SUBJECT: **FINAL READING: PROPOSED AMENDMENTS TO SCHOOL BOARD POLICY 2431, *INTERSCHOLASTIC ACTIVITIES AND ATHLETICS***

COMMITTEE: **PERSONNEL, STUDENT, SCHOOL & COMMUNITY SUPPORT**

LINK TO STRATEGIC PLAN: **SAFE, HEALTHY & SUPPORTIVE LEARNING ENVIRONMENTS**

Consistent with the Board's responsibility to review and amend policies to conform to legislative changes, authorization is requested for the Superintendent to amend School Board Policy 2431, *Interscholastic Activities and Athletics*, in response to 2026 Florida Senate Bills 178 and 538 (S.B. 178 and S.B. 538).

Policy 2431 is proposed for amendment largely based on S.B. 538, which removes several existing statutory limitations on non-public students participating in the District's interscholastic and intrascholastic extracurricular activities. Pursuant to S.B. 538, the policy would now refer generally to "eligible students," defined as "a home education student, charter school student, private school student, Florida Virtual School student, alternative school student, or traditional public school student who wishes to participate in an interscholastic or intrascholastic extracurricular activity." Other definitions of statutory terms—such as "interscholastic activities" and "intrascholastic activities"—would also be added for reference, and specific references to the Florida High School Athletic Association (FHSAA) would be replaced with broader references to "governing organizations." The policy would also now clarify that students in grades 6–8 in schools serving students in grades 6–12 may compete on varsity sports teams. Additionally, because school districts can no longer make athletic transfer decisions based on "good cause," and students are instead expected to seek transfer approval from the governing organization itself, the policy's good cause circumstances would be removed, and the District's Athletic Activity Eligibility Transfer Review Committee would no longer resolve transfer disputes. Furthermore, the policy would authorize activity fees to be assessed to all students (with certain increased fees requiring Board approval) and would require offering any available activity insurance to all students. The policy would also require keeping students' eligibility records on file at each school and transferring these records to a governing organization upon request. Lastly, the policy would be renamed, "Extracurricular Activities and Athletics," to capture both interscholastic and intrascholastic extracurricular activities.

Additional amendments to this policy are proposed pursuant to S.B. 178, which newly authorizes a "head coach of an athletic team to support the welfare of a student he or she coaches only by using personal funds to provide, in good faith, effects such as food, transportation, and recovery services." For clarity, the policy would define the term "head coach" as "the individual designated to oversee an interscholastic athletic activity at a District school." Conditions and reporting requirements imposed by newly adopted FHSAA bylaws and existing School Board policies, moreover, would be added to ensure that personal funds are used permissibly. Further, the policy would clarify that head coaches who use their personal funds to benefit students are doing so in their individual capacities.

The Notice of Intended Action was published in the Miami Herald on July 27, 2026, and posted in various places for public information and mailed to various organizations representing persons affected by the adopted and amended Board policies and individuals requesting notification. The time to request a hearing or protest the adoption and amendment of these policies has elapsed.

These policy amendments were drafted in collaboration with and reviewed by the Superintendent, Cabinet, and District staff. The Notice of Intended Action and policies with strikethroughs and underlines are attached.
