Dear Parents:

The Florida Department of Health in Miami-Dade County's Immunization Program would like to inform you that your child's immunization record in his/her school shows that your child is due for immunizations.

According to state law, students will not be admitted to school (including virtual school) without the mandatory school-age vaccine requirements. If you have any questions regarding which vaccines your child is missing, please contact your child's doctor for additional information. If your child is not missing any vaccines, please ask your child's doctor for an updated DH680 immunization form so the school can update their records.

If your child does not have a doctor, please visit the attached link to our website where there is a list of federally qualified health centers as well as our clinics that provide vaccines to children for school and daycares. <http://miamidade.floridahealth.gov/important-information/documents/fqhc-vaccine-clinics-2020-07-20.pdf>

De acuerdo con la ley del Estado de la Florida, los estudiantes no serán admitidos (incluyendo los que están en clases virtuales) sin las vacunas requeridas dependiendo de su edad. Si usted tiene alguna pregunta en relación con las vacunas faltantes, póngase en contacto con su doctor para recibir mayor información. Si su hijo esta al día en su registro de vacunas, pídale a su doctor que le proporcione una forma DH680 actualizada y así la escuela podrá poner al día su registro.
