1.5 Campus Coordination Team

The Campus Coordination Team (“CCT”) shall coordinate routine day-to-day shared campus implementation issues as described in the Mutual Management Plan.

SECTION 2: SPACE ALLOCATION FRAMEWORK

2.1 Space Allocation(s)

- (a) **Dedicated Space Allocation.** The District shall allocate classroom space to the School of Hope proportionately based on Projected SOH Enrollment and taking room size into consideration. The allocation is set forth in Exhibit A.
- (b) **Shared Common Space Allocation:** The Parties shall schedule shared areas in an equitable and proportionate manner through the CCT and outlined in Exhibit C. Each Party will submit its anticipated recurring scheduling needs for the following school year by March 1 and the Parties shall meet within ten (10) business days thereafter to create a shared area schedule and resolve any scheduling conflicts. On an ongoing basis the CCT will meet promptly as requested by either Party to discuss shared use of Shared Spaces in the building in a manner that meets the proportionality based on Actual Student Enrollment and cognizant of the programmatic needs of both parties.
- (c) **Contiguity Requirement.** Pursuant to Rule 6A-1.0998271(6)(b)(1)(b), all classroom space assigned to the School of Hope shall be allocated in a contiguous block. If contiguity requires the consolidation of the existing District school(s), it shall do so within ten (10) days of the end of the prior school year. The initial consolidation shall be based on Projected Annual SOH Enrollment. Notwithstanding the above, the District agrees that the Hope Operator will have access to the Dedicated Space beginning on June 15, 2026. The Parties agree to a phased approach to access, which must be included as an exhibit to this Agreement. During this period through the beginning of staffing for the 2027-28 school year, it may use the space for purposes such as performing renovation work subject to the parameters of the Mutual Management Plan and giving tours to prospective families and

other stakeholders. This will include the ability to bring in vendors to assist, provided that vendors must meet any district-wide requirements for safety and insurance.

- (d) **Administrative Space Allocation.** The School of Hope shall receive administrative and office space on a proportionate basis consistent with Projected SOH Enrollment and taking room size into consideration, including designated areas for the principal’s office, staff work areas, and records management.
- (e) **Storage Space Allocation.** The School of Hope shall receive storage and equipment space on a proportionate basis consistent with Projected SOH Enrollment and taking room size into consideration. Specific locations are identified in Exhibit A and may be added after the date hereof (in the case of, for example, storage).
- (f) **Temporary District Use of Unused Dedicated Classrooms:** The School of Hope may elect in its discretion to contribute the use of certain allocated classrooms that are not in use in a particular school year back to the District (“Temporary District Use”), This temporary designation does not constitute a permanent change to the Dedicated space allocation required by Rule 6A-1.0998271(6)(b). The District will return the identified room(s) to the Operator within the mutually agreed timeframe. Any permanent reassignment of rooms between the parties must be made by written amendment to Exhibit A executed in accordance with the amendment provisions delineated in Section 11 of this plan.

2.2 Dedicated Space Exhibits and Floor Plans

- (a) **Exhibit A** attached to this Plan identifies all Dedicated Space allocated to the School of Hope, including:
 - Classroom locations and capacity
 - Administrative areas
 - Storage and equipment areas
 - Staff restrooms and break areas
 - Any temporary/portable classrooms

In the event that a dedicated space or area within a dedicated contiguous space houses utilities or specific access such as roof access, HVAC, janitorial, etc. The area will be considered a district area, but not considered to be an interruption of a contiguous space.

- (b) District shall maintain current floor plans and provide updated plans to the Operator at the Operator’s request for any facility modifications affecting either party’s space. Related details are in the Mutual Management Plan.
- (c) The Operator may make non-structural, cosmetic improvements to Dedicated Space subject to the parameters of the Mutual Management Plan.

SECTION 3: SHARED COMMON SPACE

3.1 Proportionate Access to Common Space

- (a) **Cafeteria.** All cafeteria space, including dining areas, food service areas, and outdoor eating spaces, shall be shared proportionately based on total campus Enrollment. Lunch scheduling shall be coordinated by the CCT to provide each school with proportionate and equitable access during traditional lunch hours.
- (b) **Gymnasium and Physical Education Facilities.** Gymnasiums, fitness areas, and related spaces shall be shared proportionally and equitably. Annual scheduling shall provide each school with proportionate access to physical education classes, assemblies, and events.
- (c) **Auditorium/Cafetorium/Multipurpose Room.** The auditorium, cafetorium or multipurpose room shall be scheduled proportionately and equitably, with each school able to reserve dates for assemblies and events coordinated through the CCT.
- (d) **Athletic Fields and Recreation Areas.** All outdoor athletic fields, practice areas, parking lots, playgrounds, and recreation areas shall be accessible to both schools proportionately and equitably. Usage shall be coordinated by the CCT to avoid conflicts.
- (e) **Library/Media Center.** Library and media center resources and space shall be shared proportionately and equitably. Details specific to grade-level configuration needs will be processed through the CCT.
- (f) **Parking Areas.** All parking areas serving the facility shall be shared proportionately and equitably; student parking will be proportional only when grade configuration necessitates proportional distribution. Where parking is limited, a parking management plan shall be developed by the District and Operator through the CCT.

3.2 Scheduling Coordination.

Shared Space scheduling is reflected in **Exhibit C**. Routine Shared Space coordination will be facilitated through the Campus Coordination Team, consistent with this Plan and the Mutual Management Plan. The operational governance, procedures, and escalation for Shared Space coordination are addressed in the Mutual Management Plan. Nothing in this Plan grants either party unilateral authority to control shared space beyond its proportionate allocation.

SECTION 4: SEPARATE INGRESS, EGRESS, AND CAMPUS OPERATIONS

4.1 Entry and Exit Points

- (a) **Single Point of Entry.** The District uses a designated primary monitored access point used for student, staff, and visitor entry during operating hours, consistent with District safety protocols. The Single Point of Entry is always manned by security during campus operational hours. The District is willing to implement a separate Single Point of Entry for the School of Hope as outlined in the Mutual Management Plan if elected by the Hope Operator.
- (b) **Primary and Secondary Access.** If a shared Single Point of Entry for the facility is not elected by the Hope Operator in the Mutual Management Plan, the District and Operator shall designate separate entry/exit points for the School of Hope and District school(s). Parties shall establish clear directional traffic patterns to minimize congestion and ensure student safety through the CCT.
- (c) **Accessibility.** Designated access points shall comply with all applicable ADA requirements. If a shared Single Point of Entry for the facility is not elected by the Hope Operator, and the Operator chooses a separate ingress that may require a capital improvement, the Operator will be responsible for the actual Incremental Costs of the capital improvement as governed by the Mutual Management Plan.
- (d) **Traffic.** The District and Operator shall collaborate on traffic management protocols, directional signage, and time-staggered arrivals/dismissals to ensure safe operations as determined by the District through the CCT.

4.2 Arrival and Dismissal Coordination

- (a) To reduce congestion and enhance overall safety, both parties will collaboratively develop and implement traffic-mitigation strategies as needed through the CCT. These strategies may include, but are not limited to:
 - (a) Separate traffic circulation patterns, when feasible, to reduce conflict points between vehicles, buses, and pedestrians.
 - (b) Promotion of alternative transportation options, such as walking, biking, carpooling, or the use of district transportation services.
 - (c) Development and enforcement of a unified traffic management plan that outlines clear roles, responsibilities, signage needs, and traffic-flow procedures.

Both parties agree to periodically review the effectiveness of these measures and make adjustments necessary to maintain safe and efficient traffic operations.

- (b) **Dismissal Procedures.** Each school shall maintain its own dismissal procedures within its Dedicated Space and designated parking areas. Each party shall ensure that dismissal does not impede school operations.
- (c) **Traffic Management.** The District and Operator shall jointly monitor traffic patterns and adjust procedures as needed to maintain safe, orderly operations. The CCT will collaborate to create a traffic management plan that shall be included in Exhibit D.

4.3 Signage

As of the date hereof, Hope Operator will have the right, at its sole cost, to install signage on the exterior of the Facility. Hope Operator will propose preferred signage locations, and the District will act reasonably and collaboratively in reviewing and finalizing such locations. If the District raises good-faith concerns regarding any proposed location, the parties will work together to identify mutually acceptable alternatives. If the District does not raise concerns within 30 days the request will be deemed to be approved. Hope Operator may install temporary “coming soon” or similar promotional signage following execution of this Agreement, which may remain in place until Hope Operator installs its permanent, standard-branded signage. Signage will not be installed in a manner that does material damage to the Facility, the Hope Operator will repair any material damage caused by installation or removal. Hope Operator’s signage may match the size of the applicable District signage at the Facility. The District will reasonably cooperate with Hope Operator in obtaining any required permits or approvals for such signage if any third party consents are required. Hope Operator will also have the right to install signage in the interior of the Facility in its Dedicated Space without restriction and in Shared Common Space as reasonably requested. Hope Operator agrees to act reasonably to the extent there are any sensitive community honored pieces in the Dedicated Space. The operator agrees that all signage must comply with School Board Signage policy but will not be disadvantaged versus other signs.

SECTION 5: EXPANSION AND CONTRACTION TRIGGERS

5.1 Enrollment-Based Space Adjustments

- (a) **Annual Enrollment Preliminary Certification.** By May 30th of each school year, the Operator shall provide estimated enrollment figures for the following school year to the District. This figure shall be used for planning use of Shared Space for the upcoming annual term.
- (b) **Reconciliation Meeting.** The parties will meet as needed through the CCT to confirm any updates to Exhibits A–D for the upcoming school year. If the parties cannot agree, the escalation and resolution steps outlined in the Mutual Management Plan will be followed.

5.2 District or Operator Program Changes

- (a) **Notice.** The District or Operator shall provide the other party with reasonable written notice of material programmatic changes (e.g., grade span shifts, significant program additions) that would reasonably affect the other party’s use of its allocated space within the applicable parameters set forth in applicable regulations.

- (b) **Coordination.** Upon notice, the parties will coordinate through the Mutual Management Plan process to support continuity of operations while preserving proportionate allocation to the extent practicable.
-

 - Maintenance of a valid School of Hope Performance-Based Agreement and
 - Fulfillment of performance obligations in the Performance-Based Agreement with the District.
- (c) The Operator may not assign, sublicense, or transfer its license.
- (d) This Plan does not create a lease, tenancy, or property interest protected by common law or statute outside of §1002.333 and Rule 6A-1.0998271.

6.3 District Operational Authority

- (a) The District retains operational control and authority of the Host Campus, subject to the parameters of the Mutual Management Plan.
- (b) District controls facility-wide systems and campus-wide life safety.
- (c) The District shall exercise its authority in a manner that does not unreasonably interfere with the School of Hope's operation or rights as set forth herein and in the Mutual Management Plan, and that maintains parity in services as outlined in the Mutual Management Plan.

- (d) The Operator shall not override District safety or security decisions applicable to Schools of Hope.
- (e) All service providers, superintendents, and other relevant stakeholders will be notified that they are not permitted to disadvantage Operator versus other schools in the Facility, the Dedicated Space versus other District space or the Facilities versus other district buildings. Representatives from Operator will have input regarding the district-wide capital plan to the extent Dedicated Facilities may require capital improvements, equal access to consult with service providers (for example, custodial punch lists) and will participate in the administration of the facilities-based services described in depth in the Mutual Management Agreement with the District's representatives.

- (a) The Operator shall maintain exclusive operational and instructional control of its schools, including:

The operator may not enter into any agreement with an outside agency for the use of facilities without prior District approval; procedures are outlined in the Mutual Management Plan.
- (c) The District agrees to notify all schools in a Facility of any other services or group access it plans to provide in the Facility to enable all stakeholders to plan accordingly and raise any concerns in advance. The District agrees that it will not make space available to community groups or other groups that are not schools located in the Facility in a manner that interferes with the use of Shared Space or Dedicated Space by the Hope Operator, provided, however, that this restriction shall not apply to space usage through the end of the 2027-28 school year under Facilities Use Agreements executed prior to April 1, 2026.

In the event of a statutory change in the law that affects a specific provision of this Plan, the statute revisions will prevail and the related sections of this Plan must be amended.

10.2 Transition Planning

Upon notice that the School of Hope will cease operations at the Host Campus and not relocate its students to a different facility, the parties will coordinate transition planning to minimize disruption to students and campus operations, consistent with the Performance-Based Agreement and applicable law.

The Parties agree to proceed with Option A, which includes the installation of a stairwell to meet safety and code compliance for elementary school students placed above a first floor, as the designated allocation for classroom and administrative space (“Option A”), as reflected in the Option A floor plan attached, and the District shall support and expedite all permitting necessary to advance and implement Option A and provide or deny approval within ten (10) business days of receiving the Operator’s architectural plans.

In parallel, by June 1, 2026, the District shall identify and present a fully defined alternative space allocation (“Option B”) and shall support and expedite approvals and permitting for Option B. Option B must (i) provide compliant, proportionate, and contiguous classroom and administrative space, (with the understanding that there may be work required consistent with the requirements set forth in this Plan and the MMP); (ii) not impose additional costs on the Operator exceeding the greater of \$250,000 or the cost of construction of the staircase set forth in Option A (“Staircase Project”), and (iii) be feasible and capable of timely implementation such that the Operator can open and operate by July 15, 2027.

If permits and approvals necessary to implement Option A are secured, then the Operator shall fund the Staircase Project and shall have the right to perform and manage the Staircase Project,

including design coordination, procurement, and oversight of contractors. The Operator shall pay all contractors working on the Staircase Project directly, and no funds will be submitted to the District for the Staircase Project. Participation in the Staircase Project shall not be deemed a waiver of, or limitation on, either Party's rights or obligations under applicable law.

The Parties shall continue to negotiate and seek to agree upon an alternative space allocation at Westland Hialeah Senior High School that satisfies applicable legal requirements and that would serve as the agreed-upon floor plan in the event that permits and approvals necessary to implement Option A are not secured.
