distribution of the property is determined. If the School's accounting records fail to clearly establish whether a particular asset was purchased with public funds, then it shall be presumed public funds were utilized and ownership of the asset shall automatically revert to the Sponsor (subject to any lawful liens and encumbrances). Property and assets purchased with public funds shall be defined as those goods purchased with grants and funds provided by a governmental entity. Public funds provided by the School and used by a management company to purchase property and assets for the School are considered public funds.

1.4.6 Final Audit

Pursuant to s. 1002.33, F.S., upon notice of non-renewal, closure, or termination, an independent audit shall be completed within thirty (30) days to account for all public funds and assets. During the fiscal year in which termination or non-renewal occurs, the School Board of Miami-Dade County shall withhold from the School's Florida Education Finance Program (FEFP) funds, without penalty or interest, an amount necessary to pay for a final independent financial audit of the School. The audit shall be conducted by an independent certified public accountant.

1.5 General Statutory Requirements

1.5.1 Non-Discrimination

The School shall not discriminate in educational programs/activities or employment and shall provide equal opportunity for all as required by all applicable Federal, State and local laws, rules, regulations and court orders. The School shall designate a Title IX Coordinator in accordance with 34 C.F.R. § 106.8 to coordinate its compliance with Title IX of the Education Amendments of 1972, 20 U.S.C. § 1681, et. seq. and 34 C.F.R. Part 106. The School shall designate a Section 504 Coordinator to coordinate its compliance with Section 504 of the Rehabilitation Act of 1973, 29 U.S.C. § 701, et. seq. and 34 C.F.R. Part 108, subpart D.

1.5.2 Compliance

The School shall comply with those statutes that specifically apply to charter schools as set forth in Section 1002.33 generally, subsection 1002.33(16), and other applicable State laws. The School agrees that it will abide by all Federal and State laws, statutes, rules, and regulations applicable to charter schools and also abide by the terms and conditions of the Charter.

SECTION 2: EDUCATIONAL PROGRAM

2.1 Academic Accountability

2.1.1 Incoming Baseline Standard of Student Academic Achievement

The School will establish the current incoming baseline standards of student academic achievement, the outcomes to be achieved, and the method of measurement that will be used, as described in the approved Application or otherwise described in this Contract, in a format provided by the Sponsor.

2.1.2 Academic Student Performance Data

By September 15 of each year, the Sponsor shall provide the School with access to academic student performance data on state required assessments for each student attending the School that was enrolled the prior year in another public school, pursuant to s. 1002.33(7)(a)3., Florida Statutes.

2.1.3 Academic Progress Rates for Comparable Student Populations

By September 15 of each year, the Sponsor shall provide the School the rates of academic progress for the prior year for comparable student populations in the District. The data shall include proficiency and growth on state assessments for English Language Arts and Mathematics by grade grouping (grades 3-5, 6-8, 9-12) for the following student groups:

- i. Students scoring a level 1 on prior year assessment
- ii. Students scoring a level 2 on prior year assessment
- iii. Students scoring a level 3 or higher on prior year assessments
- iv. Students with disabilities
- v. English Language Learners

2.1.4 Academic Achievement Goals

(A) First Year of Operation. By October 15 of the first year of the School's operation, the School shall provide its proposed academic achievement goals for the current year to the Sponsor. The academic achievement goals shall include, at a minimum, growth and proficiency on state assessments, and may include performance on additional assessments included in the approved Application. If the School will not serve students in grades that participate in the statewide assessments the academic achievement goals shall be based on the assessments included in the approved application, and at least one assessment administered in traditional public schools in the District.

(B) Subsequent Charter Years. By October 15 of the second year of the School's operation, the School shall provide its proposed academic achievement goals for the remaining years of the Charter, up to a maximum of four years or the end of the current Charter term, whichever occurs first, using the same parameters and testing set forth in this Contract. Schools that

have contracts in excess of five years shall resubmit proposed academic achievement goals every four years pursuant to the process described in this paragraph.

- (C) **Sponsor Review.** The Sponsor shall review the proposed academic achievement goals within 30 days of receipt. If the Sponsor does not accept the proposed academic achievement goals, it shall provide the School a written explanation. If the Sponsor does not respond within 30 days of receipt, the academic achievement goals are deemed accepted. If the School and Sponsor cannot agree on academic achievement goals, either party may request mediation pursuant to Section 1002.33(6), F.S. The goals may be adjusted at any time upon mutual written consent of both parties.
- (D) **Governing Board Approval.** The School's Governing Board shall review and approve the goals and objectives prior to its final submission. Minutes documenting approval must be taken and posted on the School's website pursuant to Section 1002.33(9)(p)1.
- (E) **Performance Reporting.** Annually, the School shall report its performance against the academic goals in the format requested by the Sponsor. The School agrees to allow the Sponsor reasonable access to its facilities and records to review its data sources in order to assist the Sponsor in making a valid determination about the degree to which student performance requirements have been met, as stated in this Charter, and as required by Sections 1008.31 and 1008.345, F.S. Furthermore, the School shall allow the Sponsor to collect data through other means such as survey to conduct required research and/or evaluations. The Sponsor shall not impose additional reporting requirements on the School without providing reasonable and specific justification in writing to the School and the School shall provide required responses/data within the timelines that allow the Sponsor to meet required deadlines. If the School falls short of the academic achievement goals set forth under the provisions of this Charter, the Sponsor shall report such shortcomings to the School's Governing Board and FDOE. The School and Sponsor may agree to adjust the goals through the same process set forth in this Section. Failure to make sufficient progress in attaining the student achievement objectives of the Charter, and it is not likely that such objectives can be achieved before expiration of the charter term, may constitute good cause for termination or non-renewal of this Charter.

2.2 Performance Improvement Requirements for Low-Performing Schools

2.2.1 School Improvement Plan (SIP)

- (A) Schools that Earn a Grade of “D” or “F.”** Pursuant to Section 1002.33(9), if the School earns a grade of “D” or “F,” the director and a representative of the Governing Board must appear before the Sponsor to present information regarding contract components with noted deficiencies. The Governing Board representatives must submit a SIP to the Sponsor for approval, outlining strategies to improve student performance and begin implementation of the SIP upon the Sponsor’s approval.

The School shall fully cooperate with the Sponsor during any investigation and/or proceeding by the OCR or any other governmental entity that could involve the Sponsor, including providing the Sponsor with a draft response to OCR and providing all necessary relevant information and supporting documentation, and making staff available for interviews, as deemed necessary. If the written information on the complaint does not allege, or it cannot be inferred from the facts given, an allegation against the Sponsor of: (1) discrimination based on race, color, national origin, sex, disability or age, (2) discrimination in violation of the Boy Scouts of America Equal Access Act of 2001, or (3) retaliation for the purpose of interfering with any right or privilege secured by the civil rights laws and regulations enforced by OCR, or as a result of making a complaint, testifying, or participating in any manner in an OCR proceeding, the School shall submit the final version of the response directly to OCR on its own behalf with a copy provided to the Sponsor. The School shall bear all costs, fees, reimbursements, and compensatory education associated with the investigation, including any incurred, agreed upon or awarded. - (B) **Initial LEA Representation.** A representative of the Sponsor shall serve as the Local Education Agency (LEA) Representative in all initial IEP, EP, and Section 504 Plan meetings. No later than the tenth day of the student's attendance after the point of registration/enrollment or notice of acceptance, the School shall notify the Sponsor's District Staffing Specialist assigned to the School if the IEPs, EPs, or Section 504 Plans of students who have applied and been accepted cannot be implemented at the School. The Sponsor shall be invited to and may attend the meeting, at which time the IEP team shall determine whether the School is an appropriate placement for the student. If a student's IEP, EP, or Section 504 Plan can be

implemented at the School, based on the continuum of services as outlined in the application or as revised by a modification to this Contract, the student shall not be required to attend another school. All IEP changes of placement shall be based upon data and student needs.

The School shall fully implement the required RtI, IEPs, EPs, Functional Behavioral Assessments (FBA)/Social Emotional Behavior Intervention Plans (SE-BIP) and Section 504 Plans of enrolled students, including delivery of supplementary aids and services and related services, unless the IEP, EP, or Section 504 team determines that the student's needs cannot be met at the School and placement at another school within the Sponsor's district constitutes the least restrictive environment on the continuum of alternative placements. The School must follow all disciplinary procedures and policies relevant to students with disabilities, including implementation of FBAs/SE-BIPs and manifestation determinations. In no instances should a student's IEP, EP, or Section 504 services or placements be changed solely for the purpose of accommodating the School's placement options.
- (C) **Delivery of Educational Services and Equipment.** The School shall deliver all educational related services and equipment indicated on the student's IEP, EP, or Section 504 Plan unless a determination has been made by the School and the Sponsor that the student's IEP cannot be implemented at the School. If the student is

determined eligible for these services and they are added to the student's IEP or Section 504 Plan, the School shall be responsible for the provision or delivery of required services to the student. The School shall ensure that the person(s) conducting evaluation(s) attend an IEP meeting to review the evaluations when eligibility for services is determined. All evaluations must include a review of the student's educational records, including but not limited to IEP or Section 504 Plan; identification and development of goals to be supported by PT, OT, SL behavioral intervention and/or assistive technology, and/or nursing; a treatment plan for the student; and reference to supporting medical documentation if applicable. The School shall ensure that all instructional personnel and service providers review and implement the student's IEP. The School shall ensure that all service providers contribute to the student's annual and interim IEP meetings either in writing, by telephone, through electronic means, via video conferencing, or in person. Service providers must also contribute to status reports and updates on the student's IEP goals and benchmarks related to their areas of treatment. The School shall require all service providers to the student to attend orientation and in-service training on delivery of school-based services and how to support educationally relevant IEP goals. The Sponsor shall provide the orientation and in-service training. The Sponsor may conduct periodic reviews of the paperwork prepared by the service providers providing services to such students.

- (E) **Independent Educational Evaluations.** The School shall immediately notify the Sponsor if a parent requests an Independent Educational Evaluation (IEE) at public expense and work with the Sponsor to determine whether the IEE will be granted, or a due process action will be filed to defend the School's/Sponsor's evaluation. Responsibility for IEE due process litigation will be apportioned according to the type of evaluation at issue and in accordance with this Contract.
- (F) **Compliance with IDEA, Section 504, and EP Regulations.** The School shall comply with the requirements of the IDEA, Section 504, and regulations as they relate to the student's IEP/Section 504 Plan, and/or EP. - (H) **Least Restrictive Environment.** Exceptional students shall be educated in the least-restrictive environment. Students whose needs cannot be appropriately addressed at the School as determined by an IEP, EP, or Section 504 team meeting held after enrollment, will be appropriately referred to the student's home school. The School shall contact the Sponsor's District Staffing Specialist assigned to the School and/or the Sponsor's Office of Exceptional Student Education to notify staff that the student has been referred to their home school.
- (I) **Professional Development Requirements.** The School shall make its personnel aware of professional development opportunities offered by the Sponsor's Office of Exceptional Student Education and Psychological Services departments. In addition, the School shall require all personnel assigned to implement IEPs, EPs, and Section 504 Plans to participate in meetings and/or trainings required by the Sponsor's Office of Exceptional Student Education and Psychological Services departments.
- (J) **Enforcement of Compliance.** Failure to comply with federal, state, or local law or policy, after notice and a reasonable opportunity to cure, may result in the Sponsor withholding FTE funding from the School until compliance is achieved.

2.8.8 Due Process and Dispute Resolution Procedures

- (A) **Filing and Notification.** A student, parent, or guardian who indicates that they wish to file for a due process hearing, pursuant to State law and rules shall be given the appropriate forms by the LEA attending the meeting. These forms shall also be provided upon request at any other time. Parents must file due process hearing requests with the School Board Clerk pursuant to School Board Policy 0133, *Quasi-Judicial Functions*, and the procedural safeguards posted on the Sponsor's Exceptional Student Education website. Any due process requests received by the School must be forwarded to the Sponsor's ESE Director and legal counsel on the same business day. The Sponsor's legal counsel will ensure that all ESE due process hearing requests/complaints are filed with the Florida Division of Administrative Hearings (DOAH) and place the School on notice of the complaint. With regard to Section 504 due process requests, the Sponsor's legal counsel will evaluate the due process request and work with the School's legal counsel to determine the proper course of action in accordance with the School's and the Sponsor's procedural safeguards and hearing procedures.
- (B) **Review, Representation and Cost Responsibilities.** The Sponsor will review the due process complaint and hold an initial meeting to analyze the merits of the complaint. The School must select its own legal counsel to

consult and cooperate with the Sponsor's legal counsel. The School's legal counsel will file a Notice of Appearance before the Division of Administrative Hearings within ten (10) days of the filing of the due process complaint. The School's legal counsel will participate in the initial strategy meeting with the Sponsor. Prior to the meeting, the School shall forward all relevant documentation to the Sponsor's legal counsel. Final decisions on legal strategies shall be made by the Sponsor's attorney in consultation with the School. The Sponsor's legal counsel will represent the Sponsor on all claims brought by parents related to evaluations referenced in this Contract. The School's legal counsel shall represent the School on claims related to all other evaluations, including at the School's election when the parent refuses to consent or fails to respond to the School's request for consent to evaluate. At the election of the Sponsor's legal counsel, if the School elects not to pursue a claim regarding parental refusal/failure to provide consent to evaluate, the Sponsor may elect to pursue the claim after consultation with the Sponsor's counsel. The Sponsor's legal counsel will represent the Sponsor in all cases where a District employee fulfills the role of the LEA at the staffing/IEP meeting. The School's legal counsel will represent the School on all claims related to implementation of RtI, IEPs, Section 504 Plans, EPs, Manifestation Determination decisions, and where a School employee fulfills the role of the LEA at the staffing/IEP meeting. Claims related to IEPs will be represented by counsel for whichever party is responsible for the type of evaluation at issue. The Sponsor's legal counsel will seek a dismissal of the Sponsor with regard to claims over which the Sponsor had no role (e.g., implementation claims). However, if the dismissal is denied, the Sponsor's counsel will continue to provide recommendations and work with the School's counsel as co-counsel on the pending case. The School shall pay all costs associated with the administrative due process hearing, legal representation, discovery, court reporter, and interpreter and all appeals. In the event that the student, parents, or guardians prevail, either through a hearing, court action, or settlement, the School shall pay any and all attorneys' fees, reimbursements, compensatory education and any other costs incurred, agreed upon or awarded; however, the District shall assume or reimburse the costs of the defense attributable to, caused by or through the fault of the District, if any, as outlined above. Any costs, fees, or other expenses incurred, as set forth in this paragraph, will be automatically reduced from the FTE funds passed through the Sponsor to the School, without any penalty of interest, although the School may request, and the parties agree to a payment plan.

- (C) **Participation in Resolution and Mediation Sessions.** The School must designate an administrator and relevant members of the IEP team to attend a resolution or mediation session conducted by the Sponsor's due process team. The School's legal counsel and the Sponsor's legal counsel may participate in the resolution session only if the parent is an attorney or is represented by an attorney. If the Sponsor and the School elect to participate in mediation in lieu of a resolution session, the Sponsor's due process team will invite the legal counsels of the Sponsor and the School.
- (D) **Post-Mediation Recommendations and Cost Responsibilities.** Following the resolution session/mediation, the School shall review the recommendations of the Sponsor's due process team with their legal counsel and communicate in writing the School's position on resolution/settlement to the Sponsor's due process team. If the School opts not to follow the recommendations of the Sponsor's due process team, the School will incur all costs associated with subsequent court orders as set forth in this Contract.
- (E) **Resolution and Advancement of Due Process Hearings.** If the matter is resolved by a written agreement, the Sponsor's legal counsel will file the appropriate motions for dismissal and closure of the case. If the matter is not resolved, the legal counsel of the Sponsor and the School shall ensure that representation in the due process hearing proceeds in accordance with this Contract and the procedural safeguards posted on the School's and/or Sponsor's Exceptional Student Education website. The School and the Sponsor shall each make available to participate in all necessary stages of the litigation all staff who participated in any evaluation or reevaluation, the preparation of any IEP, the implementation of any IEP that may be at issue in the hearing.

3.2 Recruitment and Admissions

3.2.1 Recruitment

The School shall make reasonable efforts, in accordance with federal law, to achieve a racial or ethnic balance reflective of the community it serves or within the racial/ethnic range of other nearby public schools. The School shall recruit throughout all segments of the community and provide outreach materials in multiple languages appropriate to the geographical location of the Charter School. This may include direct mailings, public advertisement utilizing the local and community press and informational meetings at a variety of locations using both English and other languages where appropriate. 3.2.2 Non-Discriminatory Admission and Non-Sectarian Policies

The School shall be non-sectarian in its programs and admissions policies. The School shall be open to any student residing in Miami-Dade County and to students in other districts. Admission or dismissal must not be based on a student's academic performance. The School will accept all eligible students in accordance with Federal and State anti-discrimination laws and in accordance with the Florida Educational Equity Act, Section 1000.05(2) (a), F.S. The School will not discriminate on the basis of race, gender, ethnicity, religion, national or ethnic origin or disability in the admission of students. The School shall implement the enrollment policies and procedures and lottery process, as described in the approved Application. The School may not request, prior to enrollment or notice of acceptance, through the application or otherwise, information regarding the student's academic history, record of standardized testing performance, juvenile or disciplinary history or status, a student's Individual Education Plan (IEP), Education Plan (EP), Section 504 Plan, English Language Learner (ELL) Plan or other information regarding a student's special needs or use such information as a basis to deny or revoke enrollment. The School shall not access, directly or through a third party, any of the Sponsor's student information unless and until the student actually enrolls in the School. Violation of this provision constitutes good cause for termination.

Failure to accept all eligible students in accordance with Federal and State anti-discrimination laws and in accordance with the Florida Educational Equity Act, Section 1000.05(2)(a), F.S. constitutes good cause for termination of this Charter.

3.2.3 Lottery and Wait List Documentation

The School shall clearly indicate in its Policies and Procedures the lottery procedures and enrollment preferences the School will utilize. If the number of applications exceeds the capacity of the program, class, grade level, or building, all applicants shall have an equal chance of being admitted through a random selection process. The School shall maintain documentation in accordance with applicable Florida record retention laws for each enrollment lottery conducted, as well as any student wait lists that are generated and make them available to the Sponsor upon request. Lottery documentation shall be sufficient to allow the Sponsor to verify that the random selection process was fair, equitable, and in compliance with applicable State statutes. At a minimum, the following documentation shall be maintained and available to the Sponsor upon request at all times:

- (i) official current policies, processes, and timelines related to the enrollment lottery and wait list and documentation showing that the School's Governing Board adopted them at a regular public meeting;

- (ii) are approved by resolution of the governing board(s) of the participating schools at a regular public meeting prior to presentation to the Sponsor;
- (iii) implement standard vertical matriculation patterns (e.g., elementary to middle school, middle school to high school, K-8 to high school); and,
- (iv) do not negatively impact a student's opportunities to exercise school choice.

3.3 Enrollment

3.3.1 Preferences

The School may provide enrollment preferences pursuant to Section 1002.33(10)(d) F.S. and may otherwise limit enrollment to target those student populations identified in Section 1002.33(10)(e) F.S. and identified in the approved application.

3.3.2 Consent

To enroll a student, the School must obtain proof of consent from the student's parent or guardian, or from the student if the student is eighteen (18) years of age or older. The Charter School may not transfer an enrolled student to another charter school having a separate Master School Identification (MSID) Number without first obtaining the specific written approval of the student's parents/guardians before each transfer. General consent for student transfer is prohibited (e.g., consent included in a parent contract). A student may withdraw from the School at any time and enroll in another public or private school, as determined by District policy. The School shall work in conjunction with the parent(s)/guardian(s) and the receiving school to ensure that such transfers minimize impact on the student's grades and academic achievement. Failure to obtain proof of consent to enroll, withdraw, or transfer each student from the student's parent/guardian or from the student, if the student is eighteen (18) years of age or older constitutes good cause for termination of this Charter.

3.3.3 Capacity and Class Size Requirements

Following is the student enrollment breakdown:

Years 1- 15 2026 – 2041: Grades 6 – 12, up to 1,373 students

The School shall comply with class size restrictions as required by law. The enrollment capacity shall be annually determined by the Charter School Governing Board in conjunction with the Sponsor based on factors set forth in Section 1002.33(10)(h), F.S. The School shall not enroll students in excess of the physical capacity of the building except as otherwise provided by law for schools operating multiple sessions, in which case the physical capacity of the School shall not be exceeded during any session. The Annual Enrollment Capacity of a high-performing school shall be determined by the Governing Board. No later than March 1st of each year, the School shall provide the Sponsor the proposed enrollment capacity for the subsequent school year. Monthly FTE payments shall be withheld, without interest, for students in excess of the School's annual enrollment capacity, as defined by the Contract. Failure to comply with maximum class size restrictions as required by law may constitute good cause for termination of this Charter. In the event the School defers its opening, in the student enrollment breakdown referenced in this paragraph, the initial term of the Contract shall be

adjusted as permitted by law.

3.3.4 Projections

- (A) **Preliminary Enrollment Projection.** If requested, no later than November 1st of each year, the School shall provide to the Sponsor the School's preliminary projected enrollment for the following school year. The preliminary projected enrollment shall not constitute a cap on the School's enrollment for the following school year.
- (B) **Final Enrollment Projection.** The Sponsor may request that the School provide final enrollment projections for the upcoming school year no later than July 15th of each year. Final enrollment is not annual capacity, but the school's projection of how many students will be enrolled when the school year begins. The School shall not project enrollment or enroll students in excess of the physical capacity of the building, unless the School operates multiple sessions, in which case the physical capacity of the School shall not be exceeded during any session.

3.3.5 Minimum Enrollment Requirements

Each year, the School agrees to enroll an eligible student by accepting a timely application through deadlines as determined by the Governing Board and publicly advertised. If the target goal of students is not met by the deadline, and the School wishes to extend, the School will give sufficient public notice and extend the application deadline for a set time as determined and publicized by the Governing Board. If, at the 10-day count, the registered enrollment as reflected in the Sponsor's data system is less than 75 percent of the School's total projected enrollment as described in either the approved Application for the first year or as determined under the provisions of this Charter, the School shall, upon written request by the Sponsor, submit a revised budget within thirty (30) days taking into account the reduced enrollment. Failure to provide the revised budget may constitute good cause for termination. The School's minimum enrollment for the first year of operation is N/A. The parties agree that this is the minimum enrollment that will support the School's operations. Failure to achieve the minimum enrollment by the October FTE reporting period for the first year of operation constitutes good cause for termination or non-renewal unless the School provides the Sponsor a revised and balanced budget and a cash flow statement that are realistic and reasonable within fifteen (15) calendar days of the October FTE reporting period. A budget to support this minimum enrollment is provided in the Budget for Initial Year of Operation Based on Minimum Enrollment (Appendix I).

3.3.6 High-Performing Charter Schools

A high-performing charter school must have documentation from the Commissioner of Education designating the School as high-performing pursuant to

Section 1002.331, F.S. A high performing charter school shall notify the Sponsor in writing by March 1st of the preceding year if it intends to increase enrollment beyond the enrollment stated in this charter and/or to expand grade levels the following year. The School shall not, however, enroll students beyond the facility capacity at the time the enrollment increase will take effect. The written notice shall specify the amount of the enrollment increase, the grade levels that will be added, and evidence of the official facility capacity at the time the enrollment increase will take effect. To increase enrollment and add grade levels, this Contract must be amended through the Sponsor's current charter amendment process for these types of amendments in School Board Policy 9800, *Charter Schools*, except that the Sponsor shall modify the charter within 90 days to include the new enrolment maximum and may not make any other change. Failure to provide timely notice to the Sponsor shall preclude the School from increasing enrollment or expanding grade levels.

Disagreements between the Sponsor and the School relating to enrollment capacity will be resolved through dispute resolution pursuant to Section 1002.33, F.S.

3.3.8 Application and Enrollment Documentation

The School must maintain appropriate enrollment and student application documentation.

3.4 Withdrawal Policies and Procedures

3.4.1 Involuntary Student Withdrawal

The School will ensure that no pressure, coercion, negotiation, or other inappropriate inducement may be used to attempt to have parents or guardians withdraw students from the School. The School may not transfer a student unless the withdrawal or transfer is accomplished through the Sponsor's transfer policies. Students already enrolled at the School must be provided with the option to remain enrolled at the School for the following school year. Pursuant to Section 1002.33(7), F.S., admission or dismissal must not be based on a student's academic performance. Dismissing of students based on academic performance contrary to section 1002.33(10)(e)(5); constitutes a good cause for termination of this Charter.

3.4.2 Voluntary Student Withdrawal

A student may voluntarily withdraw from the School at any time and enroll in another school.

If the School elects to use an alternative student information system and recording system, the system must comply with the State's reporting guidelines and be approved by the Sponsor. If the School chooses to use an application other than the system in use by the Sponsor, it will be responsible for daily data entry directly into the District's student information system (DSIS) for attendance and quarterly data entry for academic, effort, and conduct grades for students. Schools that opt to use an alternative gradebook system will be required to provide some form of prior year electronic audit trail. ITS support will not be provided to schools that do not use the District's electronic gradebook system.

- (A) Attendance.** The School must report daily attendance of each student to the District to meet District attendance reporting requirements, as required by law. Schools that use an alternative grade book system will not be able to upload grade or attendance data to the Information Technology Services (ITS) department. Schools not uploading will be required to have a documented procedure in place for communicating attendance and grades to the School's attendance clerk, prior to the opening of schools.
- (B) Grades.** All quarterly, academic, effort, and conduct grades, shall be entered within fifteen (15) business days after the close of each grading period. For students who withdraw during the school year, academic, effort and conduct grades must be entered upon the student's withdrawal.
- (C) Compliance with Reporting Requirements.** Failure to use records and grade procedures that adequately provide the information required by the Sponsor, FDOE and statute may result in withholding of Full-Time Equivalent (FTE) until compliance and may constitute cause for termination of this Charter.

3.5.2 Transmittal of Educational Records

The School shall transmit to the Sponsor's Department of Records and Forms Management, a listing of the types of Category A and B educational records pursuant to State Board of Education Rule 6A-1.0955 and the procedures from the Division of Student Services as stipulated in the Student Educational Records manual, subject to law. 3.5.3 Transfer of Student Cumulative Records

- (A) **Students Transferring to a Public School within Miami-Dade County.** All cumulative records (both Category A, Permanent Information, and Category B, Temporary Information) of students leaving the School, whether by transfer to a traditional public school within the school system or withdrawal to attend another charter school, shall be immediately transferred upon receipt of an official request from a receiving Miami-Dade County public school or a Sponsor's charter school. The School may retain copies of the departing student's academic records created during the student's attendance at the School.
- (B) **Students Withdrawing to Non-Sponsor Schools.** Upon withdrawal of a student's enrollment at the School, all cumulative records (both Category A, Permanent Information, and Category B, Temporary Information) of students leaving the School, but not transferring to a Sponsor's public school or charter school, shall be retained at the School in accordance with law and the Sponsor's records retention procedures. Requests for student records from public or private schools outside of the County and private schools within the County must be made in writing. Only copies of requested records may be provided. If the Governing Board adopts its own COSC or materially revises the COSC, it shall provide the Sponsor the revised policies within 30 days of adoption by the Governing Board. Any deviations from the Sponsor's COSC and any alternative COSC, or additional disciplinary policies, must be approved by the Sponsor prior to implementation. During the period when a School's alternative COSC is under review by the Sponsor for approval, the School must adopt the Sponsor's COSC.

The School's policies for discipline, suspension, and recommendation for expulsion are described in the approved Application and in the School's Student/Parent Contract/Handbook (Appendixes L and M). The School must continue to follow all Federal and State laws related to discipline of students with

disabilities, including but not limited to Manifestation Determinations if required by the IDEA or Section 504. Failure to comply with this provision may result in withholding of FTE and constitutes good cause for termination.

4.4.4 Accountability for Data Accuracy and Audit Adjustments

The School shall maintain auditable records of student attendance and grades. Reporting timelines shall be aligned with the Sponsor's timelines. Date Certain is always the Friday of the FTE Survey week. Corrections to data submitted for FTE processing will only be accepted for 6 weeks after Date Certain. The School is responsible for correcting student schedule changes. Incomplete student or teacher course records shall result in a loss of FTE funding. If the School submits data relevant to FTE, federal, or state grant funding that is later determined through the audit procedure to be inaccurate, the School shall be responsible for any reimbursement to the State, the United States Department of Education or the District for any errors or omissions in data that the School submitted. In addition, if the Sponsor is fined or penalized for School errors, the School shall reimburse the Sponsor for the full amount. If the School fails to reimburse the Sponsor, or agree on a payment plan, within a reasonable time after expiration or exhaustion of any appeals, the Sponsor shall deduct the amount owed from the School's FTE payments. After final disposition of any appeals, the District shall deduct any such adjustments from the School's subsequent revenue disbursements evenly over the remaining months of the fiscal year or according to an agreed upon payment plan.

4.5 Administrative Fee

4.5.1 Allowable Withholding

The Sponsor shall withhold five percent (5%) of available funds for the first 250 students as defined in Section 1002.33(20)(a), F.S., not including capital outlay funds, Federal and State grants, or any other funds, unless otherwise explicitly limited by law.

4.5.2 Allowable Withholding from High-Performing Charter Schools

4.5.3 Allowable Withholding from ESE Centers

The Sponsor shall withhold two percent (2%) for enrollment of up to and including 250 students in an ESE center that meets the requirements of the rules adopted by the State Board of Education pursuant to Section 1008.3415(3). If the School serves seventy-five percent (75%) or more exceptional education students as defined in Section 1003.01(3), the percentage shall be calculated based on the unweighted full-time equivalent students. ESE administrative services covered by the administrative fee, pursuant to Section 1002.33(20), F.S., include professional development related to IEP development; access to any electronic IEP system or forms; initial evaluation for ESE placement; and other supports and services as agreed to by the School and the District in this Charter.

4.5.4 Sponsor Use of Administrative Fee

The administrative fee retained by the Sponsor pursuant to this Contract includes a fee for academic and financial monitoring required of the Sponsor by law and other such services provided by the Sponsor which are required to be covered under statute. At any time, the Sponsor may request reports on school operations and student performance and the School shall provide the reports in a timely manner.

(A) **Access to Optional Sponsor Services.** Access by the School to services not required by law, but available through the Sponsor, may be negotiated separately by the parties. The Sponsor is not obligated to provide any services not required by law.

4.6.2 Initial Year Payment Procedures for New Charter Schools

For new charter school in the initial year of operation, payments will be made as required by the law. July through October payment shall be based on the School's projected enrollment as described on the cover sheet of the approved Application if a minimum of seventy-five (75) percent of the projected enrollment is entered into DSIS by the first day of the current month. Otherwise, or if the School's enrollment exceeds its projected enrollment, the Sponsor shall fund the School based on the number of students actually entered in DSIS as of the first day of the current month, not to exceed the Annual Enrollment Capacity. Thereafter, the

results of full-time equivalent student membership surveys shall be used in adjusting the amount of funds distributed monthly to the School for the remainder of the fiscal year. Additional documents (e.g., student enrollment forms, student transfer forms, Integrated Student Information System rosters) may be required or requested to support the School's projections. Payments will be adjusted retroactively for prior period adjustments.

4.6.3 Payment Calculations for Subsequent Charter Years

For the following years of the charter, monthly payments will be calculated as follows:

- (i) The Sponsor may initially calculate monthly distributions to the School for up to four (4) months based on full-time (FTE) student enrollment distribution as of the prior year February FTE report.
- (ii) If enrollment at the end of the second week of student attendance fluctuates by twenty percent (20%) or more from prior year February FTE, then monthly distributions shall be proportionally adjusted. Thereafter, the results of the official FTE student surveys will be used in adjusting the amount of FEFP funds distributed to the School.

4.6.4 Payment Adjustments for Sponsor Services and Penalties

Payments may be adjusted for any amounts due the Sponsor for services provided, expenditures incurred by the Sponsor on behalf of the School, and any fines or penalties levied against the Sponsor because of the School's errors during the current or previous years, as well as for administrative oversight.

4.6.5 Reimbursements

The District shall make every effort to ensure that the School receives timely and efficient reimbursement of funds. Other than those payments provided for in this Contract, for which other requirements for timely payments have been made, the payment shall be issued no later than ten (10) working days after the District receives a distribution of state or federal funds. If a warrant of payment is not issued within ten (10) working days after the receipt of funding by the District, or the due date set forth in this Charter, the District shall pay to the School, in addition to the amount of the scheduled disbursement, interest at a rate of one percent (1%) per month calculated on a daily basis on the unpaid balance from the expiration of the ten (10) day period until such time as the warrant is issued. Late payments are subject to interest at the rate of 1% per month calculated on a daily basis until paid. Payment shall be made only to the account in an FDIC insured Active Qualified Public Depository account or a State-approved depository specified by the Governing Board.

4.6.6 Enrollment Capacity and Facility Compliance for Payments

Payment shall not be made for students in excess of the School's enrollment capacity, the School's valid facility capacity as determined by the School's Certificate of Occupancy, Certificate of Use, and/or Fire Permit (whichever is less) or this Contract. In the event that the required County and/or municipality facility permits do not indicate a facility capacity, the School must submit an official letter from the local jurisdiction confirming facility capacity certification by the Registered Architect. Where the local jurisdiction does not or is unable to issue an official determination of allowable capacity, the School may take one of the actions stated in this Contract. The Sponsor shall withhold monthly payments, without interest, if the School's Certificate of Occupancy, Certificate of Use or Fire Permit has expired or has otherwise become invalid, until such defect has been cured.

4.6.7 Charter School Capital Outlay Funds

The Sponsor shall make timely and efficient payments to the School for capital outlay funds pursuant to Sections 1011.72 and 1013.62, F.S. The Sponsor shall not certify capital outlay plans or recommend awarding capital outlay if it cannot attest to the School's eligibility.

4.6.8 Adjustments Due to Holdbacks and Prorations

In the event of a State holdback or a proration which changes District funding, the School's funding will be adjusted proportionately to the extent required by the law. The Sponsor will not be responsible for any liabilities incurred by the School in the event of a State holdback. Notwithstanding the foregoing, distribution of FTE funds may be withheld, upon written notice by the Sponsor, if any of the following required documents are more than thirty (30) day overdue unless otherwise agreed or extended:

- (i) The School's monthly/quarterly financial statement as required by State Board of Education Rule 6A-1.0081, F.A.C.
- (ii) The School's annual financial audit as required by Section 218.39, F.S and this Charter.

The Sponsor shall release, in full, funds withheld under this provision within ten (10) days of receipt of the documents that resulted in the withholding of funds.

4.7 Summer School Provision

The School may choose to provide a summer school program using State allocated funds. All students attending a summer school session must be reported in FTE Survey 1 and Survey 4, as required by law. In the event that a student enrolled in the School attends any of the Sponsor's summer school programs, and the summer school program is not funded through Title I, the School shall reimburse the Sponsor for the cost of each student's summer school program, as determined by the Sponsor. If the School fails to comply with this provision within a reasonable

time, the Sponsor may deduct the appropriate amount from the School's subsequent FTE or Federal funding payments.

4.8 Student Fees

4.8.1 Use of Student Fees

The School shall not charge fees, except those fees normally charged by the Sponsor or as allowed by law. Fees collected must be allocated directly to, and spent only on, the activity or material for which the fee is charged.

4.8.2 Fee Schedule

If the School intends to charge fees, it shall submit its comprehensive fee schedule to the Sponsor for review no later than July 1st prior to the school year in which the fees are intended to be charged. No funds shall be collected until the School has been given written approval from the Sponsor. Additional fees shall not be imposed without the notification and approval of the Sponsor. Fees shall not be a barrier to enrollment. Non-payment of fees shall not be a basis for dismissal or non-re-enrollment. Upon approval of the fee schedule, all fees collected must be reported and recorded appropriately using proper accounting procedures as required by law. Any fees that are solicited, required, or accepted in violation of this paragraph shall be returned to the parent or guardian.

4.8.3 Student Fee Documentation

8.6.1 Employment of Relatives

The School and its employees shall comply with State law prohibiting the appointment, employment, promotion, or advancement, or the advocacy for appointment, employment, promotion, or advancement in or to a position in the charter school in which the personnel are serving or over which the personnel exercises jurisdiction or control of an individual who is a relative as defined in Section 1002.33(24), F.S.

8.6.2 Student/Parent Contract/Handbook

The School agrees to annually submit any proposed Student/Parent Contract/Handbook (Appendixes L and M), including amendments, to the Sponsor for review. The Sponsor shall approve or reject the proposed parent contract within thirty (30) business days of receipt. If the Sponsor rejects the proposed Student/Parent Contract, it shall provide its reasons for rejection in writing and shall allow the School to resubmit a revised draft. The School shall not use the Student/Parent Contract unless it has been approved by the Sponsor. The School shall not use language in these contracts to discriminate, involuntarily withdraw or dismiss the student without due process and as required by the Code of Student Conduct or create a financial burden or any other barrier to enrollment or re-enrollment. The School shall not accept monetary donations in lieu of volunteer hours. At a minimum, all communication to parents, including Parent Contracts, shall be provided in English, Spanish and Haitian-Creole, as appropriate. Violation may constitute good cause for termination of the Contract.

8.6.3 Acceptable Use Policy

The Governing Board shall adopt student and employee computer and privacy policies and standards that comply with all applicable state and federal laws. All

charter school employees and students are bound by all of the applicable Sponsor’s computer policies and standards regarding data privacy and system security.

8.6.4 Website Requirement

The School shall maintain a website that clearly provides information about the School’s academic performance and state accountability grades(s), the names of the Governing Board members, Governing Board meeting schedule for the current school year, school programs, the management company and/or service providers associated with the School, the School’s annual budget and annual independent fiscal audit, and, on a quarterly basis, the minutes of Governing Board meetings.

SECTION 9: EDUCATION SERVICE PROVIDER

9.1 Management Organization (Education Service Provider) Agreement

9.1.1 Contract Requirements

If a management organization (organization), including but not limited to: 1) a management company, 2) an educational service provider, or 3) a parent organization (hereinafter collectively referred to as “ESP”), will be managing or providing significant services to the School, the contract for services between the ESP and the Governing Board shall be provided to the Sponsor and attached as Appendix T. The contract between the School and ESP shall require that the ESP operate the School in accordance with the terms stipulated in this Contract and all applicable laws, ordinances, rules, and regulations. The contract between the School and the ESP shall allow the School the ability to terminate the contract with the ESP.

9.1.2 Restrictions on ESP Employees and Governing Board

Neither employees of the ESP nor relatives of employees of the ESP, Section 1002.33(24), F.S., shall serve on the School’s Governing Board or as officers of the Corporation, nor shall any Governing Board member be compensated for their service on the Board or selected to serve on the Board by the ESP.

9.1.3 School Leader Employment and Conflict of Interest Restrictions

The School Leader shall be employed by, or under contract to the School, and evaluated by the School’s Governing Board or approved designee. The School Leader shall not own, operate, or serve as an officer of the ESP that serves the School.

9.1.4 Relationship Between Governing Board and ESP

The contract between the ESP and the School’s Governing Board shall ensure that an “arms-length,” performance-based relationship exists between the Governing Board and the ESP. The contract will clearly define each party’s rights and responsibilities including specific services provided by the ESP and the fees for those services and specifies reasonable and feasible terms under which either party

may terminate the contract. The Governing Board retains the right to hire an independent attorney, accountant, and audit firm representing and working for, or on behalf of, the School. Notwithstanding, the Governing Board and the ESP may contract for such services as determined by the management agreement and as otherwise allowed by law.

9.1.5 ESP Disclosure of Affiliations

The contract between the School and the ESP shall require that the ESP disclose to the School and the Sponsor, any affiliations with individuals or entities (e.g., lessors, vendors, consultants, etc.) doing business with the School.

9.1.6 Ownership of Assets and Financial Obligations

Any property, improvements, furnishings, and equipment purchased with public funds shall remain with the School, not the ESP, and any fund balance remaining at the end of each fiscal year will belong to the School, not the ESP. All loans from the ESP to the School, such as facility loans or loans for cash flow, will be appropriately documented and will be repaid at a rate no higher than market rates at the time of the loan. In the event that the School closes, post- termination provisions of this Charter Contract shall apply.

9.1.7 ESP Service Fee Requirements

The contract will clearly define each party's rights and responsibilities including specific services provided by the management organization and the fees for those services and specifies reasonable and feasible terms.

9.1.8 ESP Compliance and Accountability

The School shall require the ESP to perform its duties in compliance with this Charter. Any default or breach of the terms of this Charter by the ESP shall constitute a default or breach under the terms of this Contract by the School unless the School cures such breach after written notice.

9.2 Submission of an ESP Agreement

The contract between the ESP and the School shall be submitted to the Sponsor prior to the approval of the School's Contract, or at the time an ESP is contracted.

9.3 ESP Contract Amendments

.A copy of any material changes to the contract between the management organization and the Governing Board shall be submitted to the District within five (5) days of execution. If the changes violate the terms of this Charter or applicable law the Sponsor shall provide written notice to the School which shall include a description of the violations. The School may address the concerns or initiate the dispute resolution process included in this Charter.

9.4 Change of ESP

If the School changes their ESP, a Contract modification may be required.

SECTION 10: HUMAN RESOURCES

10.1 Hiring Practices

10.1.1 Personnel Policies

The School shall implement personnel plans, policies and procedures including how the School will determine whether any potential employees are related to ESP owners or employees or to Governing Board members, as described in the approved Application. The School shall hire its own employees and retain qualified staff. The School agrees that its employment practices shall be nonsectarian.

10.1.2 Non-Discriminatory Employment Practices

Staff resumes shall be available to parents/guardians and community members upon request. The School shall provide continuing professional development programs for its teachers. Failure to fulfill all the requirements for highly qualified instructional personnel as defined by State or Federal law constitutes good cause for termination of this Charter.

The School shall monitor teacher certification and ensure that teachers maintain their certification current at all times. Temporary instructors employed by the School must have met all applicable requirements of law.
- (B) **Certification Requirements for Blended-Learning Instructional Personnel.** For blended-learning programs, instructional personnel may be employees of the Charter School or may be contracted to provide instructional services. 10.1.4 Drug-Free Workplace

- (A) The School shall be a drug-free workplace, as provided by State and Federal law. The charter school governing board agrees to adopt a Drug-Free Workplace policy and conduct general drug screening on all applicants for instructional and non-instructional positions with the school, including contracted personnel, in accordance with that policy. The school's Drug-Free Workplace policy must be made available to the Sponsor upon request. The school shall not hire applicants who have received a positive drug screening result, except as provided in the school's Drug-Free Workplace policy.
- (B) **Cost Responsibility.** The cost of drug screening shall be borne by the School or the applicant.

10.1.5 Fingerprinting and Background Screening

Charter school applicants shall not be employed until their fingerprints have been submitted to the Florida Department of Law Enforcement (FDLE) and the Agency for Health Care Administration (AHCA) for a determination of employment eligibility through the Care Provider Background Screening Clearinghouse ("Clearinghouse").
- (B) **Employment Eligibility Documentation.** Confirmation of employment eligibility must be kept on file at the charter school site for audit purposes and made available to the Sponsor upon request.
- (C) **Cost Responsibility.** The School or the applicant shall bear any, and all costs associated with the required fingerprinting and Level 2 background screening.
- (D) **Rescreening Requirements.** The School must comply with all rescreening requirements set forth in law. Instructional and non-instructional personnel who are hired or contracted to fill positions in a charter school and members of the governing board of such charter school in compliance with F.S. 1002.33(12)(g), upon employment, engagement of services, or

appointment, shall undergo background screening as required under F.S. 1012.465 or 1012.56, whichever is applicable.

(E) **Screening of Volunteers.** The School shall implement policies and procedures for background screening of all prospective school volunteers and mentors prior to their participation in any volunteer activities. All volunteers must be screened and cleared prior to participating in any activities. Any and all visitors or guests to the School while students are on campus must be screened and/or escorted by a staff member who is Level 2 screened.

(F) **Noncompliance.** Non-compliance may result in withholding of FTE payments, without interest and may constitute good cause to terminate this Contract.

10.1.6 Hiring Prohibition and Employee Misconduct

In accordance with Chapter 1012 and Section 1002.33(12)(f), F.S., a charter school may not knowingly employ or contract with an individual who is ineligible for employment and/or has resigned from a school district in lieu of disciplinary action with respect to child welfare or safety, or who has been dismissed for just cause by any school district with respect to child welfare or safety and maintain affidavits of separation as required by law. The Governing Board, the School, and its employees must comply with all posting and reporting requirements related to employee misconduct and employment eligibility, as required by law and the FDOE. Failure to do so may constitute good cause for termination of this Charter.

10.2.1 Prohibition and Disclosure of Employment of Relatives

The School and its employees shall comply with Section 1002.33(24), F.S., which prohibits the appointment, employment, promotion, or advancement, or the advocacy for appointment, employment, promotion, or advancement, in or to a position in the charter school in which the personnel are serving or over which the personnel exercises jurisdiction or control of an individual who is a relative. The School shall require all instructional employees who hold Department of Education teaching certificates to self-report within 48 hours to appropriate authorities, including the School's Administration or Governing Board, any arrest and final dispositions of such arrest other than minor traffic violations. The School

shall then take appropriate action relating to the employment of that individual.

10.2.3 Standards of Behavior

Unless otherwise provided by law, the School shall prohibit employees from bringing firearms onto School property. The School shall be responsible for the investigation and discipline of any School employee who may be in violation of this prohibition.

10.2.4 Code of Ethics

The School shall require that its employees abide by the Principles of Professional Conduct for the Education Profession in Florida (Appendix X). The School shall be responsible for (1) the investigation and discipline of any School employee who violates this prohibition and (2) for compliance with the mandatory misconduct reporting requirements in accordance with Section 1002.795, F.S. Violation of Florida Statute 112 Part III, Code of Ethics for Public Officers and Employees as applicable to charter school employees constitutes good cause for termination of this Charter.

10.2.9 Employee Evaluation

The School shall annually evaluate all instructional employees pursuant to State law.

10.2.10 Anti-Discrimination

The School shall not violate the anti-discrimination provisions of Section 1000.05, F.S., and the Florida Education Equity Act.

commencement of employment. The School shall disclose to the parents the qualifications of its teachers in the manner required by law.

- (ii) The School shall provide the Sponsor with the name and employee number of any employee receiving a position change and/or job title.
- (iii) Upon request, the School shall provide the Sponsor copies of monthly payroll rosters as directed. The payroll rosters shall indicate the payroll period, hire date of employee, the number of days that each individual was paid for, and the daily rate of each salary or the total amount paid to each individual during that period.
- (iv) The parties agree that the School will use the Sponsor's specifically designed charter school employee management system and procedures for processing staff information. The Sponsor shall provide appropriate training to School personnel on the use of the electronic reporting facility.
- (v) Within three (3) business days from the staff member's separation, the School shall update the designated charter school employee management system to indicate a staff member is no longer employed at the School.
- (vi) Failure to maintain accurate and up-to-date personnel data in the District's employee management system required to demonstrate compliance with State and Federal mandates, after notice and a reasonable opportunity to cure, may constitute a breach of this Contract and good cause for termination.

Neither party shall be considered in default of this Contract if the performance of any section or all of this Contract is prevented, delayed, hindered or otherwise made impracticable or impossible by reason of any strike, flood, hurricane, riot, fire, explosion, war, act of God, sabotage, accident, public health crisis, or any other casualty or cause beyond either party's control, and which cannot be overcome by reasonable diligence and without extraordinary expense.

12.2 Entire Agreement

This Contract shall constitute the full, entire, and complete agreement between the parties. All prior representations, understandings, and agreements whether written or oral are superseded and replaced by this Contract. This Contract may be altered, changed, added to, deleted from, or modified only through the voluntary, mutual consent of the parties in writing. Any substantial amendment to this Contract shall require approval of the Sponsor and the School's Governing Board.

12.3 No Assignment

This Contract shall not be assigned by either party. The School may, without the consent of the Sponsor, enter into contracts for services with an individual or group of individuals organized as a partnership or cooperative so long as the School remains ultimately responsible for those services as set forth in this Contract.

12.4 No Waiver

No waiver of any provision of this Contract shall be deemed or shall constitute a waiver of any other provision unless expressly stated. The failure of either party to insist in any one or more instances upon the strict performance of any one or more of the provisions of this Contract shall not be construed as a waiver or relinquishment of the term or provision, and the same shall continue in full force and effect. No waiver or relinquishment to any provision of this Contract shall be deemed to have been made by either party unless in writing and it is signed by both parties. No waiver or relinquishment of any right or privilege applicable under law shall be deemed to have been made unless the right or privilege is expressly described in a writing and signed by the party waiving or relinquishing the right or privilege.

12.5 Default Including Opportunity to Cure

Non-compliance with any of the terms and conditions of this Contract may constitute good cause for termination. After written notice of default under any provision hereto, absent any circumstance permitting immediate termination, the School shall have an opportunity to cure.

12.6 Survival Including Post-Termination

All representations and warranties made in this Contract shall survive termination of this Contract.

12.7 Severability

This Contract is made and entered into in the State of Florida and shall be interpreted according to the laws of Florida, with venue in Miami-Dade County. The parties mutually agree that the language and all parts of this Contract shall in all cases be construed as a whole according to its fair meaning, and not strictly for or against any of the parties. The parties forever waive the right to trial by jury for any and all litigation between the parties arising out of or related to this Charter. The parties agree to have any such dispute settled by a judge alone, without a jury.

12.10 Authority

GREEN SPRINGS HIGH SCHOOL (MSID 7067) SECOND RENEWAL CONTRACT

SECTION 1: GENERAL PROVISIONS

This Second Renewal Charter School Contract (Contract or Charter) entered into as of the 22nd day of April 2026, between The School Board of Miami-Dade County, Florida, (Sponsor or School Board), and Florida High School for Accelerated Learning - Miami Campus, Inc., a non-profit corporation organized under Chapter 617, F.S., d.b.a., Green Springs High School (School). This Contract is limited to Green Springs High School (MSID 7067). This Contract is effective upon approval by the parties.

1.1 Approved Application

The official Charter School Application approved by the School Board on November 24, 2010, is attached hereto as Appendix A. The initial contract was approved by the School Board on April 13, 2011. The contract was first renewed on June 23, 2016, and this renewal contract was amended on February 10, 2021. All attached appendices are incorporated by reference and constitute part of this Charter. In the event of any conflict between the Application and any other provision of this Charter, the Charter provision shall control. In the event the Contract has not been approved/entered into, then the Application will be deemed withdrawn, and no further action will be taken with respect to the Contract.

1.2 Term of Charter

The term of this Charter renewal shall be ten (10) years, commencing July 1, 2026, and ending June 30, 2036. In the event of expiration, the term shall be automatically extended on a month-to-month basis until the Charter has been renewed, non-renewed, or terminated by the Sponsor. If the parties cannot reach agreement on the terms of a new contract, either party may request mediation from the Florida Department of Education (FDOE), pursuant to Section 1002.33(7)(b), F.S. If the Commissioner of Education determines that the dispute cannot be settled through mediation, the dispute may be appealed to an administrative law judge appointed by the Division of Administrative Hearings. The administrative law judge has final order authority to rule on the dispute, including whether proposed provisions of the Charter violate the intended flexibility granted charter schools by statute.

1.2.1 Start-Up Date and School Calendar

- (A) **School Opening Date.** For the first year of operating under this Charter, the School shall begin classes on the same day as the Sponsor or at such other time as otherwise determined by the Governing Board. The School cannot open absent submission of all required documents listed in the District's Pre-Opening Checklist (Appendix AA). Pursuant to law, the School may defer the opening of its operations for up to three (3) years to provide time for adequate facility planning. A charter school that elects to defer opening

must provide written notice of such intent to the Sponsor and the parents of enrolled students at least thirty (30) calendar days before the first day of school indicating (1) the deferral status as provided by law, and (2) the proposed first day of school. The first two (2) planning years will extend the term of this Contract. By March 1st of the year they were approved to open, a charter school that indicates they will defer opening must provide the District with a status report to include a timeline of all key operational items and milestones. The charter school shall continue to provide periodic status reports and make allowances for site visits. Failure to open the School: (1) on the day indicated in this Contract, (2) on the day indicated in the school's deferral notice, or (3) after all available deferral years will result in this Contract becoming null and void.

- (B) **Academic Calendar.** For a new charter school, the School's calendar shall be consistent with the beginning of the Sponsor's school calendar for the first year of operation. For every year thereafter, and for all other charter schools, if the School's calendar differs from the Sponsor's public-school calendar, including the instructional days, the School shall provide reasonable notice and submit the proposed calendar to the Sponsor and parents of enrolled students prior to the start of the school year. Any calendar changes that differ from the Sponsor's calendar, must be provided upon request and approved by the Sponsor prior to implementation. Calendar modifications may incur a processing fee at a rate no greater than the Sponsor's actual cost.
- (C) **Required Instructional Minutes.** Instructional minutes shall be a minimum of 300 minutes per day or as required by current law. The hourly equivalent for Kindergarten through Grade 3 is 720 instructional hours and 900 instructional hours for students in Grades 4 through 12. Schools operating on a double-session calendar must be approved by the FDOE. Survey periods for Year-Round School Programs shall be the same as for the regular fiscal year. Year-round schools shall report the first ninety (90) days of their regular 180-day school year in Survey 2 and the second 90 days of their regular 180-day school year in Survey 3, regardless of when the tracks are in session.

1.2.2 Charter Modification

This Contract may not be modified unless approved by both parties in writing pursuant to School Board Policy 9800, *Charter Schools* (Appendix B). No contract modifications shall be enforceable unless it is in writing and approved by both the Governing Board and the Sponsor. If the modification involves changes to the grade levels, except as provided by law for high-performing charter schools, the School

must provide information acceptable to the Sponsor relating to operational capacity, curriculum, budget, facilities, and staff. Certain amendments related to high-performing charter school contracts are governed by Section 1002.331, F.S. and are also in accordance with the charter contract amendment process contained in School Board Policy 9800, *Charter Schools*.

1.2.3 Charter Renewal

- (A) **Renewal Notice.** This Charter may be renewed as provided for in Section 1002.33, or 1002.331, F.S. No later than September 15th in the final academic year of this charter, a Sponsor shall provide notice to the School regarding the process and timeline for completing the programmatic review required under s. 1002.33(7)(c)1., Florida Statutes.
- (B) **Renewal Review and Evaluation.** Prior to renewal of this Charter, the Sponsor shall perform a review to determine the level of success of the School's educational program, organizational performance, financial performance and achievement of the goals and objectives required by State accountability standards and successful accomplishment of the criteria under Sections 1002.33(7)(a) and (8)(a) F.S., compliance with the terms of the Charter, and that none of the statutory grounds for nonrenewal exist. Upon completion of the programmatic review, but no later than ninety (90) days prior to the end of the charter term, the Sponsor shall notify the Governing Board of the Charter School in writing of the proposed action to renew, terminate, or non-renew the Charter, pursuant to Section 1002.33(8)(a), F.S.
- (C) **Renewal Packet Submission.** Any charter school seeking renewal shall complete a Charter Renewal Packet as provided by the Sponsor's renewal process.
- (D) **Renewal Term and Approval.** Renewals may be approved for a term up to five (5) years unless another term is mutually agreed upon, required, or allowed by law. Upon approval, the Contract will be renewed following the contract negotiation process in current School Board policy and as required by law.
- (E) **Periodic Review and Evaluation:** The Sponsor may annually evaluate the School on its performance and progress, including academic achievement goals. The Sponsor may conduct a High-Stakes Review, as needed and/or upon charter renewal, and transmit the findings of the review to the Governing Board of the School. 1.3 Termination or Non-Renewal

This Contract may be terminated or non-renewed during its term for any reason pursuant to State law or this Contract. Notices of non-compliance, non-renewal, or termination, cancellation and default are issued in accordance with the procedures set forth in this Charter and as otherwise required by law.

1.3.1 Causes for Termination or Non-Renewal

The Sponsor shall make student academic achievement for all students the most important factor when determining whether to renew or terminate this Charter. The Sponsor may choose not to renew or terminate this Charter if it finds that any of the following grounds below exist by clear and convincing evidence, as set forth in Section 1002.33, F.S.

- (i) failure to participate in the State's education accountability system created in Section 1008.31, F.S., as required in this section, or failure to meet the requirements for student performance established pursuant to this Charter;

- (iii) material violation of law;
- (iv) if insufficient progress has been made in attaining the student achievement objectives of the charter and if it is not likely that such objectives can be achieved before expiration of the charter;
- (v) if the School earns two consecutive grades of "F" after all school grade appeals are final except otherwise provided in Section 1002.33, F.S.
- (vi) failure to cure a material breach of any term or condition of this Charter after written notice of non-compliance.

1.3.2 Causes for Immediate Termination

Pursuant to Section 1002.33(8)(c), this Charter may be terminated immediately if the Sponsor determines that an immediate and serious danger to the health, safety, or welfare of the School's students exists. Lack of a facility meeting the requirements of law in which to operate the School may constitute an immediate and serious danger to the health, safety, or welfare of the School's students.

1.3.3 Procedures for Termination or Non-Renewal

- (A) **Sponsor Notification Responsibilities.** The Sponsor shall notify the School's Governing Board and principal in writing at least ninety (90) days prior to non-renewing or terminating the Contract. The notice shall comply with the requirements of Section 1002.33, F.S., state in reasonable detail the grounds for the proposed action and stipulate that the Governing Board may request a hearing within fourteen (14) calendar days of receiving the notice.

- (B) **Hearing Request.** The School's Governing Board may request an administrative hearing before the Florida Division of Administrative Hearings (DOAH). This request must be authorized by a vote of the Governing Board in a legally advertised public meeting with a quorum present. Minutes or an adopted resolution documenting the action must be submitted with the request. The School shall file the request with the School Board Clerk pursuant to School Board Policies 0133, *Quasi-Judicial*, 9800, *Charter Schools*, and Section 120.54(5)(b), F.S. Legally sufficient requests shall be forwarded to DOAH. The DOAH hearing will be conducted pursuant to Florida Statute 1002.33, and Chapter 120, F.S. Following the DOAH hearing, the administrative law judge shall submit a final order to the Sponsor. For purpose of notice, the Charter School's Governing Board is the last roster submitted by the School to the Sponsor.
- (C) **Continued Operations During Proceedings.** The School's Governing Board shall continue to operate the School until a final order terminating the charter is issued, during which time all provisions of this Contract shall remain in effect. The closing date shall be negotiated between the Sponsor and the School, unless otherwise provided for in a final order.
- (D) **Expenditures.** Upon notification of non-renewal or termination, the School may not expend more than \$10,000 per expenditure without prior written approval from the Sponsor unless the expenditure was included within the annual budget submitted to the Sponsor, is for reasonable attorney fees and costs during the pendency of any appeal, or reasonable fees and costs to conduct an independent audit.

1.3.4 Procedures for Immediate Termination

- (A) **Sponsor Notification Responsibilities.** The Sponsor's determination is subject to the procedures set forth in paragraph 1.4.2(A), except that the hearing may take place after the charter has been terminated. Upon immediate termination, the Sponsor shall notify the School's Governing Board chair, principal, and the FDOE in writing, detailing the specific facts and circumstances demonstrating the existence of such danger, explaining why the danger is likely to continue, and stating why immediate termination of the Charter is necessary to protect the health, safety, or welfare of the students, pursuant to Section 1002.33(8)(c), F.S.
- (B) **Hearing Request.** The Sponsor's determination is subject to the 90-day termination procedures in this Charter, except that, upon receiving written notice from the Sponsor, the Charter School's Governing Board has ten (10) calendar days to request a DOAH hearing. The hearing may take place after the charter has been terminated.

- (C) **Operation of the School.** The Sponsor shall assume operation of the school throughout the pendency of the hearing as provided for in Section 1002.33(8)(d), F.S., unless the continued operation of the School would materially threaten the health, safety or welfare of the students. Lack of a facility meeting the requirements of law may constitute a material threat to the health, safety, or welfare of the students. The Sponsor may seek an injunction in the circuit court in which the Charter School is located to enjoin continued operation of the Charter school if continued operation would materially threaten the health, safety, or welfare of the students. If the School has no facility at the time of termination, the Sponsor is not obligated to operate the School.
- (a) **Access to Records and Facilities.** Upon receipt of notice of immediate termination, the School shall immediately provide the Sponsor access to the School's facilities along with security system access codes and access codes for all School-owned or leased computers, software, networking, switching and all other technical systems in the School's facilities or remotely located areas serving the School, and shall make accessible to the Sponsor all student, educational, operational, and administrative records of the School including those held by third parties. Moreover, within two (2) business days, the School shall turn over to the Sponsor all records, information, receipts and documentation for all expenditures of public funds held by the School, including but not limited to Federal grants such as Title I and charter school grants, and grant the Sponsor access to the School's bank accounts which contain public funds, storage facilities, and all public property. The Sponsor shall assume operation of the school throughout the pendency of the hearing as provided for in s. 1002.33(8)(d), Florida Statutes, unless the continued operation of the School would materially threaten the health, safety or welfare of the students. Failure by the Sponsor to assume and continue operation of the School shall result in the awarding of reasonable costs and attorney's fees to the School if the School prevails on appeal. If the School prevails in an appeal through a final adjudication by an administrative law judge or by a final adjudication and mandate by the appellate court if an appeal to the appellate court is filed, the Sponsor shall, immediately, return to School all keys, security codes, all educational and administrative records of the School, and the School's facility. In that case, the

School's Governing Board shall resume operation and oversight of the School.

- (b) **Employees of the School.** The School's instructional and operational employees may continue working in the School during the time that the Sponsor operates the School at the Sponsor's option but will not be considered employees of the Sponsor. Any existing employment contracts that any School personnel may have with the School may not be assumed or transferred to the Sponsor or any entity created by the Sponsor during the assumption of operations of the School unless the Sponsor or its entity, and the School, agree otherwise. The Sponsor may take any appropriate personnel action regarding the School's employees.
- (c) **Disbursement of Funds.** The Sponsor shall only disburse school funds in order to pay the normal expenses of the School as they accrue in the ordinary course of school business. The Sponsor is not required to use its own funding resources to pay the School's debts.

1.3.5 School Election to Terminate or Non-Renew

If the School elects to terminate or non-renew the Charter, it shall provide reasonable prior notice of the election to parents of enrolled students, the Sponsor, and the FDOE, indicating the final date of operation as voted by the Governing Board at a publicly noticed meeting. A board resolution, signed by the School's Governing Board chair and secretary indicating support of this action, shall accompany the written notification provided to the Sponsor. The School agrees that such notification shall be considered a voluntary termination by the Governing Board and a waiver of its right to a hearing or appeal and that this voluntary termination shall not be reversed. Additionally, all post-termination provisions incorporated in this Contract shall apply.

1.3.6 Removal of Public Property

Upon notice of termination or non-renewal, the School shall not remove any public property, as defined in this Contract, from the premises without written Sponsor approval.

1.4 Post-Termination Provisions

1.4.1 Dissolution of School

The School shall be dissolved under the provisions of law under which the School was organized. Copies of all administrative, operational, and financial records of the School shall be provided to the Sponsor on or before the date the termination/non-renewal takes effect. The School shall also provide to the Sponsor the School's security system and technology access codes.

1.4.2 School Debt

If this Charter is not renewed or is terminated, the School shall be responsible for all the debts of the School. The Sponsor shall not assume the debt from any contracted services made between the Governing Body of the School, the Management Company, and/or third parties, including lease or rental agreements, except for a debt previously detailed and agreed upon, in writing, by both the Sponsor and the Governing Board and that may not reasonably be assumed to have been satisfied by the Sponsor. In no event shall the District be responsible under any assignment of a lease for any debts or obligations of the School incurred prior to such assignment.

1.4.3 Leases with the District

In the event of termination or non-renewal of this Charter, any and all leases existing between the District and the School shall be automatically cancelled, unless the lease provides otherwise.

1.4.4 Student Transfers and Records

All assets of the School purchased with public funds (except for capital funds and federal charter school program grant funds), including supplies, furniture and equipment, shall automatically revert to full ownership by the Sponsor, subject to complete satisfaction of any lawful liens or encumbrances. Any unencumbered public funds from the School, Sponsor property and improvements, furnishings, and equipment purchased with public funds, or financial or other records pertaining to the School, in the possession of any person, entity, or holding company, other than the School, shall be held in trust upon the Sponsor's request, until any appeal is resolved, and proper distribution of the property is determined. If the School's accounting records fail to clearly establish whether a particular asset was purchased with public funds, then it shall be presumed public funds were utilized and ownership of the asset shall automatically revert to the Sponsor (subject to any lawful liens and encumbrances). Property and assets purchased with public funds shall be defined as those goods purchased with grants and funds provided by a governmental entity. Public funds provided by the School and used by a management company to purchase property and assets for the School are

considered public funds.

1.4.6 Final Audit

Pursuant to s. 1002.33, F.S., upon notice of non-renewal, closure, or termination, an independent audit shall be completed within thirty (30) days to account for all public funds and assets. The audit shall be conducted by an independent certified public accountant.

The academic achievement goals shall include, at a minimum, growth and proficiency on state assessments, and may include performance on additional assessments included in the approved Application. If the School will not serve students in grades that participate in the statewide assessments the academic achievement goals shall be based on the assessments included in the approved application, and at least one assessment administered in traditional public schools in the District.
- (B) **Subsequent Charter Years.** By October 15 of the second year of the School's operation, the School shall provide its proposed academic achievement goals for the remaining years of the Charter, up to a maximum of four years or the end of the current Charter term, whichever occurs first, using the same parameters and testing set forth in this Contract. Schools that have contracts in excess of five years shall resubmit proposed academic achievement goals every four years pursuant to the process described in this paragraph.
- (C) **Sponsor Review.** The Sponsor shall review the proposed academic achievement goals within 30 days of receipt. If the Sponsor does not accept the proposed academic achievement goals, it shall provide the School a written explanation. If the Sponsor does not respond within 30 days of receipt, the academic achievement goals are deemed accepted. If the School and Sponsor cannot agree on academic achievement goals, either party may request mediation pursuant to Section 1002.33(6), F.S. The goals may be adjusted at any time upon mutual written consent of both parties.

- (E) **Performance Reporting.** Annually, the School shall report its performance against the academic goals in the format requested by the Sponsor. Furthermore, the School shall allow the Sponsor to collect data through other means such as survey to conduct required research and/or evaluations. The Sponsor shall not impose additional reporting requirements on the School without providing reasonable and specific justification in writing to the School and the School shall provide required responses/data within the timelines that allow the Sponsor to meet required deadlines. If the School falls short of the academic achievement goals set forth under the provisions of this Charter, the Sponsor shall report such shortcomings to the School's Governing Board and FDOE. The School and Sponsor may agree to adjust the goals through the same process set forth in this Section. Failure to make sufficient progress in attaining the student achievement objectives of the Charter, and it is not likely that such objectives can be achieved before expiration of the charter term, may constitute good cause for termination or non-renewal of this Charter.

by the Governing Board and the Sponsor. Upon Approval by the Sponsor the charter school shall begin implementation of the SIP.

However, a school earning two consecutive grades of "F" is subject to immediate interventions under subparagraph 3. The School is no longer required to implement a corrective action if it improves its grade to a "C" or higher. However, the School must continue implementing strategies identified in its school improvement plan and the sponsor must annually review the School's implementation of the plan to ensure continued improvement.
- (D) **Selection of a New Corrective Action.** If the School fails to improve to a grade of "C" or higher after two full school years of implementing a

corrective action, the Governing Board must select a new corrective action to begin the following school year unless the Sponsor determines that additional time is likely to result in the School achieving a “C” or higher under the existing corrective action.

- (E) **Immediate Interventions.** Notwithstanding this subparagraph, a school earning two consecutive grades of “F” while implementing a corrective action is subject to immediate interventions under Section 1002.33(9)(n)3, F.S.

2.7.1 Plan Adoption and Approval

The School will adopt the District's English Language Learners Plan (Appendix F) in effect for the current operational year, and which meets the requirements of the League of United Latin American Citizens (LULAC) et al. v. State Board of Education Consent Decree. If the School elects to implement its own plan, approved by its Governing Board, it is attached hereto as Appendix G. The plan must include sufficient information and detail to allow the Sponsor to determine legal sufficiency.

2.7.2 Services for English Language Learners

Students at the School who are English Language Learners (ELL) will be served by English for Speakers of Other Languages (ESOL) endorsed or certified personnel. Failure to comply with all applicable laws ordinances, and codes of Federal, State, and locale governance including, without limitation, the Individuals

with Disabilities Education Act (IDEA) and applicable laws relating to English Language Learners (ELL) if not timely cured after written notice constitutes good cause for termination of this Charter.

2.8 Exceptional Student Education

2.8.1 Program Requirements

Exceptional students shall be provided with programs implemented in accordance with applicable Federal, state, and local policies and procedures; and, specifically, the Individuals with Disabilities Education Act (IDEA), Section 504 of the Rehabilitation Act of 1973, Sections 1000.05 and 1001.42(4) (l) of the Florida Statutes, and Chapter 6A-6 of the Florida Administrative Code. Students with disabilities will be educated in the least restrictive environment and will be segregated only if the nature and severity of the disability is such that education in regular classes with the use of supplementary aids and services cannot be achieved satisfactorily. The School must maintain a continuum of ESE placements as indicated in the School's approved Application and Renewal Packet.

2.8.2 Non-Discrimination and Admission Procedures

The School shall not discriminate against students with disabilities in placement, assessment, identification, selection, or admission. The School shall not request a student's IEP, EP, Section 504 Plan, or other information regarding a student's special needs prior to or during the application and lottery process, nor shall the School access such information prior to or during the application and lottery process. Only schools that serve exclusively students with disabilities may request the IEP, EP, or Section 504 Plan as part of the application and lottery process to determine whether the services are compatible with the School's programmatic model.

2.8.3 Individualized Education Plans (IEPs) and 504 Plans

The School shall conduct Individual Educational Plans (IEPs) for eligible students, to include an annual IEP meeting with the eligible student's family. Upon enrollment, or notice of acceptance sent to the student, the School may request from the District information related to the student's program and needs, including the student's most recent IEP, which shall be provided within ten (10) days.

2.8.4 Student Placement and Referral

If the School determines, upon review of the IEP, that the student's needs cannot be met at the School, the School shall contact the Sponsor's District Staffing Specialist assigned to the School for assistance with an appropriate school assignment in accordance with this Contract. After enrollment, any student who is suspected of having a disability must be referred for evaluation in accordance with this Contract, and if eligible for services pursuant to IDEA or Section 504, an appropriate IEP or Section 504 plan must be developed before the student is referred to the District for

consideration of another school assignment. The Sponsor shall be invited to and may attend the meeting, at which time the IEP team shall determine whether the School is an appropriate placement for the student.

2.8.5 Civil Rights Complaints and Investigations

If the School receives a complaint filed or becomes aware of an investigation with the U.S. Office of Civil Rights (OCR) or any other governmental entity and the complaint or investigation relates to the School and could involve the Sponsor, the School shall, within one (1) school day, notify the Sponsor and provide the Sponsor any documentation from the agency (except where to give such notice would violate the law or the directions of the investigating government entity). The School shall fully cooperate with the Sponsor during any investigation and/or proceeding by the OCR or any other governmental entity that could involve the Sponsor, including providing the Sponsor with a draft response to OCR and providing all necessary relevant information and supporting documentation, and making staff available for interviews, as deemed necessary. If the written information on the complaint does not allege, or it cannot be inferred from the facts given, an allegation against the Sponsor of: (1) discrimination based on race, color, national origin, sex, disability or age, (2) discrimination in violation of the Boy Scouts of America Equal Access Act of 2001, or (3) retaliation for the purpose of interfering with any right or privilege secured by the civil rights laws and regulations enforced by OCR, or as a result of making a complaint, testifying, or participating in any manner in an OCR proceeding, the School shall submit the final version of the response directly to OCR on its own behalf with a copy provided to the Sponsor. The School shall bear all costs, fees, reimbursements, and compensatory education associated with the investigation, including any incurred, agreed upon or awarded. Notwithstanding the aforementioned, the Sponsor shall assume or reimburse the costs attributable to, caused by or through the fault of the Sponsor, if any. Failure of the school to pay the costs, fees, reimbursements, and compensatory education within a reasonable time after the expiration or exhaustion of any appeals will result in the Sponsor deducting any amount owed from the School's FTE payments.

2.8.6 Sponsor Responsibilities

The Sponsor shall provide ESE administration services to the School, pursuant to Section 1002.33, F.S.

- (A) Student Evaluations.** The Sponsor shall conduct initial evaluations of students referred for potential Exceptional Student Education, Gifted, Section 504 eligibility, and for the re-evaluation of Exceptional Student Education students, in accordance with Federal and State mandates. All requirements for Response to Intervention (RtI) must be followed by the

School with fidelity prior to and during the evaluation process. The School and/or parents may obtain private evaluations of students at their expense. These evaluations must be considered in determining eligibility but will not necessarily substitute for an evaluation conducted by the Sponsor's personnel in a manner and timeframe consistent with that of all of the other Sponsor's schools.

- (B) **Initial LEA Representation.** A representative of the Sponsor shall serve as the Local Education Agency (LEA) Representative in all initial IEP, EP, and Section 504 Plan meetings. However, the administrator or designee in charge at the School will serve as the LEA Representative at all other annual and interim IEP, EP, and Section 504 meetings, which the School shall conduct.
- (C) **Compliance Monitoring.** The Sponsor will monitor the School for ESE compliance with applicable Federal, State, and local policies and procedures as outlined in the Exceptional Student Education Policies and Procedures (SP&P) (Appendix H). Failure to comply with Federal, State, or local law or policy, after notice and a reasonable opportunity to cure, may result in the Sponsor withholding FTE funding from the School until compliance is achieved.

2.8.7 School Responsibilities

- (A) **Disability Disclosure and Placement Determination.** The School shall not inquire about a student's disability status prior to registration/enrollment or notice of acceptance. No later than the tenth day of the student's attendance after the point of registration/enrollment or notice of acceptance, the School shall notify the Sponsor's District Staffing Specialist assigned to the School if the IEPs, EPs, or Section 504 Plans of students who have applied and been accepted cannot be implemented at the School. The Sponsor shall be invited to and may attend the meeting, at which time the IEP team shall determine whether the School is an appropriate placement for the student. If a student's IEP, EP, or Section 504 Plan can be implemented at the School, based on the continuum of services as outlined in the application or as revised by a modification to this Contract, the student shall not be required to attend another school. All IEP changes of placement shall be based upon data and student needs.
- (B) **Student Support and Evaluation Protocols.** The School shall initiate all Request for Assistance (RFA) and Student Support Team (SST) meetings when concerns are raised by school staff or parents about student's functioning. When a student is suspected of having a disability, the School shall make a written request to obtain parental consent for evaluation for

referral to the Sponsor. If parental consent is denied or the parent fails to respond, the School must notify its legal counsel and the Sponsor for consideration of pursuing evaluation by using the mediation or due process procedures. The School shall fully implement the required RtI, IEPs, EPs, Functional Behavioral Assessments (FBA)/Social Emotional Behavior Intervention Plans (SE-BIP) and Section 504 Plans of enrolled students, including delivery of supplementary aids and services and related services, unless the IEP, EP, or Section 504 team determines that the student's needs cannot be met at the School and placement at another school within the Sponsor's district constitutes the least restrictive environment on the continuum of alternative placements. The School must follow all disciplinary procedures and policies relevant to students with disabilities, including implementation of FBAs/SE-BIPs and manifestation determinations. In no instances should a student's IEP, EP, or Section 504 services or placements be changed solely for the purpose of accommodating the School's placement options.

- (C) **Delivery of Educational Services and Equipment.** The School shall deliver all educational related services and equipment indicated on the student's IEP, EP, or Section 504 Plan unless a determination has been made by the School and the Sponsor that the student's IEP cannot be implemented at the School. The School shall also provide related services and equipment, e.g., speech/language therapy, occupational therapy, physical therapy, nursing, counseling, assessment instruments, assistive technology devices, transportation and therapeutic equipment.
- (D) **Evaluations and Service Delivery.** The School shall conduct the evaluations of the School's students referred for Physical Therapy (PT), Occupational Therapy (OT), Speech and Language (SL), Nursing, Assistive Technology (AT) and Functional Behavior Assessment (FAB) services with personnel qualified in accordance with State of Florida regulations and in accordance with Response to Intervention requirements. If the student is determined eligible for these services and they are added to the student's IEP or Section 504 Plan, the School shall be responsible for the provision or delivery of required services to the student. The School shall ensure that the person(s) conducting evaluation(s) attend an IEP meeting to review the evaluations when eligibility for services is determined. All evaluations must include a review of the student's educational records, including but not limited to IEP or Section 504 Plan; identification and development of goals to be supported by PT, OT, SL behavioral intervention and/or assistive technology, and/or nursing; a treatment plan for the student; and reference

to supporting medical documentation if applicable. The School shall ensure that all instructional personnel and service providers review and implement the student's IEP. The School shall ensure that all service providers contribute to the student's annual and interim IEP meetings either in writing, by telephone, through electronic means, via video conferencing, or in person. Service providers must also contribute to status reports and updates on the student's IEP goals and benchmarks related to their areas of treatment. The School shall require all service providers to the student to attend orientation and in-service training on delivery of school-based services and how to support educationally relevant IEP goals. The Sponsor shall provide the orientation and in-service training. The Sponsor may conduct periodic reviews of the paperwork prepared by the service providers providing services to such students.

- (E) **Independent Educational Evaluations.** The School shall immediately notify the Sponsor if a parent requests an Independent Educational Evaluation (IEE) at public expense and work with the Sponsor to determine whether the IEE will be granted, or a due process action will be filed to defend the School's/Sponsor's evaluation. Responsibility for IEE due process litigation will be apportioned according to the type of evaluation at issue and in accordance with this Contract.
- (F) **Compliance with IDEA, Section 504, and EP Regulations.** The School shall comply with the requirements of the IDEA, Section 504, and regulations as they relate to the student's IEP/Section 504 Plan, and/or EP. The School shall ensure that the appropriate highly qualified instructional personnel of the School that are required members of the IEP committee attend all IEP, Section 504 and/or EP meetings.
- (G) **Policy for Service Animal Requests.** The Governing Board shall adopt a policy and procedure for consideration of service animal requests made to the School.
- (H) **Least Restrictive Environment.** Exceptional students shall be educated in the least-restrictive environment. Students whose needs cannot be appropriately addressed at the School as determined by an IEP, EP, or Section 504 team meeting held after enrollment, will be appropriately referred to the student's home school. The School shall contact the Sponsor's District Staffing Specialist assigned to the School and/or the Sponsor's Office of Exceptional Student Education to notify staff that the student has been referred to their home school.
- (I) **Professional Development Requirements.** The School shall make its personnel aware of professional development opportunities offered by the

Sponsor's Office of Exceptional Student Education and Psychological Services departments. In addition, the School shall require all personnel assigned to implement IEPs, EPs, and Section 504 Plans to participate in meetings and/or trainings required by the Sponsor's Office of Exceptional Student Education and Psychological Services departments.

- (J) **Enforcement of Compliance.** Failure to comply with federal, state, or local law or policy, after notice and a reasonable opportunity to cure, may result in the Sponsor withholding FTE funding from the School until compliance is achieved.

2.8.8 Due Process and Dispute Resolution Procedures

- (A) **Filing and Notification.** A student, parent, or guardian who indicates that they wish to file for a due process hearing, pursuant to State law and rules shall be given the appropriate forms by the LEA attending the meeting. These forms shall also be provided upon request at any other time. Parents must file due process hearing requests with the School Board Clerk pursuant to School Board Policy 0133, *Quasi-Judicial Functions*, and the procedural safeguards posted on the Sponsor's Exceptional Student Education website. Any due process requests received by the School must be forwarded to the Sponsor's ESE Director and legal counsel on the same business day. The Sponsor's legal counsel will ensure that all ESE due process hearing requests/complaints are filed with the Florida Division of Administrative Hearings (DOAH) and place the School on notice of the complaint. With regard to Section 504 due process requests, the Sponsor's legal counsel will evaluate the due process request and work with the School's legal counsel to determine the proper course of action in accordance with the School's and the Sponsor's procedural safeguards and hearing procedures.
- (B) **Review, Representation and Cost Responsibilities.** The Sponsor will review the due process complaint and hold an initial meeting to analyze the merits of the complaint. The School must select its own legal counsel to consult and cooperate with the Sponsor's legal counsel. The School's legal counsel will file a Notice of Appearance before the Division of Administrative Hearings within ten (10) days of the filing of the due process complaint. The School's legal counsel will participate in the initial strategy meeting with the Sponsor. Prior to the meeting, the School shall forward all relevant documentation to the Sponsor's legal counsel. Final decisions on legal strategies shall be made by the Sponsor's attorney in consultation with the School. The Sponsor's legal counsel will represent the Sponsor on all claims brought by parents related to evaluations referenced in this Contract. The School's legal counsel shall represent the School on claims related to

all other evaluations, including at the School's election when the parent refuses to consent or fails to respond to the School's request for consent to evaluate. At the election of the Sponsor's legal counsel, if the School elects not to pursue a claim regarding parental refusal/failure to provide consent to evaluate, the Sponsor may elect to pursue the claim after consultation with the Sponsor's counsel. The Sponsor's legal counsel will represent the Sponsor in all cases where a District employee fulfills the role of the LEA at the staffing/IEP meeting. The School's legal counsel will represent the School on all claims related to implementation of RtI, IEPs, Section 504 Plans, EPs, Manifestation Determination decisions, and where a School employee fulfills the role of the LEA at the staffing/IEP meeting. Claims related to IEPs will be represented by counsel for whichever party is responsible for the type of evaluation at issue. The Sponsor's legal counsel will seek a dismissal of the Sponsor with regard to claims over which the Sponsor had no role (e.g., implementation claims). However, if the dismissal is denied, the Sponsor's counsel will continue to provide recommendations and work with the School's counsel as co-counsel on the pending case. The School shall pay all costs associated with the administrative due process hearing, legal representation, discovery, court reporter, and interpreter and all appeals. In the event that the student, parents, or guardians prevail, either through a hearing, court action, or settlement, the School shall pay any and all attorneys' fees, reimbursements, compensatory education and any other costs incurred, agreed upon or awarded; however, the District shall assume or reimburse the costs of the defense attributable to, caused by or through the fault of the District, if any, as outlined above. Any costs, fees, or other expenses incurred, as set forth in this paragraph, will be automatically reduced from the FTE funds passed through the Sponsor to the School, without any penalty of interest, although the School may request, and the parties agree to a payment plan.

- (C) **Participation in Resolution and Mediation Sessions.** The School must designate an administrator and relevant members of the IEP team to attend a resolution or mediation session conducted by the Sponsor's due process team. The School's legal counsel and the Sponsor's legal counsel may participate in the resolution session only if the parent is an attorney or is represented by an attorney. If the Sponsor and the School elect to participate in mediation in lieu of a resolution session, the Sponsor's due process team will invite the legal counsels of the Sponsor and the School.
- (D) **Post-Mediation Recommendations and Cost Responsibilities.** Following the resolution session/mediation, the School shall review the

recommendations of the Sponsor's due process team with their legal counsel and communicate in writing the School's position on resolution/settlement to the Sponsor's due process team. If the School opts not to follow the recommendations of the Sponsor's due process team, the School will incur all costs associated with subsequent court orders as set forth in this Contract.

- (E) **Resolution and Advancement of Due Process Hearings.** If the matter is resolved by a written agreement, the Sponsor's legal counsel will file the appropriate motions for dismissal and closure of the case. If the matter is not resolved, the legal counsel of the Sponsor and the School shall ensure that representation in the due process hearing proceeds in accordance with this Contract and the procedural safeguards posted on the School's and/or Sponsor's Exceptional Student Education website. The School and the Sponsor shall each make available to participate in all necessary stages of the litigation all staff who participated in any evaluation or reevaluation, the preparation of any IEP, the implementation of any IEP that may be at issue in the hearing.

2.8.9 Reimbursement for Services

Under the Medicaid Certified School Match Program, the School may be eligible to seek reimbursement for certain services provided to Medicaid-eligible students who qualify for services under the IDEA, Part B or C. In order to seek reimbursements, the School shall follow the procedures established by the state agency which administers the program for Medicaid-reimbursable services to eligible students at the School.

2.8.10 Services Covered by the Administrative Fee

The Sponsor shall provide Exceptional Student Education administration services to the School, pursuant to Section 1002.33, F.S.

SECTION 3: ENROLLMENT AND STUDENT SERVICES

3.1 Grades Served

The School is authorized to serve Grades 9th -12th

3.2 Recruitment and Admissions

3.2.1 Recruitment

The School shall make reasonable efforts, in accordance with federal law, to achieve a racial or ethnic balance reflective of the community it serves or within the racial/ethnic range of other nearby public schools. The School shall recruit throughout all segments of the community and provide outreach materials in multiple languages appropriate to the geographical location of the Charter School. This may include direct mailings, public advertisement utilizing the local and

community press and informational meetings at a variety of locations using both English and other languages where appropriate. Student recruitment and promotional efforts, materials, and activities shall be conducted so as not to exclude or limit opportunities on the basis of race, sex, national origin, marital status or disability.

3.2.2 Non-Discriminatory Admission and Non-Sectarian Policies

The School shall be non-sectarian in its programs and admissions policies. The School shall be open to any student residing in Miami-Dade County and to students in other districts. Admission or dismissal must not be based on a student's academic performance. The School will accept all eligible students in accordance with Federal and State anti-discrimination laws and in accordance with the Florida Educational Equity Act, Section 1000.05(2) (a), F.S. The School will not discriminate on the basis of race, gender, ethnicity, religion, national or ethnic origin or disability in the admission of students. The School shall implement the enrollment policies and procedures and lottery process, as described in the approved Application. The School may not request, prior to enrollment or notice of acceptance, through the application or otherwise, information regarding the student's academic history, record of standardized testing performance, juvenile or disciplinary history or status, a student's Individual Education Plan (IEP), Education Plan (EP), Section 504 Plan, English Language Learner (ELL) Plan or other information regarding a student's special needs or use such information as a basis to deny or revoke enrollment. The School shall not access, directly or through a third party, any of the Sponsor's student information unless and until the student actually enrolls in the School. Violation of this provision constitutes good cause for termination.

Failure to accept all eligible students in accordance with Federal and State anti-discrimination laws and in accordance with the Florida Educational Equity Act, Section 1000.05(2)(a), F.S. constitutes good cause for termination of this Charter.

3.2.3 Lottery and Wait List Documentation

The School shall clearly indicate in its Policies and Procedures the lottery procedures and enrollment preferences the School will utilize. If the number of applications exceeds the capacity of the program, class, grade level, or building, all applicants shall have an equal chance of being admitted through a random selection process. The School shall maintain documentation in accordance with applicable Florida record retention laws for each enrollment lottery conducted, as well as any student wait lists that are generated and make them available to the Sponsor upon request. Lottery documentation shall be sufficient to allow the Sponsor to verify that the random selection process was fair, equitable, and in compliance with

applicable State statutes. At a minimum, the following documentation shall be maintained and available to the Sponsor upon request at all times:

- (i) official current policies, processes, and timelines related to the enrollment lottery and wait list and documentation showing that the School's Governing Board adopted them at a regular public meeting;
- (ii) copies of student enrollment applications, any marketing materials, and all other enrollment materials;
- (iii) evidence of compliance with all policies, processes, and timelines approved by the Governing Board, and related to the application, lottery and wait list notification;
- (iv) evidence that the lottery process was posted on the School's website and clearly communicated to the public at large;
- (v) evidence that outreach materials have been communicated in multiple languages; and,
- (vi) copies of any wait lists, documents showing how the list was developed and any other evidence that complies with the approved policies, processes, and timelines.

3.2.4 Articulation Agreements Between Charter Schools

As required by State law, articulation agreements must be approved by the Sponsor prior to implementation. CSCS is authorized to approve articulation agreements that:

- (i) identify the sending school and receiving school;
- (ii) are approved by resolution of the governing board(s) of the participating schools at a regular public meeting prior to presentation to the Sponsor;
- (iii) implement standard vertical matriculation patterns (e.g., elementary to middle school, middle school to high school, K-8 to high school); and,
- (iv) do not negatively impact a student's opportunities to exercise school choice.

3.3 Enrollment

3.3.1 Preferences

The School may provide enrollment preferences pursuant to Section 1002.33(10)(d) F.S. and may otherwise limit enrollment to target those student populations identified in Section 1002.33(10)(e) F.S. and identified in the approved application.

3.3.2 Consent

To enroll a student, the School must obtain proof of consent from the student's parent or guardian, or from the student if the student is eighteen (18) years of age or older. The Charter School may not transfer an enrolled student to another charter school having a separate Master School Identification (MSID) Number without first obtaining the specific written approval of the student's parents/guardians before

each transfer. General consent for student transfer is prohibited (e.g., consent included in a parent contract). A student may withdraw from the School at any time and enroll in another public or private school, as determined by District policy. The School shall work in conjunction with the parent(s)/guardian(s) and the receiving school to ensure that such transfers minimize impact on the student's grades and academic achievement. Failure to obtain proof of consent to enroll, withdraw, or transfer each student from the student's parent/guardian or from the student, if the student is eighteen (18) years of age or older constitutes good cause for termination of this Charter.

3.3.3 Capacity and Class Size Requirements

Following is the student enrollment breakdown:

Years 1 – 10, 2026 – 2036: Grades 9th – 12th, up to 540 students

The School shall comply with class size restrictions as required by law. The enrollment capacity shall be annually determined by the Charter School Governing Board in conjunction with the Sponsor based on factors set forth in Section 1002.33(10)(h), F.S. The School shall not enroll students in excess of the physical capacity of the building except as otherwise provided by law for schools operating multiple sessions, in which case the physical capacity of the School shall not be exceeded during any session. The Annual Enrollment Capacity of a high-performing school shall be determined by the Governing Board. No later than March 1st of each year, the School shall provide the Sponsor the proposed enrollment capacity for the subsequent school year. Monthly FTE payments shall be withheld, without interest, for students in excess of the School's annual enrollment capacity, as defined by the Contract. Failure to comply with maximum class size restrictions as required by law may constitute good cause for termination of this Charter. In the event the School defers its opening, in the student enrollment breakdown referenced in this paragraph, the initial term of the Contract shall be adjusted as permitted by law.

3.3.4 Projections

- (A) **Preliminary Enrollment Projection.** If requested, no later than November 1st of each year, the School shall provide to the Sponsor the School's preliminary projected enrollment for the following school year. The preliminary projected enrollment shall not constitute a cap on the School's enrollment for the following school year.
- (B) **Final Enrollment Projection.** The Sponsor may request that the School provide final enrollment projections for the upcoming school year no later than July 15th of each year. Final enrollment is not annual capacity, but the school's projection of how many students will be enrolled when the school year begins. The School shall not project enrollment or enroll students in

excess of the physical capacity of the building, unless the School operates multiple sessions, in which case the physical capacity of the School shall not be exceeded during any session.

3.3.5 Minimum Enrollment Requirements

Each year, the School agrees to enroll an eligible student by accepting a timely application through deadlines as determined by the Governing Board and publicly advertised. If the target goal of students is not met by the deadline, and the School wishes to extend, the School will give sufficient public notice and extend the application deadline for a set time as determined and publicized by the Governing Board. If, at the 10-day count, the registered enrollment as reflected in the Sponsor's data system is less than 75 percent of the School's total projected enrollment as described in either the approved Application for the first year or as determined under the provisions of this Charter, the School shall, upon written request by the Sponsor, submit a revised budget within thirty (30) days taking into account the reduced enrollment. Failure to provide the revised budget may constitute good cause for termination. The School's minimum enrollment for the first year of operation is: N/A. The parties agree that this is the minimum enrollment that will support the School's operations. Failure to achieve the minimum enrollment by the February FTE reporting period for the first year of operation constitutes good cause for termination or non-renewal unless the School provides the Sponsor a revised and balanced budget and a cash flow statement that are realistic and reasonable within fifteen (15) calendar days of the February FTE reporting period. A budget to support this minimum enrollment is provided in the Budget for Initial Year of Operation Based on Minimum Enrollment (Appendix I).

3.3.6 High-Performing Charter Schools

A high-performing charter school must have documentation from the Commissioner of Education designating the School as high-performing pursuant to Section 1002.331, F.S. A high performing charter school shall notify the Sponsor in writing by March 1st of the preceding year if it intends to increase enrollment beyond the enrollment stated in this charter and/or to expand grade levels the following year. The School shall not, however, enroll students beyond the facility capacity at the time the enrollment increase will take effect. The written notice shall specify the amount of the enrollment increase, the grade levels that will be added, and evidence of the official facility capacity at the time the enrollment increase will take effect. To increase enrollment and add grade levels, this Contract must be amended through the Sponsor's current charter amendment process for these types of amendments in School Board Policy 9800, *Charter Schools*, except that the Sponsor shall modify the charter within 90 days to include the new enrollment maximum and may not make any other change. Failure to provide timely notice to

the Sponsor shall preclude the School from increasing enrollment or expanding grade levels.

3.3.7 Dispute Resolution

Disagreements between the Sponsor and the School relating to enrollment capacity will be resolved through dispute resolution pursuant to Section 1002.33, F.S.

3.3.8 Application and Enrollment Documentation

The School must maintain appropriate enrollment and student application documentation.

3.4 Withdrawal Policies and Procedures

3.4.1 Involuntary Student Withdrawal

The School will ensure that no pressure, coercion, negotiation, or other inappropriate inducement may be used to attempt to have parents or guardians withdraw students from the School. The School may not transfer a student unless the withdrawal or transfer is accomplished through the Sponsor's transfer policies. Students already enrolled at the School must be provided with the option to remain enrolled at the School for the following school year. Pursuant to Section 1002.33(7), F.S., admission or dismissal must not be based on a student's academic performance. Dismissing of students based on academic performance contrary to section 1002.33(10)(e)(5); constitutes a good cause for termination of this Charter.

3.4.2 Voluntary Student Withdrawal

A student may voluntarily withdraw from the School at any time and enroll in another school.

3.5 Maintenance of Student Records

The School shall maintain both active and archival student records for current/former students in accordance with Sections 1003.25 and 1002.22- 1002.222, F.S., State Board of Education Rule 6A-1.0955, and the State of Florida General Records Schedule GS7 for Public Schools Pre-K – 12 and Adult and Career Education, as applicable to the charter schools. The School shall maintain confidentiality of student records as required by Federal and State law.

3.5.1 Student Information System and Electronic Gradebook

The School will not use the Sponsor's electronic grade book system. The School shall use records and grade procedures that adequately provide the information required by the Sponsor. The School may use the Sponsor's electronic grade book system. If the School elects to use an alternative student information system and recording system, the system must comply with the State's reporting guidelines and be approved by the Sponsor. If the School chooses to use an application other than the system in use by the Sponsor, it will be responsible for daily data entry directly into the District's student information system (DSIS) for attendance and quarterly data entry for academic, effort, and conduct grades for students. Schools that opt to

use an alternative gradebook system will be required to provide some form of prior year electronic audit trail. ITS support will not be provided to schools that do not use the District's electronic gradebook system.

- (A) **Attendance.** The School must report daily attendance of each student to the District to meet District attendance reporting requirements, as required by law. Schools that use an alternative grade book system will not be able to upload grade or attendance data to the Information Technology Services (ITS) department. Schools not uploading will be required to have a documented procedure in place for communicating attendance and grades to the School's attendance clerk, prior to the opening of schools.
- (B) **Grades.** All grades shall be entered within fifteen (15) business days after the completion of each course. For students who withdraw during the school year, academic, effort and conduct grades must be entered upon the student's withdrawal.
- (C) **Compliance with Reporting Requirements.** Failure to use records and grade procedures that adequately provide the information required by the Sponsor, FDOE and statute may result in withholding of Full-Time Equivalent (FTE) until compliance and may constitute cause for termination of this Charter.

3.5.2 Transmittal of Educational Records

The School shall transmit to the Sponsor's Department of Records and Forms Management, a listing of the types of Category A and B educational records pursuant to State Board of Education Rule 6A-1.0955 and the procedures from the Division of Student Services as stipulated in the Student Educational Records manual, subject to law. This report shall be transmitted each year prior to July 1st.

3.5.3 Transfer of Student Cumulative Records

- (A) **Students Transferring to a Public School within Miami-Dade County.** All cumulative records (both Category A, Permanent Information, and Category B, Temporary Information) of students leaving the School, whether by transfer to a traditional public school within the school system or withdrawal to attend another charter school, shall be immediately transferred upon receipt of an official request from a receiving Miami-Dade County public school or a Sponsor's charter school. The School may retain copies of the departing student's academic records created during the student's attendance at the School.
- (B) **Students Withdrawing to Non-Sponsor Schools.** Upon withdrawal of a student's enrollment at the School, all cumulative records (both Category A, Permanent Information, and Category B, Temporary Information) of students leaving the School, but not transferring to a Sponsor's public

school or charter school, shall be retained at the School in accordance with law and the Sponsor's records retention procedures. Requests for student records from public or private schools outside of the County and private schools within the County must be made in writing. Only copies of requested records may be provided. The hourly equivalent for Kindergarten through Grade 3 is 720 instructional hours and 900 instructional hours for students in Grades 4 through 12. Schools operating on a double session calendar must be approved by the Sponsor. Approval by the Sponsor for a double session school does not reduce the required 300 minutes of instruction per day. Survey periods for Year-round School Programs are the same as for the regular fiscal year. Year-round schools shall report the first ninety (90) days of their regular 180-day school year in Survey 2 and the second ninety (90) days of their regular 180-day school year in Survey 3, regardless of when the tracks are in session.

4.4.2 Reporting Requirements

The School agrees to report its student enrollment to the District as provided in Section 1011.62, F.S., and in accordance with the definitions in Section 1011.61, F.S., at the agreed upon intervals and using the method used by the District when recording and reporting cost data by program. Date Certain is always the Friday of the FTE Survey week. Corrections to data submitted for FTE processing will only be accepted for 6 weeks after Date Certain. The School is

responsible for correcting student schedule changes. Incomplete student or teacher course records shall result in a loss of FTE funding. If the School submits data relevant to FTE, federal, or state grant funding that is later determined through the audit procedure to be inaccurate, the School shall be responsible for any reimbursement to the State, the United States Department of Education or the District for any errors or omissions in data that the School submitted. In addition, if the Sponsor is fined or penalized for School errors, the School shall reimburse the Sponsor for the full amount. If the School fails to reimburse the Sponsor, or agree on a payment plan, within a reasonable time after expiration or exhaustion of any appeals, the Sponsor shall deduct the amount owed from the School's FTE payments. After final disposition of any appeals, the District shall deduct any such adjustments from the School's subsequent revenue disbursements evenly over the remaining months of the fiscal year or according to an agreed upon payment plan.

4.5.3 Allowable Withholding from ESE Centers

The Sponsor shall withhold two percent (2%) for enrollment of up to and including 250 students in an ESE center that meets the requirements of the rules adopted by the State Board of Education pursuant to Section 1008.3415(3). If the School serves seventy-five percent (75%) or more exceptional education students as defined in Section 1003.01(3), the percentage shall be calculated based on the unweighted full-time equivalent students. ESE administrative services covered by the administrative fee, pursuant to Section 1002.33(20), F.S., include professional development related to IEP development; access to any electronic IEP system or forms; initial evaluation for ESE placement; and other supports and services as agreed to by the School and the District in this Charter.

4.6.2 Initial Year Payment Procedures for New Charter Schools

For new charter school in the initial year of operation, payments will be made as required by the law. July through October payment shall be based on the School's projected enrollment as described on the cover sheet of the approved Application if a minimum of seventy-five (75) percent of the projected enrollment is entered into DSIS by the first day of the current month. Otherwise, or if the School's enrollment exceeds its projected enrollment, the Sponsor shall fund the School based on the number of students actually entered in DSIS as of the first day of the current month, not to exceed the Annual Enrollment Capacity. Thereafter, the results of full-time equivalent student membership surveys shall be used in adjusting the amount of funds distributed monthly to the School for the remainder of the fiscal year. Additional documents (e.g., student enrollment forms, student transfer forms, Integrated Student Information System rosters) may be required or requested to support the School's projections. Payments will be adjusted retroactively for prior period adjustments.

4.6.3 Payment Calculations for Subsequent Charter Years

- (i) The Sponsor may initially calculate monthly distributions to the School for up to four (4) months based on full-time (FTE) student enrollment distribution as of the prior year February FTE report.
- (ii) If enrollment at the end of the second week of student attendance fluctuates by twenty percent (20%) or more from prior year February FTE, then monthly distributions shall be proportionally adjusted. Thereafter, the

results of the official FTE student surveys will be used in adjusting the amount of FEFP funds distributed to the School.

4.6.4 Payment Adjustments for Sponsor Services and Penalties

Payments may be adjusted for any amounts due the Sponsor for services provided, expenditures incurred by the Sponsor on behalf of the School, and any fines or penalties levied against the Sponsor because of the School's errors during the current or previous years, as well as for administrative oversight.

The District shall make every effort to ensure that the School receives timely and efficient reimbursement of funds. Other than those payments provided for in this Contract, for which other requirements for timely payments have been made, the payment shall be issued no later than ten (10) working days after the District receives a distribution of state or federal funds. If a warrant of payment is not issued within ten (10) working days after the receipt of funding by the District, or the due date set forth in this Charter, the District shall pay to the School, in addition to the amount of the scheduled disbursement, interest at a rate of one percent (1%) per month calculated on a daily basis on the unpaid balance from the expiration of the ten (10) day period until such time as the warrant is issued. Late payments are subject to interest at the rate of 1% per month calculated on a daily basis until paid. Payment shall be made only to the account in an FDIC insured Active Qualified Public Depository account or a State-approved depository specified by the Governing Board.

4.6.6 Enrollment Capacity and Facility Compliance for Payments

Payment shall not be made for students in excess of the School's enrollment capacity, the School's valid facility capacity as determined by the School's Certificate of Occupancy, Certificate of Use, and/or Fire Permit (whichever is less) or this Contract. In the event that the required County and/or municipality facility permits do not indicate a facility capacity, the School must submit an official letter from the local jurisdiction confirming facility capacity certification by the Registered Architect. Where the local jurisdiction does not or is unable to issue an official determination of allowable capacity, the School may take one of the actions stated in this Contract. In the event of a State holdback or a proration which changes District funding, the School's funding will be adjusted proportionately to the extent required by the law. The Sponsor will not be responsible for any liabilities incurred by the School in the event of a State holdback. Notwithstanding the foregoing, distribution of FTE funds may be withheld, upon written notice by the Sponsor, if any of the following required documents are more than thirty (30) day overdue unless otherwise agreed or extended:

- (i) The School's monthly/quarterly financial statement as required by State Board of Education Rule 6A-1.0081, F.A.C.
- (ii) The School's annual financial audit as required by Section 218.39, F.S and this Charter.

The Sponsor shall release, in full, funds withheld under this provision within ten (10) days of receipt of the documents that resulted in the withholding of funds.

4.7 Summer School Provision

The School may choose to provide a summer school program using State allocated funds. All students attending a summer school session must be reported in FTE Survey 1 and Survey 4, as required by law. In the event that a student enrolled in the School attends any of the Sponsor's summer school programs, and the summer school program is not funded through Title I, the School shall reimburse the Sponsor for the cost of each student's summer school program, as determined by the Sponsor. If the School fails to comply with this provision within a reasonable time, the Sponsor may deduct the appropriate amount from the School's subsequent FTE or Federal funding payments.

No funds shall be collected until the School has been given written approval from the Sponsor. Additional fees shall not be imposed without the notification and approval of the Sponsor. Fees shall not be a barrier to enrollment. Non-payment of fees shall not be a basis for dismissal or non-re-enrollment. Upon approval of the fee schedule, all fees collected must be reported and recorded appropriately using proper accounting procedures as required by law. Any fees that are solicited, required, or accepted in violation of this paragraph shall

be returned to the parent or guardian.

SECTION 12: MISCELLANEOUS PROVISIONS

12.1 Impossibility

Neither party shall be considered in default of this Contract if the performance of any section or all of this Contract is prevented, delayed, hindered or otherwise made impracticable or impossible by reason of any strike, flood, hurricane, riot, fire, explosion, war, act of God, sabotage, accident, public health crisis, or any other casualty or cause beyond either party's control, and which cannot be overcome by reasonable diligence and without extraordinary expense.

12.2 Entire Agreement

This Contract shall constitute the full, entire, and complete agreement between the parties. All prior representations, understandings, and agreements whether written or oral are superseded and replaced by this Contract. This Contract may be altered, changed, added to, deleted from, or modified only through the voluntary, mutual consent of the parties in writing. Any substantial amendment to this Contract shall require approval of the Sponsor and the School's Governing Board.

12.3 No Assignment

This Contract shall not be assigned by either party. The School may, without the consent of the Sponsor, enter into contracts for services with an individual or group of individuals organized as a partnership or cooperative so long as the School remains ultimately responsible for those services as set forth in this Contract.

12.4 No Waiver

No waiver of any provision of this Contract shall be deemed or shall constitute a waiver of any other provision unless expressly stated. The failure of either party to insist in any one or more instances upon the strict performance of any one or more of the provisions of this Contract shall not be construed as a waiver or relinquishment of the term or provision, and the same shall continue in full force and effect. No waiver or relinquishment to any provision of this Contract shall be deemed to have been made by either party unless in writing and it is signed by both parties. No waiver or relinquishment of any right or privilege applicable under law shall be deemed to have been made unless the right or privilege is expressly described in a writing and signed by the party waiving or relinquishing the right or privilege.

12.5 Default Including Opportunity to Cure

Non-compliance with any of the terms and conditions of this Contract may constitute good cause for termination. After written notice of default under any provision hereto, absent any circumstance permitting immediate termination, the School shall have an opportunity to cure.

12.6 Survival Including Post-Termination

All representations and warranties made in this Contract shall survive termination of this Contract.

12.7 Severability

If any provision or any section of this Contract is determined to be unlawful, void or invalid, that determination shall not affect any other provision or any section of any other provision of this Contract and all remaining provisions shall continue in full force and effect.

12.8 Third Party Beneficiary

This Contract is not intended to create any rights of a third-party beneficiary. This clause shall not be construed, however, as contrary to any statutory or constitutional right

possessed by a member of the community, a student, or parent/guardian of a student at the School.

12.9 Choice of Law, Venue, and Jury Waiver

This Contract is made and entered into in the State of Florida and shall be interpreted according to the laws of Florida, with venue in Miami-Dade County. The parties mutually agree that the language and all parts of this Contract shall in all cases be construed as a whole according to its fair meaning, and not strictly for or against any of the parties. The parties forever waive the right to trial by jury for any and all litigation between the parties arising out of or related to this Charter. The parties agree to have any such dispute settled by a judge alone, without a jury.

12.10 Authority

Each of the persons executing this Contract represent and warrant that they have the full power and authority to execute the Contract on behalf of the party for whom he or she signs and that he or she enters into this Contract of his or her own free will and accord and with his or her own judgment, and after consulting with anyone of his or her own choosing, including but not limited to his or her attorney. The School and the Sponsor both represent that they have been represented in connection with the negotiation and execution of this Contract, and they are satisfied with the representation.

12.11 Conflict/Dispute Resolution

12.11.1 Contractual Conflicts

If a conflict arises out of the terms, construction, or rights or obligations contained in this Contract, the Sponsor or the School may either use the Dispute Resolution Procedure (Appendix Z), or the procedure in Section 1002.33(7)(b) F.S., as applicable. This provision does not apply to non-renewals or terminations.

In the event of any conflict between the provisions of this Contract and any appendix, this Contract shall prevail.

12.12 Conflict Between Charter and Florida Law

In any case where this Charter conflicts with Florida law, the terms of the applicable statute or rule will control over the charter.

12.13 Citations

School Board Policies agreed to by the School in this Charter may be amended from time to time. Pursuant to law, the School may opt out of any Sponsor policy, upon amendment of the policy or otherwise, subject to the Sponsor's contract amendment process as required by law or this Charter. Whenever a Florida Statute or State Board of Education Rule is referenced in this Charter, it shall be construed to mean the statute or rule as it is amended from time to time. The Sponsor's policies will not control this Charter or be incorporated herein absent written consent of the Governing Board, or as required by law, unless the School has agreed to such policies in the approved Application or this Charter. The School's failure to comply with State law or rule will constitute grounds for termination of this Contract.

This Charter is the product of negotiation between the parties and therefore the terms of this Charter shall not be construed against either party as the drafter.

KENDALL GREENS HIGH SCHOOL (MSID #7516) FIRST RENEWAL CONTRACT

SECTION 1: GENERAL PROVISIONS

This Renewal Charter School Contract (Contract or Charter) entered into as of the 22nd day of April 2026, between The School Board of Miami-Dade County, Florida, (Sponsor or School Board), and Florida High School for Accelerated Learning - Miami Campus, Inc., a non-profit corporation organized under Chapter 617, F.S., d.b.a., Kendall Greens High School (School). This Contract is limited to Kendall Greens High School (MSID 7516). This Contract is effective upon approval by the parties.

1.1 Approved Application

The official Charter School Application approved by the School Board on July 24, 2019, is attached hereto as Appendix A. The initial contract was approved by the School Board on June 23, 2021. All attached appendices are incorporated by reference and constitute part of this Charter. In the event of any conflict between the Application and any other provision of this Charter, the Charter provision shall control. In the event the Contract has not been approved/entered into, then the Application will be deemed withdrawn, and no further action will be taken with respect to the Contract.

1.2 Term of Charter

The term of this Charter renewal shall be ten (10) years, commencing July 1, 2026, and ending June 30, 2036. In the event of expiration, the term shall be automatically extended on a month-to-month basis until the Charter has been renewed, non-renewed, or terminated by the Sponsor. If the parties cannot reach agreement on the terms of a new contract, either party may request mediation from the Florida Department of Education (FDOE), pursuant to Section 1002.33(7)(b), F.S. If the Commissioner of Education determines that the dispute cannot be settled through mediation, the dispute may be appealed to an administrative law judge appointed by the Division of Administrative Hearings. The administrative law judge has final order authority to rule on the dispute, including whether proposed provisions of the Charter violate the intended flexibility granted charter schools by statute.

1.2.1 Start-Up Date and School Calendar

- (A) **School Opening Date.** For the first year of operating under this Charter, the School shall begin classes on the same day as the Sponsor or at such other time as otherwise determined by the Governing Board. The School cannot open absent submission of all required documents listed in the District's Pre-Opening Checklist (Appendix AA). Pursuant to law, the School may defer the opening of its operations for up to three (3) years to provide time for adequate facility planning. A charter school that elects to defer opening

must provide written notice of such intent to the Sponsor and the parents of enrolled students at least thirty (30) calendar days before the first day of school indicating (1) the deferral status as provided by law, and (2) the proposed first day of school. The first two (2) planning years will extend the term of this Contract. By March 1st of the year they were approved to open, a charter school that indicates they will defer opening must provide the District with a status report to include a timeline of all key operational items and milestones. The charter school shall continue to provide periodic status reports and make allowances for site visits. Failure to open the School: (1) on the day indicated in this Contract, (2) on the day indicated in the school's deferral notice, or (3) after all available deferral years will result in this Contract becoming null and void.

- (B) **Academic Calendar.** For a new charter school, the School's calendar shall be consistent with the beginning of the Sponsor's school calendar for the first year of operation. For every year thereafter, and for all other charter schools, if the School's calendar differs from the Sponsor's public-school calendar, including the instructional days, the School shall provide reasonable notice and submit the proposed calendar to the Sponsor and parents of enrolled students prior to the start of the school year. Any calendar changes that differ from the Sponsor's calendar, must be provided upon request and approved by the Sponsor prior to implementation. Calendar modifications may incur a processing fee at a rate no greater than the Sponsor's actual cost.
- (C) **Required Instructional Minutes.** Instructional minutes shall be a minimum of 300 minutes per day or as required by current law. The hourly equivalent for Kindergarten through Grade 3 is 720 instructional hours and 900 instructional hours for students in Grades 4 through 12. Schools operating on a double-session calendar must be approved by the FDOE. Survey periods for Year-Round School Programs shall be the same as for the regular fiscal year. Year-round schools shall report the first ninety (90) days of their regular 180-day school year in Survey 2 and the second 90 days of their regular 180-day school year in Survey 3, regardless of when the tracks are in session.

1.2.2 Charter Modification

This Contract may not be modified unless approved by both parties in writing pursuant to School Board Policy 9800, *Charter Schools* (Appendix B). No contract modifications shall be enforceable unless it is in writing and approved by both the Governing Board and the Sponsor. If the modification involves changes to the grade

levels, except as provided by law for high-performing charter schools, the School must provide information acceptable to the Sponsor relating to operational capacity, curriculum, budget, facilities, and staff. Certain amendments related to high-performing charter school contracts are governed by Section 1002.331, F.S. and are also in accordance with the charter contract amendment process contained in School Board Policy 9800, *Charter Schools*.

1.2.3 Charter Renewal

- (A) **Renewal Notice.** This Charter may be renewed as provided for in Section 1002.33, or 1002.331, F.S. No later than September 15th in the final academic year of this charter, a Sponsor shall provide notice to the School regarding the process and timeline for completing the programmatic review required under s. 1002.33(7)(c)1., Florida Statutes.
- (B) **Renewal Review and Evaluation.** Prior to renewal of this Charter, the Sponsor shall perform a review to determine the level of success of the School's educational program, organizational performance, financial performance and achievement of the goals and objectives required by State accountability standards and successful accomplishment of the criteria under Sections 1002.33(7)(a) and (8)(a) F.S., compliance with the terms of the Charter, and that none of the statutory grounds for nonrenewal exist. Upon completion of the programmatic review, but no later than ninety (90) days prior to the end of the charter term, the Sponsor shall notify the Governing Board of the Charter School in writing of the proposed action to renew, terminate, or non-renew the Charter, pursuant to Section 1002.33(8)(a), F.S.
- (C) **Renewal Packet Submission.** Any charter school seeking renewal shall complete a Charter Renewal Packet as provided by the Sponsor's renewal process.
- (D) **Renewal Term and Approval.** Renewals may be approved for a term up to five (5) years unless another term is mutually agreed upon, required, or allowed by law. Upon approval, the Contract will be renewed following the contract negotiation process in current School Board policy and as required by law.
- (E) **Periodic Review and Evaluation:** The Sponsor may annually evaluate the School on its performance and progress, including academic achievement goals. The Sponsor may conduct a High-Stakes Review, as needed and/or upon charter renewal, and transmit the findings of the review to the Governing Board of the School. If the term of this Charter exceeds five years, the Sponsor may conduct a High-Stakes Review at least every five

years and may transmit the findings of the review to the Governing Board of the School.

1.3 Termination or Non-Renewal

This Contract may be terminated or non-renewed during its term for any reason pursuant to State law or this Contract. Notices of non-compliance, non-renewal, or termination, cancellation and default are issued in accordance with the procedures set forth in this Charter and as otherwise required by law.

1.3.1 Causes for Termination or Non-Renewal

The Sponsor shall make student academic achievement for all students the most important factor when determining whether to renew or terminate this Charter. The Sponsor may choose not to renew or terminate this Charter if it finds that any of the following grounds below exist by clear and convincing evidence, as set forth in Section 1002.33, F.S.

- (i) failure to participate in the State's education accountability system created in Section 1008.31, F.S., as required in this section, or failure to meet the requirements for student performance established pursuant to this Charter;
- (ii) failure to meet generally accepted standards of fiscal management due to deteriorating financial conditions or financial emergencies determined pursuant to s. 1002.345, F.S.;
- (iii) material violation of law;
- (iv) if insufficient progress has been made in attaining the student achievement objectives of the charter and if it is not likely that such objectives can be achieved before expiration of the charter;
- (v) if the School earns two consecutive grades of "F" after all school grade appeals are final except otherwise provided in Section 1002.33, F.S.
- (vi) failure to cure a material breach of any term or condition of this Charter after written notice of non-compliance.

1.3.2 Causes for Immediate Termination

Pursuant to Section 1002.33(8)(c), this Charter may be terminated immediately if the Sponsor determines that an immediate and serious danger to the health, safety, or welfare of the School's students exists. Lack of a facility meeting the requirements of law in which to operate the School may constitute an immediate and serious danger to the health, safety, or welfare of the School's students.

1.3.3 Procedures for Termination or Non-Renewal

(A) Sponsor Notification Responsibilities. The Sponsor shall notify the School's Governing Board and principal in writing at least ninety (90) days prior to non-renewing or terminating the Contract. The notice shall comply with the requirements of Section 1002.33, F.S., state in reasonable detail the

grounds for the proposed action and stipulate that the Governing Board may request a hearing within fourteen (14) calendar days of receiving the notice.

- (B) **Hearing Request.** The School's Governing Board may request an administrative hearing before the Florida Division of Administrative Hearings (DOAH). This request must be authorized by a vote of the Governing Board in a legally advertised public meeting with a quorum present. Minutes or an adopted resolution documenting the action must be submitted with the request. The School shall file the request with the School Board Clerk pursuant to School Board Policies 0133, *Quasi-Judicial*, 9800, *Charter Schools*, and Section 120.54(5)(b), F.S. Legally sufficient requests shall be forwarded to DOAH. The DOAH hearing will be conducted pursuant to Florida Statute 1002.33, and Chapter 120, F.S. Following the DOAH hearing, the administrative law judge shall submit a final order to the Sponsor. For purpose of notice, the Charter School's Governing Board is the last roster submitted by the School to the Sponsor.
- (C) **Continued Operations During Proceedings.** The School's Governing Board shall continue to operate the School until a final order terminating the charter is issued, during which time all provisions of this Contract shall remain in effect. The closing date shall be negotiated between the Sponsor and the School, unless otherwise provided for in a final order.
- (D) **Expenditures.** Upon notification of non-renewal or termination, the School may not expend more than \$10,000 per expenditure without prior written approval from the Sponsor unless the expenditure was included within the annual budget submitted to the Sponsor, is for reasonable attorney fees and costs during the pendency of any appeal, or reasonable fees and costs to conduct an independent audit.

1.3.4 Procedures for Immediate Termination

- (A) **Sponsor Notification Responsibilities.** The Sponsor's determination is subject to the procedures set forth in paragraph 1.4.2(A), except that the hearing may take place after the charter has been terminated. Upon immediate termination, the Sponsor shall notify the School's Governing Board chair, principal, and the FDOE in writing, detailing the specific facts and circumstances demonstrating the existence of such danger, explaining why the danger is likely to continue, and stating why immediate termination of the Charter is necessary to protect the health, safety, or welfare of the students, pursuant to Section 1002.33(8)(c), F.S.
- (B) **Hearing Request.** The Sponsor's determination is subject to the 90-day termination procedures in this Charter, except that, upon receiving written

notice from the Sponsor, the Charter School's Governing Board has ten (10) calendar days to request a DOAH hearing. The hearing may take place after the charter has been terminated.

- (C) **Operation of the School.** The Sponsor shall assume operation of the school throughout the pendency of the hearing as provided for in Section 1002.33(8)(d), F.S., unless the continued operation of the School would materially threaten the health, safety or welfare of the students. Lack of a facility meeting the requirements of law may constitute a material threat to the health, safety, or welfare of the students. The Sponsor may seek an injunction in the circuit court in which the Charter School is located to enjoin continued operation of the Charter school if continued operation would materially threaten the health, safety, or welfare of the students. If the School has no facility at the time of termination, the Sponsor is not obligated to operate the School.

- (a) **Access to Records and Facilities.** Upon receipt of notice of immediate termination, the School shall immediately provide the Sponsor access to the School's facilities along with security system access codes and access codes for all School-owned or leased computers, software, networking, switching and all other technical systems in the School's facilities or remotely located areas serving the School, and shall make accessible to the Sponsor all student, educational, operational, and administrative records of the School including those held by third parties. Moreover, within two (2) business days, the School shall turn over to the Sponsor all records, information, receipts and documentation for all expenditures of public funds held by the School, including but not limited to Federal grants such as Title I and charter school grants, and grant the Sponsor access to the School's bank accounts which contain public funds, storage facilities, and all public property. The Sponsor shall assume operation of the school throughout the pendency of the hearing as provided for in s. 1002.33(8)(d), Florida Statutes, unless the continued operation of the School would materially threaten the health, safety or welfare of the students. Failure by the Sponsor to assume and continue operation of the School shall result in the awarding of reasonable costs and attorney's fees to the School if the School prevails on appeal. If the School prevails in an appeal through a final adjudication by an administrative law judge or by a final adjudication and mandate by the appellate court if an appeal to

the appellate court is filed, the Sponsor shall, immediately, return to School all keys, security codes, all educational and administrative records of the School, and the School's facility. In that case, the School's Governing Board shall resume operation and oversight of the School.

- (b) **Employees of the School.** The School's instructional and operational employees may continue working in the School during the time that the Sponsor operates the School at the Sponsor's option but will not be considered employees of the Sponsor. Any existing employment contracts that any School personnel may have with the School may not be assumed or transferred to the Sponsor or any entity created by the Sponsor during the assumption of operations of the School unless the Sponsor or its entity, and the School, agree otherwise. The Sponsor may take any appropriate personnel action regarding the School's employees.
- (c) **Disbursement of Funds.** The Sponsor shall only disburse school funds in order to pay the normal expenses of the School as they accrue in the ordinary course of school business. The Sponsor is not required to use its own funding resources to pay the School's debts.

1.3.5 School Election to Terminate or Non-Renew

If the School elects to terminate or non-renew the Charter, it shall provide reasonable prior notice of the election to parents of enrolled students, the Sponsor, and the FDOE, indicating the final date of operation as voted by the Governing Board at a publicly noticed meeting. A board resolution, signed by the School's Governing Board chair and secretary indicating support of this action, shall accompany the written notification provided to the Sponsor. The School agrees that such notification shall be considered a voluntary termination by the Governing Board and a waiver of its right to a hearing or appeal and that this voluntary termination shall not be reversed. Additionally, all post-termination provisions incorporated in this Contract shall apply.

1.3.6 Removal of Public Property

Upon notice of termination or non-renewal, the School shall not remove any public property, as defined in this Contract, from the premises without written Sponsor approval.

1.4 Post-Termination Provisions

1.4.1 Dissolution of School

The School shall be dissolved under the provisions of law under which the School was organized. Copies of all administrative, operational, and financial records of

the School shall be provided to the Sponsor on or before the date the termination/non-renewal takes effect. The School shall also provide to the Sponsor the School's security system and technology access codes.

1.4.2 School Debt

If this Charter is not renewed or is terminated, the School shall be responsible for all the debts of the School. The Sponsor shall not assume the debt from any contracted services made between the Governing Body of the School, the Management Company, and/or third parties, including lease or rental agreements, except for a debt previously detailed and agreed upon, in writing, by both the Sponsor and the Governing Board and that may not reasonably be assumed to have been satisfied by the Sponsor. In no event shall the District be responsible under any assignment of a lease for any debts or obligations of the School incurred prior to such assignment.

1.4.3 Leases with the District

In the event of termination or non-renewal of this Charter, any and all leases existing between the District and the School shall be automatically cancelled, unless the lease provides otherwise.

1.4.4 Student Transfers and Records

In the event of termination or non-renewal, any students enrolled at the School may be enrolled at their home District school, or any other school, consistent with the District's student transfer procedures including transfer of all student records to the receiving school. Upon termination or closure of the School, all student education records shall be transferred immediately to the receiving school or the Sponsor for processing and maintenance, as directed by the Office of Charter School Compliance and Support (CSCS).

1.4.5 Disposition of Assets and Unencumbered Funds

All assets of the School purchased with public funds (except for capital funds and federal charter school program grant funds), including supplies, furniture and equipment, shall automatically revert to full ownership by the Sponsor, subject to complete satisfaction of any lawful liens or encumbrances. Any unencumbered public funds from the School, Sponsor property and improvements, furnishings, and equipment purchased with public funds, or financial or other records pertaining to the School, in the possession of any person, entity, or holding company, other than the School, shall be held in trust upon the Sponsor's request, until any appeal is resolved, and proper distribution of the property is determined. If the School's accounting records fail to clearly establish whether a particular asset was purchased with public funds, then it shall be presumed public funds were utilized and ownership of the asset shall automatically revert to the Sponsor (subject to any

lawful liens and encumbrances). Property and assets purchased with public funds shall be defined as those goods purchased with grants and funds provided by a governmental entity. Public funds provided by the School and used by a management company to purchase property and assets for the School are considered public funds.

1.4.6 Final Audit

Pursuant to s. 1002.33, F.S., upon notice of non-renewal, closure, or termination, an independent audit shall be completed within thirty (30) days to account for all public funds and assets. During the fiscal year in which termination or non-renewal occurs, the School Board of Miami-Dade County shall withhold from the School's Florida Education Finance Program (FEFP) funds, without penalty or interest, an amount necessary to pay for a final independent financial audit of the School. The audit shall be conducted by an independent certified public accountant.

1.5 General Statutory Requirements

1.5.1 Non-Discrimination

The School shall not discriminate in educational programs/activities or employment and shall provide equal opportunity for all as required by all applicable Federal, State and local laws, rules, regulations and court orders. The School shall designate a Title IX Coordinator in accordance with 34 C.F.R. § 106.8 to coordinate its compliance with Title IX of the Education Amendments of 1972, 20 U.S.C. § 1681, et. seq. and 34 C.F.R. Part 106. The School shall designate a Section 504 Coordinator to coordinate its compliance with Section 504 of the Rehabilitation Act of 1973, 29 U.S.C. § 701, et. seq. and 34 C.F.R. Part 108, subpart D.

The School shall comply with those statutes that specifically apply to charter schools as set forth in Section 1002.33 generally, subsection 1002.33(16), and other applicable State laws. The School agrees that it will abide by all Federal and State laws, statutes, rules, and regulations applicable to charter schools and also abide by the terms and conditions of the Charter.

SECTION 2: EDUCATIONAL PROGRAM

2.1 Academic Accountability

2.1.1 Incoming Baseline Standard of Student Academic Achievement

The School will establish the current incoming baseline standards of student academic achievement, the outcomes to be achieved, and the method of measurement that will be used, as described in the approved Application or otherwise described in this Contract, in a format provided by the Sponsor.

2.1.3 Academic Progress Rates for Comparable Student Populations

By September 15 of each year, the Sponsor shall provide the School the rates of academic progress for the prior year for comparable student populations in the District. The data shall include proficiency and growth on state assessments for English Language Arts and Mathematics by grade grouping (grades 3-5, 6-8, 9-12) for the following student groups:

- i. Students scoring a level 1 on prior year assessment
- ii. Students scoring a level 2 on prior year assessment
- iii. Students scoring a level 3 or higher on prior year assessments
- iv. Students with disabilities
- v. English Language Learners

2.1.4 Academic Achievement Goals

- (A) **First Year of Operation.** By October 15 of the first year of the School's operation, the School shall provide its proposed academic achievement goals for the current year to the Sponsor. The academic achievement goals shall include, at a minimum, growth and proficiency on state assessments, and may include performance on additional assessments included in the approved Application. If the School will not serve students in grades that participate in the statewide assessments the academic achievement goals shall be based on the assessments included in the approved application, and at least one assessment administered in traditional public schools in the District.
- (B) **Subsequent Charter Years.** By October 15 of the second year of the School's operation, the School shall provide its proposed academic achievement goals for the remaining years of the Charter, up to a maximum of four years or the end of the current Charter term, whichever occurs first, using the same parameters and testing set forth in this Contract. Schools that have contracts in excess of five years shall resubmit proposed academic achievement goals every four years pursuant to the process described in this paragraph.
- (C) **Sponsor Review.** The Sponsor shall review the proposed academic achievement goals within 30 days of receipt. If the Sponsor does not accept the proposed academic achievement goals, it shall provide the School a

written explanation. If the Sponsor does not respond within 30 days of receipt, the academic achievement goals are deemed accepted. If the School and Sponsor cannot agree on academic achievement goals, either party may request mediation pursuant to Section 1002.33(6), F.S. The goals may be adjusted at any time upon mutual written consent of both parties.

(D) **Governing Board Approval.** The School's Governing Board shall review and approve the goals and objectives prior to its final submission. Minutes documenting approval must be taken and posted on the School's website pursuant to Section 1002.33(9)(p)1.

(E) **Performance Reporting.** Annually, the School shall report its performance against the academic goals in the format requested by the Sponsor. The School agrees to allow the Sponsor reasonable access to its facilities and records to review its data sources in order to assist the Sponsor in making a valid determination about the degree to which student performance requirements have been met, as stated in this Charter, and as required by Sections 1008.31 and 1008.345, F.S. Furthermore, the School shall allow the Sponsor to collect data through other means such as survey to conduct required research and/or evaluations. The Sponsor shall not impose additional reporting requirements on the School without providing reasonable and specific justification in writing to the School and the School shall provide required responses/data within the timelines that allow the Sponsor to meet required deadlines. If the School falls short of the academic achievement goals set forth under the provisions of this Charter, the Sponsor shall report such shortcomings to the School's Governing Board and FDOE. The School and Sponsor may agree to adjust the goals through the same process set forth in this Section. Failure to make sufficient progress in attaining the student achievement objectives of the Charter, and it is not likely that such objectives can be achieved before expiration of the charter term, may constitute good cause for termination or non-renewal of this Charter.

2.2 Performance Improvement Requirements for Low-Performing Schools

2.2.1 School Improvement Plan (SIP)

(A) **Schools that Earn a Grade of "D" or "F."** Pursuant to Section 1002.33(9), if the School earns a grade of "D" or "F," the director and a representative of the Governing Board must appear before the Sponsor to present information regarding contract components with noted deficiencies. The Governing Board representatives must submit a SIP to the Sponsor for

approval, outlining strategies to improve student performance and begin implementation of the SIP upon the Sponsor's approval.

- (B) **Schools Identified for Support by the FDOE.** If the School is identified by the FDOE (under the Every Student Succeeds Act) to be included in the list of schools for comprehensive support and improvement (CS&I), additional targeted support and improvement (ATSI), or targeted support and improvement (TS&I), it must develop and implement a SIP approved by the Governing Board and the Sponsor. Upon Approval by the Sponsor the charter school shall begin implementation of the SIP.
- (C) **Posting and Monitoring of Approved School Improvement Plans.** Minutes documenting SIP approval must be posted on the School's website pursuant to Section 1002.33(9)(p)1., F.S. The Governing Board shall monitor the implementation of the SIP.
- (D) **Failure to Submit a Required SIP.** Failure to timely submit the School Improvement Plan (SIP) to the Sponsor, if applicable, as required by law, may constitute cause for termination of this Contract.

2.2.2 Corrective Actions

- (A) **Selection of Corrective Actions.** If the School earns three consecutive grades below a "C," the School's Governing Board must select and implement one of the following corrective actions:
 - (i) Contract with an outside entity to provide educational services directly to students, instructional personnel, and school administrators, as prescribed by State Board of Education rules.
 - (ii) Partner with an external organization with a demonstrated record of effectiveness to operate the school.
 - (iii) Reorganize the school under new leadership, such as a new director or principal, who is authorized to hire new staff.
 - (iv) Voluntarily close the charter school.
- (B) **Implementation Timeline.** The selected corrective action must be implemented during the school year immediately following the receipt of the third consecutive grade below a "C." If the School improves to a grade of "C" or higher, the corrective action is no longer required. However, the School must continue implementing the strategies outlined in its school improvement plan, subject to annual monitoring by the Sponsor.
- (C) **Waiver and Termination.** The Sponsor may waive the corrective action annually if it determines that the School is likely to improve its grade with additional time to implement strategies outlined in the school improvement plan. However, a school earning two consecutive grades of "F" is subject to

immediate interventions under subparagraph 3. The School is no longer required to implement a corrective action if it improves its grade to a “C” or higher. However, the School must continue implementing strategies identified in its school improvement plan and the sponsor must annually review the School’s implementation of the plan to ensure continued improvement.

- (D) **Selection of a New Corrective Action.** If the School fails to improve to a grade of “C” or higher after two full school years of implementing a corrective action, the Governing Board must select a new corrective action to begin the following school year unless the Sponsor determines that additional time is likely to result in the School achieving a “C” or higher under the existing corrective action.
- (E) **Immediate Interventions.** Notwithstanding this subparagraph, a school earning two consecutive grades of “F” while implementing a corrective action is subject to immediate interventions under Section 1002.33(9)(n)3, F.S.

The School shall advise each student of courses through which a secondary student can earn college credit, including Advanced Placement, International Baccalaureate, Advanced International Certificate of Education, dual enrollment, early admission, and career academy courses and courses that lead to industry certification, as well as the availability of course offerings through virtual

instruction. Courses will be offered in accordance with the approved Application or Renewal Packet. To meet this requirement, each school that offers these options may provide courses through virtual instruction, if the virtual course significantly integrates postsecondary level content for which a student may earn college credit, as determined by the Florida Department of Education, and for which a standardized end-of-course assessment, as applicable and approved by the department, is administered.

2.5.2 Dual Enrollment (DE)

Pursuant to Section 1007.271, F.S., the School may provide dual enrollment opportunities to any student meeting the eligibility requirements and expressing the desire to enroll.

The School shall also develop and implement a plan to inform all secondary students and their parents of dual enrollment opportunities as an educational option and mechanism for acceleration and shall ensure that dual enrollment courses taught on the high school campus will not be combined with any high school course. This agreement shall include the method of payment between the School and the postsecondary institution and shall be submitted annually to the Florida Department of Education and the Sponsor by August 1st.

The School will adopt, and implement with fidelity, the Sponsor's student progression plan (Appendix D) in effect for the current operational year. If the School elects to develop and adopt its own plan, it must secure approval from its Governing Board before submitting the plan to the Sponsor for approval. Once approved, the plan shall be attached herein as Appendix E. If the School opts to develop and implement their own SPP, the School shall establish a policy for determining that a student has satisfied the requirements for graduation that is consistent with the provisions of Florida law and shall inform the Sponsor of this policy and/or any changes to a previously adopted policy at least one (1) month prior to the beginning of the school year. The School's student promotion policy shall be consistent with the provisions of the Application and applicable Florida law. Failure to comply with this provision may result in withholding of Full-Time Equivalent (FTE) until compliance.

Secondary schools shall notify the parent and students of the School's accreditation status and the implications of non-accreditation in (a) the School's student enrollment form; (b) the Parent/Student Handbook; and (c) and Parent/Student contract. The notification must also be prominently displayed at all times on the School's website.

2.6.5 Compliance with Student Progression Requirements

Failure of secondary charter schools to comply with applicable Sections of 1003.42 and 1008.25, F.S. (Public School Student Progression; Student Support; Reporting Requirements) if not timely cured after written notice, may constitute good cause for termination of this Charter.

2.7 English Language Learners

2.7.1 Plan Adoption and Approval

The School will adopt the District's English Language Learners Plan (Appendix F) in effect for the current operational year, and which meets the requirements of the League of United Latin American Citizens (LULAC) et al. v. State Board of Education Consent Decree. If the School elects to implement its own plan, approved by its Governing Board, it is attached hereto as Appendix G. The plan must include sufficient information and detail to allow the Sponsor to determine legal sufficiency.

2.7.2 Services for English Language Learners

Students at the School who are English Language Learners (ELL) will be served by English for Speakers of Other Languages (ESOL) endorsed or certified personnel. Failure to comply with all applicable laws ordinances, and codes of Federal, State, and locale governance including, without limitation, the Individuals with Disabilities Education Act (IDEA) and applicable laws relating to English Language Learners (ELL) if not timely cured after written notice constitutes good cause for termination of this Charter.

2.8 Exceptional Student Education

2.8.1 Program Requirements

Exceptional students shall be provided with programs implemented in accordance with applicable Federal, state, and local policies and procedures; and, specifically, the Individuals with Disabilities Education Act (IDEA), Section 504 of the Rehabilitation Act of 1973, Sections 1000.05 and 1001.42(4) (l) of the Florida Statutes, and Chapter 6A-6 of the Florida Administrative Code. Students with disabilities will be educated in the least restrictive environment and will be segregated only if the nature and severity of the disability is such that education in regular classes with the use of supplementary aids and services cannot be achieved satisfactorily. The School must maintain a continuum of ESE placements as indicated in the School's approved Application and Renewal Packet.

2.8.2 Non-Discrimination and Admission Procedures

The School shall not discriminate against students with disabilities in placement, assessment, identification, selection, or admission. The School shall not request a student's IEP, EP, Section 504 Plan, or other information regarding a student's special needs prior to or during the application and lottery process, nor shall the School access such information prior to or during the application and lottery process. Only schools that serve exclusively students with disabilities may request the IEP, EP, or Section 504 Plan as part of the application and lottery process to determine whether the services are compatible with the School's programmatic

model.

2.8.3 Individualized Education Plans (IEPs) and 504 Plans

The School shall conduct Individual Educational Plans (IEPs) for eligible students, to include an annual IEP meeting with the eligible student's family. Upon enrollment, or notice of acceptance sent to the student, the School may request from the District information related to the student's program and needs, including the student's most recent IEP, which shall be provided within ten (10) days.

2.8.4 Student Placement and Referral

If the School determines, upon review of the IEP, that the student's needs cannot be met at the School, the School shall contact the Sponsor's District Staffing Specialist assigned to the School for assistance with an appropriate school assignment in accordance with this Contract. After enrollment, any student who is suspected of having a disability must be referred for evaluation in accordance with this Contract, and if eligible for services pursuant to IDEA or Section 504, an appropriate IEP or Section 504 plan must be developed before the student is referred to the District for consideration of another school assignment. The Sponsor shall be invited to and may attend the meeting, at which time the IEP team shall determine whether the School is an appropriate placement for the student.

2.8.5 Civil Rights Complaints and Investigations

If the School receives a complaint filed or becomes aware of an investigation with the U.S. Office of Civil Rights (OCR) or any other governmental entity and the complaint or investigation relates to the School and could involve the Sponsor, the School shall, within one (1) school day, notify the Sponsor and provide the Sponsor any documentation from the agency (except where to give such notice would violate the law or the directions of the investigating government entity). The School shall fully cooperate with the Sponsor during any investigation and/or proceeding by the OCR or any other governmental entity that could involve the Sponsor, including providing the Sponsor with a draft response to OCR and providing all necessary relevant information and supporting documentation, and making staff available for interviews, as deemed necessary. If the written information on the complaint does not allege, or it cannot be inferred from the facts given, an allegation against the Sponsor of: (1) discrimination based on race, color, national origin, sex, disability or age, (2) discrimination in violation of the Boy Scouts of America Equal Access Act of 2001, or (3) retaliation for the purpose of interfering with any right or privilege secured by the civil rights laws and regulations enforced by OCR, or as a result of making a complaint, testifying, or participating in any manner in an OCR proceeding, the School shall submit the final version of the response directly to OCR on its own behalf with a copy provided to

the Sponsor. The School shall bear all costs, fees, reimbursements, and compensatory education associated with the investigation, including any incurred, agreed upon or awarded. Notwithstanding the aforementioned, the Sponsor shall assume or reimburse the costs attributable to, caused by or through the fault of the Sponsor, if any. Failure of the school to pay the costs, fees, reimbursements, and compensatory education within a reasonable time after the expiration or exhaustion of any appeals will result in the Sponsor deducting any amount owed from the School's FTE payments.

2.8.6 Sponsor Responsibilities

The Sponsor shall provide ESE administration services to the School, pursuant to Section 1002.33, F.S.

- (A) **Student Evaluations.** The Sponsor shall conduct initial evaluations of students referred for potential Exceptional Student Education, Gifted, Section 504 eligibility, and for the re-evaluation of Exceptional Student Education students, in accordance with Federal and State mandates. All requirements for Response to Intervention (RtI) must be followed by the School with fidelity prior to and during the evaluation process. The School and/or parents may obtain private evaluations of students at their expense. These evaluations must be considered in determining eligibility but will not necessarily substitute for an evaluation conducted by the Sponsor's personnel in a manner and timeframe consistent with that of all of the other Sponsor's schools.
- (B) **Initial LEA Representation.** A representative of the Sponsor shall serve as the Local Education Agency (LEA) Representative in all initial IEP, EP, and Section 504 Plan meetings. However, the administrator or designee in charge at the School will serve as the LEA Representative at all other annual and interim IEP, EP, and Section 504 meetings, which the School shall conduct.
- (C) **Compliance Monitoring.** The Sponsor will monitor the School for ESE compliance with applicable Federal, State, and local policies and procedures as outlined in the Exceptional Student Education Policies and Procedures (SP&P) (Appendix H). Failure to comply with Federal, State, or local law or policy, after notice and a reasonable opportunity to cure, may result in the Sponsor withholding FTE funding from the School until compliance is achieved.

2.8.7 School Responsibilities

- (A) **Disability Disclosure and Placement Determination.** The School shall not inquire about a student's disability status prior to registration/enrollment

or notice of acceptance. No later than the tenth day of the student's attendance after the point of registration/enrollment or notice of acceptance, the School shall notify the Sponsor's District Staffing Specialist assigned to the School if the IEPs, EPs, or Section 504 Plans of students who have applied and been accepted cannot be implemented at the School. The Sponsor shall be invited to and may attend the meeting, at which time the IEP team shall determine whether the School is an appropriate placement for the student. If a student's IEP, EP, or Section 504 Plan can be implemented at the School, based on the continuum of services as outlined in the application or as revised by a modification to this Contract, the student shall not be required to attend another school. All IEP changes of placement shall be based upon data and student needs.

(B) Student Support and Evaluation Protocols. The School shall initiate all Request for Assistance (RFA) and Student Support Team (SST) meetings when concerns are raised by school staff or parents about student's functioning. When a student is suspected of having a disability, the School shall make a written request to obtain parental consent for evaluation for referral to the Sponsor. If parental consent is denied or the parent fails to respond, the School must notify its legal counsel and the Sponsor for consideration of pursuing evaluation by using the mediation or due process procedures. The School shall fully implement the required RtI, IEPs, EPs, Functional Behavioral Assessments (FBA)/Social Emotional Behavior Intervention Plans (SE-BIP) and Section 504 Plans of enrolled students, including delivery of supplementary aids and services and related services, unless the IEP, EP, or Section 504 team determines that the student's needs cannot be met at the School and placement at another school within the Sponsor's district constitutes the least restrictive environment on the continuum of alternative placements. The School must follow all disciplinary procedures and policies relevant to students with disabilities, including implementation of FBAs/SE-BIPs and manifestation determinations. In no instances should a student's IEP, EP, or Section 504 services or placements be changed solely for the purpose of accommodating the School's placement options.

(C) Delivery of Educational Services and Equipment. The School shall deliver all educational related services and equipment indicated on the student's IEP, EP, or Section 504 Plan unless a determination has been made by the School and the Sponsor that the student's IEP cannot be implemented at the School. The School shall also provide related services

and equipment, e.g., speech/language therapy, occupational therapy, physical therapy, nursing, counseling, assessment instruments, assistive technology devices, transportation and therapeutic equipment.

- (D) **Evaluations and Service Delivery.** The School shall conduct the evaluations of the School's students referred for Physical Therapy (PT), Occupational Therapy (OT), Speech and Language (SL), Nursing, Assistive Technology (AT) and Functional Behavior Assessment (FAB) services with personnel qualified in accordance with State of Florida regulations and in accordance with Response to Intervention requirements. If the student is determined eligible for these services and they are added to the student's IEP or Section 504 Plan, the School shall be responsible for the provision or delivery of required services to the student. The School shall ensure that the person(s) conducting evaluation(s) attend an IEP meeting to review the evaluations when eligibility for services is determined. All evaluations must include a review of the student's educational records, including but not limited to IEP or Section 504 Plan; identification and development of goals to be supported by PT, OT, SL behavioral intervention and/or assistive technology, and/or nursing; a treatment plan for the student; and reference to supporting medical documentation if applicable. The School shall ensure that all instructional personnel and service providers review and implement the student's IEP. The School shall ensure that all service providers contribute to the student's annual and interim IEP meetings either in writing, by telephone, through electronic means, via video conferencing, or in person. Service providers must also contribute to status reports and updates on the student's IEP goals and benchmarks related to their areas of treatment. The School shall require all service providers to the student to attend orientation and in-service training on delivery of school-based services and how to support educationally relevant IEP goals. The Sponsor shall provide the orientation and in-service training. The Sponsor may conduct periodic reviews of the paperwork prepared by the service providers providing services to such students.
- (E) **Independent Educational Evaluations.** The School shall immediately notify the Sponsor if a parent requests an Independent Educational Evaluation (IEE) at public expense and work with the Sponsor to determine whether the IEE will be granted, or a due process action will be filed to defend the School's/Sponsor's evaluation. Responsibility for IEE due process litigation will be apportioned according to the type of evaluation at issue and in accordance with this Contract.

- (F) **Compliance with IDEA, Section 504, and EP Regulations.** The School shall comply with the requirements of the IDEA, Section 504, and regulations as they relate to the student's IEP/Section 504 Plan, and/or EP. The School shall ensure that the appropriate highly qualified instructional personnel of the School that are required members of the IEP committee attend all IEP, Section 504 and/or EP meetings.
- (G) **Policy for Service Animal Requests.** The Governing Board shall adopt a policy and procedure for consideration of service animal requests made to the School.
- (H) **Least Restrictive Environment.** Exceptional students shall be educated in the least-restrictive environment. Students whose needs cannot be appropriately addressed at the School as determined by an IEP, EP, or Section 504 team meeting held after enrollment, will be appropriately referred to the student's home school. The School shall contact the Sponsor's District Staffing Specialist assigned to the School and/or the Sponsor's Office of Exceptional Student Education to notify staff that the student has been referred to their home school.
- (I) **Professional Development Requirements.** The School shall make its personnel aware of professional development opportunities offered by the Sponsor's Office of Exceptional Student Education and Psychological Services departments. In addition, the School shall require all personnel assigned to implement IEPs, EPs, and Section 504 Plans to participate in meetings and/or trainings required by the Sponsor's Office of Exceptional Student Education and Psychological Services departments.
- (J) **Enforcement of Compliance.** Failure to comply with federal, state, or local law or policy, after notice and a reasonable opportunity to cure, may result in the Sponsor withholding FTE funding from the School until compliance is achieved.

2.8.8 Due Process and Dispute Resolution Procedures

- (A) **Filing and Notification.** A student, parent, or guardian who indicates that they wish to file for a due process hearing, pursuant to State law and rules shall be given the appropriate forms by the LEA attending the meeting. These forms shall also be provided upon request at any other time. Parents must file due process hearing requests with the School Board Clerk pursuant to School Board Policy 0133, *Quasi-Judicial Functions*, and the procedural safeguards posted on the Sponsor's Exceptional Student Education website. Any due process requests received by the School must be forwarded to the Sponsor's ESE Director and legal counsel on the same business day. The

Sponsor's legal counsel will ensure that all ESE due process hearing requests/complaints are filed with the Florida Division of Administrative Hearings (DOAH) and place the School on notice of the complaint. With regard to Section 504 due process requests, the Sponsor's legal counsel will evaluate the due process request and work with the School's legal counsel to determine the proper course of action in accordance with the School's and the Sponsor's procedural safeguards and hearing procedures.

- (B) **Review, Representation and Cost Responsibilities.** The Sponsor will review the due process complaint and hold an initial meeting to analyze the merits of the complaint. The School must select its own legal counsel to consult and cooperate with the Sponsor's legal counsel. The School's legal counsel will file a Notice of Appearance before the Division of Administrative Hearings within ten (10) days of the filing of the due process complaint. The School's legal counsel will participate in the initial strategy meeting with the Sponsor. Prior to the meeting, the School shall forward all relevant documentation to the Sponsor's legal counsel. Final decisions on legal strategies shall be made by the Sponsor's attorney in consultation with the School. The Sponsor's legal counsel will represent the Sponsor on all claims brought by parents related to evaluations referenced in this Contract. The School's legal counsel shall represent the School on claims related to all other evaluations, including at the School's election when the parent refuses to consent or fails to respond to the School's request for consent to evaluate. At the election of the Sponsor's legal counsel, if the School elects not to pursue a claim regarding parental refusal/failure to provide consent to evaluate, the Sponsor may elect to pursue the claim after consultation with the Sponsor's counsel. The Sponsor's legal counsel will represent the Sponsor in all cases where a District employee fulfills the role of the LEA at the staffing/IEP meeting. The School's legal counsel will represent the School on all claims related to implementation of RtI, IEPs, Section 504 Plans, EPs, Manifestation Determination decisions, and where a School employee fulfills the role of the LEA at the staffing/IEP meeting. Claims related to IEPs will be represented by counsel for whichever party is responsible for the type of evaluation at issue. The Sponsor's legal counsel will seek a dismissal of the Sponsor with regard to claims over which the Sponsor had no role (e.g., implementation claims). However, if the dismissal is denied, the Sponsor's counsel will continue to provide recommendations and work with the School's counsel as co-counsel on the pending case. The School shall pay all costs associated with the

administrative due process hearing, legal representation, discovery, court reporter, and interpreter and all appeals. In the event that the student, parents, or guardians prevail, either through a hearing, court action, or settlement, the School shall pay any and all attorneys' fees, reimbursements, compensatory education and any other costs incurred, agreed upon or awarded; however, the District shall assume or reimburse the costs of the defense attributable to, caused by or through the fault of the District, if any, as outlined above. The School's legal counsel and the Sponsor's legal counsel may participate in the resolution session only if the parent is an attorney or is represented by an attorney. If the Sponsor and the School elect to participate in mediation in lieu of a resolution session, the Sponsor's due process team will invite the legal counsels of the Sponsor and the School.
- (D) **Post-Mediation Recommendations and Cost Responsibilities.** Following the resolution session/mediation, the School shall review the recommendations of the Sponsor's due process team with their legal counsel and communicate in writing the School's position on resolution/settlement to the Sponsor's due process team. If the School opts not to follow the recommendations of the Sponsor's due process team, the School will incur all costs associated with subsequent court orders as set forth in this Contract.
- (E) **Resolution and Advancement of Due Process Hearings.** If the matter is resolved by a written agreement, the Sponsor's legal counsel will file the appropriate motions for dismissal and closure of the case. If the matter is not resolved, the legal counsel of the Sponsor and the School shall ensure that representation in the due process hearing proceeds in accordance with this Contract and the procedural safeguards posted on the School's and/or Sponsor's Exceptional Student Education website. The School and the Sponsor shall each make available to participate in all necessary stages of the litigation all staff who participated in any evaluation or reevaluation, the preparation of any IEP, the implementation of any IEP that may be at issue in the hearing.

The School shall recruit throughout all segments of the community and provide outreach materials in multiple languages appropriate to the geographical location of the Charter School. This may include direct mailings, public advertisement utilizing the local and community press and informational meetings at a variety of locations using both English and other languages where appropriate. The School will accept all eligible students in accordance with Federal and State anti-discrimination laws and in accordance with the Florida Educational Equity Act, Section 1000.05(2) (a), F.S. The School will not discriminate on the basis of race, gender, ethnicity, religion, national or ethnic origin or disability in the admission of students. The School shall implement the enrollment policies and procedures and lottery process, as described in the approved Application. The School may not request, prior to enrollment or notice of

The School shall not access, directly or through a third party, any of the Sponsor's student information unless and until the student actually enrolls in the School. Violation of this provision constitutes good cause for termination.

Failure to accept all eligible students in accordance with Federal and State anti-discrimination laws and in accordance with the Florida Educational Equity Act, Section 1000.05(2)(a), F.S. constitutes good cause for termination of this Charter.

If the number of applications exceeds the capacity of the program, class, grade level, or building, all applicants shall have an equal chance of being admitted through a random selection process. The School shall maintain documentation in accordance with applicable Florida record retention laws for each enrollment lottery conducted, as well as any student wait lists that are generated and make them available to the Sponsor upon request. Lottery documentation shall be sufficient to allow the Sponsor to verify that the random selection process was fair, equitable, and in compliance with applicable State statutes. At a minimum, the following documentation shall be maintained and available to the Sponsor upon request at all times:

3.3.2 Consent

To enroll a student, the School must obtain proof of consent from the student's parent or guardian, or from the student if the student is eighteen (18) years of age or older. The Charter School may not transfer an enrolled student to another charter school having a separate Master School Identification (MSID) Number without first obtaining the specific written approval of the student's parents/guardians before each transfer. General consent for student transfer is prohibited (e.g., consent included in a parent contract). A student may withdraw from the School at any time and enroll in another public or private school, as determined by District policy. The School shall work in conjunction with the parent(s)/guardian(s) and the receiving school to ensure that such transfers minimize impact on the student's grades and academic achievement. Failure to obtain proof of consent to enroll, withdraw, or transfer each student from the student's parent/guardian or from the student, if the student is eighteen (18) years of age or older constitutes good cause for termination of this Charter.

The School shall not enroll students in excess of the physical capacity of the building except as otherwise provided by law for schools operating multiple sessions, in which case the physical capacity of the School shall not be exceeded during any session. The Annual Enrollment Capacity of a high-performing school shall be determined by the Governing Board. No later than March 1st of each year, the School shall provide the Sponsor the proposed enrollment capacity for the subsequent school year. Monthly FTE payments shall be withheld, without interest, for students in excess of the School's annual enrollment capacity, as defined by the Contract. Failure to comply with maximum class size restrictions as required by law may constitute good cause for termination of this Charter. In the event the School defers its opening, in the student enrollment breakdown referenced in this paragraph, the initial term of the Contract shall be adjusted as permitted by law.

3.3.4 Projections

- (A) **Preliminary Enrollment Projection.** If requested, no later than November 1st of each year, the School shall provide to the Sponsor the School's preliminary projected enrollment for the following school year. The preliminary projected enrollment shall not constitute a cap on the School's enrollment for the following school year.
- (B) **Final Enrollment Projection.** The Sponsor may request that the School provide final enrollment projections for the upcoming school year no later than July 15th of each year. Final enrollment is not annual capacity, but the school's projection of how many students will be enrolled when the school year begins. The School shall not project enrollment or enroll students in excess of the physical capacity of the building, unless the School operates multiple sessions, in which case the physical capacity of the School shall not be exceeded during any session.

Each year, the School agrees to enroll an eligible student by accepting a timely application through deadlines as determined by the Governing Board and publicly advertised. If the target goal of students is not met by the deadline, and the School wishes to extend, the School will give sufficient public notice and extend the application deadline for a set time as determined and publicized by the Governing Board. If, at the 10-day count, the registered enrollment as reflected in the Sponsor's data system is less than 75 percent of the School's total projected enrollment as described in either the approved Application for the first year or as determined

under the provisions of this Charter, the School shall, upon written request by the Sponsor, submit a revised budget within thirty (30) days taking into account the reduced enrollment. Failure to provide the revised budget may constitute good cause for termination. The School's minimum enrollment for the first year of operation is: N/A. The parties agree that this is the minimum enrollment that will support the School's operations. Failure to achieve the minimum enrollment by the February FTE reporting period for the first year of operation constitutes good cause for termination or non-renewal unless the School provides the Sponsor a revised and balanced budget and a cash flow statement that are realistic and reasonable within fifteen (15) calendar days of the February FTE reporting period. A budget to support this minimum enrollment is provided in the Budget for Initial Year of Operation Based on Minimum Enrollment (Appendix I).

3.3.6 High-Performing Charter Schools

A high-performing charter school must have documentation from the Commissioner of Education designating the School as high-performing pursuant to Section 1002.331, F.S. A high performing charter school shall notify the Sponsor in writing by March 1st of the preceding year if it intends to increase enrollment beyond the enrollment stated in this charter and/or to expand grade levels the following year. The School shall not, however, enroll students beyond the facility capacity at the time the enrollment increase will take effect. The written notice shall specify the amount of the enrollment increase, the grade levels that will be added, and evidence of the official facility capacity at the time the enrollment increase will take effect. To increase enrollment and add grade levels, this Contract must be amended through the Sponsor's current charter amendment process for these types of amendments in School Board Policy 9800, *Charter Schools*, except that the Sponsor shall modify the charter within 90 days to include the new enrollment maximum and may not make any other change. The School will ensure that no pressure, coercion, negotiation, or other inappropriate inducement may be used to attempt to have parents or guardians withdraw students from the School. The School may not transfer a student unless the withdrawal or transfer is accomplished through the Sponsor's transfer policies. Students already enrolled at the School must be provided with the option to remain enrolled at the School for the following school year. Pursuant to Section 1002.33(7), F.S., admission or dismissal must not be based on a student's academic performance. Dismissing of students based on academic performance contrary to section 1002.33(10)(e)(5); constitutes a good cause for termination of this Charter.

If the School chooses to use an application other than the system in use by the Sponsor, it will be responsible for daily data entry directly into the District's student information system (DSIS) for attendance and quarterly data entry for academic, effort, and conduct grades for students. Schools that opt to use an alternative gradebook system will be required to provide some form of prior year electronic audit trail. ITS support will not be provided to schools that do not use the District's electronic gradebook system.

- (ix) When grant proposals are developed by the Sponsor's staff using student or school counts that include the School's students, and the grant is awarded to the Sponsor, the pro-rata share of the dollars or services received from that grant shall be distributed to the School, if eligible, as prescribed by the grant and defined in the budget developed for the grant; and,
- (x) The District will not advance cash to the grant recipient to cover its estimated disbursement needs. All payments will be on a reimbursement basis only.

4.3 Other Funding Sources

The School may secure funding from private institutions, corporations, businesses and/or individuals. Funding shall be properly accounted for and documented.

4.4 Student Enrollment Reporting

4.4.1 Instructional Time Requirements

Students must be reported for 300 minutes per day of instructional time or as required by law. The hourly equivalent for Kindergarten through Grade 3 is 720 instructional hours and 900 instructional hours for students in Grades 4 through 12. Schools operating on a double session calendar must be approved by the Sponsor. Approval by the Sponsor for a double session school does not reduce the required 300 minutes of instruction per day. Survey periods for Year-round School Programs are the same as for the regular fiscal year. Year-round schools shall report the first ninety (90) days of their regular 180-day school year in Survey 2 and the second ninety (90) days of their regular 180-day school year in Survey 3, regardless of when the tracks are in session.

4.4.2 Reporting Requirements

The School agrees to report its student enrollment to the District as provided in Section 1011.62, F.S., and in accordance with the definitions in Section 1011.61, F.S., at the agreed upon intervals and using the method used by the District when recording and reporting cost data by program. The School shall use the Sponsor's electronic data processing facility and procedures for the processing of student enrollment, attendance, FTE data collection, assessment information, IEPs, EPs, ELL Plan, Section 504 plans and any other required individual student plan. The School shall schedule students for electronic processing of FTE in accordance with the Sponsor's electronic FTE procedures. The District shall include the School's enrollment when recording and reporting cost data by program.

4.4.3 Training and Support for District Applications

The Sponsor shall provide the School with access to its student information system and provide training for the School's personnel in the use of designated District applications necessary to respond to the statutory requirements of Section 1008.345, F.S., including the annual report and the State/District required assessment program. A representative of the School shall attend training offered by the Sponsor in the use of such systems and procedures at no cost to the School. The Sponsor's support for this function will be provided at cost and will not exceed the administrative fee allowed by law. Access by the School to additional data processing applications, materials, or forms not required in the statute, but available through the Sponsor, may be negotiated separately by the parties.

4.4.4 Accountability for Data Accuracy and Audit Adjustments

The School shall maintain auditable records of student attendance and grades. Reporting timelines shall be aligned with the Sponsor's timelines. Date Certain is always the Friday of the FTE Survey week. Corrections to data submitted for FTE

processing will only be accepted for 6 weeks after Date Certain. The School is responsible for correcting student schedule changes. Incomplete student or teacher course records shall result in a loss of FTE funding. If the School submits data relevant to FTE, federal, or state grant funding that is later determined through the audit procedure to be inaccurate, the School shall be responsible for any reimbursement to the State, the United States Department of Education or the District for any errors or omissions in data that the School submitted. In addition, if the Sponsor is fined or penalized for School errors, the School shall reimburse the Sponsor for the full amount. If the School fails to reimburse the Sponsor, or agree on a payment plan, within a reasonable time after expiration or exhaustion of any appeals, the Sponsor shall deduct the amount owed from the School's FTE payments. After final disposition of any appeals, the District shall deduct any such adjustments from the School's subsequent revenue disbursements evenly over the remaining months of the fiscal year or according to an agreed upon payment plan.

4.5 Administrative Fee

4.5.1 Allowable Withholding

The Sponsor shall withhold five percent (5%) of available funds for the first 250 students as defined in Section 1002.33(20)(a), F.S., not including capital outlay funds, Federal and State grants, or any other funds, unless otherwise explicitly limited by law.

4.5.2 Allowable Withholding from High-Performing Charter Schools

For high-performing charter schools, as defined in Section 1002.331, F.S., the Sponsor may withhold a total administrative fee of up to two percent (2%) for enrollment up to and including 250 students per school.

4.5.3 Allowable Withholding from ESE Centers

The Sponsor shall withhold two percent (2%) for enrollment of up to and including 250 students in an ESE center that meets the requirements of the rules adopted by the State Board of Education pursuant to Section 1008.3415(3). If the School serves seventy-five percent (75%) or more exceptional education students as defined in Section 1003.01(3), the percentage shall be calculated based on the unweighted full-time equivalent students. ESE administrative services covered by the administrative fee, pursuant to Section 1002.33(20), F.S., include professional development related to IEP development; access to any electronic IEP system or forms; initial evaluation for ESE placement; and other supports and services as agreed to by the School and the District in this Charter.

4.5.4 Sponsor Use of Administrative Fee

The administrative fee retained by the Sponsor pursuant to this Contract includes a fee for academic and financial monitoring required of the Sponsor by law and other

such services provided by the Sponsor which are required to be covered under statute. At any time, the Sponsor may request reports on school operations and student performance and the School shall provide the reports in a timely manner.

(A) Access to Optional Sponsor Services. Access by the School to services not required by law, but available through the Sponsor, may be negotiated separately by the parties. The Sponsor is not obligated to provide any services not required by law.

(B) Provision of School Lunches. The School may provide food services to its students consistent with applicable Florida Statutes. If the School elects to participate in the National School Lunch Program it shall follow all applicable federal rules and regulations.

4.6 Distribution of Funds

4.6.1 Sponsor Payment Schedule

The Sponsor shall calculate and submit twelve (12) monthly payments to the School. The first payment will be made by July 31st. Subsequent payments will be made monthly by the 15th of each month beginning with August 15th.

4.6.2 Initial Year Payment Procedures for New Charter Schools

For new charter school in the initial year of operation, payments will be made as required by the law. July through October payment shall be based on the School's projected enrollment as described on the cover sheet of the approved Application if a minimum of seventy-five (75) percent of the projected enrollment is entered into DSIS by the first day of the current month. Otherwise, or if the School's enrollment exceeds its projected enrollment, the Sponsor shall fund the School based on the number of students actually entered in DSIS as of the first day of the current month, not to exceed the Annual Enrollment Capacity. Thereafter, the results of full-time equivalent student membership surveys shall be used in adjusting the amount of funds distributed monthly to the School for the remainder of the fiscal year. Additional documents (e.g., student enrollment forms, student transfer forms, Integrated Student Information System rosters) may be required or requested to support the School's projections. Payments will be adjusted retroactively for prior period adjustments.

4.6.3 Payment Calculations for Subsequent Charter Years

For the following years of the charter, monthly payments will be calculated as follows:

- (i)** The Sponsor may initially calculate monthly distributions to the School for up to four (4) months based on full-time (FTE) student enrollment distribution as of the prior year February FTE report.

- (ii) If enrollment at the end of the second week of student attendance fluctuates by twenty percent (20%) or more from prior year February FTE, then monthly distributions shall be proportionally adjusted. Thereafter, the results of the official FTE student surveys will be used in adjusting the amount of FEFP funds distributed to the School.

4.6.4 Payment Adjustments for Sponsor Services and Penalties

Payments may be adjusted for any amounts due the Sponsor for services provided, expenditures incurred by the Sponsor on behalf of the School, and any fines or penalties levied against the Sponsor because of the School's errors during the current or previous years, as well as for administrative oversight.

4.6.5 Reimbursements

The District shall make every effort to ensure that the School receives timely and efficient reimbursement of funds. Other than those payments provided for in this Contract, for which other requirements for timely payments have been made, the payment shall be issued no later than ten (10) working days after the District receives a distribution of state or federal funds. If a warrant of payment is not issued within ten (10) working days after the receipt of funding by the District, or the due date set forth in this Charter, the District shall pay to the School, in addition to the amount of the scheduled disbursement, interest at a rate of one percent (1%) per month calculated on a daily basis on the unpaid balance from the expiration of the ten (10) day period until such time as the warrant is issued. Late payments are subject to interest at the rate of 1% per month calculated on a daily basis until paid. Payment shall be made only to the account in an FDIC insured Active Qualified Public Depository account or a State-approved depository specified by the Governing Board.

4.6.6 Enrollment Capacity and Facility Compliance for Payments

Payment shall not be made for students in excess of the School's enrollment capacity, the School's valid facility capacity as determined by the School's Certificate of Occupancy, Certificate of Use, and/or Fire Permit (whichever is less) or this Contract. In the event that the required County and/or municipality facility permits do not indicate a facility capacity, the School must submit an official letter from the local jurisdiction confirming facility capacity certification by the Registered Architect. Where the local jurisdiction does not or is unable to issue an official determination of allowable capacity, the School may take one of the actions stated in this Contract. The Sponsor shall withhold monthly payments, without interest, if the School's Certificate of Occupancy, Certificate of Use or Fire Permit has expired or has otherwise become invalid, until such defect has been cured.

4.6.7 Charter School Capital Outlay Funds

The Sponsor shall make timely and efficient payments to the School for capital outlay funds pursuant to Sections 1011.72 and 1013.62, F.S. The Sponsor shall not certify capital outlay plans or recommend awarding capital outlay if it cannot attest to the School's eligibility.

4.6.8 Adjustments Due to Holdbacks and Prorations

In the event of a State holdback or a proration which changes District funding, the School's funding will be adjusted proportionately to the extent required by the law. The Sponsor will not be responsible for any liabilities incurred by the School in the event of a State holdback. Notwithstanding the foregoing, distribution of FTE funds may be withheld, upon written notice by the Sponsor, if any of the following required documents are more than thirty (30) day overdue unless otherwise agreed or extended:

- (i) The School's monthly/quarterly financial statement as required by State Board of Education Rule 6A-1.0081, F.A.C.
- (ii) The School's annual financial audit as required by Section 218.39, F.S and this Charter.

The Sponsor shall release, in full, funds withheld under this provision within ten (10) days of receipt of the documents that resulted in the withholding of funds.

4.7 Summer School Provision

The School may choose to provide a summer school program using State allocated funds. All students attending a summer school session must be reported in FTE Survey 1 and Survey 4, as required by law. In the event that a student enrolled in the School attends any of the Sponsor's summer school programs, and the summer school program is not funded through Title I, the School shall reimburse the Sponsor for the cost of each student's summer school program, as determined by the Sponsor. If the School fails to comply with this provision within a reasonable time, the Sponsor may deduct the appropriate amount from the School's subsequent FTE or Federal funding payments.

4.8 Student Fees

4.8.1 Use of Student Fees

The School shall not charge fees, except those fees normally charged by the Sponsor or as allowed by law. Fees collected must be allocated directly to, and spent only on, the activity or material for which the fee is charged.

4.8.2 Fee Schedule

If the School intends to charge fees, it shall submit its comprehensive fee schedule to the Sponsor for review no later than July 1st prior to the school year in which the fees are intended to be charged. No funds shall be collected until the School has

been given written approval from the Sponsor. Additional fees shall not be imposed without the notification and approval of the Sponsor. Fees shall not be a barrier to enrollment. Non-payment of fees shall not be a basis for dismissal or non-re-enrollment. Upon approval of the fee schedule, all fees collected must be reported and recorded appropriately using proper accounting procedures as required by law. Any fees that are solicited, required, or accepted in violation of this paragraph shall be returned to the parent or guardian.

4.8.3 Student Fee Documentation

The School shall maintain documentation supporting the collection of the Sponsor-approved fees and make them available for Sponsor review.

4.8.4 Parent Donations

The School shall not require or accept monetary donations in lieu of volunteer hours or other parental obligations.

The School shall notify the sponsoring district as soon as it becomes aware of a potential delay and provide documentation confirming the temporary facility's compliance with regulatory requirements. The use of the temporary facility shall continue only until the CO or TCO for the permanent facility is obtained, ensuring minimal disruption to the school's operations and educational programming. All other approvals required by the local government or any other governmental bodies having jurisdiction shall be required prior to the School's first day of classes. Neither employees of the ESP nor relatives of employees of the ESP, Section 1002.33(24), F.S., shall serve on the School's Governing Board or as officers of the Corporation, nor shall any Governing Board member be compensated for their service on the Board or selected to serve on the Board by the ESP.

12.2 Entire Agreement

This Contract shall constitute the full, entire, and complete agreement between the parties. All prior representations, understandings, and agreements whether written or oral are superseded and replaced by this Contract. This Contract may be altered, changed, added to, deleted from, or modified only through the voluntary, mutual consent of the parties in writing. Any substantial amendment to this Contract shall require approval of the Sponsor and the School's Governing Board.

12.3 No Assignment

This Contract shall not be assigned by either party. The School may, without the consent of the Sponsor, enter into contracts for services with an individual or group of individuals organized as a partnership or cooperative so long as the School remains ultimately responsible for those services as set forth in this Contract.

No waiver of any provision of this Contract shall be deemed or shall constitute a waiver of any other provision unless expressly stated. The failure of either party to insist in any one or more instances upon the strict performance of any one or more of the provisions of this Contract shall not be construed as a waiver or relinquishment of the term or provision, and the same shall continue in full force and effect. No waiver or relinquishment to any provision of this Contract shall be deemed to have been made by either party unless in writing and it is signed by both parties. No waiver or relinquishment of any right or privilege applicable under law shall be deemed to have been made unless the right or privilege is expressly described in a writing and signed by the party waiving or relinquishing the right or privilege.

In the event of expiration, the term shall be automatically extended on a month-to-month basis until the Charter has been renewed, non-renewed, or terminated by the Sponsor. If the parties cannot reach agreement on the terms of a new contract, either party may request mediation from the Florida Department of Education (FDOE), pursuant to Section 1002.33(7)(b), F.S. If the Commissioner of Education determines that the dispute cannot be settled through mediation, the dispute may be appealed to an administrative law judge appointed by the Division of Administrative Hearings all in accordance with Section 1002.33(7)(b), F.S. The administrative law judge has final order authority to rule on the dispute, including whether proposed provisions of the Charter violate the intended flexibility granted charter schools by statute.

1.2.1 Start-Up Date and School Calendar

- (A) **School Opening Date.** For the first year of operating under this Charter, the School shall begin classes on the same day as the Sponsor or at such other time as otherwise determined by the Governing Board. The School cannot open absent submission of all required documents listed in the District's Pre-Opening Checklist (Appendix AA). Pursuant to law, the School may

defer the opening of its operations for up to three (3) years to provide time for adequate facility planning. A charter school that elects to defer opening must provide written notice of such intent to the Sponsor and the parents of enrolled students at least thirty (30) calendar days before the first day of school indicating (1) the deferral status as provided by law, and (2) the proposed first day of school. The first two (2) planning years will extend the term of this Contract. By March 1st of the year they were approved to open, a charter school that indicates they will defer opening must provide the District with a proposed opening date and a status report to include a timeline of all key operational items and milestones. The charter school shall continue to provide periodic status reports and make allowances for site visits. Failure to open the School after all available deferral years will result in automatic rescission of the contract with notice to the School but with no further action required of the Sponsor.

- (B) **Academic Calendar.** For a new charter school, the School's calendar shall be consistent with the beginning of the Sponsor's school calendar for the first year of operation. For every year thereafter, and for all other charter schools, if the School's calendar differs from the Sponsor's public-school calendar, including the instructional days, the School shall provide reasonable notice and submit the proposed calendar to the Sponsor and parents of enrolled students prior to the start of the school year. Any calendar changes that differ from the Sponsor's calendar, must be provided upon request to the Sponsor prior to implementation. Calendar modifications may incur a processing fee at a rate no greater than the Sponsor's actual cost.
- (C) **Required Instructional Minutes.** Instructional minutes shall be a minimum of 300 minutes per day. The hourly equivalent for Kindergarten through Grade 3 is 720 instructional hours and 900 instructional hours for students in Grades 4 through 12. Schools operating on a double-session calendar must be approved by the FDOE. Survey periods for Year-Round School Programs shall be the same as for the regular fiscal year. Year-round schools shall report the first ninety (90) days of their regular 180-day school year in Survey 2 and the second 90 days of their regular 180-day school year in Survey 3, regardless of when the tracks are in session.

1.2.2 Charter Modification

This Contract may not be modified unless approved by both parties in writing pursuant to School Board Policy 9800, *Charter Schools* (Appendix B). No contract modification shall be enforceable unless it is in writing and approved by both the Governing Board and the Sponsor. If the modification involves changes to the grade

levels, except as provided by law for high-performing charter schools, the School must provide information acceptable to the Sponsor relating to operational capacity, curriculum, budget, facilities, and staff. Certain amendments related to high-performing charter school contracts are governed by Section 1002.331, F.S. and are also in accordance with the charter contract amendment process contained in School Board Policy 9800, *Charter Schools*, to the extent School Board Policy does not limit or conflict with the statutory provisions of F.S. 1002.33 and/or 1002.331. In the event of a conflict between School Board Policy and the statute, the statute will prevail. The Sponsor may not require the School to waive the provisions of s. 1002.331, F.S., or require a student enrollment cap that prohibits a high-performing charter school from increasing enrollment in accordance with s. 1002.331(2), F.S., as a condition of approval or renewal of the Charter.

1.2.3 Charter Renewal

- (A) Renewal Notice.** This Charter may be renewed as provided for in Section 1002.33, or 1002.331, F.S. No later than September 15th in the final academic year of this charter, a Sponsor shall provide notice to the School regarding the process and timeline for completing the programmatic review required under s. 1002.33(7)(c)1., Florida Statutes.
- (B) Renewal Review and Evaluation.** Prior to renewal of this Charter, the Sponsor shall perform a review to determine the level of success of the School's educational program, organizational performance, financial performance and achievement of the goals and objectives required by State accountability standards and successful accomplishment of the criteria under Sections 1002.33(7)(a) and (8)(a) F.S., compliance with the terms of the Charter, and that none of the statutory grounds for nonrenewal exist. Upon completion of the programmatic review, but no later than ninety (90) days prior to the end of the charter term, the Sponsor shall notify the Governing Board of the Charter School in writing of the proposed action to renew, terminate, or non-renew the Charter, pursuant to Section 1002.33(8)(a), F.S.
- (C) Renewal Packet Submission.** Any charter school seeking renewal shall complete a Charter Renewal Packet as provided by the Sponsor's renewal process in Policy 9800 in effect as the date of this charter. In the event of any revision to policy 9800, the policy in effect at the time the charter was executed shall remain in effect until the revisions to the policy are mutually agreed upon in writing.
- (D) Renewal Term and Approval.** Renewals may be approved for a term up to five (5) years unless another term is mutually agreed upon, required, or allowed by law. Upon approval, the Contract will be renewed following the

contract negotiation process in current School Board policy and as required by law.

- (E) **Periodic Review and Evaluation:** The Sponsor may annually evaluate the School on its performance and progress meeting the standards and targets included in this charter, including academic achievement goals established by the school pursuant to this charter. If the term of this Charter exceeds five years, the Sponsor may conduct a High-Stakes Review not more often than once every five years or upon renewal and shall transmit the findings of the review to the Governing Board of the School.

1.3 Termination or Non-Renewal

This Contract may be terminated or non-renewed during its term for any cause of termination or non-renewal identified in section 1002.33 which is not cured within thirty (30) days after notice and reasonable opportunity to cure, except for deficiencies regarding immediate threats to student and staff health, safety and welfare which must be cured immediately, and where it is not possible to cure within the time required herein, the School will present to the Sponsor and diligently follow a plan and schedule in which to cure any deficiency as soon as reasonably possible. Notices of non-compliance, non-renewal, or termination, cancellation and default must comply with the requirements set forth in section 1002.33 and as otherwise required by law.

1.3.1 Causes for Termination or Non-Renewal.

The Sponsor shall make student academic achievement for all students the most important factor when determining whether to renew or terminate this Charter. The Sponsor may choose not to renew or terminate this Charter if it finds that any of the following grounds below exist by clear and convincing evidence, as set forth in Section 1002.33, F.S.

- (i) failure to participate in the State's education accountability system created in Section 1008.31, F.S., as required in this section, or failure to meet the requirements for student performance established by the school pursuant to this Charter;
- (ii) failure to meet generally accepted standards of fiscal management due to deteriorating financial conditions or financial emergencies determined pursuant to s. 1002.345, F.S.;
- (iii) material violation of law;
- (iv) if insufficient progress has been made in attaining the student achievement objectives of the charter and if it is not likely that such objectives can be achieved before expiration of the charter;
- (v) if the School earns two consecutive grades of "F" after all school grade appeals are final except as otherwise provided in Section 1002.33(9)n3, F.S.

- (vi) failure to cure a material breach of any term or condition of this Charter after written notice of non-compliance.

1.3.2 Causes for Immediate Termination

Pursuant to Section 1002.33(8)(c), this Charter may be terminated immediately if the Sponsor sets forth in writing the particular facts and circumstances demonstrating that an immediate and serious danger to the health, safety, or welfare of the School's students exists; that the immediate and serious danger is likely to continue; and that an immediate termination of the charter is necessary. Lack of a facility meeting the requirements of law in which to operate the School may constitute an immediate and serious danger to the health, safety, or welfare of the School's students.

1.3.3 Procedures for Termination or Non-Renewal

- (A) **Sponsor Notification Responsibilities.** The Sponsor shall notify the School's Governing Board and principal in writing at least ninety (90) days prior to non-renewing or terminating the Contract. The notice shall comply with the requirements of Section 1002.33(8), F.S., state in reasonable detail the grounds for the proposed action and stipulate that the Governing Board may request a hearing within fourteen (14) calendar days of receiving the notice.
- (B) **Hearing Request.** The School's Governing Board may request an administrative hearing before the Florida Division of Administrative Hearings (DOAH). This request must be authorized by a vote of the Governing Board and be submitted pursuant to the notice provisions of this charter. Minutes or an adopted resolution documenting the action must be submitted with the request. The School shall file the request with the School Board Clerk pursuant to School Board Policies 0133, *Quasi-Judicial*, 9800, *Charter Schools*, and Section 120.54(5)(b), F.S. Legally sufficient requests shall be forwarded to DOAH. The DOAH hearing will be conducted pursuant to Florida Statute 1002.33, and Chapter 120, F.S. Following the DOAH hearing, the administrative law judge shall submit a final order to the Sponsor. For purpose of notice, the Charter School's Governing Board is the last roster submitted by the School to the Sponsor.
- (C) **Continued Operations During Proceedings.** The School's Governing Board shall continue to operate the School until a final order terminating the charter is issued, during which time all provisions of this Contract shall remain in effect. The closing date shall be negotiated between the Sponsor and the School, unless otherwise provided for in a final order.
- (D) **Expenditures.** Upon notification of non-renewal or termination, the School may not expend more than \$10,000 per expenditure without prior written

approval from the Sponsor unless the expenditure was included within the annual budget submitted to the Sponsor, is for reasonable attorney fees and costs during the pendency of any appeal, or reasonable fees and costs to conduct an independent audit.

1.3.4 Procedures for Immediate Termination

- (A) **Sponsor Notification Responsibilities.** The Sponsor's determination is subject to the procedures set forth in section 1002.33(8)(b), F.S. Upon immediate termination, the Sponsor shall notify the School's Governing Board chair, principal, and the FDOE in writing, clearly identifying the specific issues that resulted in the immediate termination and provide evidence of prior notification of issues resulting in the immediate termination, if applicable, and detailing the specific facts and circumstances demonstrating the existence of such danger, explaining why the danger is likely to continue, and stating why immediate termination of the Charter is necessary to protect the health, safety, or welfare of the students, pursuant to Section 1002.33(8)(c), F.S.
- (B) **Hearing Request.** The Sponsor's determination is subject to the 90-day termination procedures in section 1002.33(8)(b), F.S. Upon receiving written notice from the Sponsor, the Charter School's Governing Board has ten (10) calendar days to request a DOAH hearing. The hearing may take place after the charter has been terminated.
- (C) **Operation of the School.** The School shall continue to operate the school throughout the pendency of the hearing (including any related appeals) as provided for in s. 1002.33(8)(d), F.S., unless the continued operation of the School would materially threaten the health, safety of welfare of the students. Pursuant to s. 1002.33(8)(c), F.S., the Sponsor may seek an injunction in the circuit court in which the Charter School is located to enjoin continued operation of the Charter school if continued operation would materially threaten the health, safety, or welfare of the students. If the School has no facility at the time of termination, the Sponsor is not obligated to operate the School.
 - (a) **Access to Records and Facilities.** Upon immediate termination, the School shall immediately provide the Sponsor access to the School's facilities along with security system access codes and access codes for all School-owned or leased computers, software, networking, switching and all other technical systems in the School's facilities or remotely located areas serving the School, and shall make accessible to the Sponsor all student, educational, operational, and administrative records of the School including those held by third

parties. Moreover, within two (2) business days, the School shall turn over to the Sponsor all records, information, receipts and documentation for all expenditures of public funds, including the location of the public funds, held by the School, including but not limited to Federal grants such as Title I and charter school grants, and grant the Sponsor access to the School's public funds, storage facilities, and all public property. In the event the Sponsor obtained an injunction to enjoin continued operation of the School, the Sponsor shall assume operation of the School. Failure by the Sponsor to assume and continue operation of the School, where the Sponsor had the obligation to operate the School, shall result in the awarding of reasonable costs and attorney's fees to the School if the School prevails on appeal. If the Sponsor obtained an injunction to enjoin operation of the school and therefore assume operation of the School and the School prevails in an appeal through a final adjudication by an administrative law judge or by a final adjudication and mandate by the appellate court if an appeal to the appellate court is filed, the Sponsor shall, immediately, return to School all keys, security codes, all educational and administrative records of the School, and the School's facility. In that case, the School's Governing Board shall resume operation and oversight of the School.

- (b) **Employees of the School.** The School's instructional and operational employees may continue working in the School during the time that the Sponsor operates the School, after being awarded an injunction, at the Sponsor's option but will not be considered employees of the Sponsor. Any existing employment contracts that any School personnel may have with the School may not be assumed or transferred to the Sponsor or any entity created by the Sponsor during the assumption of operations of the School unless the Sponsor or its entity, and the School, agree otherwise. The Sponsor may take any appropriate personnel action regarding the School's employees and will give notice to the School before taking any such action.
- (c) **Disbursement of Funds.** The Sponsor shall not disburse school funds except to pay the normal expenses of the School as they accrue in the ordinary course of school business. The Sponsor is not required to use its own funding resources to pay the School's debts.

1.3.5 School Election to Terminate or Non-Renew

If the School elects to terminate or non-renew the Charter, it shall provide reasonable prior notice of the election to parents of enrolled students, the Sponsor, and the FDOE, indicating the final date of operation as voted by the Governing Board at a publicly noticed meeting. A board resolution, signed by the School's Governing Board chair and secretary indicating support of this action, shall accompany the written notification provided to the Sponsor. The School agrees that such notification shall be considered a voluntary termination by the Governing Board and a waiver of its right to a hearing or appeal and that this voluntary termination shall not be reversed, except by the Governing Board and in accordance with law. Additionally, all post-termination provisions incorporated in this Contract shall apply.

1.3.6 Removal of Public Property

Upon notice of termination or non-renewal, the School shall not remove any public property, as defined by law, from the premises without written Sponsor approval, except in the ordinary course of the School operations so as not to disrupt the continuity of instruction.

1.4 Post-Termination Provisions

1.4.1 Dissolution of School

The School shall be dissolved under the provisions of law under which the School was organized. Copies of all administrative, operational, and financial records of the School shall be provided to the Sponsor on or before the date the termination/non-renewal takes effect. The School shall also provide to the Sponsor the School's security system and technology access codes.

1.4.2 School Debt

If this Charter is not renewed or is terminated, the School shall be responsible for all the debts of the School. The Sponsor shall not assume the debt from any contracted services made between the Governing Body of the School, the Management Company, and/or third parties, including lease or rental agreements, except for a debt previously detailed and agreed upon, in writing, by both the Sponsor and the Governing Board and that have been satisfied by the Sponsor. In no event shall the District be responsible under any assignment of a lease to the Sponsor for any debts or obligations of the School arising under that lease and incurred prior to such assignment.

1.4.3 Leases with the District

In the event of termination or non-renewal of this Charter, any and all leases existing between the District and the School shall be automatically cancelled, unless the lease provides otherwise.

1.4.4 Student Transfers and Records

In the event of termination or non-renewal, any students enrolled at the School may be enrolled at their home District school, or any other school, consistent with the District's student transfer procedures including transfer of all student records to the receiving school. Upon termination or closure of the School, all student education records shall be transferred immediately to the receiving school or to the Sponsor in accordance with law and School Board Policy 9800.

1.4.5 Disposition of Assets and Unencumbered Funds

In the event the School is dissolved or is otherwise terminated, all sponsor property and improvements, furnishings and equipment purchased with public funds shall automatically revert to full ownership by the sponsor, subject to complete satisfaction of any lawful liens or encumbrances. Any unencumbered public funds from the School, Sponsor property and improvements, furnishings, and equipment purchased with public funds, or financial or other records pertaining to the School, in the possession of any person, entity, or holding company, other than the School, shall be held in trust upon the Sponsor's request, until any appeal is resolved, and proper distribution of the property is determined. If the School's accounting records fail to clearly establish whether a particular asset was purchased with public funds, then it shall be presumed public funds were utilized and ownership of the asset shall automatically revert to the Sponsor (subject to any lawful liens and encumbrances). Property and assets purchased with public funds shall be defined as those goods purchased with grants and funds provided by a governmental entity. Public funds provided by the School and used by a management company to purchase property and assets for the School are considered public funds.

1.4.6 Final Audit

Pursuant to s. 1002.33, F.S., upon notice of non-renewal, closure, or termination, an independent audit shall be completed within thirty (30) days to account for all public funds and assets. During the fiscal year in which termination or non-renewal occurs, the School may commission and pay for a final independent financial audit of the School. In the event the School does not elect to commission an independent audit upon notice of non-renewal, closure, or termination, the School Board of Miami-Dade County shall withhold from the School's Florida Education Finance Program (FEFP) funds, without penalty or interest, an amount necessary to pay for a final independent financial audit of the School. The audit shall be conducted by an independent certified public accountant previously approved by the school absent good cause not to do so.

1.5 General Statutory Requirements

1.5.1 Non-Discrimination

The School shall not discriminate in educational programs/activities or

employment and shall provide equal opportunity for all as required by all applicable Federal, State and local laws, rules, regulations and court orders directed to the School as a party and subject to all rights and appeal. The School shall designate a Title IX Coordinator as required by law to coordinate its compliance with Title IX of the Education Amendments of 1972, 20 U.S.C. § 1681, et. seq. and 34 C.F.R. Part 106. The School shall designate a Section 504 Coordinator to coordinate its compliance with Section 504 of the Rehabilitation Act of 1973, 29 U.S.C. § 701, et. seq. and 34 C.F.R. Part 108, subpart D.

1.5.2 Compliance

The School shall comply with those statutes that specifically apply to charter schools as set forth in Section 1002.33 generally, subsection 1002.33(16), and other applicable State laws. The School agrees that it will abide by all Federal and State laws, statutes, rules, and regulations applicable to charter schools and also abide by the terms and conditions of the Charter.

SECTION 2: EDUCATIONAL PROGRAM

2.1 Academic Accountability

2.1.1 Incoming Baseline Standard of Student Academic Achievement

The School will establish the current incoming baseline standards of student academic achievement, the outcomes to be achieved, and the method of measurement that will be used, as described in the approved Application or otherwise described in this Contract, in a format provided by the Sponsor.

2.1.2 Academic Student Performance Data

By September 15 of each year, the Sponsor shall provide the School with access to academic student performance data on state required assessments for each student attending the School that was enrolled the prior year in another public school, pursuant to s. 1002.33(7)(a)3., Florida Statutes.

2.1.3 Academic Progress Rates for Comparable Student Populations

By September 15 of each year, the Sponsor shall provide the School the rates of academic progress for the prior year for comparable student populations in the District. The data shall include proficiency and growth on state assessments for English Language Arts and Mathematics by grade grouping (grades 3-5, 6-8, 9-12) for the following student groups:

- i. Students scoring a level 1 on prior year assessment
- ii. Students scoring a level 2 on prior year assessment
- iii. Students scoring a level 3 or higher on prior year assessments
- iv. Students with disabilities
- v. English Language Learners

2.1.4 Academic Achievement Goals

- (A) **First Year of Operation.** By October 15 of the first year of the School's operation, the School shall provide its proposed academic achievement goals for the current year to the Sponsor. The academic achievement goals shall include, at a minimum, growth and proficiency on state assessments, and may include performance on additional assessments included in the approved Application. If the School will not serve students in grades that participate in the statewide assessments the academic achievement goals shall be based on the assessments included in the approved application, and at least one assessment administered in traditional public schools in the District.
- (B) **Subsequent Charter Years.** By October 15 of the second year of the School's operation, the School shall provide its proposed academic achievement goals for the remaining years of the Charter, up to a maximum of four years or the end of the current Charter term, whichever occurs first, using the same parameters and testing set forth in this Contract. Schools that have contracts in excess of five years shall resubmit proposed academic achievement goals every four years pursuant to the process described in this paragraph.
- (C) **Sponsor Review.** The Sponsor shall review the proposed academic achievement goals within 30 days of receipt. If the Sponsor does not accept the proposed academic achievement goals, it shall provide the School a written explanation. If the Sponsor does not respond within 30 days of receipt, the academic achievement goals are deemed accepted. If the School and Sponsor cannot agree on academic achievement goals, either party may request mediation pursuant to Section 1002.33(6), F.S. The goals may be adjusted at any time upon mutual written consent of both parties.
- (D) **Governing Board Approval.** The School's Governing Board shall review and approve the goals and objectives prior to its final submission. Minutes documenting approval must be taken and posted on the School's website pursuant to Section 1002.33(9)(p)1.
- (E) **Performance Reporting.** Annually, the School shall report its performance against the academic goals in the format requested by the Sponsor. The School agrees to allow the Sponsor reasonable access to its facilities and records to review its data sources in order to assist the Sponsor in making a valid determination about the degree to which student performance requirements have been met, as stated in this Charter, and as required by Sections 1008.31 and 1008.345, F.S. upon reasonable notice and in a manner so as to reasonably minimize disruption to students and school

operations. Furthermore, the School shall allow the Sponsor to collect data through other means such as survey to conduct required research and/or evaluations. The Sponsor shall not impose additional reporting requirements on the School without providing reasonable and specific justification in writing to the School and the School shall provide required responses/data within the timelines that allow the Sponsor to meet required deadlines. If the School falls short of the academic achievement goals set forth under the provisions of this Charter, the Sponsor shall report such shortcomings to the School's Governing Board and FDOE. The School and Sponsor may agree to adjust the goals through the same process set forth in this Section.

2.2 Performance Improvement Requirements for Low-Performing Schools

2.2.1 School Improvement Plan (SIP)

- (A) Schools that Earn a Grade of “D” or “F.”** Pursuant to Section 1002.33(9), if the School earns a grade of “D” or “F,” the director and a representative of the Governing Board must appear before the Sponsor to present information regarding contract components with noted deficiencies. The Governing Board representatives must submit a SIP to the Sponsor for approval, outlining strategies to improve student performance and begin implementation of the SIP upon the Sponsor's approval.
- (B) Schools Identified for Support by the FDOE.** If the School is identified by the FDOE (under the Every Student Succeeds Act) to be included in the list of schools for comprehensive support and improvement (CS&I), additional targeted support and improvement (ATSI), or targeted support and improvement (TS&I), it must develop and implement a SIP approved by the Governing Board and the Sponsor. Upon approval by the Sponsor, the school shall implement the SIP, as required by law.
- (C) Posting and Monitoring of Approved School Improvement Plans.** Minutes documenting SIP approval must be posted on the School's website pursuant to Section 1002.33(9)(p)1., F.S. The Governing Board shall monitor the implementation of the SIP.

2.2.2 Corrective Actions

- (A) Selection of Corrective Actions.** If the School earns three consecutive grades below a “C,” the School's Governing Board must select and implement one of the following corrective actions:
 - (i)** Contract with an outside entity to provide educational services directly to students, instructional personnel, and school administrators, as prescribed by State Board of Education rules.

- (ii) Contract with an external organization with a demonstrated record of effectiveness to operate the school.
 - (iii) Reorganize the school under new leadership, such as a new director or principal, who is authorized to hire new staff.
 - (iv) Voluntarily close the charter school.
- (B) **Implementation Timeline.** The selected corrective action must be implemented during the school year immediately following the receipt of the third consecutive grade below a "C." If the School improves to a grade of "C" or higher, the corrective action is no longer required. However, the School must continue implementing the strategies outlined in its school improvement plan, subject to annual monitoring by the Sponsor.
- (C) **Waiver and Termination.** The Sponsor may waive the corrective action annually if it determines that the School is likely to improve its grade with additional time to implement strategies outlined in the school improvement plan. However, a school earning two consecutive grades of "F" is subject to immediate interventions provided by law.
- (D) **Selection of a New Corrective Action.** If the School fails to improve to a grade of "C" or higher after two full school years of implementing a corrective action, the Governing Board must select a new corrective action to begin the following school year unless the Sponsor determines that additional time is likely to result in the School achieving a "C" or higher under the existing corrective action.
- (E) **Immediate Interventions.** Notwithstanding this subparagraph, a school earning two consecutive grades of "F" while implementing a corrective action is subject to immediate interventions under Section 1002.33(9)(n)3, F.S.

2.3 Assessments

Students shall participate in assessment programs as described in the approved Application and Renewal Packet if applicable. Any proposed changes shall be mutually agreed upon between the School and the Sponsor.

2.3.1 State Required Assessments

All students at the School will participate in all State assessment programs and assessments required by law. The School shall facilitate required alternate assessments and comply with state reporting procedures.

2.3.2 Additional Assessments

Students may participate in any or all District assessment programs in which the Sponsor's students in comparable grades or schools are required to participate and shall participate in any other assessments to the extent described in the Application. The School will select and implement its own progress monitoring tools and

assessments as required by statute. The School shall be responsible for the costs of additional assessments, including District assessments that are not required by law or this Charter (except those developed with federal funds or those developed using the Florida's Item Bank and Test Platform) and progress monitoring tools unless the Sponsor is required, by law, to be responsible for the costs.

2.3.3 Advanced Academic Program Assessments

If the School offers advanced academic programs (e.g., International Baccalaureate, Advanced Placement, and/or Advanced international Certificate of Education Program), the School shall provide official assessment results to the Sponsor.

2.3.4 Preliminary Scholastic Aptitude Test (PSAT)

If the School offers the PSAT, it shall provide for the administration of the PSAT/National Merit Scholarship Qualifying Test (NMSQT) in the tenth grade. The School is responsible for the application and receipt of the College Entrance Examination Board (CEEB) number from the Educational Testing System (ETS) and shall timely submit confirmation of that number to the Sponsor.

2.3.5 Accommodations

If an IEP, 504 Plan or an EP for a student indicates accommodations or an alternate assessment for participation in a State assessment, or District assessment, as applicable, the School will facilitate the accommodations or alternate assessment and comply with State reporting procedures.

2.3.6 Test Administration, Security, and Support

The School shall designate a School Assessment Coordinator from the School who is required to attend all training sessions and informational meetings required by the Sponsor for required State and optional District assessments and shall be responsible for proper test administration. Within 5 business days, the School shall notify the Sponsor of any change in the designated School Assessment Coordinator. The School shall require all School personnel involved with any aspect of the testing process to abide by State and Sponsor policies, procedures, and standards regarding applicable test administration, test security, test audits, reporting of test results and shall cooperate with any investigations involving the School. The School shall comply with the applicable employee screening process as described in this Contract regarding all individuals who will serve as test administrators, proctors, and other support personnel required for accountability testing. The Sponsor shall provide to the applicable School staff all services or support activities that are routinely provided to the Sponsor's staff regarding implementation of optional District and State-required assessment activities, e.g., procedures for test administration, staff training, dissemination and collection of materials, monitoring, scoring, analysis, and summary reporting all at no cost to the School.

The School shall permit the Sponsor to monitor or proctor all aspects of the School's test administration if the Sponsor reasonably deems it necessary and in a manner so as to minimize disruption to students and school operations in accordance with established monitoring protocols.

2.3.7 Reports

The District shall provide the School with reports on District and State assessments in the same manner and at the same time as for all public schools in the District. The Sponsor shall use results from the state assessment programs referenced in this Contract, the data elements included in the annual report, and any other information acquired by the Sponsor to provide the State Board of Education and the Commissioner of Education the analysis and comparison of the School's student performance.

2.3.8 Technology Infrastructure

The School shall, at its expense, provide adequate technological infrastructure to support all required online test administration.

2.4 Curriculum

2.4.1 Implementation

The School shall implement its educational and related programs as specified in its School Board-approved Application (Appendix A). Any material changes to the education program or curriculum as described in the approved Application or Charter require Sponsor approval, including instructional methods, distinctive instructional techniques, and technologies to enhance educational performance. These technologies must promote safe, ethical, and appropriate use in compliance with legal and professional standards.

2.4.2 Material Changes

Updates, revisions, and/or changes to the curriculum programs described in the Application and as requested by the Sponsor as a condition of the Application's approval are incorporated as part of the official School Board approved Charter School Application included as Appendix A. Any request to materially change the School's curriculum must be submitted to the Sponsor in writing, comply with all applicable laws and be approved by the Sponsor before the changes are implemented.

2.4.3 Instructional Materials

The School shall provide each student with current instructional materials in each core course. The School shall provide adequate technological infrastructure to support and deliver all digital instructional materials. Furthermore, the School will maintain, and have available for review, a current textbook or digital textbook inventory for core courses which shall include title, date of adoption cycle, and number of texts and or licenses available and in use.

2.4.4 Comprehensive Evidence-Based Reading Plan

The School will adopt and implement with fidelity, the Sponsor's Comprehensive Evidence-Based Reading Plan (CERP), and Rule 6A-6.053, F.A.C., including all instructional materials which are the responsibility of the School to procure unless it has chosen to use an alternate research-based core reading plan. Annually, the School shall determine whether to adopt the Sponsor's CERP. If the School elects to develop its own CERP, it must submit its CERP, approved by its Governing Board, to the Sponsor by July 15 and meet the requirements of all applicable law. If the School has elected to implement an alternate research-based core reading plan, it is attached herein as Appendix C. The School shall make reading a primary focus of the curriculum and provide sufficient resources to identify and provide specialized instruction for students who are reading below grade level. Further, the curriculum and instructional strategies for reading shall be consistent with Florida Standards and grounded in scientifically based reading research.

2.4.5 Mathematics Curriculum and Support for Below-Level Students

Pursuant to s. 1002.33, F.S., the School shall ensure that mathematics is a primary focus of the curriculum and that resources are provided to identify and provide specialized instruction for students who are performing below grade level, consistent with the requirements of Section 1002.33(7)(a)2.b., Florida Statutes.

2.5 Advanced Academics and Acceleration Options

2.5.1 Advanced Placement

The School shall advise each student of courses through which a secondary student can earn college credit, including Advanced Placement, International Baccalaureate, Advanced International Certificate of Education, dual enrollment, early admission, and career academy courses and courses that lead to industry certification, as well as the availability of course offerings through virtual instruction. Courses will be offered in accordance with the approved Application or Renewal Packet. To meet this requirement, each school that offers these options may provide courses through virtual instruction, if the virtual course significantly integrates postsecondary level content for which a student may earn college credit, as determined by the Florida Department of Education, and for which a standardized end-of-course assessment, as applicable and approved by the department, is administered.

2.5.2 Dual Enrollment (DE)

Pursuant to Section 1007.271, F.S., the School may provide dual enrollment opportunities to any student meeting the eligibility requirements and expressing the desire to enroll.

(A) Dual Enrollment Articulation Agreements. If the School chooses to provide a DE program, it shall develop and implement all Dual Enrollment

Articulation Agreements between the School and postsecondary institutions as required by law. The School shall also develop and implement a plan to inform all secondary students and their parents of dual enrollment opportunities as an educational option and mechanism for acceleration and shall ensure that dual enrollment courses taught on the high school campus will not be combined with any high school course. This agreement shall include the method of payment between the School and the postsecondary institution and shall be submitted annually to the Florida Department of Education and the Sponsor by August 1st.

- (B) **Eligible Institutions.** Pursuant to Section 1011.62, F.S., an eligible college or university, which is not for profit, that is accredited by a regional or national accrediting agency recognized by the United States Department of Education, which confers degrees as defined in Section 1005.02, F.S., shall be eligible to offer authorized dual enrollment programs.
- (C) **Funding.** Eligible students enrolled in a DE or early admission program through Florida College System institutions or other state universities are exempt from the payment of tuition and fees, pursuant to Section 1009.25, F.S. The fee exemption includes application, tuition, laboratory fees, and textbook fees for courses taken through dual enrollment. The School is responsible for paying all tuition and fees to the postsecondary institution for dual enrollment courses. The School is also responsible for paying for all dual enrollment instructional materials.
- (D) **Fees.** If the School offers AP/IB/AICE/DE courses, it shall not charge any fees for participation, textbooks, instructional materials, or examinations for any AP/IB/AICE/DE courses in which students are enrolled.
- (E) **Professional Development.** If the School offers AP/IB/AICE/DE courses, it shall provide all AP/IB/AICE/DE teachers with training and professional learning opportunities as required by the AP/IB/AICE/DE syllabus.

2.6 Student Promotion and Graduation

2.6.1 Student Progression Plan

The School will adopt, and implement with fidelity, the Sponsor's student progression plan (Appendix D) in effect for the current operational year. If the School elects to develop and adopt its own plan, it must secure approval from its Governing Board before submitting the plan to the Sponsor for approval. Once approved, the plan shall be attached herein as Appendix E. If the School opts to develop and implement their own SPP, the School shall establish a policy for determining that a student has satisfied the requirements for graduation that is consistent with the provisions of Florida law and shall inform the Sponsor of this policy and/or any changes to a previously adopted policy at least one (1) month

prior to the beginning of the school year. The School's student promotion policy shall be consistent with the provisions of the Application and applicable Florida law.

2.6.2 Student Course Codes

The School shall follow the State's and/or Sponsor's Elementary School Academic Programs Course Codes and/or Authorized Courses for Secondary Schools, as appropriate.

2.6.3 Graduation Requirements

The School's policy for determining that a student has satisfied the requirements for graduation shall be consistent with the provisions of Florida law.

2.6.4 Accreditation

Secondary schools shall notify the parent and students of the School's accreditation status and the implications of non-accreditation in (a) the School's student enrollment form; (b) the Parent/Student Handbook; and (c) and Parent/Student contract. The notification must also be prominently displayed at all times on the School's website.

2.7 English Language Learners

2.7.1 Plan Adoption and Approval

The School will adopt the District's English Language Learners Plan (Appendix F) in effect for the current operational year, and which meets the requirements of the League of United Latin American Citizens (LULAC) et al. v. State Board of Education Consent Decree. If the School elects to implement its own plan, approved by its Governing Board, it is attached hereto as Appendix G. The plan must include sufficient information and detail to allow the Sponsor to determine legal sufficiency.

2.7.2 Services for English Language Learners

Students at the School who are English Language Learners (ELL) will be served by English for Speakers of Other Languages (ESOL) endorsed or certified personnel. The School shall comply with all applicable laws ordinances, and codes of Federal, State, and local governance including, without limitation, the Individuals with Disabilities Education Act (IDEA) and applicable laws relating to English Language Learners (ELL) and must timely cure any violation after written notice.

2.8 Exceptional Student Education

2.8.1 Program Requirements

Exceptional students shall be provided with programs implemented in accordance with applicable Federal, state, and local policies and procedures; and, specifically, the Individuals with Disabilities Education Act (IDEA), Section 504 of the Rehabilitation Act of 1973, Sections 1000.05 and 1001.42(4) (l) of the Florida

Statutes, and Chapter 6A-6 of the Florida Administrative Code. Students with disabilities will be educated in the least restrictive environment and will be segregated only if the nature and severity of the disability is such that education in regular classes with the use of supplementary aids and services cannot be achieved satisfactorily. The School must maintain a continuum of ESE placements as indicated in the School's approved Application and Renewal Packet.

2.8.2 Non-Discrimination and Admission Procedures

The School shall not discriminate against students with disabilities in placement, assessment, identification, selection, or admission. The School shall not request a student's IEP, EP, Section 504 Plan, or other information regarding a student's special needs prior to or during the application and lottery process, nor shall the School access such information prior to or during the application and lottery process. Only schools that serve exclusively students with disabilities may request the IEP, EP, or Section 504 Plan as part of the application and lottery process to determine whether the services are compatible with the School's programmatic model. After enrollment, any student who is suspected of having a disability must be referred for evaluation in accordance with this Contract, and if eligible for services pursuant to IDEA or Section 504, an appropriate IEP or Section 504 plan must be developed before the student is referred to the District for consideration of another school assignment. The Sponsor shall be invited to and may attend the meeting, at which time the IEP team shall determine whether the School is an appropriate placement for the student.

2.8.3 Individualized Education Plans (IEPs) and 504 Plans

The School shall conduct Individual Educational Plan (IEP) and 504 plan meetings for eligible students, to include an annual IEP or 504 meeting with the eligible student's family. Upon enrollment, or notice of acceptance sent to the student, the School may request from the District information related to the student's program and needs, including the student's most recent IEP or 504 plan, which shall be provided within ten (10) days.

2.8.4 Student Placement and Referral

If the School determines, upon review of the IEP, that the student's needs cannot be met at the School, the School shall contact the Sponsor's District Staffing Specialist assigned to the School for assistance with an appropriate school assignment in accordance with this Contract.

2.8.5 Civil Rights Complaints and Investigations

If the School receives a complaint filed or becomes aware of an investigation with the U.S. Office of Civil Rights (OCR) or any other governmental entity and the complaint or investigation relates to the School and could involve the Sponsor, the School shall, within one (1) school day, notify the Sponsor and provide the Sponsor

any documentation from the agency (except where to give such notice would violate the law or the directions of the investigating government entity). The School shall fully cooperate with the Sponsor during any investigation and/or proceeding by the OCR or any other governmental entity that could involve the Sponsor, including providing the Sponsor with a draft response to OCR and providing all necessary relevant information and supporting documentation, and making staff available for interviews, as deemed necessary. If the written information on the complaint does not allege, or it cannot be inferred from the facts given, an allegation against the Sponsor of: (1) discrimination based on race, color, national origin, sex, disability or age, (2) discrimination in violation of the Boy Scouts of America Equal Access Act of 2001, or (3) retaliation for the purpose of interfering with any right or privilege secured by the civil rights laws and regulations enforced by OCR, or as a result of making a complaint, testifying, or participating in any manner in an OCR proceeding, the School shall submit the final version of the response directly to OCR on its own behalf with a copy provided to the Sponsor. The School shall bear all costs, fees, reimbursements, and compensatory education associated with the investigation, including any incurred, agreed upon or awarded relief by OCR attributed to, caused by or through the fault of the School. Notwithstanding the aforementioned, the Sponsor shall assume or reimburse the costs attributable to, caused by or through the fault of the Sponsor, if any. Failure of the school to pay the costs, fees, reimbursements, and compensatory education within a reasonable time after the expiration or exhaustion of any appeals will result in the Sponsor deducting any amount owed from the School's FTE payments.

2.8.6 Sponsor Responsibilities

The Sponsor shall provide ESE administration services to the School, pursuant to Section 1002.33, F.S.

- (A) Student Evaluations.** The Sponsor shall conduct all initial evaluations of students referred for potential Exceptional Student Education, Gifted, Section 504 eligibility, and for the re-evaluation of Exceptional Student Education students, in accordance with Federal and State mandates to determine whether a student is a child with disability under Section 300.8 of the IDEA. All requirements for Response to Intervention (RtI) must be followed by the School with fidelity prior to and during the evaluation process. The School and/or parents may obtain private evaluations of students at their expense. These evaluations must be considered in determining eligibility but will not necessarily substitute for an evaluation conducted by the Sponsor's personnel in a manner and timeframe consistent with that of all of the other Sponsor's schools.

- (B) **Initial LEA Representation.** A representative of the Sponsor shall serve as the Local Education Agency (LEA) Representative in all initial IEP, EP, and Section 504 Plan meetings. However, the administrator or designee in charge at the School will serve as the LEA Representative at all other annual and interim IEP, EP, and Section 504 meetings, which the School shall conduct.
- (C) **Compliance Monitoring.** The Sponsor will monitor the School for ESE compliance with applicable Federal, State, and local policies and procedures as outlined in the Exceptional Student Education Policies and Procedures (SP&P) (Appendix H). Failure to comply with Federal, State, or local law or policy, after notice and a reasonable opportunity to cure, may result in the Sponsor withholding FTE funding from the School until compliance is achieved.

2.8.7 School Responsibilities

- (A) **Disability Disclosure and Placement Determination.** The School shall not inquire about a student's disability status prior to registration/enrollment or notice of acceptance. No later than the tenth day of the student's attendance after the point of registration/enrollment or notice of acceptance, and receipt of the IEP, EP, or Section 504 Plan, the School shall notify the Sponsor's District Staffing Specialist assigned to the School if the IEPs, EPs, or Section 504 Plans of students who have applied and been accepted cannot be implemented at the School. The Sponsor shall be invited to and may attend the meeting, at which time the IEP team shall determine whether the School is an appropriate placement for the student. If a student's IEP, EP, or Section 504 Plan can be implemented at the School, based on the continuum of services as outlined in the application or as revised by a modification to this Contract, the student shall not be required to attend another school. All IEP changes of placement shall be based upon data and student needs.
- (B) **Student Support and Evaluation Protocols.** The School shall initiate all Request for Assistance (RFA) and Student Support Team (SST) meetings when concerns are raised by school staff or parents about student's functioning. When a student is suspected of having a disability, the School shall make a written request to obtain parental consent for evaluation for referral to the Sponsor. If parental consent is denied or the parent fails to respond, the School must notify its legal counsel and the Sponsor for consideration of pursuing evaluation by using the mediation or due process procedures. The School shall fully implement the required RtI, IEPs, EPs, Functional Behavioral Assessments (FBA)/Social Emotional Behavior

Intervention Plans (SE-BIP) and Section 504 Plans of enrolled students, including delivery of supplementary aids and services and related services, unless the IEP, EP, or Section 504 team determines that the student's needs cannot be met at the School and placement at another school within the Sponsor's district constitutes the least restrictive environment on the continuum of alternative placements. The School must follow all disciplinary procedures and policies relevant to students with disabilities, including implementation of FBAs/SE-BIPs and manifestation determinations. In no instances should a student's IEP, EP, or Section 504 services or placements be changed solely for the purpose of accommodating the School's placement options.

- (C) **Delivery of Educational Services and Equipment.** The School shall deliver all educational related services and equipment indicated on the student's IEP, EP, or Section 504 Plan unless a determination has been made by the School and the Sponsor that the student's IEP cannot be implemented at the School. The School shall also provide related services and equipment, e.g., speech/language therapy, occupational therapy, physical therapy, nursing, counseling, assessment instruments, assistive technology devices, transportation and therapeutic equipment.
- (D) **Evaluations and Service Delivery.** The School shall conduct the evaluations of the School's students referred for related services such as: Physical Therapy (PT), Occupational Therapy (OT), Speech and Language (SL), Nursing, Assistive Technology (AT) and Functional Behavior Assessment (FBA) services when these are being considered as a related service, with personnel qualified in accordance with State of Florida regulations and in accordance with Response to Intervention requirements. Notwithstanding the aforementioned, the School shall not be responsible for initial evaluations included under Exceptional Student Education Eligibility Programs, as defined by the IDEA. If the student is determined eligible for these services and they are added to the student's IEP or Section 504 Plan as a related service, the School shall be responsible for the provision or delivery of required services to the student. The School shall ensure that the person(s) conducting evaluation(s) attend an IEP meeting to review the evaluations when a related service is being considered. All evaluations must include a review of the student's educational records, including but not limited to IEP or Section 504 Plan; identification and development of goals to be supported by PT, OT, SL behavioral intervention and/or assistive technology, and/or nursing; a treatment plan for the student; and reference to supporting medical documentation if applicable. The School shall ensure

that all instructional personnel and service providers review and implement the student's IEP. The School shall ensure that all service providers contribute to the student's annual and interim IEP meetings either in writing, by telephone, through electronic means, via video conferencing, or in person. Service providers must also contribute to status reports and updates on the student's IEP goals and benchmarks related to their areas of treatment. The School shall require all service providers to the student to attend orientation and in-service training on delivery of school-based services and how to support educationally relevant IEP goals. The Sponsor shall provide the orientation and in-service training to the school's Related Service Providers at no cost to the school. The school is responsible for compensating its externally contracted service providers for their attendance at such trainings. The Sponsor may conduct periodic reviews of the paperwork prepared by the service providers providing services to such students.

- (E) **Independent Educational Evaluations.** The School shall immediately notify the Sponsor if a parent requests an Independent Educational Evaluation (IEE) at public expense and work with the Sponsor to determine whether the IEE will be granted, or a due process action will be filed to defend the School's/Sponsor's evaluation. Responsibility for IEE due process litigation will be apportioned according to the type of evaluation at issue and in accordance with this Contract.
- (F) **Compliance with IDEA, Section 504, and EP Regulations.** The School shall comply with the requirements of the IDEA, Section 504, and regulations as they relate to the student's IEP/Section 504 Plan, and/or EP. The School shall ensure that the appropriate highly qualified instructional personnel of the School that are required members of the IEP committee attend all IEP, Section 504 and/or EP meetings.
- (G) **Policy for Service Animal Requests.** The Governing Board shall adopt a policy and procedure for consideration of service animal requests made to the School.
- (H) **Least Restrictive Environment.** Exceptional students shall be educated in the least-restrictive environment. Students whose needs cannot be appropriately addressed at the School as determined by an IEP, EP, or Section 504 team meeting held after enrollment, will be appropriately referred to the student's home school. The School shall contact the Sponsor's District Staffing Specialist assigned to the School and/or the Sponsor's Office of Exceptional Student Education to notify staff that the student has been referred to their home school.

- (I) **Professional Development Requirements.** The School shall make its personnel aware of professional development opportunities offered by the Sponsor's Office of Exceptional Student Education and Psychological Services departments. In addition, the School shall require all personnel assigned to implement IEPs, EPs, and Section 504 Plans to participate in meetings and/or trainings required by the Sponsor's Office of Exceptional Student Education and Psychological Services departments.
- (J) **Enforcement of Compliance.** Failure to comply with federal, state, or local law or policy, after notice and a reasonable opportunity to cure, may result in the Sponsor withholding FTE funding from the School until compliance is achieved.

2.8.8 Due Process and Dispute Resolution Procedures

- (A) **Filing and Notification.** A student, parent, or guardian who indicates that they wish to file for a due process hearing, pursuant to State law and rules shall be given the appropriate forms by the LEA attending the meeting. These forms shall also be provided upon request at any other time. Parents must file due process hearing requests with the School Board Clerk pursuant to School Board Policy 0133, *Quasi-Judicial Functions*, and the procedural safeguards posted on the Sponsor's Exceptional Student Education website. Any due process requests received by the School must be forwarded to the Sponsor's ESE Director and legal counsel on the same business day. The Sponsor's legal counsel will ensure that all ESE due process hearing requests/complaints are filed with the Florida Division of Administrative Hearings (DOAH) and place the School on notice of the complaint. With regard to Section 504 due process requests, the Sponsor's legal counsel will evaluate the due process request and work with the School's legal counsel to determine the proper course of action in accordance with the School's and the Sponsor's procedural safeguards and hearing procedures.
- (B) **Review, Representation and Cost Responsibilities.** The Sponsor will review the due process complaint and hold an initial meeting to analyze the merits of the complaint. The School must select its own legal counsel to consult and cooperate with the Sponsor's legal counsel. The School's legal counsel will file a Notice of Appearance before the Division of Administrative Hearings within ten (10) days of the filing of the due process complaint. The School's legal counsel will participate in the initial strategy meeting with the Sponsor. Prior to the meeting, the School shall forward all relevant documentation to the Sponsor's legal counsel. Final decisions on legal strategies shall be made by the Sponsor's attorney with meaningful consultation with the School, including giving school counsel the

opportunity to review papers. The Sponsor's legal counsel will represent the Sponsor on all claims brought by parents related to Sponsor completed evaluations referenced in this Contract. The School's legal counsel shall represent the School on claims related to all other evaluations, including at the School's election when the parent refuses to consent or fails to respond to the School's request for consent to evaluate. At the election of the Sponsor's legal counsel, if the School elects not to pursue a claim regarding parental refusal/failure to provide consent to evaluate, the Sponsor may elect to pursue the claim after consultation with the Sponsor's counsel. The Sponsor's legal counsel will represent the Sponsor in all cases where a District employee fulfills the role of the LEA at the staffing/IEP meeting. The School's legal counsel will represent the School on all claims related to implementation of RtI, IEPs, Section 504 Plans, EPs, Manifestation Determination decisions, and where a School employee fulfills the role of the LEA at the staffing/IEP meeting. Claims related to IEPs will be represented by counsel for whichever party is responsible for the type of evaluation at issue. The Sponsor's legal counsel will seek a dismissal of the Sponsor with regard to claims over which the Sponsor had no role (e.g., implementation claims). However, if the dismissal is denied, the Sponsor's counsel will continue to provide recommendations and work with the School's counsel as co-counsel on the pending case. The School shall pay all costs associated with the administrative due process hearing, legal representation, discovery, court reporter, and interpreter and all appeals for all matters attributed to, caused by or through the fault of the School. In the event that the student, parents, or guardians prevail, either through a hearing, court action, or settlement, the School shall pay any and all attorneys' fees, reimbursements, compensatory education and any other costs incurred, agreed upon or awarded for all matters attributed to, caused by or through the fault of the School; however, the District shall assume or reimburse the costs of the defense attributable to, caused by or through the fault of the District, if any, as outlined above. Any costs, fees, or other expenses incurred, for which the School is responsible, as set forth in this paragraph, and that remain unpaid 30 days after a written invoice to the School, may be automatically reduced from the FTE funds passed through the Sponsor to the School, without any penalty of interest, although the School may request, and the parties agree to a payment plan.

- (C) **Participation in Resolution and Mediation Sessions.** The School must designate an administrator and relevant members of the IEP team to attend a resolution or mediation session conducted by the Sponsor's due process

team. The School's legal counsel and the Sponsor's legal counsel may participate in the resolution session only if the parent is an attorney or is represented by an attorney. If the Sponsor and the School elect to participate in mediation in lieu of a resolution session, the Sponsor's due process team will invite the legal counsels of the Sponsor and the School.

- (D) **Post-Mediation Recommendations and Cost Responsibilities.** Following the resolution session/mediation, the School shall review the recommendations of the Sponsor's due process team with their legal counsel and communicate in writing the School's position on resolution/settlement to the Sponsor's due process team. If the School opts not to follow the recommendations of the Sponsor's due process team, the School will incur all costs associated with subsequent court orders as set forth in this Contract.
- (E) **Resolution and Advancement of Due Process Hearings.** If the matter is resolved by a written agreement, the Sponsor's legal counsel will file the appropriate motions for dismissal and closure of the case. If the matter is not resolved, the legal counsel of the Sponsor and the School shall ensure that representation in the due process hearing proceeds in accordance with this Contract and the procedural safeguards posted on the School's and/or Sponsor's Exceptional Student Education website. The School and the Sponsor shall each make available to participate in all necessary stages of the litigation all staff who participated in any evaluation or reevaluation, the preparation of any IEP, the implementation of any IEP that may be at issue in the hearing.

2.8.9 Reimbursement for Services

Under the Medicaid Certified School Match Program, the School may be eligible to seek reimbursement for certain services provided to Medicaid-eligible students who qualify for services under the IDEA, Part B or C. In order to seek reimbursements, the School shall follow the procedures established by the state agency which administers the program for Medicaid-reimbursable services to eligible students at the School.

2.8.10 Services Covered by the Administrative Fee

The Sponsor shall provide Exceptional Student Education administration services to the School, pursuant to Section 1002.33, F.S.

SECTION 3: ENROLLMENT AND STUDENT SERVICES

3.1 Grades Served

The School is authorized to serve Grades K-8

3.2 Recruitment and Admissions

3.2.1 Recruitment

The School shall make reasonable efforts, in accordance with federal law, to achieve a racial or ethnic balance reflective of the community it serves or within the racial/ethnic range of other nearby public schools. The School may recruit throughout all segments of the community and provide outreach materials in multiple languages appropriate to the geographical location of the Charter School and shall proceed as described in its approved application. This may include direct mailings, public advertisement utilizing the local and community press and informational meetings at a variety of locations using both English and other languages where appropriate. Student recruitment and promotional efforts, materials, and activities shall be conducted so as not to exclude or limit opportunities on the basis of race, sex, national origin, marital status or disability.

3.2.2 Non-Discriminatory Admission and Non-Sectarian Policies

The School shall be non-sectarian in its programs and admissions policies. The School shall be open to any student residing in Miami-Dade County and to students in other districts in accordance with the school's controlled open enrollment plan. Admission or dismissal must not be based on a student's academic performance except as authorized under s. 1002.33(10)(e)5, F.S. The School will accept all eligible students in accordance with Federal and State anti-discrimination laws and in accordance with the Florida Educational Equity Act, Section 1000.05(2) (a), F.S. subject to facility. The School will not discriminate on the basis of race, gender, ethnicity, religion, national or ethnic origin or disability in the admission of students. The School may not request, prior to enrollment or notice of acceptance, through the application or otherwise, information regarding the student's academic history, record of standardized testing performance, juvenile or disciplinary history or status, a student's Individual Education Plan (IEP), Education Plan (EP), Section 504 Plan, English Language Learner (ELL) Plan or other information regarding a student's special needs or use such information as a basis to deny or revoke enrollment. The School shall not access, directly or through a third party, any of the Sponsor's student information unless and until the student actually enrolls in the School. Failure to accept all eligible students in accordance with Federal and State anti-discrimination laws and in accordance with the Florida Educational Equity Act, Section 1000.05(2)(a), F.S. may constitute good cause for termination of this Charter.

3.2.3 Lottery and Wait List Documentation

The School shall describe in its Policies and Procedures the lottery procedures and enrollment preferences the School will utilize. If the number of applications exceeds the capacity of the program, class, grade level, or building, all applicants

shall have an equal chance of being admitted through a random selection process. The School shall maintain documentation in accordance with applicable Florida record retention laws for each enrollment lottery conducted, as well as any student wait lists that are generated and make them available to the Sponsor upon request. Lottery documentation shall be sufficient to allow the Sponsor to verify that the random selection process was in compliance with applicable State statutes. At a minimum, the following documentation shall be maintained and available to the Sponsor upon request at all times:

- (i) official current policies, processes, and timelines related to the enrollment lottery and wait list and documentation showing that the School's Governing Board adopted them at a regular public meeting;
- (ii) copies of student enrollment applications, any marketing materials, and all other enrollment materials;
- (iii) evidence of compliance with all policies, processes, and timelines approved by the Governing Board, and related to the application, lottery and wait list notification;
- (iv) evidence that the lottery process was posted on the School's website and clearly communicated to the public at large;
- (v) evidence that outreach materials have been communicated in multiple languages; and,
- (vi) copies of any wait lists, documents showing how the list was developed and any other evidence that complies with the approved policies, processes, and timelines.

3.2.4 Articulation Agreements Between Charter Schools

As required by State law, articulation agreements must be approved by the Sponsor prior to implementation. CSCS is authorized to approve articulation agreements that:

- (i) identify the sending school and receiving school;
- (ii) are approved by resolution of the governing board(s) of the participating schools at a regular public meeting prior to presentation to the Sponsor;
- (iii) implement standard vertical matriculation patterns (e.g., elementary to middle school, middle school to high school, K-8 to high school); and,
- (iv) do not negatively impact a student's opportunities to exercise school choice.

3.3 Enrollment

3.3.1 Preferences

The School may provide enrollment preferences pursuant to Section 1002.33(10)(d) F.S. and may otherwise limit enrollment to target those student populations identified in Section 1002.33(10)(e) F.S.

3.3.2 Consent

To enroll a student, the School must obtain proof of consent from the student's parent or guardian, or from the student if the student is eighteen (18) years of age or older. The Charter School may not transfer an enrolled student to another charter school having a separate Master School Identification (MSID) Number without first obtaining the specific written approval of the student's parents/guardians before each transfer. General consent for student transfer is prohibited (e.g., consent included in a parent contract). A student may withdraw from the School at any time and enroll in another public or private school, as determined by District policy. The School shall work in conjunction with the parent(s)/guardian(s) and the receiving school to ensure that such transfers minimize impact on the student's grades and academic achievement.

3.3.3 Capacity and Class Size Requirements

Following is the student enrollment breakdown:

Years 1-15, 2026 – 2041: Grades K-8, up to 800 students

The School shall comply with class size restrictions as required by law. The enrollment capacity shall be annually determined by the Charter School Governing Board in conjunction with the Sponsor based on factors set forth in Section 1002.33(10)(h), F.S. The School shall not enroll students in excess of the physical capacity of the building except as otherwise provided by law for schools operating multiple sessions, in which case the physical capacity of the School shall not be exceeded during any session. The Annual Enrollment Capacity of a high-performing school shall be determined by the Governing Board. No later than March 1st of each year, the School shall provide the Sponsor the proposed enrollment capacity for the subsequent school year. Monthly FTE payments shall be withheld, without interest, for students in excess of the School's annual enrollment capacity, as defined by the Contract.

3.3.4 Projections

- (A) **Preliminary Enrollment Projection.** If requested, no later than November 1st of each year, the School shall provide to the Sponsor the School's preliminary projected enrollment for the following school year. The preliminary projected enrollment shall not constitute a cap on the School's enrollment for the following school year.
- (B) **Final Enrollment Projection.** The Sponsor may request that the School provide final enrollment projections for the upcoming school year no later than July 15th of each year. Final enrollment is not annual capacity, but the school's projection of how many students will be enrolled when the school year begins. The School shall not project enrollment or enroll students in

excess of the physical capacity of the building, unless the School operates multiple sessions, in which case the physical capacity of the School shall not be exceeded during any session.

3.3.5 Minimum Enrollment Requirements

Each year, the School agrees to enroll an eligible student by accepting a timely application through deadlines as determined by the Governing Board and publicly advertised. If the target goal of students is not met by the deadline, and the School wishes to extend, the School will give sufficient public notice and extend the application deadline for a set time as determined and publicized by the Governing Board. If, at the 10-day count, the registered enrollment as reflected in the Sponsor's data system is less than 75 percent of the School's total projected enrollment as described in either the approved Application for the first year or as determined under the provisions of this Charter, the School shall, upon written request by the Sponsor, submit a revised budget within thirty (30) days taking into account the reduced enrollment. The School's minimum enrollment for the first year of operation is N/A. The parties agree that this is the minimum enrollment that will support the School's operations. In the event the school fails to achieve the minimum enrollment by the October FTE reporting period, the school shall submit a revised, balanced budget and a realistic and reasonable cash flow statement within fifteen (15) calendar days following the October FTE reporting period. A budget to support this minimum enrollment is provided in the Budget for Initial Year of Operation Based on Minimum Enrollment (Appendix I).

3.3.6 High-Performing Charter Schools

A high-performing charter school must have documentation from the Commissioner of Education designating the School as high-performing pursuant to Section 1002.331, F.S. A high performing charter school shall notify the Sponsor in writing by March 1st of the preceding year if it intends to increase enrollment beyond the enrollment stated in this charter and/or to expand grade levels the following year. The School shall not, however, enroll students beyond the facility capacity at the time the enrollment increase will take effect. The written notice shall specify the amount of the enrollment increase, the grade levels that will be added, and evidence of the official facility capacity at the time the enrollment increase will take effect. To increase enrollment and add grade levels, this Contract must be amended through the Sponsor's current charter amendment process for these types of amendments in School Board Policy 9800, *Charter Schools*, except that the Sponsor shall modify the charter within 90 days to include the new enrolment maximum and may not make any other change. Failure to provide timely notice to the Sponsor shall preclude the School from increasing enrollment or expanding grade levels for the upcoming academic year.

3.3.7 Dispute Resolution

Disagreements between the Sponsor and the School relating to enrollment capacity will be resolved through dispute resolution pursuant to Section 1002.33, F.S.
