

RESEARCH STUDY FOR PARENTS OF CHILDREN 0-18

What do you know about noise exposure and hearing loss?
How does it impact your parenting decisions?

What

- 10-15 minute online survey about noise exposure, hearing loss and parenting
- Optional focus group about the same topic

Who

- Parents of children 0-18 who have not been diagnosed with hearing loss

When & Where

- Survey can be completed on any computer or smart phone at your convenience
- Focus groups will be scheduled via Zoom
